|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1 other pertinent matters, I will recite such<br/> 2 stipulation(s). Additionally, the videographer will<br/> 3 read-off when the deposition concludes.<br/> 4 So with this being said, I will now swear<br/> 5 in the witness.<br/> 6 Mr. Dolan, please, raise your right hand.<br/> 7 THE WITNESS: [Witness did as requested].<br/> 8 THE REPORTER: Do you affirm the testimony<br/> 9 you are about to give in the cause now pending will<br/> 10 be the truth, the whole truth, and nothing but the<br/> 11 truth? 12:24<br/> 12 THE WITNESS: I do. 12:24<br/> 13 THE REPORTER: Thank you. 12:24<br/> 14<br/> 15 BERNARD DOLAN<br/> 16 having been first duly sworn, was<br/> 17 examined and testified as follows:<br/> 18<br/> 19 EXAMINATION 12:25<br/> 20 BY MS. KANG: 12:25<br/> 21 Q. Hi. Good afternoon, Mr. Dolan. How are 12:25<br/> 22 you? 12:25<br/> 23 A. Good. How are you? 12:25<br/> 24 Q. Doing well. 12:25<br/> 25 Thank you so much for spending your Friday 12:25<br/> Page 14</p>                                                                                                                                                                                                                                                                                                                                         | <p>1 Because the court reporter is taking down 12:26<br/> 2 what we say on the record, I'll do my best to avoid 12:26<br/> 3 talking over you and to avoid talking at the same 12:26<br/> 4 time as you. 12:26<br/> 5 And then, finally, I'm going to try to do 12:26<br/> 6 a break every hour or so -- but if at any point you 12:26<br/> 7 need a break, we'll finish up whatever question we 12:26<br/> 8 are on, and we can take a break whenever you feel 12:26<br/> 9 comfortable. 12:26<br/> 10 Does that sound fair? 12:26<br/> 11 A. Yes, ma'am. 12:26<br/> 12 Q. Have you ever had your deposition taken 12:26<br/> 13 before? 12:26<br/> 14 A. Yes. 12:26<br/> 15 Q. When was it? 12:26<br/> 16 A. Two years ago, I believe. 12:26<br/> 17 Q. What was it about? 12:26<br/> 18 A. A herpes case in wrestling. 12:26<br/> 19 Q. So were you testifying on behalf of the 12:26<br/> 20 WVSSAC? 12:26<br/> 21 A. Yes, ma'am. 12:26<br/> 22 Q. And going forward if I say the 12:26<br/> 23 "Commission" instead of the "WVSSAC," would that be 12:26<br/> 24 all right with you? 12:26<br/> 25 A. That is fine. 12:26<br/> Page 16</p>                                    |
| <p>1 afternoon with us. 12:25<br/> 2 Before we get started, would you please 12:25<br/> 3 state and spell your name for the record. 12:25<br/> 4 A. Bernard, B-E-R-N-A-R-D; Dolan, D-O-L-A-N. 12:25<br/> 5 Q. Mr. Dolan, before we get started, we have 12:25<br/> 6 some housekeeping items. So the oath you just took 12:25<br/> 7 is the same oath you would take if you were 12:25<br/> 8 testifying in a courtroom. So what that means is 12:25<br/> 9 you must testify truthfully and not leave out any 12:25<br/> 10 important facts. 12:25<br/> 11 Is there any reason you cannot testify 12:25<br/> 12 truthfully today? 12:25<br/> 13 A. No. 12:25<br/> 14 Q. Please give verbal answers to any of my 12:25<br/> 15 questions. Nodding or shaking your head cannot, 12:25<br/> 16 unfortunately, be captured by the court reporter. 12:25<br/> 17 So the answer you just gave was perfect. 12:25<br/> 18 If you don't understand the question, 12:25<br/> 19 please let me know, and I'm happy to try to rephrase 12:25<br/> 20 it or make it clear for you. If you answer, I will 12:25<br/> 21 assume you understood. Is that fair? 12:25<br/> 22 A. Yes. 12:25<br/> 23 Q. And just to be clear, when I ask questions 12:25<br/> 24 I am not seeking communications that you had with 12:26<br/> 25 your attorney. 12:26<br/> Page 15</p> | <p>1 Q. So you mentioned it's a herpes case. Can 12:26<br/> 2 you tell me whether you testified on behalf of the 12:27<br/> 3 W- -- of the Commission or was it in your personal 12:27<br/> 4 capacity? 12:27<br/> 5 A. I believe it was on behalf of the 12:27<br/> 6 Commission, but I'm -- I wouldn't -- I'm not sure. 12:27<br/> 7 Q. Have you ever -- have you ever had your 12:27<br/> 8 deposition taken other than this time? 12:27<br/> 9 A. Not that I recall. 12:27<br/> 10 Q. Have you ever testified at trial? 12:27<br/> 11 A. Yes. 12:27<br/> 12 Q. When was this? 12:27<br/> 13 A. Couple years -- I would say probably three 12:27<br/> 14 or four years ago. 12:27<br/> 15 Q. What was it about? 12:27<br/> 16 A. A golf ruling in a championship. 12:27<br/> 17 Q. And so were you also testifying on behalf 12:27<br/> 18 of the Commission? 12:27<br/> 19 A. Yes, ma'am. 12:27<br/> 20 Q. Did you bring anything with you today? 12:27<br/> 21 A. Just a bottle of water. 12:27<br/> 22 Q. Good. 12:27<br/> 23 And do you understand that you are here to 12:27<br/> 24 respond to a 30(b)(6) deposition notice? 12:28<br/> 25 A. Yes. 12:28<br/> Page 17</p> |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1 Q. Did you review any documents? 12:32</p> <p>2 A. Not really. Just -- I'm sorry. 12:32</p> <p>3 Our transgender policy or our Board 12:32</p> <p>4 policy. That was all. 12:32</p> <p>5 Q. Did you review any of the emails or text 12:32</p> <p>6 messages that you searched for? 12:32</p> <p>7 A. I probably would have read them for -- to 12:32</p> <p>8 determine whether there was any substance to them, 12:32</p> <p>9 yes. 12:33</p> <p>10 Q. Did you consult with anyone other than 12:33</p> <p>11 your attorney for Topic 6? 12:33</p> <p>12 A. No. 12:33</p> <p>13 Q. And is there any reason you cannot give 12:33</p> <p>14 full and complete answers on behalf of the 12:33</p> <p>15 Commission for Topic 6? 12:33</p> <p>16 A. No. 12:33</p> <p>17 Q. For Topic 7, what did you do to prepare 12:33</p> <p>18 for it? 12:33</p> <p>19 A. Looked at our rules and regulations 12:33</p> <p>20 handbook. 12:33</p> <p>21 Q. Did you review any documents other than 12:33</p> <p>22 the rules and regulations handbook? 12:33</p> <p>23 A. No. 12:33</p> <p>24 Q. Did you consult with anyone other than 12:33</p> <p>25 your attorney about Topic 7? 12:33</p> <p style="text-align: right;">Page 22</p> | <p>1 Q. Did you consult anyone other than your 12:34</p> <p>2 attorney? 12:34</p> <p>3 A. No. 12:34</p> <p>4 Q. Is there any reason you cannot give full 12:34</p> <p>5 and complete answers on behalf of the Commission? 12:34</p> <p>6 A. No. 12:34</p> <p>7 Q. All right. We're almost there. 12:34</p> <p>8 For Topic 10, what did you do to prepare 12:34</p> <p>9 for it? 12:34</p> <p>10 A. Reviewed the rules and regulations 12:34</p> <p>11 handbook. 12:35</p> <p>12 Q. Did you review anything else? 12:35</p> <p>13 A. No. 12:35</p> <p>14 Q. Did you -- did you consult anyone other 12:35</p> <p>15 than your attorney? 12:35</p> <p>16 A. No. 12:35</p> <p>17 Q. Is there any reason you cannot give full 12:35</p> <p>18 and complete answers on behalf of the Commission? 12:35</p> <p>19 A. No. 12:35</p> <p>20 Q. For Topic 11, what did you do to prepare 12:35</p> <p>21 for it? 12:35</p> <p>22 A. Reviewed the rules and regulations 12:35</p> <p>23 handbook as well as the Board policy on transgender. 12:35</p> <p>24 Q. Did you review anything else? 12:35</p> <p>25 A. No. 12:35</p> <p style="text-align: right;">Page 24</p>        |
| <p>1 A. No. 12:33</p> <p>2 Q. And is there any reason you cannot give 12:33</p> <p>3 full and complete answers on behalf of the 12:33</p> <p>4 Commission? 12:33</p> <p>5 A. No. 12:33</p> <p>6 Q. For Topic 8, what did you do to prepare 12:33</p> <p>7 for Topic 8? 12:33</p> <p>8 A. Reviewed text messages and emails 12:33</p> <p>9 concerning House Bill 3293. 12:34</p> <p>10 Q. Did you review anything else? 12:34</p> <p>11 A. No. 12:34</p> <p>12 Q. Did you consult with anyone other than 12:34</p> <p>13 your attorney? 12:34</p> <p>14 A. No. 12:34</p> <p>15 Q. And is there any reason you cannot give 12:34</p> <p>16 full and complete answers on behalf of the 12:34</p> <p>17 Commission? 12:34</p> <p>18 A. No. 12:34</p> <p>19 Q. For Topic 9, what did you do to prepare 12:34</p> <p>20 for Topic 9? 12:34</p> <p>21 A. Reviewed the rules and regulations 12:34</p> <p>22 handbook. 12:34</p> <p>23 Q. Did you review anything other than the 12:34</p> <p>24 rules and regulations handbook? 12:34</p> <p>25 A. No. 12:34</p> <p style="text-align: right;">Page 23</p>                                                                                                                              | <p>1 Q. Did you consult with anyone other than 12:35</p> <p>2 your attorney? 12:35</p> <p>3 A. No. 12:35</p> <p>4 Q. Is there any reason you cannot give full 12:35</p> <p>5 and complete answers on behalf of the Commission? 12:35</p> <p>6 A. No. 12:35</p> <p>7 Q. For Topic 12, what did you do to prepare 12:35</p> <p>8 for it? 12:35</p> <p>9 A. Reviewed the rules and regulations 12:36</p> <p>10 handbook. 12:36</p> <p>11 Q. Did you review anything else? 12:36</p> <p>12 A. No. 12:36</p> <p>13 Q. Did you consult with anyone other than 12:36</p> <p>14 your attorney? 12:36</p> <p>15 A. No. 12:36</p> <p>16 Q. Is there any reason you can't give full 12:36</p> <p>17 and complete answers on behalf of the Commission? 12:36</p> <p>18 A. No. 12:36</p> <p>19 Q. For Topic 13, what did you do to prepare 12:36</p> <p>20 for it? 12:36</p> <p>21 A. Read the rule -- read the House Bill 3293. 12:36</p> <p>22 Q. Did you review anything else? 12:36</p> <p>23 A. Just our rules and regulations. 12:36</p> <p>24 Q. Did you consult with anyone other than 12:36</p> <p>25 your attorney? 12:36</p> <p style="text-align: right;">Page 25</p> |

|                                                            |                                                               |
|------------------------------------------------------------|---------------------------------------------------------------|
| 1 A. No. 12:36                                             | 1 A. No. 12:39                                                |
| 2 Q. And is there any reason you cannot give 12:36         | 2 Q. Did you discuss today's deposition with 12:39            |
| 3 full and complete answers on behalf of the 12:36         | 3 anyone other than your attorney? 12:39                      |
| 4 Commission? 12:36                                        | 4 A. Just that I had it scheduled so people 12:39             |
| 5 A. I -- I did consult -- I probably -- I had 12:37       | 5 would know in the office not to send me calls. 12:39        |
| 6 a communication with Melissa White from House 12:37      | 6 Q. So other employees at -- at the 12:39                    |
| 7 Education. She had sent me documents -- or a 12:37       | 7 Commission; is that right? 12:39                            |
| 8 document. So I would say I communicated with 12:37       | 8 A. Yes, ma'am. 12:39                                        |
| 9 Melissa White about House Bill 3293. 12:37               | 9 Q. Do you know who B.P.J. is? 12:39                         |
| 10 Q. Was this in preparation for this 12:37               | 10 A. By name only, yes. 12:39                                |
| 11 deposition? 12:37                                       | 11 Q. Do you know anything else about her? 12:39              |
| 12 A. No. I'm sorry. 12:37                                 | 12 MS. GREEN: I'll just object to the form, 12:39             |
| 13 Q. No need to apologize. 12:37                          | 13 to the extent he knows things from me, from counsel. 12:39 |
| 14 All right. Last -- last topic. What did 12:37           | 14 THE WITNESS: I have -- only know what -- 12:39             |
| 15 you do to prepare for Topic 14? 12:37                   | 15 the documents that have been sent to me. I don't 12:39     |
| 16 A. Primarily reviewed the rules and 12:37               | 16 know anything firsthand about her. 12:40                   |
| 17 regulations handbook and the transgender Board 12:37    | 17 BY MS. KANG: 12:40                                         |
| 18 policy and look at emails and text messages. 12:37      | 18 Q. Do you agree that B.P.J. is a girl who is 12:40         |
| 19 Q. Anything else? 12:38                                 | 19 transgender? 12:40                                         |
| 20 A. No. 12:38                                            | 20 MS. GREEN: I'll object to the form. And 12:40              |
| 21 Q. Did you consult with anyone other than 12:38         | 21 I'll just object outside the scope. 12:40                  |
| 22 your attorney? 12:38                                    | 22 THE WITNESS: It's been presented to me 12:40               |
| 23 A. No. 12:38                                            | 23 that way. 12:40                                            |
| 24 Q. Is there any reason you cannot give full 12:38       | 24 BY MS. KANG: 12:40                                         |
| 25 and complete answers on behalf of the Commission? 12:38 | 25 Q. Are you aware that B.P.J. ran 12:40                     |
| Page 26                                                    | Page 28                                                       |
| 1 A. No. 12:38                                             | 1 cross-country on the girls' team at Bridgeport 12:40        |
| 2 Q. So for some of these topics, you mentioned 12:38      | 2 Middle School? 12:40                                        |
| 3 reviewing emails and documents. Do you know if 12:38     | 3 A. Yes. 12:40                                               |
| 4 those emails and documents have been produced to 12:38   | 4 Q. How did you become aware of that? 12:40                  |
| 5 Plaintiff? 12:38                                         | 5 A. Through the court case. 12:40                            |
| 6 A. They all have, yes. 12:38                             | 6 Q. Have you ever spoken to B.P.J.? 12:40                    |
| 7 Q. All right. Thank you. 12:38                           | 7 A. I have not. 12:40                                        |
| 8 MS. KANG: You can take down Exhibit 1. 12:38             | 8 Q. Have you ever spoken to B.P.J.'s parents? 12:40          |
| 9 BY MS. KANG: 12:38                                       | 9 A. No. 12:40                                                |
| 10 Q. Do you understand that you're testifying 12:38       | 10 MS. GREEN: And I'll just object to the 12:40               |
| 11 about these topics in the deposition notice on 12:38    | 11 extent this is outside the scope. 12:40                    |
| 12 behalf of the Commission? 12:38                         | 12 BY MS. KANG: 12:40                                         |
| 13 A. Yes. 12:38                                           | 13 Q. Have you ever spoken to B.P.J.'s sibling? 12:40         |
| 14 Q. So just to be clear, when I ask for your 12:38       | 14 A. No. 12:40                                               |
| 15 position on something, I -- I'm asking for the 12:38    | 15 Q. Now, I want to just talk a little bit 12:40             |
| 16 position of -- of the Commission unless I say 12:38     | 16 about your personal background to sort of better 12:41     |
| 17 otherwise. 12:38                                        | 17 understand your selection as -- as the witness for 12:41   |
| 18 You understand? 12:38                                   | 18 the 30(b)(6) deposition. 12:41                             |
| 19 A. Yes, ma'am. 12:38                                    | 19 What is your position at the Commission? 12:41             |
| 20 Q. In general, what did you do to prepare for 12:38     | 20 A. I am the executive director. 12:41                      |
| 21 today's deposition? 12:38                               | 21 Q. What are your responsibilities as 12:41                 |
| 22 A. Again, reviewed the rule -- the rules and 12:39      | 22 executive director? 12:41                                  |
| 23 regulations. 12:39                                      | 23 A. Generally oversee the organization, assign 12:41        |
| 24 Q. Did you meet with anyone other than your 12:39       | 24 duties and evaluate staff, make decisions when 12:41       |
| 25 attorney? 12:39                                         | 25 there's disagreement amongst schools. 12:41                |
| Page 27                                                    | Page 29                                                       |

|                                                             |                                                               |
|-------------------------------------------------------------|---------------------------------------------------------------|
| 1 Q. What sort of duties do you assign? 12:41               | 1 they come up before the Board to either appeal their 12:44  |
| 2 A. Director of all the tournaments. So 12:41              | 2 discipline or appeal their ineligibility. 12:44             |
| 3 each -- each assistant executive director is 12:41        | 3 BY MS. KANG: 12:44                                          |
| 4 assigned multiple sports that they will oversee 12:41     | 4 Q. Do you report to anyone currently as the 12:44           |
| 5 and -- and put on the tournaments. 12:41                  | 5 executive director? 12:44                                   |
| 6 I assign secretarial duties to the 12:41                  | 6 A. I have ten Board members, yes. 12:44                     |
| 7 secretarial staff. 12:41                                  | 7 Q. Is that the same Board of Directors that 12:44           |
| 8 Q. How many assistant executive directors do 12:42        | 8 you were just talking about? 12:44                          |
| 9 you have? 12:42                                           | 9 A. Yes, ma'am. 12:44                                        |
| 10 A. Three. 12:42                                          | 10 Q. Does anyone report to you? 12:44                        |
| 11 Q. So I believe you said you make decisions 12:42        | 11 A. My eight other staff members report to me, 12:44        |
| 12 when schools have disputes. Is that accurate? 12:42      | 12 yes. 12:44                                                 |
| 13 A. Yes, ma'am. 12:42                                     | 13 Q. What are their titles? 12:44                            |
| 14 Q. Can you tell me a little bit -- a little 12:42        | 14 A. Three of -- 12:44                                       |
| 15 bit more about that. 12:42                               | 15 MS. GREEN: Object. Outside the scope. 12:44                |
| 16 MS. GREEN: I'll just object. Outside the 12:42           | 16 And can I just have a continuing objection 12:44           |
| 17 scope. 12:42                                             | 17 for the outside scope, or you want be to keep 12:44        |
| 18 THE WITNESS: If there is a difference 12:42              | 18 hopping in? 12:44                                          |
| 19 on -- opinion on eligibility of a student in one 12:42   | 19 MS. KANG: Yes. I'll grant you a 12:44                      |
| 20 school, one school may say they are eligible, one 12:42  | 20 continuing objection for outside the scope, Roberta. 12:44 |
| 21 school may say they are ineligible. So we gather 12:42   | 21 MS. GREEN: Thank you. Thank you. 12:44                     |
| 22 the facts, and we'll make a determination. 12:42         | 22 THE WITNESS: There are three assistant 12:44               |
| 23 BY MS. KANG: 12:42                                       | 23 executive directors, one events communication 12:44        |
| 24 Q. And by "we," do you mean you as the 12:42             | 24 coordinator, one bookkeeper, and three secretaries. 12:44  |
| 25 executive director or the Commission? 12:42              | 25 ///                                                        |
| Page 30                                                     | Page 32                                                       |
| 1 A. The Commission. 12:42                                  | 1 BY MS. KANG: 12:45                                          |
| 2 Q. And who is -- 12:42                                    | 2 Q. Have you ever been employed by -- employed 12:45         |
| 3 A. And I -- I'm sorry. Me as the executive 12:42          | 3 by the Attorney General's Office of the State of 12:45      |
| 4 director for the Commission. 12:42                        | 4 West Virginia? 12:45                                        |
| 5 Q. Understood. 12:42                                      | 5 A. No. 12:45                                                |
| 6 How long have you been the executive 12:42                | 6 Q. Have you ever been employed by the 12:45                 |
| 7 director? 12:43                                           | 7 West Virginia House of Delegates? 12:45                     |
| 8 A. Seven years. 12:43                                     | 8 A. No. 12:45                                                |
| 9 Q. Have you held any other positions at the 12:43         | 9 Q. Have you ever been employed by the 12:45                 |
| 10 Commission? 12:43                                        | 10 West Virginia Senate? 12:45                                |
| 11 A. No. 12:43                                             | 11 A. No. 12:45                                               |
| 12 Q. Do you -- 12:43                                       | 12 Q. Have you ever been employed by the 12:45                |
| 13 A. Pardon me. Wait a minute. 12:43                       | 13 Harrison County Board of Education? 12:45                  |
| 14 I was on the Board of Directors at one 12:43             | 14 A. No. 12:45                                               |
| 15 point. 12:43                                             | 15 Q. Have you ever been employed by the 12:45                |
| 16 Q. And when was that? 12:43                              | 16 West Virginia State Board of Education? 12:45              |
| 17 A. That -- I believe it was 2012 to 2014. 12:43          | 17 A. No. 12:45                                               |
| 18 Q. What was your role when you were on the 12:43         | 18 Q. So I am going to introduce to you a 12:45               |
| 19 Board of Directors? 12:43                                | 19 document that is going to be marked as Exhibit 2. 12:45    |
| 20 MS. GREEN: Object to the form. 12:43                     | 20 And I'll let you know when it should 12:45                 |
| 21 THE WITNESS: Approve -- approve the 12:43                | 21 appear in your Marked Exhibit folder. 12:45                |
| 22 workings of the organization to proof financial 12:43    | 22 (Deposition Exhibit 2 was marked for 12:45                 |
| 23 reports, those things. 12:43                             | 23 identification and is attached hereto.) 12:45              |
| 24 Also to hear appeals of students or 12:43                | 24 BY MS. KANG: 12:45                                         |
| 25 coaches who have been -- who violated the rule and 12:43 | 25 Q. So if you go to your Marked Exhibit 12:45               |
| Page 31                                                     | Page 33                                                       |

|                                                               |                                                              |
|---------------------------------------------------------------|--------------------------------------------------------------|
| 1 folder, you should now see a document that's been 12:45     | 1 Q. What was your role as the athletic 12:48                |
| 2 marked as Exhibit 2. 12:45                                  | 2 director? 12:48                                            |
| 3 Let me know when you see it. 12:46                          | 3 A. I was the athletic director at Wheeling 12:48           |
| 4 A. Okay. 12:46                                              | 4 Park High School. 12:48                                    |
| 5 Q. So on Page 2 of Exhibit 2, you'll see a 12:46            | 5 What was the question? 12:48                               |
| 6 section entitled "Bernie Dolan," and this is -- I'll 12:46  | 6 Q. Sure. 12:48                                             |
| 7 represent to you that this is a screenshot that I 12:46     | 7 Could you tell me what some of your 12:48                  |
| 8 took from the Commission website on February 10th, 12:46    | 8 responsibilities were in that role? 12:48                  |
| 9 2022. And in the bottom left corner you'll see the 12:46    | 9 A. I would oversee the coaches, do their 12:48             |
| 10 URL stamp where I pulled it from the website. 12:46        | 10 evaluations, purchase equipment for each team, as 12:48   |
| 11 And I'd just like to ask you a few 12:46                   | 11 well as coordinate transportation, and also make 12:48    |
| 12 questions about your biography in -- on this page. 12:46   | 12 sure all eligibility information was submitted to 12:48   |
| 13 Do you agree with what's written in the 12:46              | 13 the Commission -- Commission as well as accurate. 12:48   |
| 14 paragraph on Page 2 of Exhibit 2 under "Bernie 12:46       | 14 Q. What is the state golf tournament? 12:49               |
| 15 Dolan"? 12:46                                              | 15 A. State championship for golf. 12:49                     |
| 16 MS. MORGAN: Counsel, this is Kelly 12:46                   | 16 Q. And what was your role there? 12:49                    |
| 17 Morgan. 12:46                                              | 17 A. The director. 12:49                                    |
| 18 I do not see an Exhibit 2 in the Egnite. 12:46             | 18 Q. What is OVAC? 12:49                                    |
| 19 MS. KANG: So if you're -- if anyone is 12:46               | 19 A. It's the Ohio Valley Athletic Conference. 12:49        |
| 20 having trouble accessing the Marked Exhibits, I 12:46      | 20 It was the conference that Wheeling Park was a 12:49      |
| 21 recommend clicking on the folder again to refresh 12:46    | 21 member of, and still is, but it's the athletic 12:49      |
| 22 it. 12:46                                                  | 22 conference for the high schools. 12:49                    |
| 23 Let me know if you continue to have 12:47                  | 23 Q. What was your role there? 12:49                        |
| 24 problems. 12:47                                            | 24 A. I served on executive Board a couple of 12:49          |
| 25 THE WITNESS: I do -- I agree with what is 12:47            | 25 the years while I was the athletic director at 12:49      |
| Page 34                                                       | Page 36                                                      |
| 1 written there. 12:47                                        | 1 Wheeling Park. 12:49                                       |
| 2 BY MS. KANG: 12:47                                          | 2 Q. Finally, what is WVADA? 12:49                           |
| 3 Q. Where did you work before your current 12:47             | 3 A. West Virginia Athletic Directors 12:49                  |
| 4 role at the Commission? 12:47                               | 4 Association. 12:49                                         |
| 5 A. Ohio County Schools. 12:47                               | 5 Q. What was your role there? 12:49                         |
| 6 Q. How long did you work there? 12:47                       | 6 A. I served on the executive Board -- or the 12:49         |
| 7 A. 30 years. 12:47                                          | 7 Board of Directors for a couple of years while I was 12:49 |
| 8 Q. Whoa. 12:47                                              | 8 the athletic director at Wheeling Park High School. 12:49  |
| 9 Did you interact with any transgender 12:47                 | 9 Q. And do you yourself play sports? 12:50                  |
| 10 individuals in that role? 12:47                            | 10 A. A little bit still. 12:50                              |
| 11 A. I did not. 12:47                                        | 11 Q. What sports do you play? 12:50                         |
| 12 Q. When did you attend West Virginia 12:47                 | 12 A. Tennis a little bit. Basketball a little 12:50         |
| 13 University? 12:47                                          | 13 bit. Pickleball. 12:50                                    |
| 14 A. I graduated in '85; so probably '81 to 12:47            | 14 Q. Do you currently coach any sports? 12:50               |
| 15 '85. 12:47                                                 | 15 A. I do not. 12:50                                        |
| 16 Q. And when did you attend Salem 12:47                     | 16 Q. Did you used to coach? 12:50                           |
| 17 International University? 12:47                            | 17 A. I did. 12:50                                           |
| 18 A. I would say '99 to 2000 or 2000 to 2001. 12:47          | 18 Q. What did you coach? 12:50                              |
| 19 Q. What is the Super Six? 12:47                            | 19 A. 18 years I coached boys' and girls' track 12:50        |
| 20 A. State football championship. 12:48                      | 20 at Wheeling Park High School; 12:50                       |
| 21 Q. What was your role there? 12:48                         | 21 12 as the head coach for both boys and 12:50              |
| 22 A. I had a variety of roles starting out from 12:48        | 22 girls; 12:50                                              |
| 23 assistant media director over the years to being the 12:48 | 23 Assistant coach of football; 12:50                        |
| 24 director -- once I was the athletic director of 12:48      | 24 And assistant coach of girls' basketball. 12:50           |
| 25 Wheeling Park High School. 12:48                           | 25 Q. Thank you. 12:50                                       |
| Page 35                                                       | Page 37                                                      |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1 MS. KANG: You can take down Exhibit 2 12:50</p> <p>2 now. 12:50</p> <p>3 BY MS. KANG: 12:50</p> <p>4 Q. So now I want to move into talking a 12:50</p> <p>5 little bit more about the Commission and its 12:50</p> <p>6 structure. 12:50</p> <p>7 When was the Commission founded? 12:50</p> <p>8 A. In 1916. 12:50</p> <p>9 Q. Why was it founded? 12:51</p> <p>10 A. To primarily handle disputes between 12:51</p> <p>11 schools at that point, and they did provide 12:51</p> <p>12 championship opportunities for schools. 12:51</p> <p>13 Q. What sort of disputes between schools? 12:51</p> <p>14 A. As I said earlier, it could be 12:51</p> <p>15 eligibility; it could have been breaking of 12:51</p> <p>16 contracts; could be officials, you know -- who -- 12:51</p> <p>17 what officials get assigned to games. 12:51</p> <p>18 So there is quite a bit of conflict 12:51</p> <p>19 possible. 12:51</p> <p>20 Q. How does the Commission define secondary 12:51</p> <p>21 sports? 12:51</p> <p>22 A. Secondary sports, we are -- we oversee the 12:51</p> <p>23 sports that we currently have, which is -- a number 12:51</p> <p>24 of them. 12:52</p> <p>25 But the -- what happens is, as the schools 12:52</p> <p style="text-align: right;">Page 38</p>                                                                                                                                 | <p>1 Q. And you said you stopped collecting dues 12:53</p> <p>2 for 20 years; is that correct? 12:53</p> <p>3 A. Yes. 12:53</p> <p>4 Q. Why did the Commission stop collecting 12:53</p> <p>5 dues? 12:53</p> <p>6 A. At that point, it was more trouble than it 12:53</p> <p>7 was worth it. There wasn't that much money coming 12:53</p> <p>8 in from dues. It was before my time, though. 12:53</p> <p>9 Q. Understood. 12:53</p> <p>10 How many employees does the Commission 12:53</p> <p>11 have currently? 12:53</p> <p>12 A. Nine. 12:53</p> <p>13 Q. Is there someone who is considered in 12:54</p> <p>14 charge of the Commission? 12:54</p> <p>15 A. I would assume -- I am the executive 12:54</p> <p>16 director. So I would be in charge. But I still 12:54</p> <p>17 answer to my Board of Directors. 12:54</p> <p>18 Q. So does the Commission have a relationship 12:54</p> <p>19 with the State Board of Education in West Virginia? 12:54</p> <p>20 A. We do have a relationship, number one. As 12:54</p> <p>21 our rules are promulgated from our members, they 12:54</p> <p>22 will submit rules to be voted on by the membership 12:54</p> <p>23 at our Board of Control. 12:54</p> <p>24 If at the Board of Control they pass by a 12:54</p> <p>25 majority, then those rules get submitted to the 12:54</p> <p style="text-align: right;">Page 40</p> |
| <p>1 offer these sports as clubs, once there is enough 12:52</p> <p>2 schools that offer the sports, then they would 12:52</p> <p>3 petition us to recognize an additional sport. So we 12:52</p> <p>4 have, I believe, 19 championships at this point. 12:52</p> <p>5 Q. What grades count as a secondary grade? 12:52</p> <p>6 A. 6th through 12. 12:52</p> <p>7 Q. Do you know if Bridgeport Middle School 12:52</p> <p>8 qualifies as a secondary school? 12:52</p> <p>9 A. They are a member of our association. So 12:52</p> <p>10 yes. 12:52</p> <p>11 Q. Can you tell me what is a member of 12:52</p> <p>12 your -- what does a member of your association mean? 12:52</p> <p>13 A. First of all, initially there was 12:52</p> <p>14 a initia- -- an initiation fee. And there were 12:52</p> <p>15 dues. But we have not charged dues for 20 years. 12:52</p> <p>16 To be a member, you just have to 12:53</p> <p>17 provide -- you have to agree to follow all the rules 12:53</p> <p>18 and regulations as well as provide an opportunity 12:53</p> <p>19 for a boy sport and a girl sport in each of the 12:53</p> <p>20 seasons. 12:53</p> <p>21 Q. So each member school has to offer a boys' 12:53</p> <p>22 team or a girls' team for each support? 12:53</p> <p>23 A. Yes. 12:53</p> <p>24 Q. Is that right? 12:53</p> <p>25 A. Yes. Yes. 12:53</p> <p style="text-align: right;">Page 39</p> | <p>1 State Board of Education who would then put them out 12:54</p> <p>2 for public comment. 12:54</p> <p>3 And they would have final vote on whether 12:54</p> <p>4 or not the rule becomes law. And if it does, they 12:54</p> <p>5 will submit that to the Secretary of State's office. 12:55</p> <p>6 Q. So just to clarify, who submits the rules 12:55</p> <p>7 to the Board of Control again? 12:55</p> <p>8 A. Principals. We are a principals 12:55</p> <p>9 organization. So each principal has one vote in our 12:55</p> <p>10 membership. 12:55</p> <p>11 Q. And are you the principal of your member 12:55</p> <p>12 school? 12:55</p> <p>13 A. Yes, ma'am. 12:55</p> <p>14 Q. Do you personally, as the executive 12:55</p> <p>15 director, work with the State Board of Education of 12:55</p> <p>16 West Virginia? 12:55</p> <p>17 A. Not directly. 12:55</p> <p>18 MS. GREEN: I'm sorry. Could -- I'm 12:55</p> <p>19 sorry. 12:55</p> <p>20 Ms. Kang, would you repeat the question? 12:55</p> <p>21 MS. KANG: Sure. 12:55</p> <p>22 BY MS. KANG: 12:55</p> <p>23 Q. Do you personally, as the executive 12:55</p> <p>24 director, have a role or relationship with the State 12:55</p> <p>25 Board of Education of West Virginia? 12:55</p> <p style="text-align: right;">Page 41</p>                                                                         |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1 A. I don't have a -- I mean, I have a working 12:55</p> <p>2 relationship because we deal with same schools. But 12:55</p> <p>3 as far as on a daily basis of any interaction, no -- 12:55</p> <p>4 other than they approve the rules. 12:56</p> <p>5 Q. Does the Commission have a relationship 12:56</p> <p>6 with the County Board of Education? 12:56</p> <p>7 A. Not really. We are a principals 12:56</p> <p>8 organization. We do communicate with county boards. 12:56</p> <p>9 But our membership are the high schools. 12:56</p> <p>10 Q. What sort of communication -- 12:56</p> <p>11 A. And -- 12:56</p> <p>12 Q. Oh, sorry. 12:56</p> <p>13 What sort of communications would you have 12:56</p> <p>14 with the County Board? 12:56</p> <p>15 A. Oftentimes we would -- if there is rules 12:56</p> <p>16 or memos that we go out and send out, sometimes we 12:56</p> <p>17 will send them to the County Boards of Education 12:56</p> <p>18 that -- to keep them up to date on what is going on 12:56</p> <p>19 with the Commission. 12:56</p> <p>20 Q. By "rules," do you mean the Commission's 12:56</p> <p>21 rules? 12:56</p> <p>22 A. It could be -- yes, the Commission rules. 12:56</p> <p>23 Yep. Yes. 12:57</p> <p>24 Q. Does the Commission determine who can play 12:57</p> <p>25 on a secondary school sports team? 12:57</p> <p style="text-align: right;">Page 42</p>                                                                   | <p>1 with a final answer. 12:58</p> <p>2 Q. What sort of information would you look 12:58</p> <p>3 at? 12:58</p> <p>4 A. Whether they -- when they enrolled at the 12:58</p> <p>5 school, who they -- are they still living with their 12:58</p> <p>6 parents, same household, did they -- did they make a 12:58</p> <p>7 bona fide move, and whether they have a 2.0 or not. 12:58</p> <p>8 Things like that. 12:58</p> <p>9 Q. Anything else? 12:58</p> <p>10 A. Could be age. There's a number of rules 12:58</p> <p>11 for eligibility, but those are the biggest ones. 12:58</p> <p>12 Q. So if a student is deemed ineligible by 12:59</p> <p>13 the Commission, is that student -- student 12:59</p> <p>14 prohibited from playing? 12:59</p> <p>15 A. The student would be prohibited from 12:59</p> <p>16 playing in a varsity or JV game. There's only a 12:59</p> <p>17 limited exception as to when they would be able to 12:59</p> <p>18 even practice with the team. But for the most part, 12:59</p> <p>19 if you're ineligible, you're ineligible for all 12:59</p> <p>20 activities for that team. 12:59</p> <p>21 Q. And I believe you mentioned that you have 12:59</p> <p>22 286 member schools. Do you know if that includes 12:59</p> <p>23 all the schools -- secondary schools in 12:59</p> <p>24 West Virginia? 12:59</p> <p>25 A. It does not. 12:59</p> <p style="text-align: right;">Page 44</p>                                                       |
| <p>1 MS. GREEN: Object to the form. 12:57</p> <p>2 THE WITNESS: When you say "Commission," 12:57</p> <p>3 it's not the nine members here at the office. 12:57</p> <p>4 The Commission, technically, is made up by 12:57</p> <p>5 the 286 members. So they have voted in the rules, 12:57</p> <p>6 and they are required by law -- by the -- being a 12:57</p> <p>7 member to follow those rules. So only when there is 12:57</p> <p>8 a dispute do we intervene. 12:57</p> <p>9 BY MS. KANG: 12:57</p> <p>10 Q. So I'd ask who makes the initial 12:57</p> <p>11 determination of a student's eligibility? 12:57</p> <p>12 A. That would be the school. 12:57</p> <p>13 Q. I believe you mentioned earlier the -- a 12:57</p> <p>14 dispute process. So the student -- or a student's 12:57</p> <p>15 eligibility is disputed. 12:57</p> <p>16 Can you walk me through what would happen 12:57</p> <p>17 there? 12:57</p> <p>18 A. It could be a school sending -- if 12:57</p> <p>19 Student A left School Number 1, went to School 12:58</p> <p>20 Number 2, and didn't follow the normal transfer 12:58</p> <p>21 procedures, School A might file a complaint to say, 12:58</p> <p>22 "Hey, can you look at so-and-so because they never 12:58</p> <p>23 sat out with School B, or Number 2." 12:58</p> <p>24 So we would intervene and get the 12:58</p> <p>25 information, work with the two schools, and come up 12:58</p> <p style="text-align: right;">Page 43</p> | <p>1 Q. Do you know how many schools are not a 12:59</p> <p>2 member school in West Virginia? 12:59</p> <p>3 A. I do not. 12:59</p> <p>4 Q. If the Commission finds a person is 12:59</p> <p>5 ineligible, is there an appeal process? 12:59</p> <p>6 A. Yes, there is. 12:59</p> <p>7 Q. Can you walk me through what that appeal 13:00</p> <p>8 process looks like? 13:00</p> <p>9 A. They would -- I would send them a letter 13:00</p> <p>10 telling them initially that they were determined 13:00</p> <p>11 ineligible. If they would like a hearing in front 13:00</p> <p>12 of our Board of Directors, then along with the 13:00</p> <p>13 level -- along with a letter of ineligibility, I 13:00</p> <p>14 would send the appeal papers that they would fill 13:00</p> <p>15 out and return to me. 13:00</p> <p>16 And then within 30 days, I would bring 13:00</p> <p>17 them before our Board of Directors for them to make 13:00</p> <p>18 a decision to grant a waiver or not. And the Board 13:00</p> <p>19 can grant a waiver for rule fails to accomplish what 13:00</p> <p>20 it was intended for or there's a hardship on the 13:00</p> <p>21 student. 13:00</p> <p>22 Q. What sort of hardship would count? 13:00</p> <p>23 A. It -- it's up to the Board of Directors. 13:00</p> <p>24 So there is -- there's no marker that you have to 13:00</p> <p>25 hit. So there's lots of different things that may 13:01</p> <p style="text-align: right;">Page 45</p> |

|                                                              |                                                               |
|--------------------------------------------------------------|---------------------------------------------------------------|
| 1 have come up. 13:01                                        | 1 Is this the most recent version of the 13:04                |
| 2 Q. Have you taken part in the appeal process 13:01         | 2 rules and regulations? 13:04                                |
| 3 before? 13:01                                              | 3 A. Yes. There may be editorial changes 13:04                |
| 4 A. When I was a member of the Board of 13:01               | 4 between then, but that's the most recent copy we 13:04      |
| 5 Directors, yes. 13:01                                      | 5 have, yes. 13:04                                            |
| 6 Q. So is it the Board of Directors that makes 13:01        | 6 Q. So is it fair to say -- 13:04                            |
| 7 the determination on the appeal? 13:01                     | 7 A. For -- 13:04                                             |
| 8 A. Yes. 13:01                                              | 8 Q. I'm sorry. Go ahead. 13:04                               |
| 9 Q. Are you familiar with WVEIS, the 13:01                  | 9 A. For the current year. 13:04                              |
| 10 West Virginia Education Information System? 13:01         | 10 Q. So is it fair to say that this document 13:04           |
| 11 A. Yes. 13:01                                             | 11 is -- is currently in effect? 13:04                        |
| 12 Q. Does the Commission have any control over 13:01        | 12 A. Yes. 13:04                                              |
| 13 the information that goes into WVEIS? 13:01               | 13 Q. And just to be clear, is this the rules 13:04           |
| 14 A. No. We have no access to that note. 13:01              | 14 and regulations handbook that you reviewed when 13:04      |
| 15 Q. In West Virginia, to your knowledge, has a 13:01       | 15 preparing for this deposition? 13:04                       |
| 16 college team ever competed against a middle school 13:01  | 16 A. Yes. 13:04                                              |
| 17 team? 13:02                                               | 17 Q. Is the Commission required to follow these 13:04        |
| 18 A. Has a college team ever competed against a 13:02       | 18 rules and regulations? 13:04                               |
| 19 middle school? 13:02                                      | 19 A. The Commission as well as all the member 13:04          |
| 20 Q. That's correct. 13:02                                  | 20 schools, yes. 13:04                                        |
| 21 A. It would be against our rule if they did. 13:02        | 21 Q. So I believe you might have mentioned it 13:04          |
| 22 But no, not to my knowledge. 13:02                        | 22 earlier, but just to be clear, can you walk me 13:04       |
| 23 MS. KANG: So I'm going to introduce a 13:02               | 23 through the rule-making process of the rules and 13:05     |
| 24 document to you that's going to be marked as 13:02        | 24 regulations in this handbook? 13:05                        |
| 25 Exhibit 3, and I'll let you know when folks can 13:02     | 25 A. Okay. Any principal can submit a rule 13:05             |
| Page 46                                                      | Page 48                                                       |
| 1 access it in their Marked Exhibit folder. 13:02            | 1 proposal. It has to be in by January 15th. 13:05            |
| 2 (Deposition Exhibit 3 was marked for 13:02                 | 2 This rule proposal would then be looked at 13:05            |
| 3 identification and is attached hereto.) 13:02              | 3 by our constitution and bylaws committee. They 13:05        |
| 4 MS. KANG: So Exhibit 3 should now be in 13:02              | 4 would make sure that it's legal and written 13:05           |
| 5 everyone's Marked Exhibit folder. If you don't see 13:02   | 5 appropriate. 13:05                                          |
| 6 it, try clicking on the folder again to refresh it. 13:03  | 6 In the next week here, we'll be sending 13:05               |
| 7 BY MS. KANG: 13:03                                         | 7 out those proposals, all of our rule proposal 13:05         |
| 8 Q. Mr. Dolan, let me know when you're able to 13:03        | 8 changes out to our membership. 13:05                        |
| 9 access Exhibit 3. 13:03                                    | 9 We will meet in the -- the first week of 13:05              |
| 10 A. Okay. 13:03                                            | 10 in April. And we will go over all of the rule 13:05        |
| 11 Q. Do you recognize this document? 13:03                  | 11 proposals, and we'll vote on them individually. 13:05      |
| 12 A. It is our rules and regulations handbook. 13:03        | 12 If they pass by a majority, they'll move 13:05             |
| 13 Yes. 13:03                                                | 13 on to the State Board of Education, who puts them 13:05    |
| 14 Q. Do you know who prepared this document? 13:03          | 14 out for comment. And then they will vote on them 13:05     |
| 15 A. Over time it's -- you know -- you know, 13:03          | 15 whether or not they will move forward as part of our 13:06 |
| 16 it's the charge of one of my secretaries to -- once 13:03 | 16 rule book. 13:06                                           |
| 17 rules are changed, to submit the changes. But we 13:03    | 17 Q. What do you mean by you make sure that the 13:06        |
| 18 take care of that in -- in the office here. 13:03         | 18 proposed rule is legal? 13:06                              |
| 19 Q. So is this a Commission that's responsible 13:03       | 19 A. Sometimes the way it's written may not be 13:06         |
| 20 for the information in the rules and regulations 13:03    | 20 appropriate. You know, there just may be 13:06             |
| 21 handbook? 13:03                                           | 21 misspellings, misinterpretation. So any changes we 13:06   |
| 22 A. Yes. 13:03                                             | 22 make would go back to the person who made it. We 13:06     |
| 23 Q. So you'll notice that on the first page of 13:03       | 23 would re-read it and say, "Is this what your intent 13:06  |
| 24 Exhibit 3 it says that this was revised and printed 13:04 | 24 was" to make sure it's written properly. 13:06             |
| 25 August 2021. 13:04                                        | 25 Q. And just to be clear, who exactly votes on 13:06        |
| Page 47                                                      | Page 49                                                       |

|                                                               |                                                               |
|---------------------------------------------------------------|---------------------------------------------------------------|
| 1 the proposed rule in the Commission? 13:06                  | 1 Q. So it's Page 99 of the pdf. But I believe 13:10          |
| 2 A. At our Board of Control, all 286 members 13:06           | 2 it's Page 85 of the actual document. 13:10                  |
| 3 are eligible to vote. So if they come to our annual 13:06   | 3 A. Okay. 13:10                                              |
| 4 meeting, we will discuss each item. And then the 13:07      | 4 Q. And just for future reference, when I -- 13:10           |
| 5 next day we vote on every item that we have. 13:07          | 5 when I say Page 99 or Page 2, I'm referring the page 13:10  |
| 6 Q. So it -- it would be the Board of Control 13:07          | 6 of the pdf not the page numbers that may be written 13:10   |
| 7 and any member school who participate in that 13:07         | 7 in the exhibit. 13:10                                       |
| 8 meeting that would vote on that rule? 13:07                 | 8 MS. GREEN: His assistant is slow. He has 13:10              |
| 9 A. That is correct. 13:07                                   | 9 got a really slow assistant over here who is paging 13:10   |
| 10 Q. Who amends these rules if they need 13:07               | 10 through a page at a time. We should be back in 13:10       |
| 11 amendments? 13:07                                          | 11 about two weeks. 13:10                                     |
| 12 A. Beforehand, it would be the constitution 13:07          | 12 THE WITNESS: Is it the organizational 13:10                |
| 13 and bylaws. There is a committee that we have 13:07        | 13 chart? 13:10                                               |
| 14 that -- made up of five principals. 13:07                  | 14 BY MS. KANG: 13:10                                         |
| 15 Q. Who is responsible for enforcing these 13:07            | 15 Q. That's correct. 13:10                                   |
| 16 rules? 13:07                                               | 16 A. Okay. Yes. I am there. 13:10                            |
| 17 A. All of the member schools plus the SSAC 13:07           | 17 Q. Do you recognize this organizational 13:10              |
| 18 office itself. 13:07                                       | 18 chart? 13:10                                               |
| 19 Q. What happens if a member school doesn't 13:07           | 19 A. I do. 13:11                                             |
| 20 follow these rules? 13:07                                  | 20 Q. Do you believe that accurately reflects 13:11           |
| 21 A. Either the coach, the administration, or 13:07          | 21 the organizational structure of the Commission? 13:11      |
| 22 the school itself could face any sort of penalty 13:07     | 22 A. Except for the State Board of Education, 13:11          |
| 23 from a letter of warning to suspension or fine. 13:08      | 23 they only have oversight of our -- they have final 13:11   |
| 24 Q. By "suspension," do you mean suspension 13:08           | 24 say of our rules. So that may be why they are 13:11        |
| 25 from being a member school? 13:08                          | 25 placed at the top. 13:11                                   |
| Page 50                                                       | Page 52                                                       |
| 1 A. I don't know if we have ever suspended 13:08             | 1 The Board of Directors -- I'm not sure it 13:11             |
| 2 anybody from being a member school, but it would be 13:08   | 2 accurately reflects our organization. But yeah. 13:11       |
| 3 suspicion of games, maybe not able to participate in 13:08  | 3 Q. Would -- 13:11                                           |
| 4 championships. 13:08                                        | 4 A. The Board of Directors does not answer to 13:11          |
| 5 But, to my knowledge, we have never 13:08                   | 5 the Board of Control, I guess. 13:11                        |
| 6 suspended anybody from being a member. 13:08                | 6 Q. So, I guess, where would you place the 13:11             |
| 7 Q. Is it possible for the Commission to 13:08               | 7 Board of Directors in the organizational chart to 13:11     |
| 8 cancel a school's membership? 13:08                         | 8 make it more accurate? 13:11                                |
| 9 A. I'm not sure. 13:08                                      | 9 A. Well, I would probably and will probably 13:11           |
| 10 Q. To your knowledge, has anyone ever 13:08                | 10 move State Board of Education, National Federation 13:11   |
| 11 submitted a rule proposal about the participation of 13:08 | 11 out of the chart, and Board of Directors would be at 13:11 |
| 12 transgender students? 13:08                                | 12 the top. Board of Control would be where the 13:11         |
| 13 A. No. 13:08                                               | 13 National Federation is. 13:12                              |
| 14 Q. So I'm going to be just walking you 13:09               | 14 Q. So is it fair to say that the Board of 13:12            |
| 15 through a couple of excerpts in this exhibit. And 13:09    | 15 Directors is probably the one at the head of the 13:12     |
| 16 it is quite long. So I'm only going to be pointing 13:09   | 16 organization? 13:12                                        |
| 17 to certain sections. 13:09                                 | 17 A. That is correct. 13:12                                  |
| 18 So with that said, as I am going through, 13:09            | 18 Q. I'm just going to ask you few questions 13:12           |
| 19 if you want me to slow down or pause, or you want to 13:09 | 19 about a couple of these -- of these entries on the 13:12   |
| 20 read over something, just -- just let me know. 13:09       | 20 organizational chart. 13:12                                |
| 21 So I'm going to ask you to turn to Page 99 13:09           | 21 Can you tell me a little more about the 13:12              |
| 22 of the pdf. In the bottom right-hand corner, it 13:09      | 22 State Board of Education's relationship with the 13:12     |
| 23 will be stamped WVSSAC000216. And let me know 13:09        | 23 Board of Control specifically. 13:12                       |
| 24 whenever you happen to get there. 13:09                    | 24 A. With the Board of Control, the State Board 13:12        |
| 25 A. What page again? 13:10                                  | 25 of Education has final -- they will review and put 13:12   |
| Page 51                                                       | Page 53                                                       |

|                                                               |                                                               |
|---------------------------------------------------------------|---------------------------------------------------------------|
| 1 the rules out for comments by the general public, 13:12     | 1 ever promulgate or propose rules? 13:15                     |
| 2 and they'll have the final say on the votes. 13:12          | 2 A. If they are one of the five principals 13:15             |
| 3 That's probably the only relationship the 13:12             | 3 they can, yes. 13:15                                        |
| 4 State Board of Education has with the Board of 13:12        | 4 Q. Can you tell me a little bit more about 13:15            |
| 5 Control. 13:13                                              | 5 what your assistant executive directors do in 13:16         |
| 6 Q. I know you touched a bit on this earlier, 13:13          | 6 relation to the rules in this handbook? 13:16               |
| 7 but could you tell me a bit more about what the 13:13       | 7 A. Basically they -- they can help interpret 13:16          |
| 8 Board of Control's role is in the Commission. 13:13         | 8 the rules between our member schools, if there is 13:16     |
| 9 A. The Board of Control's charge is to vote 13:13           | 9 issues. 13:16                                               |
| 10 for rule changes, either vote them up or down. 13:13       | 10 But they primarily are responsible for the 13:16           |
| 11 Q. What do you mean by "vote them up or 13:13              | 11 championships in their particular sports. But they 13:16   |
| 12 down"? 13:13                                               | 12 can answer questions and interpretations on disputes 13:16 |
| 13 A. When the -- they are put up for a vote, 13:13           | 13 of the rule book between schools. 13:16                    |
| 14 whether it's to create a new rule or not, it's their 13:13 | 14 Q. By overseeing the championship, does that 13:16         |
| 15 vote -- it's a majority of the Board of Control that 13:13 | 15 include issuing rules for the championship? 13:16          |
| 16 is there that day for the vote. 13:13                      | 16 A. No. All of our playing rules are created 13:16          |
| 17 It either passes or it fails. If it 13:13                  | 17 by the National Federation. There are some times 13:16     |
| 18 passes, it goes on to the State Board of Education. 13:13  | 18 that they have -- by state adoption that you can 13:16     |
| 19 Q. Does the State Board ever promulgate rules 13:13        | 19 modify rules, but we follow the NFHS playing rules 13:16   |
| 20 that the Commission has to follow? 13:13                   | 20 100 percent. 13:17                                         |
| 21 A. The State Board has a 2.0 policy that is 13:13          | 21 Q. So the -- 13:17                                         |
| 22 in our rule book, but it never passed our Board of 13:14   | 22 A. Close a 100 percent. As close to a 13:17                |
| 23 Control. It was -- it's a State Board of Education 13:14   | 23 100 percent as possible. 13:17                             |
| 24 policy. 13:14                                              | 24 Q. So does -- so the Commission does not have 13:17        |
| 25 Q. Does the Commission have to follow that 13:14           | 25 any of its own rules in relation to championship? 13:17    |
| Page 54                                                       | Page 56                                                       |
| 1 2.0 rule? 13:14                                             | 1 A. No. There are rules in there that govern 13:17           |
| 2 A. Yes. And all of our members. 13:14                       | 2 how many people are at the game; you know, how many 13:17   |
| 3 Q. Are you aware of any other rules from the 13:14          | 3 teams are at the game; where the game is going to be 13:17  |
| 4 State Board of Education? 13:14                             | 4 held. All those things. The time. The place. 13:17          |
| 5 A. Not really. 13:14                                        | 5 Those are all determined by our Board of Directors. 13:17   |
| 6 Q. What is the Board of Control's 13:14                     | 6 And then they are given the charge to 13:17                 |
| 7 relationship with the directors, if any? 13:14              | 7 myself or my -- my assistants to run those 13:17            |
| 8 A. Five of the Board of Directors are 13:14                 | 8 championships on those days. 13:17                          |
| 9 principals; so five of those principals would be 13:14      | 9 Q. What does the Sports Medicine Committee 13:17            |
| 10 members of the Board of Control. That's about 13:14        | 10 do? 13:17                                                  |
| 11 the -- the best relationship -- the only 13:14             | 11 A. They advise us in all of our rules and 13:17            |
| 12 relationship they have. 13:14                              | 12 regulations that go in for each sport for safety. 13:18    |
| 13 Q. What is the Board of Control's 13:14                    | 13 For instance, concussion, heat illness, sudden 13:18       |
| 14 relationship with the executive director? 13:14            | 14 cardiac arrest, whether we are making modifications 13:18  |
| 15 A. None, really. I mean, the Board -- the 13:15            | 15 to practice schedules based on their -- their 13:18        |
| 16 Board -- the five members of the Board of Directors 13:15  | 16 expertise. 13:18                                           |
| 17 that are principals represented an administrative 13:15    | 17 And so they will make recommendations to 13:18             |
| 18 district. And so the Board -- the Board of 13:15           | 18 us for modifying sports to make it more safe. 13:18        |
| 19 Directors answers to schools in their district. So 13:15   | 19 Q. So who makes up the Sports Medicine 13:18               |
| 20 that's the only indirect connection between myself 13:15   | 20 Committee? 13:18                                           |
| 21 and the Board of Control. 13:15                            | 21 A. There's a variety of doctors and athletic 13:18         |
| 22 Q. And there are ten Board of 13:15                        | 22 trainers. I believe there is -- I mean, there is a 13:18   |
| 23 Directors members; is that right? 13:15                    | 23 number of them. At least 12. I'm not sure of the 13:18     |
| 24 A. Yes, ma'am. 13:15                                       | 24 exact number because they come off and on. But 13:18       |
| 25 Q. Does any member of the Board of Directors 13:15         | 25 yeah. So they -- that's who makes it up is a 13:18         |
| Page 55                                                       | Page 57                                                       |

|                                                               |                                                               |
|---------------------------------------------------------------|---------------------------------------------------------------|
| 1 variety of medical personnel. 13:18                         | 1 about previous. 13:35                                       |
| 2 Q. And do they report to you? 13:19                         | 2 Q. All right. So I'm going to have a similar 13:35          |
| 3 A. They would make recommendations to me to 13:19           | 3 set of questions next. So just diving a little bit 13:35    |
| 4 give to the Board of Directors if we happen to have 13:19   | 4 more into the Commission's role at -- role in 13:35         |
| 5 changes about -- sport-specific things, practice, 13:19     | 5 sports. 13:35                                               |
| 6 things like that. Things that are not in the rule 13:19     | 6 Can you tell me -- I know you mentioned 13:35               |
| 7 book, but they are modifications or rules that they 13:19   | 7 some earlier -- what factors are currently used to 13:36    |
| 8 would apply. 13:19                                          | 8 determine a student's eligibility? 13:36                    |
| 9 Heat illness is a big example. They are 13:19               | 9 A. Number one is do they live with their -- 13:36           |
| 10 providing recommendations on how long a practice is, 13:19 | 10 are they enrolled in the school; 13:36                     |
| 11 what you are allowed to do at a practice, and things 13:19 | 11 Number two, do they live with their 13:36                  |
| 12 like that. 13:19                                           | 12 parents; 13:36                                             |
| 13 Q. Do you happen to know if anyone from the 13:19          | 13 Number three, do they reside in the 13:36                  |
| 14 West Virginia Legislature spoke with anyone from the 13:19 | 14 district where their school is; 13:36                      |
| 15 Sports Medicine Committee before H.B. 3293 was 13:19       | 15 What's -- what's their age as of 13:36                     |
| 16 passed? 13:19                                              | 16 August 1st of the -- that current year; 13:36              |
| 17 A. Not that I know of. 13:19                               | 17 Are they playing on any other teams 13:36                  |
| 18 MS. KANG: So I think now might be a good 13:19             | 18 outside the school team. 13:36                             |
| 19 time for a five- to ten-minute break, just let you 13:19   | 19 Those are the majority -- and do they have 13:36           |
| 20 stretch your legs a little bit. 13:20                      | 20 a 2.0. 13:36                                               |
| 21 THE WITNESS: Okay. 13:20                                   | 21 Those are the majority of the eligibility 13:36            |
| 22 MS. KANG: Roberta, are you all right with 13:20            | 22 reasons that somebody might not be eligible for a 13:36    |
| 23 that? 13:20                                                | 23 period of time. 13:36                                      |
| 24 MS. GREEN: Yes. I think it's a good 13:20                  | 24 Q. If I could just put a pin in that. 13:36                |
| 25 time. 13:20                                                | 25 So a student could be ineligible for a 13:36               |
| Page 58                                                       | Page 60                                                       |
| 1 MS. KANG: All right. So why don't we -- 13:20               | 1 certain period of time and then gain eligibility? 13:36     |
| 2 why don't we take a break until about 1:30. 13:20           | 2 A. Yes. 13:37                                               |
| 3 THE WITNESS: Okay. 13:20                                    | 3 Q. And the factors that are used to determine 13:37         |
| 4 THE VIDEOGRAPHER: This marks the end of 13:20               | 4 a student's eligibility -- are those the rules and 13:37    |
| 5 Media Number 1. Going off the record. The time is 13:20     | 5 regulations in the handbook plus the rules 13:37            |
| 6 1:20. 13:20                                                 | 6 promulgated by the State Board of Education? 13:37          |
| 7 (Brief recess.) 13:34                                       | 7 A. It is the -- the rules that are in our 13:37             |
| 8 THE VIDEOGRAPHER: This marks the 13:34                      | 8 rule book, as well as the 2.0, which is the 13:37           |
| 9 beginning of Media Number 2 in the deposition of 13:34      | 9 West Virginia Department of ED's rule, State Board 13:37    |
| 10 30(b)(6) Witness Bernie Dolan. 13:34                       | 10 of Education. 13:37                                        |
| 11 Back on the record. The time is 1:35. 13:35                | 11 It's in our rule book, but it's not 13:37                  |
| 12 BY MS. KANG: 13:35                                         | 12 technically our rule, but it's for all of our 13:37        |
| 13 Q. Mr. Dolan, before I move on to my next 13:35            | 13 member -- all of our public schools, and our private 13:37 |
| 14 topic, I just want to ask you two more quick 13:35         | 14 schools follow it too. 13:37                               |
| 15 questions about the Sports Medicine Committee. 13:35       | 15 Q. Do the -- do the county boards of 13:37                 |
| 16 To your knowledge, has the Sports Medicine 13:35           | 16 education in West Virginia have any rules that 13:37       |
| 17 Committee or anyone from that committee ever made a 13:35  | 17 determine a student's eligibility? 13:37                   |
| 18 recommendation regarding transgender participation 13:35   | 18 MS. GREEN: And I'll just object to the 13:37               |
| 19 in athletics? 13:35                                        | 19 form. 13:37                                                |
| 20 A. I don't believe it's ever been on the 13:35             | 20 THE WITNESS: They are not supposed to 13:37                |
| 21 agenda, no. 13:35                                          | 21 have any rules additional than ours. They have 13:38       |
| 22 Q. Do you know if the Sports Medicine 13:35                | 22 given over the rights of overseeing sports to the 13:38    |
| 23 Committee has ever made a recommendation on girls 13:35    | 23 SSAC. 13:38                                                |
| 24 playing on boys' teams? 13:35                              | 24 BY MS. KANG: 13:38                                         |
| 25 A. Not in my tenure here, no. I don't know 13:35           | 25 Q. When a student's eligibility is in 13:38                |
| Page 59                                                       | Page 61                                                       |

|                                                               |                                                             |
|---------------------------------------------------------------|-------------------------------------------------------------|
| 1 dispute, who makes the final determination as to 13:38      | 1 bottom? 13:42                                             |
| 2 that student's eligibility? 13:38                           | 2 BY MS. KANG: 13:42                                        |
| 3 A. I would make the initial -- well, the 13:38              | 3 Q. WVSSAC000133. 13:42                                    |
| 4 school makes the initial call. I would then either 13:38    | 4 A. Yep. Okay. Yes. 13:42                                  |
| 5 verify or overturn their decision based upon the 13:38      | 5 Q. At the top of Exhibit 3, Page 16, you'll 13:42         |
| 6 facts. 13:38                                                | 6 note it says, "Title 127 Legislative Rule." 13:42         |
| 7 And then if they're not happy with the 13:38                | 7 Do you know what a legislative rule is? 13:42             |
| 8 answer that I get, they want to appeal that, they 13:38     | 8 A. I assume -- no. All of our rules are 127. 13:42        |
| 9 take that to the Board of Directors. And if they 13:38      | 9 So I think that's the area that we are in. But I 13:42    |
| 10 are -- if my ruling is sustained at the Board of 13:38     | 10 would probably be guessing if I did, you know. 13:42     |
| 11 Directors, they have a Board of Review that they 13:38     | 11 MS. GREEN: Yeah. 13:42                                   |
| 12 could go to to get one final opportunity for a 13:38       | 12 THE WITNESS: Yeah. 13:42                                 |
| 13 waiver. 13:38                                              | 13 BY MS. KANG: 13:42                                       |
| 14 Q. And the Board of Review is that different 13:39         | 14 Q. Do you know who promulgated this specific 13:42       |
| 15 from the Board of Control? 13:39                           | 15 rule? 13:42                                              |
| 16 A. It is. The Board of Review is the final 13:39           | 16 MS. GREEN: I'll just object to the form. 13:42           |
| 17 Board that has seven members and may or may not be 13:39   | 17 THE WITNESS: Well, our rules have been in 13:42          |
| 18 connected to the schools. It's more general. But 13:39     | 18 place since 1916. So over time, all of our rules 13:42   |
| 19 they are appointed by the State Board of Education. 13:39  | 19 have had some modification every year. 13:43             |
| 20 Q. Is the Board of Review a part of the 13:39              | 20 So as far as when that particular rule, 13:43            |
| 21 Commission? 13:39                                          | 21 the most current part, I couldn't tell you. 13:43        |
| 22 A. They are appointed by the Board of -- or 13:39          | 22 It's probably -- well, it says it was 13:43              |
| 23 the State Board of Education. So I think you've 13:39      | 23 effective in September 9 of 2019. So that means 13:43    |
| 24 seen them say WVSSAC Board of Review, but we have no 13:39 | 24 there was a rule change at the Board of Control in 13:43 |
| 25 input as to whether or not -- who the members are. 13:39   | 25 2019. 13:43                                              |
| Page 62                                                       | Page 64                                                     |
| 1 Q. Are any Commission members currently part 13:39          | 1 BY MS. KANG: 13:43                                        |
| 2 of the Board of Review? 13:39                               | 2 Q. Okay. I just want to draw your attention 13:43         |
| 3 A. There may be one member who is a Board 13:39             | 3 to the section on the same page it says "127-1-2 13:43    |
| 4 office personnel who also serves on the 13:40               | 4 Name." 13:43                                              |
| 5 Commission -- or on the Board of Review as the 13:40        | 5 And in this paragraph -- I'll read out a 13:43            |
| 6 athletic director's association, but she is not a 13:40     | 6 section. But take your time reading it as well. 13:43     |
| 7 member -- she's not an employee of one of the 13:40         | 7 It says [as read]: 13:43                                  |
| 8 schools. She works at the county office. 13:40              | 8 "Extracurricular activities of the 13:43                  |
| 9 Q. Which county office? 13:40                               | 9 students in the public secondary 13:43                    |
| 10 A. I believe Lewis County office. 13:40                    | 10 schools are controlled pursuant to 13:43                 |
| 11 Q. Okay. So I want us to go back to 13:40                  | 11 W. Va. Code 18225, and authority for 13:43               |
| 12 Exhibit 3. And this will be Page 16 of the pdf. 13:40      | 12 the delegation of such control to the 13:43              |
| 13 And in the bottom right-hand corner it will be Bates 13:40 | 13 Commission is granted by statute." 13:44                 |
| 14 stamped VSV- -- WVSSAC000133. And let me know 13:40        | 14 A. Yes. 13:44                                            |
| 15 whenever you get a chance to review it. 13:40              | 15 Q. Now, did I -- did I read this correctly? 13:44        |
| 16 MS. GREEN: And, Ms. Kang, what was the 13:40               | 16 A. You did. 13:44                                        |
| 17 pdf page? 13:41                                            | 17 Q. Is this statement accurate? 13:44                     |
| 18 MS. KANG: Sure. It's Page 16. 13:41                        | 18 A. I believe it's accurate. But it's not 13:44           |
| 19 MS. GREEN: 15 or 16? 13:41                                 | 19 inclusive if that's the -- because it's -- we have 13:44 |
| 20 BY MS. KANG: 13:41                                         | 20 private schools as members also. 13:44                   |
| 21 Q. 16. 1,6. 13:41                                          | 21 But the legislature apparently, by 13:44                 |
| 22 A. Okay. I'm at 14 now. 13:41                              | 22 statute, only dealt with the public schools. 13:44       |
| 23 MS. GREEN: Sorry. 13:41                                    | 23 Q. Do you know how many private schools are 13:44        |
| 24 THE WITNESS: Okay. 13:41                                   | 24 part of your membership? 13:44                           |
| 25 MS. GREEN: And what does it read at the 13:41              | 25 A. Somewhere around 20. I don't know the 13:44           |
| Page 63                                                       | Page 65                                                     |

|                                                              |                                                              |
|--------------------------------------------------------------|--------------------------------------------------------------|
| 1 exact number. 13:44                                        | 1 BY MS. KANG: 13:47                                         |
| 2 Q. Are you familiar at all with West Virginia 13:44        | 2 Q. What does "supervise and control 13:47                  |
| 3 Code 18225? 13:44                                          | 3 interscholastic athletics" mean? 13:47                     |
| 4 A. Yes. 13:44                                              | 4 MS. GREEN: Object to the form. 13:47                       |
| 5 Q. What is your understanding of it? 13:44                 | 5 THE WITNESS: Provide the rules and make 13:47              |
| 6 MS. GREEN: I'll just object to the extent 13:44            | 6 sure that everybody is following the rules. 13:47          |
| 7 it would call for a legal conclusion. 13:44                | 7 BY MS. KANG: 13:47                                         |
| 8 THE WITNESS: It was when they authorized 13:45             | 8 Q. And how do you make sure that everyone is 13:47         |
| 9 the WVSSAC. 13:45                                          | 9 following the rules? 13:47                                 |
| 10 BY MS. KANG: 13:45                                        | 10 A. Well, usually it -- you know, it's brought 13:47       |
| 11 Q. What do you mean "authorized WVSSAC"? 13:45            | 11 to our attention either through members of the 13:47      |
| 12 A. We had been an organization since 1916. 13:45          | 12 public, schools in particular. Sometimes we see 13:47     |
| 13 And in the late '60s, they -- for some reason they 13:45  | 13 violations in the newspaper, and we follow up on 13:47    |
| 14 put us in the code, I guess. 13:45                        | 14 them. 13:48                                               |
| 15 Q. What does "extracurricular activities" in 13:45        | 15 Q. By "follow up," you mean you reach out to 13:48        |
| 16 this section mean? 13:45                                  | 16 the individual member school? 13:48                       |
| 17 A. It would be sports and band. 13:45                     | 17 A. Yes. And ask them for a written response 13:48         |
| 18 Q. Does it include club sports? 13:45                     | 18 as to what the allegation might be. 13:48                 |
| 19 A. No. Not -- not in terms of the WVSSAC, 13:45           | 19 Q. And do you have a rough estimate of how 13:48          |
| 20 no. 13:45                                                 | 20 many violations happen a year? 13:48                      |
| 21 Q. When does a club sport become a sport that 13:46       | 21 A. How many violations? Or how many times 13:48           |
| 22 is controlled by the WVSSAC? 13:46                        | 22 are we called about a violation? 13:48                    |
| 23 A. When there is more than 30 -- more than 20 13:46       | 23 Q. Let's say, how many times you are called 13:48         |
| 24 we can recognize it. 13:46                                | 24 for a violation. 13:48                                    |
| 25 At 32 teams, when there are 32 individual 13:46           | 25 A. If I had to guess, it would probably be 13:48          |
| Page 66                                                      | Page 68                                                      |
| 1 teams, our Board can authorize a championship for 13:46    | 1 two or three a month. Not counting the appeals -- 13:48    |
| 2 one class. 13:46                                           | 2 the student appeals. 13:48                                 |
| 3 If there is 50 percent of our 13:46                        | 3 Q. How does a school stop being a member of 13:48          |
| 4 membership -- of the high school membership, they 13:46    | 4 the WVSSAC? 13:48                                          |
| 5 could authorize two classes; 75 percent they could 13:46   | 5 A. To be honest with you, I'm not sure how a 13:49         |
| 6 authorize three. 13:46                                     | 6 public school does. 13:49                                  |
| 7 Q. So I'm going to draw your attention now 13:46           | 7 The private school simply writes us a 13:49                |
| 8 staying on the same page on Exhibit 3 to the section 13:46 | 8 letter and says, "We no longer want to be a member 13:49   |
| 9 that says, "127-1-3 Goals." 13:46                          | 9 of your organization." There's no penalty for 13:49        |
| 10 And I'm also going to refer you to the 13:46              | 10 withdrawal. 13:49                                         |
| 11 section that says "3.1." And I'll read it out loud. 13:46 | 11 Q. Is there a reason why it's a different 13:49           |
| 12 And feel free to take your time reading it as well. 13:46 | 12 rule for a private school versus a public school? 13:49   |
| 13 [As read]: 13:46                                          | 13 A. I guess a public could withdraw. 13:49                 |
| 14 "This Commission, through the 13:46                       | 14 Q. To your knowledge, has any public school 13:49         |
| 15 employment of instrumentalities 13:46                     | 15 ever withdrawn? 13:49                                     |
| 16 hereinafter established, shall 13:47                      | 16 A. No. Just -- they have consolidated; and, 13:49         |
| 17 supervise and control interscholastic 13:47               | 17 therefore, they become a new school, or they've 13:49     |
| 18 athletics and band activities among 13:47                 | 18 closed and have been absorbed into a new school. 13:49    |
| 19 member schools." 13:47                                    | 19 But, to my knowledge, no public school has ever not 13:49 |
| 20 A. Okay. 13:47                                            | 20 been a member. 13:49                                      |
| 21 Q. Did I read this correctly? 13:47                       | 21 Q. Are all public schools in West Virginia 13:49          |
| 22 A. You did. 13:47                                         | 22 currently members? 13:49                                  |
| 23 Q. Is this statement accurate? 13:47                      | 23 A. All public secondary schools 6 through 12, 13:49       |
| 24 MS. GREEN: Object to form. 13:47                          | 24 yes. 13:49                                                |
| 25 THE WITNESS: Yes. 13:47                                   | 25 Q. If a school is not a member of the 13:49               |
| Page 67                                                      | Page 69                                                      |

|                                                             |                                                              |
|-------------------------------------------------------------|--------------------------------------------------------------|
| 1 Commission, could it still offer interscholastic 13:49    | 1 Commission? 13:52                                          |
| 2 sports? 13:49                                             | 2 A. I'm sure they did at one time, yes. 13:52               |
| 3 A. Yes. 13:49                                             | 3 Q. So we're going to stay on the same page, 13:52          |
| 4 Q. Can a school that is not a member compete 13:50        | 4 but I'm going to draw your attention to the section 13:52  |
| 5 with member schools? 13:50                                | 5 that starts with 4.2.b. Says [as read]: 13:52              |
| 6 A. As long as they are a school, yes. 13:50               | 6 "The principal or designee is and 13:52                    |
| 7 Q. So now I would like to draw your attention 13:50       | 7 shall be responsible for conducting 13:52                  |
| 8 to Page 17 of Exhibit 3, it should be just the next 13:50 | 8 interscholastic athletic                                   |
| 9 page down. 13:50                                          | 9 and band activities of the school in                       |
| 10 And I'll ask you to look at the paragraph 13:50          | 10 accordance with the constitution,                         |
| 11 that starts "127-1-4. Membership." 13:50                 | 11 bylaws, rules and regulations of the                      |
| 12 A. Okay. 13:50                                           | 12 Commission which have been adopted by                     |
| 13 Q. And that paragraph says [as read]: 13:50              | 13 the Board of Control of the Commission                    |
| 14 "The WVSSAC shall be composed of the 13:50               | 14 for the governing of such                                 |
| 15 principals or designee, of those public 13:50            | 15 activities." 13:52                                        |
| 16 or private secondary schools which have 13:50            | 16 A. Okay. 13:52                                            |
| 17 certified in writing to the State 13:50                  | 17 Q. Did I read this correctly? 13:52                       |
| 18 Superintendent of Schools of 13:50                       | 18 A. Yes. 13:52                                             |
| 19 West Virginia [paren] (State 13:50                       | 19 Q. Do you believe this statement is accurate? 13:52       |
| 20 Superintendent) that they have elected 13:50             | 20 MS. GREEN: Object to the form. 13:52                      |
| 21 to delegate the control, supervision, 13:50              | 21 THE WITNESS: Yes. 13:52                                   |
| 22 and regulation of their interscholastic 13:50            | 22 BY MS. KANG: 13:52                                        |
| 23 athletic and band activities." 13:50                     | 23 Q. What happens if a principal or a designee 13:52        |
| 24 Did I read that correctly? 13:50                         | 24 breaks one of the Commission's rules? 13:53               |
| 25 A. Yes. 13:50                                            | 25 A. There's a -- depends upon what the rule is 13:53       |
| Page 70                                                     | Page 72                                                      |
| 1 Q. Is this statement accurate? 13:51                      | 1 and how often, it could be a letter of discipline, 13:53   |
| 2 MS. GREEN: Object to the form. 13:51                      | 2 it could be a verbal warning, or it could go all the 13:53 |
| 3 THE WITNESS: Yes. 13:51                                   | 3 way up to suspension or fine. 13:53                        |
| 4 BY MS. KANG: 13:51                                        | 4 Q. So am I right that, when a member school 13:53          |
| 5 Q. What does it mean to "delegate the 13:51               | 5 makes a determination of what students are eligible 13:53  |
| 6 control, supervision, and regulation of their 13:51       | 6 to play secondary sports, it has to follow the rules 13:53 |
| 7 interscholastic athletic and band activities"? 13:51      | 7 and regulations of the Commission? 13:53                   |
| 8 MS. GREEN: Object to the form. 13:51                      | 8 A. Yes. 13:53                                              |
| 9 THE WITNESS: It means that the WVSSAC and 13:51           | 9 Q. So now I'm going to ask you to scroll down 13:53        |
| 10 its member schools will write rules and everybody 13:51  | 10 two more pages to Page 19. It should be stamped 13:53     |
| 11 will follow them. 13:51                                  | 11 WVSSAC000136 of Exhibit 3. Let me know whenever 13:53     |
| 12 And so they can't have rules of their own 13:51          | 12 you're there. 13:53                                       |
| 13 that are separate from the rules that we have all 13:51  | 13 A. Okay. We're there. 13:53                               |
| 14 agreed to. 13:51                                         | 14 Q. I'm sorry. Let me actually take you to 13:54           |
| 15 BY MS. KANG: 13:51                                       | 15 Page 20. That's Bates stamped -137 of Exhibit 3. 13:54    |
| 16 Q. So just to be a clear, a member school 13:51          | 16 A. Okay. 13:54                                            |
| 17 cannot issue its own rules -- is that -- for 13:51       | 17 Q. So in the section that says "127-1-8. 13:54            |
| 18 interscholastic athletics; is that right? 13:51          | 18 Board of Directors," it says [as read]: 13:54             |
| 19 A. Not if it's in conflict with our rule. 13:51          | 19 "The Board of Directors shall have 13:54                  |
| 20 Q. Can it issue rules that are not in 13:51              | 20 authority to administer the regulations 13:54             |
| 21 conflict with the SSAC rules? 13:51                      | 21 of the WVSSAC." 13:54                                     |
| 22 A. Sure. 13:51                                           | 22 Did I read that correctly? 13:54                          |
| 23 Q. Did Bridgeport Middle School delegate its 13:52       | 23 A. You did. 13:54                                         |
| 24 control, supervision, and regulation of 13:52            | 24 Q. Do you believe the statement is accurate? 13:54        |
| 25 interscholastic athletic activities to the 13:52         | 25 A. Yes. 13:54                                             |
| Page 71                                                     | Page 73                                                      |

|                                                               |                                                               |
|---------------------------------------------------------------|---------------------------------------------------------------|
| 1 Q. What does administer the regulations of 13:54            | 1 A. Well, the Commission cannot. The Board of 13:56          |
| 2 the WVSSAC mean? 13:54                                      | 2 Directors can. And then the Board of Review can. 13:56      |
| 3 MS. GREEN: Object to the form. 13:54                        | 3 But the -- the office itself cannot grant waivers. 13:56    |
| 4 THE WITNESS: Make sure everybody is 13:54                   | 4 I'll take that back. 13:56                                  |
| 5 following the rules as written and interpreted. 13:54       | 5 I can grant a waiver if it's been ruled 13:56               |
| 6 (Simultaneously speaking.) 13:54                            | 6 before in a similar fashion by the Board, but I 13:57       |
| 7 BY MS. KANG: 13:54                                          | 7 don't have -- I don't execute that. 13:57                   |
| 8 Q. By "interpreted," who -- 13:54                           | 8 Q. So is it fair to say that if the Board of 13:57          |
| 9 A. The -- 13:55                                             | 9 Review issues a determination of a student's 13:57          |
| 10 Q. -- makes -- oh, sorry. 13:55                            | 10 eligibility and the current student before you has a 13:57 |
| 11 A. Just -- 13:55                                           | 11 similar set of facts, you can rely on that previous 13:57  |
| 12 Q. Did you -- 13:55                                        | 12 determination? 13:57                                       |
| 13 A. As the rules are written. 13:55                         | 13 MS. GREEN: Object to the form. 13:57                       |
| 14 Q. Does it mean anything else? 13:55                       | 14 THE WITNESS: The rule says that, but 13:57                 |
| 15 A. No. 13:55                                               | 15 they're never -- I've yet to find two cases that are 13:57 |
| 16 Q. I'm going to ask you to scroll one more 13:55           | 16 exactly similar. So... 13:57                               |
| 17 page down to the page that's Bates stamped 13:55           | 17 BY MS. KANG: 13:57                                         |
| 18 WVSSAC -138. It should be Page 21 of the pdf of 13:55      | 18 Q. But you have the ability to -- to do so? 13:57          |
| 19 Exhibit 3. 13:55                                           | 19 A. It says that we have the ability to do so, 13:57        |
| 20 A. Okay. 13:55                                             | 20 yes. 13:57                                                 |
| 21 Q. So I'll draw your attention to 13:55                    | 21 Q. So now I'd like to -- we're staying on the 13:57        |
| 22 Section 8.5, which says [as read]: 13:55                   | 22 same page -- draw your attention to Paragraph 8.7 13:57    |
| 23 "The Board of Directors shall have 13:55                   | 23 and 8.8. 13:57                                             |
| 24 power to decide all cases of 13:55                         | 24 So I'll read Paragraph 8.7 first. It says 13:57            |
| 25 eligibility of students and 13:55                          | 25 [as read]: 13:57                                           |
| Page 74                                                       | Page 76                                                       |
| 1 participants in interscholastic 13:55                       | 1 "At the request of the Board of 13:58                       |
| 2 athletic and band activities. The 13:55                     | 2 Directors, a Deputy Board Member may 13:58                  |
| 3 Board may also exercise discretionary 13:55                 | 3 investigate matters of eligibility and 13:58                |
| 4 powers it may deem necessary for the 13:55                  | 4 other violations of the rules and 13:58                     |
| 5 furtherance of education and 13:55                          | 5 regulations of the WVSSAC. The Deputy 13:58                 |
| 6 interscholastic athletic and band 13:55                     | 6 Board Member shall submit to the Board 13:58                |
| 7 activities in the secondary schools of 13:56                | 7 of Directors a written report of 13:58                      |
| 8 West Virginia." 13:56                                       | 8 findings and recommendations for 13:58                      |
| 9 Did I read that correctly? 13:56                            | 9 disposition of the case(s)." 13:58                          |
| 10 A. You did. 13:56                                          | 10 Did I read that correctly? 13:58                           |
| 11 Q. Do you believe this statement is accurate? 13:56        | 11 A. You did. 13:58                                          |
| 12 MS. GREEN: Object to the form. 13:56                       | 12 Q. Do you believe this statement is accurate? 13:58        |
| 13 THE WITNESS: Yes. 13:56                                    | 13 MS. GREEN: Object to form. 13:58                           |
| 14 BY MS. KANG: 13:56                                         | 14 THE WITNESS: Yes. 13:58                                    |
| 15 Q. What does it mean "Shall have the power to 13:56        | 15 BY MS. KANG: 13:58                                         |
| 16 decide all cases of eligibility of students and 13:56      | 16 Q. When would the Board of Directors request 13:58         |
| 17 participants in interscholastic athletic and band 13:56    | 17 an investigation into matters of eligibility? 13:58        |
| 18 activities"? 13:56                                         | 18 A. If something was brought to them by a 13:58             |
| 19 MS. GREEN: Object to form. 13:56                           | 19 member school or the public at large. 13:58                |
| 20 THE WITNESS: If I have -- if the school 13:56              | 20 Q. Are there any Deputy Board Members 13:58                |
| 21 or I have determined somebody to be ineligible, they 13:56 | 21 currently? 13:58                                           |
| 22 can grant a waiver to make them eligible. 13:56            | 22 A. There are ten. 13:58                                    |
| 23 BY MS. KANG: 13:56                                         | 23 Q. Who do they report to? 13:58                            |
| 24 Q. Can anyone other than the Commission grant 13:56        | 24 A. They have very few -- very few 13:58                    |
| 25 a waiver? 13:56                                            | 25 responsibilities. We have not asked them to 13:59          |
| Page 75                                                       | Page 77                                                       |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1 investigate. We -- you know, we feel like it has 13:59</p> <p>2 put some them in difficult positions. So most of 13:59</p> <p>3 the investigations come out of our office. 13:59</p> <p>4 Q. Can you tell me a little bit more about 13:59</p> <p>5 putting them in difficult positions; what you mean 13:59</p> <p>6 by that. 13:59</p> <p>7 A. If they have to go into somebody else's 13:59</p> <p>8 school and make a determination on eligibility or 13:59</p> <p>9 where somebody lives, it could be a rival school and 13:59</p> <p>10 people might not want them there. 13:59</p> <p>11 So, you know, we have taken it over 13:59</p> <p>12 because it's unbiased if we're looking at it. 13:59</p> <p>13 Q. So are the Deputy Board Members designees 13:59</p> <p>14 or members of the member school? 13:59</p> <p>15 A. They are principals of a member school, 13:59</p> <p>16 yes. 14:00</p> <p>17 Q. So now on Paragraph 8.8 it says [as read]: 14:00</p> <p>18 "The Board of Directors shall have 14:00</p> <p>19 the power to investigate through the</p> <p>20 Deputy Board Member, or in</p> <p>21 such other manner as may be found</p> <p>22 advisable, matters of eligibility and</p> <p>23 other violations of rules when the</p> <p>24 Board deems it advisable to do so on</p> <p>25 the basis of information furnished,</p> <p style="text-align: right;">Page 78</p> | <p>1 A. A formal protest would be somebody's -- 14:01</p> <p>2 has written it and put their name to it. 14:01</p> <p>3 Informal would be an anonymous letter or a 14:01</p> <p>4 phone call. 14:01</p> <p>5 Q. So I'm going to ask you to scroll one page 14:01</p> <p>6 down in Exhibit 3 to the page that is Bates 14:01</p> <p>7 Stamped -139. It should be Page 22 of the pdf. 14:01</p> <p>8 A. Okay. 14:01</p> <p>9 Q. So I am looking at Section 127-1-9 titled 14:01</p> <p>10 "Funds." 14:01</p> <p>11 A. Okay. 14:01</p> <p>12 Q. How -- how is the Commission funded? 14:01</p> <p>13 A. All of our revenue comes from championship 14:02</p> <p>14 events, ticket sales at championship events; 14:02</p> <p>15 Regional basketball ticket sales; 14:02</p> <p>16 Playoffs for football; 14:02</p> <p>17 Registering of officials; 14:02</p> <p>18 Coaches Education; 14:02</p> <p>19 And corporate partnership. 14:02</p> <p>20 Q. Are there any other sources of revenue? 14:02</p> <p>21 A. None of any significance. 14:02</p> <p>22 Q. By "none of any significance," what do you 14:02</p> <p>23 mean? 14:02</p> <p>24 A. There would be maybe some fines in there 14:02</p> <p>25 for people -- coaches not paying -- or not 14:02</p> <p style="text-align: right;">Page 80</p>                                          |
| <p>1 even though a formal protest is not</p> <p>2 filed."</p> <p>3 Did I read that correctly? 14:00</p> <p>4 A. You did. 14:00</p> <p>5 Q. Is this statement accurate? 14:00</p> <p>6 MS. GREEN: Object to the form. 14:00</p> <p>7 THE WITNESS: It is. 14:00</p> <p>8 BY MS. KANG: 14:00</p> <p>9 Q. So when would the Board -- when would the 14:00</p> <p>10 Board deem it advisable to investigate matters of 14:00</p> <p>11 eligibility even without formal protest? 14:00</p> <p>12 A. Sometimes they -- 14:00</p> <p>13 MS. GREEN: Object to the form. 14:00</p> <p>14 I'm sorry. 14:00</p> <p>15 THE WITNESS: Oh. I'm sorry. 14:00</p> <p>16 Sometimes they get anonymous letters that 14:00</p> <p>17 would supply some information; and, you know, they 14:00</p> <p>18 would -- now they would ask us because I also can 14:00</p> <p>19 investigate. And so we would do it and then -- 14:00</p> <p>20 instead of our Board -- Deputy Board just because we 14:01</p> <p>21 don't want to put them in a position where they 14:01</p> <p>22 would be ruling on a -- sometimes a competitor. 14:01</p> <p>23 BY MS. KANG: 14:01</p> <p>24 Q. And what is the difference between a 14:01</p> <p>25 formal protest versus an informal protest? 14:01</p> <p style="text-align: right;">Page 79</p>                                                                                        | <p>1 evaluating their officials or not putting scores in. 14:02</p> <p>2 Things like that. 14:02</p> <p>3 Q. How much money are those fines usually? 14:02</p> <p>4 A. \$25 or \$50 or \$10, depending upon what it 14:02</p> <p>5 is for. 14:03</p> <p>6 Q. Now, you mentioned the Coaches Education. 14:03</p> <p>7 Could you tell me a bit more about what that is. 14:03</p> <p>8 A. The legislature requires that our coaches 14:03</p> <p>9 who are non-teachers must have a Coaches Education. 14:03</p> <p>10 And this is a State Board of Education. But they 14:03</p> <p>11 have charged us with providing the education, but 14:03</p> <p>12 State Board of Education would do the certification. 14:03</p> <p>13 Q. Do the coaches pay the Commission for this 14:03</p> <p>14 education? 14:03</p> <p>15 A. They do. 14:03</p> <p>16 Q. Is the Commission a for-profit 14:03</p> <p>17 organization? 14:03</p> <p>18 A. We are not. 14:03</p> <p>19 Q. Do you receive any funds from the federal 14:03</p> <p>20 government? 14:03</p> <p>21 A. We received from -- some pandemic funds. 14:03</p> <p>22 But that was all through the small 14:03</p> <p>23 business authority. 14:04</p> <p>24 Q. Anything else? 14:04</p> <p>25 A. We have received GEAR funding from -- 14:04</p> <p style="text-align: right;">Page 81</p> |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1 through the Department of Education for monies to go 14:04</p> <p>2 back to the school through AEDs, wet globe bulbs 14:04</p> <p>3 [verbatim], reimbursement for travel, things like 14:04</p> <p>4 that. 14:04</p> <p>5 Because everybody was in short -- low 14:04</p> <p>6 attendance, and so we were trying to find a way to 14:04</p> <p>7 help them with their money. 14:04</p> <p>8 Q. By "gear funding," do you mean sports gear 14:04</p> <p>9 or... 14:04</p> <p>10 A. For them they also had limited attendance 14:04</p> <p>11 and limited games. So -- 14:04</p> <p>12 Did I miss the question? 14:04</p> <p>13 Okay. What was your question again? 14:04</p> <p>14 Q. Oh. I just asked that by "gear funding," 14:04</p> <p>15 did you mean sports gear? 14:04</p> <p>16 A. No. No. It is -- I think it's -- GEAR is 14:05</p> <p>17 the program. 14:05</p> <p>18 Q. Understood. 14:05</p> <p>19 And was this all during the pandemic? 14:05</p> <p>20 A. Yes, ma'am. 14:05</p> <p>21 Q. Do you receive any funds from your member 14:05</p> <p>22 schools? 14:05</p> <p>23 A. The only funds we receive at this time 14:05</p> <p>24 would be fines that they would have to pay for not 14:05</p> <p>25 attending, not putting in scores. 14:05</p> <p style="text-align: right;">Page 82</p>                                                                     | <p>1 services to the school? 14:07</p> <p>2 Q. Let's start with cash sent back to them. 14:07</p> <p>3 MS. GREEN: Object to the form. 14:07</p> <p>4 THE WITNESS: I would say \$300,000 out of 14:07</p> <p>5 a probably \$1.5 million budget. 14:07</p> <p>6 BY MS. KANG: 14:07</p> <p>7 Q. So what about services? 14:07</p> <p>8 A. The services -- oh. I'm sorry. 14:07</p> <p>9 Services would be higher because -- I 14:07</p> <p>10 would think it's probably closer to \$700,000 14:07</p> <p>11 depending upon what you call as "giving back". 14:07</p> <p>12 You know, if it's -- some people would say 14:07</p> <p>13 that the expenses to put on tournaments is a way to 14:07</p> <p>14 give back. 14:07</p> <p>15 Direct expenses would be, you know, the 14:07</p> <p>16 things that we are purchasing for them right now, 14:07</p> <p>17 which would be the AED and the wet globe bulb and 14:07</p> <p>18 the cooling submersion tubs. 14:07</p> <p>19 Q. So what -- what is encompassed in the term 14:08</p> <p>20 "services"? 14:08</p> <p>21 A. Services. Each -- each season we travel 14:08</p> <p>22 around the state to meet with all principals for a 14:08</p> <p>23 regional principal meeting. 14:08</p> <p>24 We also travel around the state to meet 14:08</p> <p>25 with each sport during each -- at the beginning of 14:08</p> <p style="text-align: right;">Page 84</p>                                                    |
| <p>1 Sometimes our events might be held at 14:05</p> <p>2 their schools; so they would collect the gate and 14:05</p> <p>3 then write us a check. 14:05</p> <p>4 But that's pretty much all we get from the 14:05</p> <p>5 schools. 14:05</p> <p>6 Q. And how much are the fines? 14:05</p> <p>7 A. For not putting in an evaluation, it's 14:05</p> <p>8 \$10; 14:05</p> <p>9 For not doing your eligibility, it's \$25; 14:05</p> <p>10 And if you don't put in a score, it's \$50. 14:05</p> <p>11 Q. Is any of the Commission's revenue shared 14:06</p> <p>12 with the member schools? 14:06</p> <p>13 A. Yes. 14:06</p> <p>14 Q. How is it shared? 14:06</p> <p>15 A. We -- we give reimbursement back to the 14:06</p> <p>16 schools. Each sport has a different formula, but we 14:06</p> <p>17 help with travel and meal money at most of the 14:06</p> <p>18 events. 14:06</p> <p>19 At football they also get a commission of 14:06</p> <p>20 the gate. 20 percent the first week, 15 percent the 14:06</p> <p>21 second, 10 the third, and 5 at the championship. 14:06</p> <p>22 Q. If you had to estimate, what percentage of 14:06</p> <p>23 Commission funds go to the member schools? 14:06</p> <p>24 A. When you say go to the schools, you mean 14:06</p> <p>25 actually cash sent back to them? Or do you mean 14:07</p> <p style="text-align: right;">Page 83</p> | <p>1 each season to make sure -- we go over all the rules 14:08</p> <p>2 and regulations that are current. 14:08</p> <p>3 Those are some of -- as well as expenses 14:08</p> <p>4 that we incur hosting the tournaments for them. 14:08</p> <p>5 And the coaches -- you know, we have -- we 14:08</p> <p>6 have expenses in materials for Coaches Education. 14:08</p> <p>7 Q. I believe you mentioned you stopped 14:09</p> <p>8 collecting dues from your members. 14:09</p> <p>9 Do you currently have any plans to resume 14:09</p> <p>10 collecting dues? 14:09</p> <p>11 A. No. We have a proposal from one of our 14:09</p> <p>12 principals for this year to strike out the -- all of 14:09</p> <p>13 the dues' language and inserting language in there 14:09</p> <p>14 that says, "Could resume at any time when 14:09</p> <p>15 necessary." 14:09</p> <p>16 Q. So, now, sticking with Exhibit 3, I'm 14:09</p> <p>17 actually going to ask you to go back up to Page 6 of 14:09</p> <p>18 the pdf and the Bates stamp is WVSSAC000123. And 14:09</p> <p>19 let me know whenever you get there. 14:09</p> <p>20 A. Okay. 14:10</p> <p>21 Q. So I'm going to direct you to the 14:10</p> <p>22 paragraph that begins with "Discrimination 14:10</p> <p>23 Prohibited." 14:10</p> <p>24 Take your time reading it, and let me know 14:10</p> <p>25 whenever you are finished reading that paragraph. 14:10</p> <p style="text-align: right;">Page 85</p> |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| <p>1 A. [Witness reviews document]. 14:10</p> <p>2 Okay. 14:10</p> <p>3 Q. Do you know who wrote this portion of the 14:10</p> <p>4 handbook? 14:10</p> <p>5 A. I do not. 14:10</p> <p>6 Q. Do you know how long this portion has been 14:10</p> <p>7 in the handbook? 14:10</p> <p>8 A. I do not. 14:10</p> <p>9 Q. Do you remember ever reviewing this 14:10</p> <p>10 section of the handbook? 14:10</p> <p>11 A. Yes. 14:10</p> <p>12 Q. When did you review it? 14:11</p> <p>13 A. I -- 14:11</p> <p>14 Q. Oh. Go ahead. 14:11</p> <p>15 A. I would say a couple of years ago. We've 14:11</p> <p>16 tried to have a book study and go through all of 14:11</p> <p>17 these. 14:11</p> <p>18 Q. When you reviewed it a couple of years 14:11</p> <p>19 ago, did you believe the Commission was required to 14:11</p> <p>20 comply with Title IX? 14:11</p> <p>21 A. Yes. 14:11</p> <p>22 Q. Is the Commission currently required to 14:11</p> <p>23 comply with Title IX? 14:11</p> <p>24 MS. GREEN: I'll just object to the form. 14:11</p> <p>25 THE WITNESS: I would believe that the 14:11</p> <p style="text-align: right;">Page 86</p>                                                           | <p>1 Sportsmanship is that everybody's on a 14:12</p> <p>2 fair playing field. And the -- you should be 14:12</p> <p>3 gracious in losing and winning. 14:13</p> <p>4 Q. What do you mean by "fair playing field"? 14:13</p> <p>5 MS. GREEN: Object to the form. 14:13</p> <p>6 THE WITNESS: Same age. Same gender. 14:13</p> <p>7 BY MS. KANG: 14:13</p> <p>8 Q. Anything else? 14:13</p> <p>9 A. No. 14:13</p> <p>10 When I say "same age," it would be same 14:13</p> <p>11 programatic level. So middle -- middle school kids 14:13</p> <p>12 cannot play against high school but freshmen can 14:13</p> <p>13 play against seniors. 14:13</p> <p>14 Q. What are physical -- the physical and 14:13</p> <p>15 social benefits that are referenced in this 14:13</p> <p>16 paragraph? 14:13</p> <p>17 A. Just good -- for one, just good health. 14:13</p> <p>18 Participation. Also, you know, we believe that 14:13</p> <p>19 it's -- the competitive part is good, and the 14:14</p> <p>20 training part is beneficial to the student athlete. 14:14</p> <p>21 Q. Why do you believe it's beneficial? 14:14</p> <p>22 A. Studies we have read. And as a 14:14</p> <p>23 participant a long time ago. 14:14</p> <p>24 Q. What does "partisanship and prejudice" 14:14</p> <p>25 mean in this paragraph? 14:14</p> <p style="text-align: right;">Page 88</p>                                                           |
| <p>1 schools are required to follow Title IX. But I 14:11</p> <p>2 believe we believe it also. 14:11</p> <p>3 BY MS. KANG: 14:11</p> <p>4 Q. Now, I want to turn your attention to the 14:11</p> <p>5 section below that titled "Beliefs and Objectives." 14:11</p> <p>6 Take a moment to read the first paragraph 14:11</p> <p>7 and let me know whenever you are done. 14:11</p> <p>8 A. [Witness reviews document]. 14:11</p> <p>9 Okay. 14:12</p> <p>10 Q. What are "proper ideals of sportsmanship," 14:12</p> <p>11 as written in this paragraph? 14:12</p> <p>12 MS. GREEN: Object to the form. 14:12</p> <p>13 THE WITNESS: Are you on Paragraph 1 or 3? 14:12</p> <p>14 BY MS. KANG: 14:12</p> <p>15 Q. Paragraph 1 [verbatim] of the Beliefs and 14:12</p> <p>16 Objectives section. 14:12</p> <p>17 A. What was your question again? 14:12</p> <p>18 Q. Sure. 14:12</p> <p>19 What are -- what are the proper ideals of 14:12</p> <p>20 sportsmanship? 14:12</p> <p>21 I'm sorry. I -- 14:12</p> <p>22 A. The -- 14:12</p> <p>23 Q. I am referring to Paragraph 3. You had it 14:12</p> <p>24 right the first time. 14:12</p> <p>25 A. Okay. 14:12</p> <p style="text-align: right;">Page 87</p> | <p>1 A. Partisanship and prejudice would mean that 14:14</p> <p>2 it's equal. You know, one side -- especially 14:14</p> <p>3 with -- you know, as far as equipment or what -- if 14:14</p> <p>4 you come to a game, you can't have lush seats for 14:15</p> <p>5 you and the other team have foldable chairs and 14:15</p> <p>6 things like that. So that's part- -- partisan. 14:15</p> <p>7 You know, all the equipment at a game has 14:15</p> <p>8 to be the same equipment everybody is using. Same 14:15</p> <p>9 ball. Same rims. Everything is the same. 14:15</p> <p>10 Q. What do you mean by "prejudice" in this 14:15</p> <p>11 paragraph? 14:15</p> <p>12 A. Prejudice would mean, you know -- you 14:15</p> <p>13 know, is there some advantage to one team over 14:15</p> <p>14 another. 14:15</p> <p>15 Q. What sort of advantage are you referring 14:15</p> <p>16 to? 14:15</p> <p>17 A. Could be something as simple as a tarp 14:15</p> <p>18 over your bench as opposed to the other team not 14:15</p> <p>19 having it; 14:15</p> <p>20 Could be as simple as a heater. You might 14:16</p> <p>21 have a heater on a sideline at a cold game and they 14:16</p> <p>22 don't. 14:16</p> <p>23 So things that would make the game unfair 14:16</p> <p>24 that are outside of the game. 14:16</p> <p>25 Q. Is there anything else that you believe 14:16</p> <p style="text-align: right;">Page 89</p> |

|                                                              |                                                              |
|--------------------------------------------------------------|--------------------------------------------------------------|
| 1 would make the game unfair? 14:16                          | 1 BY MS. KANG: 14:19                                         |
| 2 MS. GREEN: Object to the form. 14:16                       | 2 Q. And, Mr. Dolan, let me know whenever you 14:19          |
| 3 THE WITNESS: There are probably other 14:16                | 3 have it up. 14:19                                          |
| 4 things, but right off the top of my head not sure. 14:16   | 4 A. Okay. 14:19                                             |
| 5 Could be something as simple as how far 14:16              | 5 MS. GREEN: Counsel, was there a certain 14:19              |
| 6 you got to walk to your locker room in between 14:16       | 6 page in the exhibit? 14:19                                 |
| 7 games. 14:16                                               | 7 MS. KANG: Yeah. 14:19                                      |
| 8 BY MS. KANG: 14:16                                         | 8 BY MS. KANG: 14:19                                         |
| 9 Q. Do you believe that allowing transgender 14:16          | 9 Q. If you go to Page 6 to start, that would 14:19          |
| 10 students to participate on sports teams consistent 14:16  | 10 be great. And the Bates stamp is -365. 14:19              |
| 11 with their gender identity is consistent with the 14:16   | 11 MS. GREEN: I'm sorry. 14:19                               |
| 12 goals identified in this paragraph? 14:16                 | 12 THE WITNESS: That's fine. 14:19                           |
| 13 MS. GREEN: Object to the form. 14:16                      | 13 Is this the "2016-'17 Participation 14:19                 |
| 14 THE WITNESS: I believe our -- our Board 14:16             | 14 Report"? 14:19                                            |
| 15 policy was that, if it was not safe or unfair 14:16       | 15 BY MS. KANG: 14:19                                        |
| 16 advantage, then it would be okay for them to 14:17        | 16 Q. Do you believe it is? 14:19                            |
| 17 participate. 14:17                                        | 17 A. Okay. 14:20                                            |
| 18 BY MS. KANG: 14:17                                        | 18 [Witness reviews document]. 14:20                         |
| 19 Q. Does Bridgeport Middle School 14:17                    | 19 Okay. 14:20                                               |
| 20 cross-country count as an interscholastic athletic? 14:17 | 20 Q. So I'm going to represent to you that this 14:20       |
| 21 A. It does. 14:17                                         | 21 is a document that was produced by your counsel in 14:20  |
| 22 MS. KANG: So I'm actually about to move 14:17             | 22 response to one of plaintiff's discovery requests. 14:20  |
| 23 into the next session. I think we are up on an 14:17      | 23 If you want to read the text of the 14:20                 |
| 24 hour. 14:17                                               | 24 request, it's Request Number 15 in this same 14:20        |
| 25 Roberta, do you have preference as to 14:17               | 25 document. 14:20                                           |
| Page 90                                                      | Page 92                                                      |
| 1 whether you want me to get started or you want to 14:17    | 1 Do you recognize this document that is 14:20               |
| 2 take a break now? 14:17                                    | 2 before you right now? 14:20                                |
| 3 THE WITNESS: I'm good. 14:17                               | 3 A. I do. 14:20                                             |
| 4 MS. GREEN: All right. Let's do -- 14:17                    | 4 Q. What is it? 14:20                                       |
| 5 THE WITNESS: I can't go to the bathroom. 14:17             | 5 A. This is a participation -- the National 14:20           |
| 6 MS. GREEN: I know. Really no need for a 14:17              | 6 Federation of High School keeps track of how many 14:20    |
| 7 bathroom break over here. 14:18                            | 7 participants are in each sport, trying to find 14:20       |
| 8 MS. KANG: All right. Well, if it's okay 14:18              | 8 trends among the sports, which ones are growing, 14:20     |
| 9 with you, we'll go on a little bit longer. 14:18           | 9 which ones are falling; and if they are falling, how 14:20 |
| 10 Let me know if you do need a break. 14:18                 | 10 come. 14:20                                               |
| 11 So we can take down Exhibit 3. 14:18                      | 11 Q. What is the National Federation of State 14:21         |
| 12 BY MS. KANG: 14:18                                        | 12 High School Associations? 14:21                           |
| 13 Q. And I want to talk a little bit about some 14:18       | 13 A. It is the association of 51 members, the 14:21         |
| 14 of the statistics that the Commission turns over to 14:18 | 14 50 states plus Washington, D.C., and they primarily 14:21 |
| 15 various organizations. 14:18                              | 15 provide the sport-specific rules for almost all of 14:21  |
| 16 So I'm going to introduce an exhibit that 14:18           | 16 our events. 14:21                                         |
| 17 will be marked as Exhibit 4. 14:18                        | 17 Q. How long have you provided these 14:21                 |
| 18 MS. KANG: And I'll let you know when it's 14:18           | 18 statistics to the Federation? 14:21                       |
| 19 in everyone's folders. 14:18                              | 19 A. To be honest with you, they've been 14:21              |
| 20 (Deposition Exhibit 4 was marked for 14:19                | 20 tracking them, but I couldn't tell you how long we 14:21  |
| 21 identification and is attached hereto.) 14:19             | 21 have. 14:21                                               |
| 22 MS. KANG: Exhibit 4 should now be in 14:19                | 22 Q. Do you think it's -- 14:21                             |
| 23 everyone's Marked Exhibit folder. 14:19                   | 23 A. I would assume. 14:21                                  |
| 24 Let me know if anyone has trouble 14:19                   | 24 Q. Go ahead. 14:21                                        |
| 25 accessing it. 14:19                                       | 25 A. I would assume -- it's a -- it's an 14:21              |
| Page 91                                                      | Page 93                                                      |

|                                                              |                                                               |
|--------------------------------------------------------------|---------------------------------------------------------------|
| 1 ongoing thing; so I would think it's probably been 14:21   | 1 Q. So it's any grade from 9 to 12? 14:24                    |
| 2 done for a number of years. 14:21                          | 2 A. It's a combination of 9 through 12, yes. 14:24           |
| 3 Q. More than ten? 14:21                                    | 3 Q. If we go over to the third column, the one 14:24         |
| 4 A. Yes. 14:21                                              | 4 that says "Male," what does that mean? 14:24                |
| 5 Q. More than 20? 14:21                                     | 5 A. That -- it's the same -- when we do our 14:24            |
| 6 A. Probably. 14:21                                         | 6 eligibility sheets by sport, for instance, football, 14:24  |
| 7 Q. Why do you provide these statistics to the 14:21        | 7 football doesn't differentiate between boys and 14:24       |
| 8 NFHS? 14:22                                                | 8 girls. It's -- they're asking for the number of 14:24       |
| 9 A. They -- they gather them for the whole 14:22            | 9 participants. 14:25                                         |
| 10 country to try to monitor which sports are growing 14:22  | 10 When you get to girls' track, it can only 14:25            |
| 11 in popularity and which ones might not be. And the 14:22  | 11 be done by girls; so, therefore, that -- that's why 14:25  |
| 12 ones that aren't, they're trying to look and see 14:22    | 12 there's not -- there's a zero in girls' track for 14:25    |
| 13 why. 14:22                                                | 13 males and boys' track has a number but girls' does 14:25   |
| 14 Q. I'm just going to ask you a few questions 14:22        | 14 not. 14:25                                                 |
| 15 to help me understand how to read this chart. 14:22       | 15 So football is the number of participants. 14:25           |
| 16 Did you prepare this document? 14:22                      | 16 So in the blue column under "Male," it would be the 14:25  |
| 17 A. I personally did not prepare it. But this 14:22        | 17 number of male -- or number of people in football. 14:25   |
| 18 is a document prepared by our office, yes. 14:22          | 18 Could be male or female because our eligibility 14:25      |
| 19 Q. Do you know who prepared this document? 14:22          | 19 doesn't differentiate between the two. 14:25               |
| 20 A. Alice Goodwin in our office. 14:22                     | 20 Q. So just to be clear, even if a girl plays 14:25         |
| 21 Q. What's her position? 14:22                             | 21 on the football team, she will not show up in the 14:25    |
| 22 A. Secretary. 14:22                                       | 22 column that says "Female" for football? 14:25              |
| 23 Q. Is she your secretary? 14:22                           | 23 A. That's correct. Because they're asking 14:25            |
| 24 A. No. 14:22                                              | 24 for the number of participants in football, and it's 14:25 |
| 25 Q. Do you know which secretary she is? 14:22              | 25 primarily football -- it's primarily a male sport. 14:26   |
| Page 94                                                      | Page 96                                                       |
| 1 A. Well, we don't all have specific 14:22                  | 1 So it falls under the male category. That's the 14:26       |
| 2 secretaries. She works primarily with Greg Reed, 14:23     | 2 best we could do for them. 14:26                            |
| 3 but we all ask different people to do different 14:23      | 3 Similarly, cheer is primarily a cheer 14:26                 |
| 4 things, depending upon what the level of activity 14:23    | 4 event, but there are boys. But there's no number in 14:26   |
| 5 going on in the office for that particular staff 14:23     | 5 there. So we just -- it's just the total number in 14:26    |
| 6 member is. 14:23                                           | 6 that -- for that particular sport. 14:26                    |
| 7 Q. What is Greg Reed's role? 14:23                         | 7 Q. Okay. Scroll all the way over to the 14:26               |
| 8 A. Assistant executive director. 14:23                     | 8 gray-colored columns. They're labeled as 14:26              |
| 9 Q. Do you contribute any information to this 14:23         | 9 "Mid/Junior." 14:26                                         |
| 10 document? 14:23                                           | 10 What does "Mid/Junior" mean? 14:26                         |
| 11 A. This document is -- I personally do not. 14:23         | 11 A. It was either middle school or junior high 14:26        |
| 12 It's pulled from our website. And it probably -- it 14:23 | 12 and -- you know. I don't believe we have any more 14:26    |
| 13 is self-populating, I believe. So she doesn't 14:23       | 13 junior high. So probably could be fixed to say just 14:26  |
| 14 actually type it in there. They pull it from our 14:23    | 14 middle school. 14:26                                       |
| 15 eligibility sheets. 14:23                                 | 15 Q. What grades would those be? 14:26                       |
| 16 Q. And who is "they"? 14:23                               | 16 A. 6th through 8. 14:26                                    |
| 17 A. Our -- our web designer created this form, 14:23       | 17 Q. So now I'm going to ask you to -- to 14:26              |
| 18 and it self-populates from that form, from their 14:24    | 18 scroll down to Page 11. It will be Bates 14:27             |
| 19 eligibility. 14:24                                        | 19 stamped -370. 14:27                                        |
| 20 Q. So in the second column of this chart, it 14:24        | 20 Let me know whenever you get there. 14:27                  |
| 21 says "Senior." 14:24                                      | 21 A. Okay. 14:27                                             |
| 22 What does that mean? 14:24                                | 22 Q. So the last year that you produced this 14:27           |
| 23 A. "Senior" means "high school." 14:24                    | 23 document is 2020 to 2021. 14:27                            |
| 24 Q. So senior -- 14:24                                     | 24 Do you know when the 2021 to 2022 14:27                    |
| 25 A. 9 through 12. 14:24                                    | 25 statistics will be published? 14:27                        |
| Page 95                                                      | Page 97                                                       |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1 A. We submitted them over the summer. 14:27</p> <p>2 Obviously, our spring sports aren't -- aren't in 14:27</p> <p>3 place yet. So we wouldn't have numbers for them. 14:27</p> <p>4 Q. For the 2021 to 2022 period, do you know 14:27</p> <p>5 if B.P.J. will be listed in the "Female" column or 14:27</p> <p>6 the "Male" column? 14:27</p> <p>7 MS. GREEN: Object to form. 14:28</p> <p>8 THE WITNESS: Which team is she on? 14:28</p> <p>9 BY MS. KANG: 14:28</p> <p>10 Q. She is on the cross-country team for 14:28</p> <p>11 girls. 14:28</p> <p>12 A. And then that's where she will be listed. 14:28</p> <p>13 Because it's just pulling the number off of the 14:28</p> <p>14 eligibility of that particular team. 14:28</p> <p>15 Q. And the numbers that are submitted, are 14:28</p> <p>16 they coming from the member schools themselves? 14:28</p> <p>17 A. They -- the member schools have to submit 14:28</p> <p>18 their eligibility on our site. And from there, 14:28</p> <p>19 it takes the total of each school and puts them in 14:28</p> <p>20 their category. 14:28</p> <p>21 Q. So I'm going to ask you to scroll down one 14:28</p> <p>22 more page to the doc- -- to the document that is 14:28</p> <p>23 Bates Stamped -371. 14:28</p> <p>24 A. Okay. 14:28</p> <p>25 Q. So this is also a document that was 14:28</p> <p style="text-align: right;">Page 98</p> | <p>1 2018 to 2019. Is there a reason why we don't have 14:30</p> <p>2 the 2019 to 2020 statistics? 14:30</p> <p>3 A. I don't know if that's the most recent 14:30</p> <p>4 one. Because obviously with COVID and them not 14:30</p> <p>5 working from the office for a long period of time, I 14:30</p> <p>6 don't know if they have not submitted the most 14:30</p> <p>7 recent years. 14:30</p> <p>8 Q. So in the column that says "Boys School," 14:30</p> <p>9 what does this column indicate? 14:30</p> <p>10 A. Are we still on Page 7? 14:30</p> <p>11 Q. Yes. We are -- we are on Page 12. 14:31</p> <p>12 A. 12. Okay. 14:31</p> <p>13 Q. The Bates stamp is -371. 14:31</p> <p>14 A. And which one am I looking for? 14:31</p> <p>15 Q. Yeah. So if you go over, it's the fourth 14:31</p> <p>16 column. It says "Boys School." 14:31</p> <p>17 A. Boys -- okay. 14:31</p> <p>18 Q. Yeah. 14:31</p> <p>19 A. These are -- these are the schools that 14:31</p> <p>20 are offering basketball. If you are looking at 14:31</p> <p>21 basketball, there is 124 schools who are offering 14:31</p> <p>22 boys' basketball. And there are 124 schools that 14:31</p> <p>23 are offering girls' basketball. 14:31</p> <p>24 You'll notice that "Baseball" has 122. 14:31</p> <p>25 There are no girls -- there are no girls' baseball 14:31</p> <p style="text-align: right;">Page 100</p>                       |
| <p>1 produced by your counsel in response to one of 14:29</p> <p>2 plaintiff's discovery requests. 14:29</p> <p>3 If you want the read the text of that 14:29</p> <p>4 request, you can look at Request 14 on Page -4 of 14:29</p> <p>5 this exhibit. 14:29</p> <p>6 Do you recognize this document? 14:29</p> <p>7 A. This is a form from the National 14:29</p> <p>8 Federation that puts our participation numbers into 14:29</p> <p>9 their chart. 14:29</p> <p>10 So the numbers that came off of that chart 14:29</p> <p>11 for '18/'19 would match these numbers. 14:29</p> <p>12 All those sports that are activities that 14:29</p> <p>13 are -- have zeros by them, those are activities or 14:29</p> <p>14 sports that we do not offer. But they are offered 14:29</p> <p>15 through the National Federation. 14:29</p> <p>16 Q. So you do not -- you as a Commission do 14:29</p> <p>17 not make this form? 14:29</p> <p>18 A. No. They send this back to us. This is 14:29</p> <p>19 basically a verification of the form we sent to 14:30</p> <p>20 them. 14:30</p> <p>21 Q. So is it fair to say that the National 14:30</p> <p>22 Federation takes information that you give them and 14:30</p> <p>23 puts it into this form? 14:30</p> <p>24 A. Yes, ma'am. 14:30</p> <p>25 Q. So I noticed that the year only goes to 14:30</p> <p style="text-align: right;">Page 99</p>         | <p>1 teams. That's why it is a "0." 14:31</p> <p>2 Q. Got it. 14:31</p> <p>3 And then the boys participation, does that 14:31</p> <p>4 reflect that 3,052 boys participated of the 14:31</p> <p>5 124 schools that offer boys' basketball? 14:32</p> <p>6 A. Yes. 14:32</p> <p>7 And I would believe this is just high 14:32</p> <p>8 school. It's not middle school also. 14:32</p> <p>9 Q. Do you know if co-ed teams are reflected 14:32</p> <p>10 on the chart? 14:32</p> <p>11 A. Again, co-ed teams would be -- they would 14:32</p> <p>12 be reflected as the -- the majority sport. So, for 14:32</p> <p>13 instance, baseball, it could be co-ed if a girl 14:32</p> <p>14 wanted to play baseball. But she would be listed on 14:32</p> <p>15 the -- the school was offering boys' baseball -- or 14:32</p> <p>16 they are offering baseball, the girl would simply be 14:32</p> <p>17 listed on the eligibility and be counted as a 14:32</p> <p>18 baseball participant, not as a female. 14:33</p> <p>19 So in this -- this study that they are 14:33</p> <p>20 doing is simply the number of participants in that 14:33</p> <p>21 sport, not a breakdown of boys and girls if it's 14:33</p> <p>22 co-ed. 14:33</p> <p>23 Q. Who determines whether to make a team 14:33</p> <p>24 co-ed? 14:33</p> <p>25 A. Well, if you have enough boys and have 14:33</p> <p style="text-align: right;">Page 101</p> |

27 (Pages 102 - 105)

|                                                               |                                                               |
|---------------------------------------------------------------|---------------------------------------------------------------|
| 1 A. Try -- 14:40                                             | 1 A. I -- I'm not sure. I don't know if it's 14:43            |
| 2 Q. It should be Exhibit 3. It should be 14:40               | 2 gone that far. But I would say a significant 14:43          |
| 3 Page 17, and the Bates stamp should end in -148. 14:40      | 3 number, yes. I don't know if it's made it to 20. 14:43      |
| 4 A. Page 17 talks about our membership. 14:40                | 4 Q. Fair enough. 14:43                                       |
| 5 Q. Yes. I'm looking at Paragraph 3.8 of 14:40               | 5 So the team is separated by boys' and 14:43                 |
| 6 Exhibit 3 on -148. 14:40                                    | 6 girls' teams. Can a student ask to participate on a 14:43   |
| 7 A. Okay. 14:40                                              | 7 co-ed team? 14:43                                           |
| 8 Q. Take a moment to read Paragraph 3.8 and 14:41            | 8 A. If there is a boys' team and a girls' 14:43              |
| 9 let me know when you've had a chance to finish 14:41        | 9 team -- are we talking about, like, boys' and girls' 14:43  |
| 10 reading it. 14:41                                          | 10 basketball and can the girls' basketball player play 14:44 |
| 11 A. What page are you on again? Because I 14:41             | 11 on the boys' team? Is that what you're asking? 14:44       |
| 12 don't have 3.8. 14:41                                      | 12 Q. Yes. 14:44                                              |
| 13 Q. No problem. It's page 17. The Bates 14:41               | 13 A. They cannot. If there is a team for them, 14:44         |
| 14 stamp should end in -148. 14:41                            | 14 they must play on the team of their gender. 14:44          |
| 15 A. 17 of the pdf document or 17 of our -- 14:41            | 15 Q. Let's go back to Exhibit 5. 14:44                       |
| 16 that's numbered on our rule book? 14:41                    | 16 And then I think once we are done with 14:44               |
| 17 Q. This might be page -- this might be 17 14:41            | 17 that exhibit, we can take a break. 14:44                   |
| 18 that's numbered in your rule book. My apologies. 14:41     | 18 So let's go back to Page 5 of the pdf. I 14:44             |
| 19 It's Page 31 of the pdf. 14:41                             | 19 just have a few follow-up questions. Back to 14:44         |
| 20 A. Okay. We're getting there. 14:41                        | 20 Interrogatory Number 13. 14:44                             |
| 21 MS. GREEN: We should have music to play 14:41              | 21 A. Okay. 14:44                                             |
| 22 through the... 14:41                                       | 22 Q. What grades does junior varsity cover? 14:44            |
| 23 THE WITNESS: Okay. Scroll down. 14:41                      | 23 A. It doesn't have a grade. It could be 9 to 14:44         |
| 24 Okay. Yep. Yes. Yes. 3.8. 14:42                            | 24 12. You could be a senior and still on the junior 14:44    |
| 25 ///                                                        | 25 varsity. If some -- some schools because of numbers 14:44  |
| Page 106                                                      | Page 108                                                      |
| 1 BY MS. KANG: 14:42                                          | 1 will have just the varsity. Some will have varsity 14:45    |
| 2 Q. Is that the rule that you were thinking of 14:42         | 2 and j- -- junior varsity. And some will have 14:45          |
| 3 that prevented a transgender boy from playing on a 14:42    | 3 varsity, junior varsity, and a freshman team. 14:45         |
| 4 girls' team? 14:42                                          | 4 So just different designation of those 14:45                |
| 5 A. Yes. 14:42                                               | 5 teams. 14:45                                                |
| 6 MS. GREEN: Object to the form, if I 14:42                   | 6 Q. What does junior varsity mean? 14:45                     |
| 7 can -- 14:42                                                | 7 A. Junior varsity -- 14:45                                  |
| 8 THE WITNESS: Okay. Back up? 14:42                           | 8 MS. GREEN: I was just going to object to 14:45              |
| 9 MS. GREEN: Yes. 14:42                                       | 9 the form. 14:45                                             |
| 10 BY MS. KANG: 14:42                                         | 10 THE WITNESS: Okay. 14:45                                   |
| 11 Q. Why was this rule enacted? 14:42                        | 11 When you have too many kids and you 14:45                  |
| 12 A. I would assume to -- it complies with 14:42             | 12 have -- you want an opportunity for them, you have a 14:45 |
| 13 Title IX, but it's -- you know, we're trying to not 14:42  | 13 junior varsity as long as you can get a schedule for 14:45 |
| 14 allow boys to participate in girls' events to either 14:42 | 14 them. 14:45                                                |
| 15 hurt them or dominate them. 14:42                          | 15 BY MS. KANG: 14:45                                         |
| 16 Q. When was this rule, Section 3.8, enacted? 14:42         | 16 Q. What does "varsity" mean? 14:45                         |
| 17 A. I would have to find that out. I'd have 14:42           | 17 A. You are the team that participates for the 14:45        |
| 18 to go back through all of our rules and find when it 14:42 | 18 state championships. 14:45                                 |
| 19 was -- when it was enacted. 14:42                          | 19 Q. What does "freshman" mean? 14:45                        |
| 20 Q. Do you believe that it was enacted within 14:43         | 20 A. Some large schools want to give more 14:45              |
| 21 the past five years? 14:43                                 | 21 opportunity to their student athletes. So they have 14:45  |
| 22 A. No. 14:43                                               | 22 too many kids for a junior varsity, JV; so they have 14:46 |
| 23 Q. Past ten? 14:43                                         | 23 a separate freshman program. 14:46                         |
| 24 A. No. 14:43                                               | 24 Q. Just to be clear, if a student wants to 14:46           |
| 25 Q. Past 20? 14:43                                          | 25 play a sport that is not in this list -- so it's not 14:46 |
| Page 107                                                      | Page 109                                                      |

|                                                               |                                                               |
|---------------------------------------------------------------|---------------------------------------------------------------|
| 1 cheer, wrestling, baseball, football, or golf -- 14:46      | 1 So, obviously, they don't know how many 14:49               |
| 2 they have to join either the boys' or girls' team? 14:46    | 2 baseball, softball, track, and tennis participants 14:49    |
| 3 A. I think that's everybody that is not 14:46               | 3 we have coming up because we haven't had our teams 14:49    |
| 4 included, yes. 14:46                                        | 4 yet. 14:49                                                  |
| 5 Q. One last question before we take a break. 14:46          | 5 MS. KANG: Okay. I think now is a good 14:49                 |
| 6 I would like to draw your attention to 14:46                | 6 time for everybody to take a break, if that is all 14:49    |
| 7 Page 9 of Exhibit 5, and this is the response to 14:46      | 7 right with you, Mr. Dolan. 14:49                            |
| 8 Interrogatory Number 14. 14:46                              | 8 THE WITNESS: Sure. 14:49                                    |
| 9 A. Okay. 14:46                                              | 9 Okay. Roberta, is that -- does that work 14:49              |
| 10 Q. So just to be clear, to make sure I am 14:46            | 10 for you? 14:49                                             |
| 11 reading this chart correctly, in the first row that 14:46  | 11 MS. GREEN: Sure. Thank you. 14:49                          |
| 12 starts with "Andrew Jackson Middle School," it 14:46       | 12 MS. KANG: Of course. 14:49                                 |
| 13 indicates that one girl participated in wrestling. 14:47   | 13 THE VIDEOGRAPHER: This marks the end of 14:49              |
| 14 Is that an accurate -- is that an accurate 14:47           | 14 Media Number 2. 14:49                                      |
| 15 interpretation? 14:47                                      | 15 Going off the record. The time is 2:49. 14:49              |
| 16 A. It is. 14:47                                            | 16 (Brief recess.) 14:59                                      |
| 17 Q. How do you collect these statistics? 14:47              | 17 THE VIDEOGRAPHER: This marks the 15:00                     |
| 18 A. This was a survey of the schools because, 14:47         | 18 beginning of Media Number 3 in the deposition of 15:00     |
| 19 when they do their eligibility, it doesn't 14:47           | 19 30(b)(6) Witness Bernie Dolan. 15:00                       |
| 20 distinguish between boys and girls. 14:47                  | 20 Back on the record. The time is 3:01. 15:00                |
| 21 So in order to find out who is playing 14:47               | 21 BY MS. KANG: 15:00                                         |
| 22 what sports, how many -- how many girls are 14:47          | 22 Q. Mr. Dolan, would it be harmful to a 15:01               |
| 23 participating in -- in the sports that allow boys 14:47    | 23 student if they were forbidden from playing school 15:01   |
| 24 and girls, the co-ed or mixed, we -- we have to 14:47      | 24 sports? 15:01                                              |
| 25 survey them to find out. 14:47                             | 25 MS. GREEN: Object to the form. 15:01                       |
| Page 110                                                      | Page 112                                                      |
| 1 Q. When was this survey done? 14:47                         | 1 THE WITNESS: There are lots of kids who 15:01               |
| 2 A. In the last two weeks, I would imagine. I 14:47          | 2 are, I think, not allowed to participate for 15:01          |
| 3 forget. I mean, it was in the last three -- two to 14:47    | 3 whatever reason. It could be eligibility things. 15:01      |
| 4 three weeks. 14:47                                          | 4 So happens to a lot of kids right now. 15:01                |
| 5 Q. Why did you survey the schools? 14:47                    | 5 We do think there are benefits to 15:01                     |
| 6 A. Just to find out how many girls were 14:47               | 6 participation. 15:01                                        |
| 7 participating in our -- since we don't have accurate 14:47  | 7 BY MS. KANG: 15:01                                          |
| 8 data of how many girls are playing different sports, 14:48  | 8 Q. What sort of benefits does playing a 15:01               |
| 9 this was our opportunity to go ahead and -- and poll 14:48  | 9 school sport afford? 15:01                                  |
| 10 our membership. 14:48                                      | 10 A. Giving an opportunity for leadership, 15:01             |
| 11 Not every school replied. And we don't 14:48               | 11 personal health, camaraderie, cooperation. 15:01           |
| 12 have a way to verify it. It was just for us to have 14:48  | 12 Q. I want to talk a little bit about House 15:01           |
| 13 an idea. We looked -- 14:48                                | 13 Bill 3293, or H.B. 3293, and a little bit more about 15:01 |
| 14 Q. Are there any -- oh. Go ahead, please. 14:48            | 14 the Commission's policy for H.B. 3293 was enacted. 15:01   |
| 15 A. We would look at this data, for instance, 14:48         | 15 A. Okay. 15:02                                             |
| 16 golf and wrestling, to determine how close we are to 14:48 | 16 Q. Do you believe that H.B. 3293 forbids 15:02             |
| 17 having its own sport. 14:48                                | 17 B.P.J. from playing on a girls' team? 15:02                |
| 18 Q. Is this data the current data? Or is this 14:48         | 18 MS. GREEN: Object to the perform. 15:02                    |
| 19 data, like, a participation across all years -- 14:48      | 19 THE WITNESS: I would believe it did 15:02                  |
| 20 A. And again -- 14:48                                      | 20 before the court case. Yes. 15:02                          |
| 21 Q. -- of all time? 14:48                                   | 21 BY MS. KANG: 15:02                                         |
| 22 A. I believe -- you know, it wasn't a 14:48                | 22 Q. Have you ever talked to any organizations 15:02         |
| 23 certified data. Schools were primarily listing 14:48       | 23 outside of the State of West Virginia regarding 15:02      |
| 24 second -- second -- or last year's spring sports and 14:48 | 24 H.B. 3293? 15:02                                           |
| 25 this year's winter and fall. 14:49                         | 25 A. Not that I know of. 15:02                               |
| Page 111                                                      | Page 113                                                      |

|                                                               |                                                               |
|---------------------------------------------------------------|---------------------------------------------------------------|
| 1 Q. Have you ever talked to any organizations 15:02          | 1 MS. GREEN: Objection to form. 15:04                         |
| 2 outside of West Virginia concerning transgender 15:02       | 2 THE WITNESS: Sorry. 15:04                                   |
| 3 athletes generally? 15:02                                   | 3 Yes. 15:04                                                  |
| 4 A. We may have talked -- you know, our 15:02                | 4 BY MS. KANG: 15:04                                          |
| 5 National Federation, it was probably on a -- one of 15:02   | 5 Q. And then you may already understand this, 15:04          |
| 6 our either winter meetings or summer meetings there 15:02   | 6 but when I use the phrase "H.B. 3293," I am 15:04           |
| 7 was probably a topic. 15:02                                 | 7 referring to House Bill 3293. 15:04                         |
| 8 And I would have to go back and look, but 15:02             | 8 Are you familiar with this bill? 15:05                      |
| 9 the state may have put up a presentation on whatever 15:02  | 9 A. Yes. 15:05                                               |
| 10 their -- whatever their rule was. 15:02                    | 10 Q. To your knowledge, has a cisgender boy 15:05            |
| 11 Q. Do you remember when this meeting 15:03                 | 11 ever played on a girl's sports team? 15:05                 |
| 12 occurred? 15:03                                            | 12 MS. GREEN: Objection to the form. 15:05                    |
| 13 A. I do not. 15:03                                         | 13 THE WITNESS: Not to my knowledge. 15:05                    |
| 14 Q. Do you know which state proposed a rule? 15:03          | 14 BY MS. KANG: 15:05                                         |

| 19 Q. Do you remember what the rule they 15:03                | 19 BY MS. KANG: 15:05                                         |
| 20 proposed was? 15:03                                        | 20 Q. Currently, if a cisgender girl wants to 15:05           |
| 21 MS. GREEN: Object to the form. 15:03                       | 21 play football, is she permitted to do so on the 15:05      |
| 22 THE WITNESS: I don't know. They weren't 15:03              | 22 boys' team? 15:05                                          |
| 23 proposing a rule; they were explaining their rule. 15:03   | 23 A. Yes. Because there's no girls' team at 15:05            |
| 24 BY MS. KANG: 15:03                                         | 24 the moment. 15:05                                          |
| 25 Q. Do you remember what their rule was? 15:03              | 25 Q. Before H.B. 3293 was enacted, did the 15:05             |
| Page 114                                                      | Page 116                                                      |
| 1 A. I believe it was full participation by 15:03             | 1 Commission allow transgender students to participate 15:06  |
| 2 gender identity. 15:03                                      | 2 on sports teams consistent with their gender 15:06          |
| 3 Q. Okay. So I'm going to ask you a few 15:03                | 3 identity? 15:06                                             |
| 4 questions about the Commission's policy. Before I 15:03     | 4 MS. GREEN: Object to the form. 15:06                        |
| 5 do so, just to be totally clear on the record, I'm 15:03    | 5 THE WITNESS: Our policy ident- -- 15:06                     |
| 6 just going to give you some terms that I'll explain 15:04   | 6 whatever the school identified them in WVEIS was how 15:06  |
| 7 my definitions for. So whenever I ask you 15:04             | 7 we recognize them. 15:06                                    |
| 8 questions, this is what I mean. 15:04                       | 8 BY MS. KANG: 15:06                                          |
| 9 When I use the term "cisgender," I am 15:04                 | 9 Q. Can you tell me a little bit more about 15:06            |
| 10 referring to someone whose gender identity matches 15:04   | 10 this policy? 15:06                                         |
| 11 the sex they were assigned at birth. So, for 15:04         | 11 MS. GREEN: Object to the form. 15:06                       |
| 12 example, if someone was assigned male at birth and 15:04   | 12 THE WITNESS: Basically, it was to protect 15:06            |
| 13 they identify as a male, that person would be a 15:04      | 13 athletes from harm or unfairness because of physical 15:06 |
| 14 cisgender boy. 15:04                                       | 14 abilities. So whatever the school identified them 15:06    |
| 15 When I use the term "transgender," I am 15:04              | 15 at if -- if everybody was okay with that, they got 15:06   |
| 16 referring to someone whose gender identity does not 15:04  | 16 to participate. 15:06                                      |
| 17 match the sex they were assigned at birth. So, for 15:04   | 17 If it ever came to a point where somebody 15:07            |
| 18 example, if someone was assigned male at birth but 15:04   | 18 was too big, too strong, or it wasn't safe for that 15:07  |
| 19 then they identify as female, that person would be a 15:04 | 19 person to play, then they could appeal to the Board. 15:07 |
| 20 transgender girl or woman. 15:04                           | 20 BY MS. KANG: 15:07                                         |
| 21 And so for purposes of the questions I 15:04               | 21 Q. Can you tell me a little bit more about 15:07           |
| 22 will be asking next, I'll be using these definitions 15:04 | 22 what you mean by "it wasn't safe" for them to play? 15:07  |
| 23 for -- for clarity. 15:04                                  | 23 A. Could be a volleyball player who could 15:07            |
| 24 Are you all right with that? 15:04                         | 24 jump much higher than the girls, much stronger. And 15:07  |
| 25 A. Yes. 15:04                                              | 25 when he hits the ball, could hurt the -- hurt the 15:07    |
| Page 115                                                      | Page 117                                                      |

|                                                               |                                                               |
|---------------------------------------------------------------|---------------------------------------------------------------|
| 1 other participants. 15:07                                   | 1 looked to WVEIS to determine a student's gender? 15:10      |
| 2 Q. How did the Commission come up with this 15:07           | 2 A. We have -- we don't have access to WVEIS. 15:10          |
| 3 policy? 15:07                                               | 3 We would ask the school to provide what they have 15:10     |
| 4 A. It was actually created by my predecessor. 15:07         | 4 designated the student as in WVEIS. 15:10                   |
| 5 And just came in in the beginnings of my time. And 15:07    | 5 Q. Has this always been the case? 15:11                     |
| 6 they were just addressing an issue that hadn't come 15:07   | 6 A. I would assume that it's always been the 15:11           |
| 7 to West Virginia at this point, but they wanted to 15:08    | 7 case. Even before we had a policy, the school 15:11         |
| 8 have something in there as a temporary stopgap 15:08        | 8 determined what they put in WVEIS. 15:11                    |
| 9 measure. 15:08                                              | 9 Q. Have you received any complaints about 15:11             |
| 10 And to this point, no one has written a 15:08              | 10 B.P.J.'s participation? 15:11                              |
| 11 rule to be voted on -- our -- by our membership. So 15:08  | 11 A. Not that I know of. 15:11                               |
| 12 that has been the -- our guidance since 2016. 15:08        | 12 Q. And to be clear, you haven't received any 15:11         |
| 13 Q. Who was your predecessor? 15:08                         | 13 complaints about transgender students participating 15:11  |
| 14 A. Gary Ray. 15:08                                         | 14 in West Virginia? 15:11                                    |
| 15 Q. And why did he feel the need to enact this 15:08        | 15 A. No. 15:11                                               |
| 16 policy? 15:08                                              | 16 Q. Have any transgender students ever asked 15:11          |
| 17 MS. GREEN: Object to the form. 15:08                       | 17 the Commission if they could participate in sports 15:11   |
| 18 THE WITNESS: As we went to the national 15:08              | 18 at a secondary school level? 15:11                         |
| 19 meetings more and more, people were saying this was 15:08  | 19 MS. GREEN: Object to the form. 15:11                       |
| 20 an issue, and so they wanted -- you know, it had not 15:08 | 20 THE WITNESS: I had one boy who wanted to 15:11             |
| 21 hit West Virginia yet but wanted to have something 15:08   | 21 be a -- play volleyball, and we told him he couldn't 15:12 |
| 22 in place to protect the kids. 15:09                        | 22 play volleyball because it was a girls' sport. And 15:12   |
| 23 BY MS. KANG: 15:09                                         | 23 he said, "Then I'll be a boy -- I'll be a girl." 15:12     |
| 24 Q. Did you ever receive any complaints about 15:09         | 24 And -- but he wasn't -- he never did 15:12                 |
| 25 this policy? 15:09                                         | 25 anything else with it. And we assumed he just 15:12        |
| Page 118                                                      | Page 120                                                      |
| 1 A. No. 15:09                                                | 1 wanted to play volleyball because it never came back 15:12  |
| 2 Q. Do you know who specifically drafted the 15:09           | 2 up. 15:12                                                   |
| 3 policy? 15:09                                               | 3 I did have contact with a school who said 15:12             |
| 4 A. I believe it was probably my predecessor 15:09           | 4 they had one student who one day identified as a 15:12      |
| 5 Gary Ray and -- and the legal counsel at the time. 15:09    | 5 girl, next day a boy, and back and forth. But we 15:12      |
| 6 Q. Do you know if anyone else participated in 15:09         | 6 have not heard anything more from that student. 15:12       |
| 7 the drafting? 15:09                                         | 7 So... 15:12                                                 |
| 8 A. I don't think so. 15:09                                  | 8 BY MS. KANG: 15:12                                          |
| 9 Q. Was this policy ever implemented? 15:09                  | 9 Q. When was that? 15:12                                     |
| 10 A. We have never used it, if that's what you 15:09         | 10 A. That would have been in the last year. 15:12            |
| 11 are asking. 15:09                                          | 11 Q. Do you remember which school it was from? 15:12         |
| 12 Q. What do you mean by "never used it"? 15:09              | 12 A. Yes. 15:12                                              |
| 13 A. Nobody ever brought up a case -- I'm not 15:09          | 13 Q. Which school was it? 15:12                              |
| 14 even aware of any case of transgender participating. 15:09 | 14 A. South Charleston High School. 15:12                     |
| 15 Therefore, nobody ever brought it to the Board to 15:10    | 15 Q. So I'm going to introduce a document 15:13              |
| 16 decide whether or not it was fair or safe. 15:10           | 16 that's going to be marked as Exhibit 6. 15:13              |
| 17 Q. When a school determines a student's 15:10              | 17 I'll let you know when it's available in 15:13             |
| 18 gender, is that always put into WVEIS? 15:10               | 18 your folder. 15:13                                         |
| 19 MS. GREEN: Object to the form. 15:10                       | 19 (Deposition Exhibit 6 was marked for 15:13                 |
| 20 THE WITNESS: I am not sure what they put 15:10             | 20 identification and is attached hereto.) 15:13              |
| 21 in WVEIS, to be honest with you. I'm not -- you 15:10      | 21 MS. KANG: Exhibit 6 is now available in 15:13              |
| 22 know, each school, I would assume, has rules and 15:10     | 22 the shared exhibit folder. 15:13                           |
| 23 regulations they have to do. 15:10                         | 23 BY MS. KANG: 15:13                                         |
| 24 BY MS. KANG: 15:10                                         | 24 Q. Mr. Dolan, let me know when you have had a 15:13        |
| 25 Q. Is it fair to say that the Commission 15:10             | 25 chance to look at it. 15:13                                |
| Page 119                                                      | Page 121                                                      |

|                                                              |                                                               |
|--------------------------------------------------------------|---------------------------------------------------------------|
| 1 A. [Witness reviews document]. 15:13                       | 1 BY MS. KANG: 15:16                                          |
| 2 Okay. 15:13                                                | 2 Q. Did you or your staff ever consider 15:16                |
| 3 Q. Do you recognize this document? 15:14                   | 3 putting in this policy -- putting in a hormone 15:16        |
| 4 A. Yeah. This was our transgender Board of 15:14           | 4 requirement? 15:16                                          |
| 5 Directors policy. 15:14                                    | 5 MS. GREEN: Object to the form. 15:16                        |
| 6 Q. Is this the same policy that we were 15:14              | 6 THE WITNESS: No. Because we would not 15:16                 |
| 7 discussing earlier? 15:14                                  | 7 change the policy. I think it would -- if it was 15:16      |
| 8 A. Yes. 15:14                                              | 8 going to change, it was going to be changed by a 15:16      |
| 9 Q. So I want to draw your attention to Bullet 15:14        | 9 rule by our membership and was never brought forward 15:16  |
| 10 Point 1, which says [as read]: 15:14                      | 10 as a rule proposal. 15:16                                  |
| 11 "The transgender student's school 15:14                   | 11 BY MS. KANG: 15:16                                         |
| 12 shall make the initial determination as 15:14             | 12 Q. Am I right to say that this policy was not 15:16        |
| 13 to whether a student may participate in 15:14             | 13 a rule? 15:16                                              |
| 14 interscholastic athletics in a gender 15:14               | 14 A. That's correct. 15:16                                   |
| 15 that does not match the gender assigned 15:14             | 15 Q. What's the difference between this policy 15:16         |
| 16 to him or her at birth." 15:14                            | 16 versus a rule? 15:16                                       |
| 17 Did I read that correctly? 15:14                          | 17 A. This never went before the membership to 15:16          |
| 18 A. Yes. 15:14                                             | 18 have a vote; so I don't think it has the power of a 15:16  |
| 19 Q. Why did the Commission give the initial 15:14          | 19 rule. 15:16                                                |
| 20 determination to the transgender student's school? 15:14  | 20 Q. What sort of power would that be? 15:16                 |
| 21 MS. GREEN: Object to the form. 15:14                      | 21 A. Well, this was giving guidance to a Board 15:16         |
| 22 THE WITNESS: First of all, we -- we don't 15:14           | 22 of Directors. 15:17                                        |
| 23 know this student. There would be no way for us to 15:14  | 23 But a rule is voted on and -- and approved 15:17           |
| 24 know all the factors. 15:14                               | 24 by the State Board of Education; so it is the rule 15:17   |
| 25 So the school is the entity that works 15:14              | 25 of law for high school athletics from the WVSSAC. 15:17    |
| Page 122                                                     | Page 124                                                      |
| 1 closely with that student and the parents and the 15:15    | 1 Q. What do you mean by it provided guidance 15:17           |
| 2 family on a daily basis. 15:15                             | 2 to the Board of Directors? 15:17                            |
| 3 BY MS. KANG: 15:15                                         | 3 A. Would allow them to grant waivers if 15:17               |
| 4 Q. Why did the Commission think transgender 15:15          | 4 somebody -- if it was unsafe or unfair to other 15:17       |
| 5 students should be able to participate on teams 15:15      | 5 students or to this student. 15:17                          |
| 6 consistent with their identity? 15:15                      | 6 Q. By unfair to the student, do you mean 15:17              |
| 7 MS. GREEN: Object to the form. 15:15                       | 7 unfair to the trans student? 15:17                          |
| 8 THE WITNESS: I assume that the school 15:15                | 8 A. Either one. Either one. For safety or 15:17              |
| 9 would put them in the proper place, wherever the 15:15     | 9 given them advantages that made it unfair. 15:17            |
| 10 school decided based on all the factors. 15:15            | 10 Q. Am I right that this policy does not 15:18              |
| 11 BY MS. KANG: 15:15                                        | 11 mention anything about WVEIS? 15:18                        |
| 12 Q. Did you ever consider implementing a 15:15             | 12 MS. GREEN: Object to the form. 15:18                       |
| 13 hormone requirement in this policy? 15:15                 | 13 THE WITNESS: I don't believe it -- I 15:18                 |
| 14 MS. GREEN: I'm sorry. I didn't hear what 15:15            | 14 don't believe it mentions WVEIS. It does say that 15:18    |
| 15 you said, Ms. Kang. 15:15                                 | 15 the school will make the initial determination. 15:18      |
| 16 MS. KANG: Sure. 15:15                                     | 16 BY MS. KANG: 15:18                                         |
| 17 BY MS. KANG: 15:15                                        | 17 Q. Under this policy, what happens if a 15:18              |
| 18 Q. Did you ever consider implementing a 15:15             | 18 student's gender marker in WVEIS is, let's say -- 15:18    |
| 19 hormone requirement in this policy? 15:15                 | 19 let's say, male, but the school treats the student 15:18   |
| 20 MS. GREEN: Thank you. 15:15                               | 20 as female? What would the SAC do in that situation? 15:18  |
| 21 Object to the form. 15:15                                 | 21 MS. GREEN: I'll object to the form. 15:18                  |
| 22 THE WITNESS: Our -- it was my 15:15                       | 22 Speculative. 15:18                                         |
| 23 predecessor's. So I'm not sure of their discussion 15:15  | 23 THE WITNESS: I think we would have to 15:18                |
| 24 as to whether or not they were going to put that in 15:16 | 24 look at all the factors that were involved in -- you 15:18 |
| 25 or not. 15:16                                             | 25 know, I'm not even sure what the factors would be, 15:19   |
| Page 123                                                     | Page 125                                                      |

|                                                               |                                                             |
|---------------------------------------------------------------|-------------------------------------------------------------|
| 1 but I think we would have to, you know, have 15:19          | 1 A. Right. It had not gone through any court 15:22         |
| 2 everything presented to us to make a determination. 15:19   | 2 action. Yes. 15:22                                        |
| 3 BY MS. KANG: 15:19                                          | 3 Q. Were you concerned that the policy was 15:22           |
| 4 Q. So is it fair to say, in that case you 15:19             | 4 going to be challenged at some point? 15:22               |
| 5 would not strictly follow WVEIS? 15:19                      | 5 A. All of our -- all of our policies get 15:22            |
| 6 MS. GREEN: Object to the form. 15:19                        | 6 challenged at some point. So... 15:22                     |
| 7 THE WITNESS: We would -- it would be in 15:19               | 7 Q. Fair enough. 15:22                                     |
| 8 the cases where it was unsafe and unfair that we 15:19      | 8 A. Yes. 15:22                                             |
| 9 would not be following WVEIS. If we felt like it 15:19      | 9 Q. So now I'm going to introduce a document 15:22         |
| 10 was unsafe or unfair to the participants, other 15:19      | 10 as Exhibit 8. One moment. 15:22                          |
| 11 participants or the transgender student, then the 15:19    | 11 MS. KANG: Exhibit 8 is now available in 15:22            |
| 12 Board can override it. 15:19                               | 12 everyone's Marked Exhibit folder. 15:22                  |
| 13 BY MS. KANG: 15:19                                         | 13 (Deposition Exhibit 8 was marked for 15:22               |
| 14 Q. Okay. I'm going to ask you to turn your 15:19           | 14 identification and is attached hereto.) 15:22            |
| 15 attention to a document that I'm going to be marking 15:19 | 15 BY MS. KANG: 15:22                                       |
| 16 as Exhibit 7. 15:19                                        | 16 Q. Mr. Dolan, let me know whenever you have 15:22        |
| 17 MS. KANG: And I'll let you know when it's 15:19            | 17 it open. 15:22                                           |
| 18 available in everyone's folder. 15:19                      | 18 A. Okay. 15:23                                           |
| 19 (Deposition Exhibit 7 was marked for 15:20                 | 19 Q. So I know this was a while ago, but do you 15:23      |
| 20 identification and is attached hereto.) 15:20              | 20 remember the meeting that is referenced in 15:23         |
| 21 MS. KANG: Exhibit 7 should now be 15:20                    | 21 Exhibit 8? 15:23                                         |
| 22 available in everyone's Marked Exhibit folder. 15:20       | 22 A. Not specifically. But yes. 15:23                      |
| 23 BY MS. KANG: 15:20                                         | 23 Q. Do you remember at all who was present at 15:23       |
| 24 Q. And let me know, Mr. Dolan, whenever you 15:20          | 24 this meeting? 15:23                                      |
| 25 have a chance to -- to look at it. 15:20                   | 25 A. It's probably in the minutes. 15:23                   |
| Page 126                                                      | Page 128                                                    |
| 1 A. Okay. 15:20                                              | 1 THE WITNESS: Can you scroll down to the 15:23             |
| 2 Q. So this is an email that was produced by 15:20           | 2 next page and see... 15:23                                |
| 3 your counsel in response to one of plaintiff's 15:20        | 3 MS. GREEN: Okay. 15:23                                    |
| 4 document request. 15:20                                     | 4 THE WITNESS: Keep going. See if 15:23                     |
| 5 Do you remember this particular email? 15:20                | 5 there's... 15:23                                          |
| 6 A. After I went back and searched it, yeah. 15:20           | 6 [Witness reviews document]. 15:24                         |
| 7 And I don't remember -- I didn't remember it until I 15:21  | 7 I do not remember. I would assume it was 15:24            |
| 8 was looking for it. 15:21                                   | 8 all of my Board of Directors, though. 15:24               |
| 9 Q. Is bernie.dolan@wvssac.org your email 15:21              | 9 BY MS. KANG: 15:24                                        |
| 10 address? 15:21                                             | 10 Q. How often does the Board of Directors 15:24           |
| 11 A. It is. 15:21                                            | 11 meet? 15:24                                              |
| 12 Q. Who is Daniel Swartos? 15:21                            | 12 A. Mostly once a month. There a couple of 15:24          |
| 13 A. He is the executive director for the 15:21              | 13 months that we don't meet. So about ten times a 15:24    |
| 14 South Dakota High School Athletic Association -- or 15:21  | 14 year. 15:24                                              |
| 15 Activities Association. 15:21                              | 15 Q. Is this Board of Directors report given to 15:24      |
| 16 Q. Is that an association in South Dakota? 15:21           | 16 anyone outside of the Board of Directors? 15:24          |
| 17 A. Yes. 15:21                                              | 17 MS. GREEN: Object to the form. 15:24                     |
| 18 Q. So I'd like to draw your attention to 15:21             | 18 THE WITNESS: I'm not sure because we 15:24               |
| 19 Page 2 of this pdf that's been Bates Stamped -224. 15:21   | 19 don't give it out anymore. So I don't know if 15:24      |
| 20 Let me know whenever you get there. 15:21                  | 20 that's -- if this came from the interscholastic or 15:24 |
| 21 A. Okay. 15:21                                             | 21 if it was Board of Directors report that somebody 15:24  |
| 22 Q. In this email you say [as read]: 15:21                  | 22 would have submitted. 15:24                              |
| 23 "It has not been challenged yet." 15:21                    | 23 I don't do it currently; so I don't know 15:25           |
| 24 To clarify, are you referring to the 15:21                 | 24 if it was -- who it went to in the past. 15:25           |
| 25 policy that we looked at in Exhibit 6? 15:21               | 25 ///                                                      |
| Page 127                                                      | Page 129                                                    |

|                                                               |                                                               |
|---------------------------------------------------------------|---------------------------------------------------------------|
| 1 our number of girls' golfers has risen tremendously. 15:30  | 1 BY MS. KANG: 15:33                                          |
| 2 We also have supported a girls' only 15:30                  | 2 Q. Believe it or not, I am on my last set of 15:33          |
| 3 wrestling invitational that has allowed more girls 15:30    | 3 questions. So thank you for bearing with me so far. 15:33   |
| 4 to participate in wrestling. 15:30                          | 4 Hopefully, we can get this done early. 15:33                |
| 5 We have encouraged schools to make sure 15:31               | 5 So now I want to talk a little bit more 15:33               |
| 6 that Title IX is followed when they are putting in 15:31    | 6 about House Bill 3293. 15:33                                |
| 7 fields, putting in locker rooms, money for programs, 15:31  | 7 Were you involved at all in the passage of 15:33            |
| 8 and things like that. 15:31                                 | 8 H.B. 3293? 15:33                                            |
| 9 Q. Do you believe that Title IX also protects 15:31         | 9 MS. GREEN: Object to the form. 15:33                        |
| 10 transgender girls? 15:31                                   | 10 THE WITNESS: I wouldn't say I was 15:33                    |
| 11 MS. GREEN: Object to the form. 15:31                       | 11 involved in the passage. 15:33                             |
| 12 THE WITNESS: I -- I am not sure. I think 15:31             | 12 Oftentimes I get asked to come down and 15:33              |
| 13 that it -- it has been ruled that way, yes. 15:31          | 13 speak. And I was asked to speak to the Democratic 15:33    |
| 14 BY MS. KANG: 15:31                                         | 14 caucus. And I pretty much said what I said earlier. 15:33  |
| 15 Q. Have there ever been any safety concerns 15:31          | 15 We support girls' sports and continued to offer more 15:33 |
| 16 with girls playing on the boys' team? 15:31                | 16 opportunities for them. But we're not allowed to 15:33     |
| 17 MS. GREEN: Object to the form. 15:31                       | 17 discriminate. 15:34                                        |
| 18 THE WITNESS: The girls are choosing to 15:31               | 18 BY MS. KANG: 15:34                                         |
| 19 participate. So I think all kids there's -- there's 15:31  | 19 Q. Besides the Democratic caucus, did you 15:34            |
| 20 an oppor- -- there's a possibility of injury. And 15:31    | 20 speak to anyone else? 15:34                                |
| 21 so, you know, it -- it's brought out in their 15:31        | 21 A. I had communication with Melissa White, 15:34           |
| 22 preparticipation physical that, you know, there is a 15:31 | 22 who was -- is the counsel for House Ed. 15:34              |
| 23 possibility of injury. 15:32                               | 23 Q. And did you think -- 15:34                              |
| 24 BY MS. KANG: 15:32                                         | 24 A. And I think that -- 15:34                               |
| 25 Q. To your knowledge, have there been any 15:32            | 25 Q. Go ahead. 15:34                                         |
| Page 134                                                      | Page 136                                                      |
| 1 injuries from a girl playing on a boys' team? 15:32         | 1 A. I don't think -- I don't think we spoke 15:34            |
| 2 MS. GREEN: Object to the form. 15:32                        | 2 about it. She had sent me an email about it. 15:34          |
| 3 THE WITNESS: Oh, I'm sure. I mean, I 15:32                  | 3 Q. Did you speak to any legislative committee 15:34         |
| 4 don't know specifically. But there's -- people get 15:32    | 4 about H.B. 3293? 15:34                                      |
| 5 hurt every day in every sport. So I'm sure somebody 15:32   | 5 MS. GREEN: Object to the form. 15:34                        |
| 6 has gotten hurt in football or wrestling. 15:32             | 6 THE WITNESS: I spoke to the caucus. I 15:34                 |
| 7 BY MS. KANG: 15:32                                          | 7 was down there as a witness in front of finance, I 15:34    |
| 8 Q. In the context of school sports, what is 15:32           | 8 believe, Senate finance -- or House finance. But I 15:34    |
| 9 competitive skill? 15:32                                    | 9 was never called in to -- to give an opinion or any 15:34   |
| 10 MS. GREEN: Object to the form. 15:32                       | 10 information. 15:34                                         |
| 11 THE WITNESS: Skill needed to be 15:32                      | 11 BY MS. KANG: 15:34                                         |
| 12 successful in that sport. 15:32                            | 12 Q. So you were called in as a witness but you 15:34        |
| 13 BY MS. KANG: 15:32                                         | 13 didn't testify? 15:34                                      |
| 14 Q. Does cross-country require competitive 15:32            | 14 A. They told me to be available. 15:34                     |
| 15 skill? 15:32                                               | 15 Q. Were you told anything about H.B. 3293 15:35            |
| 16 MS. GREEN: Object to the form. 15:32                       | 16 before it was passed? 15:35                                |
| 17 THE WITNESS: I would think so. 15:32                       | 17 MS. GREEN: Object to the form. 15:35                       |
| 18 BY MS. KANG: 15:32                                         | 18 THE WITNESS: Actually, I was sent an 15:35                 |
| 19 Q. Do you know whether any girls who tried 15:32           | 19 email from Melissa White. But when I looked at it, 15:35   |
| 20 out for cross-country at Bridgeport Middle School 15:32    | 20 the beginning of it was a home school bill. 15:35          |
| 21 for the fall of 2021 were unable to join the team? 15:32   | 21 So I assumed she sent the wrong bill. 15:35                |
| 22 MS. GREEN: Object to the form. 15:33                       | 22 And -- but it did say "transgender" at the top. So 15:35   |
| 23 THE WITNESS: We were not involved in the 15:33             | 23 I sent it to the legal counsel who was helping us 15:35    |
| 24 selection. So I don't know. 15:33                          | 24 with legislative activity. Or -- 15:35                     |
| 25 ///                                                        | 25 MS. GREEN: And I'll object to the form. 15:35              |
| Page 135                                                      | Page 137                                                      |

|---------------------------------------------------------------|-------------------------------------------------------------|
| 1 THE WITNESS: Okay. 15:35                                    | 1 I would say we're following it, yes. 15:38                |
| 2 MS. GREEN: Caution him regarding 15:35                      | 2 Q. Okay. I'm going to introduce a document 15:38          |
| 3 conversations with counsel. 15:35                           | 3 as Exhibit 9, and I'll let you know when it's 15:38       |
| 4 THE WITNESS: Okay. 15:35                                    | 4 available. 15:38                                          |
| 5 BY MS. KANG: 15:35                                          | 5 (Deposition Exhibit 9 was marked for 15:38                |
| 6 Q. By "counsel," was it counsel at the 15:35                | 6 identification and is attached hereto.) 15:39             |
| 7 Commission? 15:35                                           | 7 MS. KANG: Exhibit 9 is now available in 15:39             |
| 8 A. It is counsel -- 15:35                                   | 8 the Marked Exhibits folder. 15:39                         |
| 9 MS. GREEN: I'll just -- 15:35                               | 9 BY MS. KANG: 15:39                                        |
| 10 THE WITNESS: Okay. 15:35                                   | 10 Q. And let me know when you have a chance to 15:39       |
| 11 MS. GREEN: -- object to the form. 15:36                    | 11 pull it up, Mr. Dolan. 15:39                             |
| 12 THE WITNESS: Okay. 15:36                                   | 12 A. Okay. 15:39                                           |
| 13 It was counsel we've had at -- that we 15:36               | 13 Q. So these are some text messages that your 15:39       |
| 14 used during legislative time. 15:36                        | 14 counsel produced in response to Plaintiff's 15:39        |
| 15 BY MS. KANG: 15:36                                         | 15 discovery requests. It's been Bates stamped 15:39        |
| 16 Q. Who is this person? 15:36                               | 16 WVSSAC000001. And I'm going to represent to you 15:39    |
| 17 MS. GREEN: I'll just object to the form. 15:36             | 17 that these are texts between you and 15:39               |
| 18 I think they're in the privilege log. We identified 15:36  | 18 Stephen Baldwin. 15:39                                   |
| 19 them. 15:36                                                | 19 Do you remember this conversation? 15:39                 |
| 20 Do you know the name of the firm? 15:36                    | 20 A. Yes. 15:39                                            |
| 21 THE WITNESS: Dinsmore & Shohl is the law 15:36             | 21 MS. GREEN: Object to the form. 15:39                     |
| 22 firm. 15:36                                                | 22 THE WITNESS: Yes, I do. 15:39                            |
| 23 BY MS. KANG: 15:36                                         | 23 BY MS. KANG: 15:39                                       |
| 24 Q. Did any legislators tell you about the 15:36            | 24 Q. Who is Stephen Baldwin? 15:39                         |
| 25 purpose of H.B. 3293? 15:36                                | 25 A. Senator from Greenbrier County. 15:39                 |
| Page 138                                                      | Page 140                                                    |
| 1 MS. GREEN: Object to the form. 15:36                        | 1 Q. Is this the same Democratic office that 15:40          |
| 2 THE WITNESS: I don't remember having that 15:36             | 2 you were just talking about? 15:40                        |
| 3 conversation with any of them. I had one email from 15:36   | 3 A. Yes, ma'am. 15:40                                      |
| 4 Senator Unger, who sent me the NCAA guidelines at 15:36     | 4 Q. Why did you decide to participate in this 15:40        |
| 5 the time. It was unsolicited and didn't have 15:36          | 5 meeting? 15:40                                            |
| 6 anything, really, with it, just a link to the NCAA 15:36    | 6 MS. GREEN: Object to the form. 15:40                      |
| 7 guidelines. 15:37                                           | 7 THE WITNESS: Oftentimes I -- I don't feel 15:40           |
| 8 BY MS. KANG: 15:37                                          | 8 like I have a choice. When the legislature calls, I 15:40 |
| 9 Q. Did you respond to that email? 15:37                     | 9 need to go down and be heard. 15:40                       |
| 10 A. I did not. 15:37                                        | 10 BY MS. KANG: 15:40                                       |
| 11 Q. Has the Commission taken any steps to 15:37             | 11 Q. Did you bring any documents with you to 15:40         |
| 12 contemplate policies or rules concerning the 15:37         | 12 this meeting? 15:40                                      |
| 13 implementation of H.B. 3293? 15:37                         | 13 A. Just the -- just our board policy. 15:40              |
| 14 MS. GREEN: Object to the form. 15:37                       | 14 Q. Do you remember if you were shown any 15:40           |
| 15 THE WITNESS: The legislation 3293 charged 15:37            | 15 documents at the meeting? 15:40                          |
| 16 the Department of Ed with creating the rule. So 15:37      | 16 A. I don't remember. 15:40                               |
| 17 we're going to wait for those guidelines to come out 15:37 | 17 Q. Did the Democratic Caucus give you any 15:40          |
| 18 and then probably just bring them into our rule book 15:37 | 18 documents? 15:40                                         |
| 19 like we did the 2.0. 15:37                                 | 19 A. I don't remember if they gave me the bill 15:40       |
| 20 BY MS. KANG: 15:37                                         | 20 at that time or not. So I'm not sure. 15:40              |
| 21 Q. But to be clear, if the State Board 15:37               | 21 Q. So if you scroll down to the document 15:41           |
| 22 promulgates a rule, will the Commission have to 15:37      | 22 that's Bates Stamped -006. And I believe it's 15:41      |
| 23 follow that rule? 15:38                                    | 23 Page 6 of 7 of the pdf of Exhibit 9. 15:41               |
| 24 A. Our schools would have to follow it, 15:38              | 24 A. Okay. 15:41                                           |
| 25 which, if all of our schools have to follow it, I 15:38    | 25 Q. Do you know who Rucker is? 15:41                      |
| Page 139                                                      | Page 141                                                    |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1 A. Senator Rucker is the Senate education 15:41<br/>2 chair. 15:41<br/>3 Q. Do you agree with her statement that it is 15:41<br/>4 not a real policy? 15:41<br/>5 A. I believe it is a policy that -- but it 15:41<br/>6 had not -- it didn't go through a rule-writing 15:42<br/>7 process and was never challenged in court and 15:42<br/>8 upheld. 15:42<br/>9 So we think it was an internal policy, 15:42<br/>10 yes, that we give our -- 15:42<br/>11 Q. What do you mean -- 15:42<br/>12 A. We give our board the opportunity to hear 15:42<br/>13 cases of appeals. 15:42<br/>14 Q. Can you clarify what you mean by "internal 15:42<br/>15 policy"? 15:42<br/>16 A. Well, it wasn't in our rule book. 15:42<br/>17 Q. So I'm going to introduce an additional 15:42<br/>18 document as Exhibit 10. 15:42<br/>19 (Deposition Exhibit 10 was marked for 15:43<br/>20 identification and is attached hereto.) 15:43<br/>21 MS. KANG: Exhibit 10 is now available in 15:43<br/>22 the Marked Exhibits folder. 15:43<br/>23 BY MS. KANG: 15:43<br/>24 Q. Let me know when you have it up, 15:43<br/>25 Mr. Dolan. 15:43<br/>Page 142</p>                  | <p>1 A. I believe in the Title IX document it says 15:45<br/>2 you can't discriminate. And so we support Title IX; 15:45<br/>3 so we have to support the whole thing. 15:45<br/>4 Q. You also say in your response that 15:45<br/>5 [as read]: 15:45<br/>6 "This has increased the quantity and 15:45<br/>7 quality of opportunities for girls in 15:45<br/>8 our schools." 15:45<br/>9 What opportunities do you believe has been 15:45<br/>10 increased? 15:45<br/>11 A. Well, when I was in school, which would 15:45<br/>12 have been the early -- early '70s, may or may not 15:45<br/>13 have had girls' basketball at all and wouldn't have 15:45<br/>14 had volleyball or soccer, for sure, swim. So over 15:45<br/>15 the last 50 years, we have increased the sports that 15:45<br/>16 girls can participate in a hundred times over. 15:45<br/>17 Q. Do you believe that B.P.J. should have the 15:45<br/>18 right to these opportunities? 15:46<br/>19 MS. GREEN: Object to the form. 15:46<br/>20 THE WITNESS: I believe we'll follow the 15:46<br/>21 rule -- the law. 15:46<br/>22 BY MS. KANG: 15:46<br/>23 Q. What do you mean by "follow the law"? 15:46<br/>24 A. Whatever -- whatever the Department of Ed 15:46<br/>25 writes as the rule, then we have to implement that 15:46<br/>Page 144</p> |
| <p>1 A. [Witness reviews document]. 15:43<br/>2 Okay. 15:43<br/>3 Q. Do you remember this email? 15:43<br/>4 A. After I looked it back up, yes. 15:44<br/>5 Q. And is that still your email address at 15:44<br/>6 the top? 15:44<br/>7 A. It is. 15:44<br/>8 Q. Who is John Raby? 15:44<br/>9 A. John Raby is an Associated Press reporter. 15:44<br/>10 Q. Had you spoken to him before? 15:44<br/>11 A. Probably in a different capacity. When I 15:44<br/>12 was the director of Super Six, he was a reporter 15:44<br/>13 that would come to games. So... 15:44<br/>14 Q. So on the first page of Exhibit 10, 15:44<br/>15 Mr. Raby asks the question [as read]: 15:44<br/>16 "What does the WVSSAC think of the 15:44<br/>17 bill?" 15:44<br/>18 And then if you go to the next page of 15:44<br/>19 Exhibit 10, in response you write [as read]: 15:44<br/>20 "The WVSSAC has supported Title IX 15:44<br/>21 for the last 50 years...Title IX has 15:44<br/>22 non discrimination language that we 15:44<br/>23 support." 15:45<br/>24 What do you mean by "Title IX has 15:45<br/>25 non-discrimination language that we support"? 15:45<br/>Page 143</p> | <p>1 with all of our schools. 15:46<br/>2 Q. Do you believe that B.P.J.'s participation 15:46<br/>3 in cross-country harms any of these opportunities? 15:46<br/>4 MS. GREEN: Object to the form. 15:46<br/>5 THE WITNESS: Well, "harm" is a -- a 15:46<br/>6 unique word because harm might be that it might not 15:46<br/>7 physically harm somebody, but they -- you know, harm 15:46<br/>8 might be that you take somebody's position on the 15:46<br/>9 team. 15:46<br/>10 In cross-country, only the top seven kids 15:46<br/>11 get to compete on the varsity team, whether it's 15:46<br/>12 middle school or high school. If you are 15:46<br/>13 number seven and you get bumped out, there might be 15:46<br/>14 harm. 15:47<br/>15 But, in general, physical harm, I don't 15:47<br/>16 believe so. 15:47<br/>17 BY MS. KANG: 15:47<br/>18 Q. Do you know if B.P.J. has, as you say, 15:47<br/>19 bumped out another girl? 15:47<br/>20 A. I do not. 15:47<br/>21 MS. GREEN: Object to the form. 15:47<br/>22 THE WITNESS: Okay. 15:47<br/>23 MS. KANG: So I am going to introduce 15:47<br/>24 another document as Exhibit 11. 15:47<br/>25 ///<br/>Page 145</p>                                                                                                                                         |

|                                                               |                                                              |
|---------------------------------------------------------------|--------------------------------------------------------------|
| 1 (Deposition Exhibit 11 was marked for 15:47                 | 1 But we'll take a pause here and come back 15:50            |
| 2 identification and is attached hereto.) 15:48               | 2 around 3:56. 15:50                                         |
| 3 MS. GREEN: Okay. 15:48                                      | 3 THE WITNESS: Okay. 15:50                                   |
| 4 MS. KANG: Exhibit 11 is now available in 15:48              | 4 THE VIDEOGRAPHER: Going off the record. 15:50              |
| 5 everyone's Marked Exhibit folder. 15:48                     | 5 The time is 3:51. 15:50                                    |
| 6 BY MS. KANG: 15:48                                          | 6 (Brief recess.) 15:57                                      |
| 7 Q. Let me know when you have it up. 15:48                   | 7 THE VIDEOGRAPHER: Back on the record. 15:57                |
| 8 And, Mr. Dolan, we can take a five-minute 15:48             | 8 The time is 3:57. 15:57                                    |
| 9 break, I think, after -- after this email, before we 15:48  | 9 BY MS. KANG: 15:57                                         |
| 10 wrap up. 15:48                                             | 10 Q. Mr. Dolan, I'm going to introduce another 15:57        |
| 11 A. Okay. 15:48                                             | 11 document as Exhibit 12. 15:57                             |
| 12 Scroll down. 15:48                                         | 12 A. Okay. 15:57                                            |
| 13 Okay. 15:48                                                | 13 Q. And I'll let you know when it's in there. 15:57        |
| 14 Q. Do you recognize this email? 15:48                      | 14 (Deposition Exhibit 12 was marked for 15:57               |
| 15 A. I do. 15:48                                             | 15 identification and is attached hereto.) 15:58             |
| 16 Q. Do you remember this email? 15:48                       | 16 MS. KANG: Okay. Exhibit 12 is now 15:58                   |
| 17 A. I don't know if I remember it. But I 15:48              | 17 available in the Marked Exhibits folder. 15:58            |
| 18 recognize it, yes. 15:48                                   | 18 BY MS. KANG: 15:58                                        |
| 19 Q. Who is Josh Weekley? 15:48                              | 19 Q. Let me know when you have had a chance to 15:58        |
| 20 A. He runs RunWV which keeps track of all 15:48            | 20 pull it up. 15:58                                         |
| 21 boys' and girls' track and cross-country times and 15:49   | 21 A. Scroll down. 15:58                                     |
| 22 posts them on runwv.com. 15:49                             | 22 That's it. Okay. 15:58                                    |
| 23 Q. Why did you contact him? 15:49                          | 23 Okay. 15:58                                               |
| 24 A. I was looking for data in comparing girls' 15:49        | 24 Q. Is this the same Melissa White as the one 15:59        |
| 25 times to boys' times. 15:49                                | 25 you were referencing earlier? 15:59                       |
| Page 146                                                      | Page 148                                                     |
| 1 Q. Why did you want that data? 15:49                        | 1 A. Yes. 15:59                                              |
| 2 A. Just curious to see if there were 15:49                  | 2 Q. Do you know what Melissa White's position 15:59         |
| 3 advantages that boy -- if -- what the actual data 15:49     | 3 is? 15:59                                                  |
| 4 showed for comparison of boys' and girls' times. 15:49      | 4 A. Well, on the paper it says Chief Counsel 15:59          |
| 5 Q. Did you ask in response to any questions 15:49           | 5 for Committee on Education of West Virginia House of 15:59 |
| 6 from the West Virginia Legislature? 15:49                   | 6 Delegates. 15:59                                           |
| 7 A. I don't remember the time frame of this; 15:49           | 7 Q. Do you know why Melissa White reached out 15:59         |
| 8 so I don't know if it was before or after or during 15:49   | 8 to you regarding H.B. 3293? 15:59                          |
| 9 the legislative time. 15:49                                 | 9 A. There may have been original language in 15:59          |
| 10 Q. Did you ever get the data from Josh 15:49               | 10 there that may have identified the WVSSAC. I don't 15:59  |
| 11 Weekley? 15:50                                             | 11 know. But it involves athletics; so I'm sure, as a 15:59  |
| 12 A. Did not. Did not. They had computer 15:50               | 12 courtesy, she was sending me something. 15:59             |
| 13 problems and so... 15:50                                   | 13 Q. Had you spoken to her about athletics 15:59            |
| 14 Q. What did you mean by "a transgender issue" 15:50        | 14 before this email? 15:59                                  |
| 15 on the -- 15:50                                            | 15 MS. GREEN: I'll object to the form. 15:59                 |
| 16 A. Again -- 15:50                                          | 16 THE WITNESS: This -- that -- last year or 15:59           |
| 17 Q. -- first page? 15:50                                    | 17 in general? 15:59                                         |
| 18 A. I was asking -- I was just telling him. I 15:50         | 18 BY MS. KANG: 15:59                                        |
| 19 was trying to compare boys' times and girls' times 15:50   | 19 Q. In general. 15:59                                      |
| 20 and what hap- -- you know, what the actual times 15:50     | 20 A. Yeah. I mean, every time there is 15:59                |
| 21 were of boys and girls competing against each other. 15:50 | 21 legislation involving athletics, home school, 15:59       |
| 22 MS. GREEN: Okay. I think if folks are 15:50                | 22 whatever, it's not unusual for them to contact me 15:59   |
| 23 all right, we will take a five-minute break, and 15:50     | 23 about our position or our input on it. 16:00              |
| 24 then I should have -- let's see -- I should have a 15:50   | 24 Q. So you notice in the top-right corner, 16:00           |
| 25 couple more exhibits to go through. 15:50                  | 25 Thursday, March 11th is underlined. 16:00                 |
| Page 147                                                      | Page 149                                                     |

1 Was this the first time that Melissa White 16:00  
 2 spoke to you about H.B. 3293? 16:00  
 3 MS. GREEN: Object to the form. 16:00  
 4 THE WITNESS: I believe it was. I may 16:00  
 5 have been underlining that as I was gathering my 16:00  
 6 documents to make sure I got them all out of my 16:00  
 7 email. So that might be why that was underlined. 16:00  
 8 BY MS. KANG: 16:00  
 9 Q. In this email, she asks for your thoughts 16:00  
 10 on H.B. 3293. 16:00  
 11 Did you provide her with any thoughts? 16:00  
 12 A. I did not. It was -- it -- I thought 16:00  
 13 there was an attachment to that, and I sent it off. 16:01  
 14 Was there -- oh, yeah. There it is. Down 16:01  
 15 at the bottom. 16:01  
 16 And I didn't -- I didn't open it. I sent 16:01  
 17 it off to Dinsmore & Shohl. 16:01  
 18 Q. Did you ever have any verbal 16:01  
 19 communications with Melissa White about this bill? 16:01  
 20 A. The only communication I could -- might 16:01  
 21 have had is that when she asked me to come to the 16:01  
 22 finance meeting and wait outside. And then I was 16:01  
 23 told I wasn't needed. 16:01  
 24 MS. KANG: I'm going to introduce a 16:01  
 25 document as Exhibit 13. 16:01  
 Page 150

1 (Deposition Exhibit 13 was marked for 16:02  
 2 identification and is attached hereto.) 16:02  
 3 MS. KANG: Exhibit 13 is now available in 16:02  
 4 everyone's Marked Exhibit folder. 16:02  
 5 BY MS. KANG: 16:02  
 6 Q. So let me know when you have it up. And 16:02  
 7 once you have it up, if you could scroll to the very 16:02  
 8 last page that has been Bates stamped -370. Let me 16:02  
 9 know. 16:02  
 10 A. Okay. 16:02  
 11 Q. Do you recognize this text exchange? 16:02  
 12 A. Yes. 16:02  
 13 Q. Is the Melissa at the top of the thread 16:03  
 14 referring to Melissa White? 16:03  
 15 A. Yes. 16:03  
 16 Q. Do you know why she asked for the 16:03  
 17 transgender policy? 16:03  
 18 MS. GREEN: Object to the form. 16:03  
 19 THE WITNESS: At some point, I don't -- 16:03  
 20 I'm not sure of the date. But at some point we 16:03  
 21 were -- you know, we had told them that we had a 16:03  
 22 Board policy for transgender. 16:03  
 23 So I'm sure she was trying to get a copy 16:03  
 24 of that. 16:03  
 25 ///  
 Page 151

1 BY MS. KANG: 16:03  
 2 Q. Who is "them"? 16:03  
 3 A. House -- House Education. 16:03  
 4 Q. Did you provide the policy to her? 16:03  
 5 A. I'm sure I did. 16:03  
 6 Q. Did she say anything to you afterwards 16:03  
 7 about the transgender policy? 16:03  
 8 A. Not that I recall. 16:03  
 9 Q. Did the two of you discuss H.B. 3293 after 16:03  
 10 this text conversation at any point? 16:04  
 11 MS. GREEN: Object to the form. 16:04  
 12 THE WITNESS: Not that I recall. 16:04  
 13 MS. KANG: I'm just going to introduce one 16:04  
 14 last exhibit, Exhibit 14. 16:04  
 15 (Deposition Exhibit 14 was marked for 16:04  
 16 identification and is attached hereto.) 16:04  
 17 MS. KANG: Exhibit 14 is now available in 16:04  
 18 the Marked Exhibits folder. 16:04  
 19 BY MS. KANG: 16:04  
 20 Q. And let me know when you have it up. 16:04  
 21 THE WITNESS: That is 11. 16:04  
 22 MS. GREEN: Oh. I'm sorry. Uploaded 16:04  
 23 error there. 16:04  
 24 THE WITNESS: It was 9. Yeah. 16:04  
 25 There it is. 16:04  
 Page 152

1 MS. GREEN: I'm sorry. 16:04  
 2 THE WITNESS: Okay. 16:05  
 3 BY MS. KANG: 16:05  
 4 Q. So on the first page that is Bates 16:05  
 5 Stamped -286, you will see it reads "Regional 16:05  
 6 Principals' Meetings." 16:05  
 7 What is the purpose of the Regional 16:05  
 8 Principals' Meetings? 16:05  
 9 A. It's when we make sure that any new rules, 16:05  
 10 we go over them. And then also -- most importantly, 16:05  
 11 they get their C&I cards, which are all the coaches 16:05  
 12 get in free to games. 16:05  
 13 And so that's the only reason why they 16:05  
 14 come to the meeting, sadly to say, not to hear me 16:05  
 15 speak. 16:06  
 16 Q. And apologies for my ignorance. But 16:06  
 17 what's a C&I card? 16:06  
 18 A. Courtesy and identification card. It's 16:06  
 19 like a free pass into all high school games. 16:06  
 20 Q. All right. Scroll down one page in 16:06  
 21 Exhibit 14 to the page Bates Stamped -287. 16:06  
 22 A. Is it the schedule? 16:06  
 23 Q. No. It's just the first -- 16:06  
 24 A. Regional Principals' Meeting? 16:06  
 25 Q. That's correct. 16:06  
 Page 153

|                                                               |                                                              |
|---------------------------------------------------------------|--------------------------------------------------------------|
| 1 A. First slide? 16:06                                       | 1 current position is that gender is identified in 16:09     |
| 2 Q. That's -- that's correct. 16:06                          | 2 WVEIS," would you have to depend on the school's 16:09     |
| 3 A. Okay. 16:06                                              | 3 determination? 16:09                                       |
| 4 Q. So are these the slides that were 16:06                  | 4 A. Yes. 16:09                                              |
| 5 presented at this meeting? 16:06                            | 5 Q. Can the information in WVEIS for someone's 16:10        |
| 6 A. Yes. 16:06                                               | 6 gender be changed? 16:10                                   |
| 7 Q. Do you know who prepared these slides? 16:06             | 7 MS. GREEN: Object to the form. 16:10                       |
| 8 A. Each of us prepared our -- our portion, 16:06            | 8 THE WITNESS: I'm not sure what the rules 16:10             |
| 9 myself and the three assistants. So we all have 16:06       | 9 are for WVEIS. 16:10                                       |
| 10 different areas to cover. 16:07                            | 10 BY MS. KANG: 16:10                                        |
| 11 Q. By "three assistants," you mean your three 16:07        | 11 Q. Do you know who contributes information to 16:10       |
| 12 assistant executive directors? 16:07                       | 12 WVEIS? 16:10                                              |
| 13 A. Uh-huh. 16:07                                           | 13 MS. GREEN: Object to the form. 16:10                      |
| 14 Q. So I want to draw your attention to what's 16:07        | 14 THE WITNESS: Each school does, but I'm 16:10              |
| 15 been Bates stamped -346. Apology if I -- will 16:07        | 15 not sure, like, who in each school. 16:10                 |
| 16 identify the page number in a moment. 16:07                | 16 BY MS. KANG: 16:10                                        |
| 17 So it is Page 61 of the pdf. 16:07                         | 17 Q. Do you remember if this slide was 16:10                |
| 18 A. Okay. 16:07                                             | 18 discussed during the regional principals' meeting? 16:10  |
| 19 Q. Do you recognize this slide? 16:07                      | 19 A. Probably was. I would say yes. 16:10                   |
| 20 A. I'm not there yet. 16:07                                | 20 Q. What was discussed? 16:10                              |
| 21 MS. GREEN: I'm sorry. 16:07                                | 21 MS. GREEN: Object to the form. 16:10                      |
| 22 BY MS. KANG: 16:07                                         | 22 THE WITNESS: Just what was on the slide, 16:10            |
| 23 Q. Oh. I'm sorry. 16:07                                    | 23 that current law is being challenged, and we were 16:10   |
| 24 A. Yes. 16:08                                              | 24 waiting for final ruling from the Department of Ed. 16:10 |
| 25 Q. Do you know who prepared this slide? 16:08              | 25 ///                                                       |
| Page 154                                                      | Page 156                                                     |
| 1 A. This would have been Cindy Daniel. 16:08                 | 1 BY MS. KANG: 16:10                                         |
| 2 Q. And she is one of your -- 16:08                          | 2 Q. Anything else? 16:10                                    |
| 3 A. Assistant executive directors. 16:08                     | 3 A. As it relates to transgender as it relates 16:10        |
| 4 Q. So in the second bullet point here, it 16:08             | 4 to this slide, you mean? 16:10                             |
| 5 says [as read]: 16:08                                       | 5 Q. That's correct. 16:11                                   |
| 6 "WVSSAC's current position is that 16:08                    | 6 A. I don't think there was anything more 16:11             |
| 7 gender is identified in WVEIS for 16:08                     | 7 discussed, from my knowledge. 16:11                        |
| 8 athletic participation purposes." 16:08                     | 8 MS. KANG: So I believe that is all my 16:11                |
| 9 What does this mean? 16:08                                  | 9 questions. 16:11                                           |
| 10 A. Well, I think this was before the ruling 16:08          | 10 I'm going to go off the record for about 16:11            |
| 11 that B.P.J. could participate; so that we were still 16:08 | 11 five minutes or so and see if there's anything else 16:11 |
| 12 reiterating it in our policy at the time until we 16:08    | 12 I need to ask. 16:11                                      |
| 13 got the final ruling from the Department of Ed. 16:09      | 13 But, otherwise, I think we're at the 16:11                |
| 14 Q. Just to be clear, if someone's gender in 16:09          | 14 finish line, Mr. Dolan. 16:11                             |
| 15 WVEIS is male, does that mean they would have to 16:09     | 15 THE WITNESS: Good. 16:11                                  |
| 16 play on the boys' team? 16:09                              | 16 THE VIDEOGRAPHER: Off the record. The 16:11               |
| 17 A. Yes. 16:09                                              | 17 time is 4:11. 16:11                                       |
| 18 Q. Before H.B. 3293 was enacted and under 16:09            | 18 (Brief recess.) 16:17                                     |
| 19 your trans policy, did you just rely on the school's 16:09 | 19 THE VIDEOGRAPHER: Back on the record. 16:17               |
| 20 determination of gender or would you go into WVEIS 16:09   | 20 The time is 4:18. 16:17                                   |
| 21 and look at WVEIS? 16:09                                   | 21 MS. KANG: Mr. Dolan, I am finished asking 16:17           |
| 22 A. We don't have access to WVEIS; so we 16:09              | 22 my questions. I will reserve the right to ask any 16:17   |
| 23 wouldn't be able to. And, to our knowledge, we 16:09       | 23 questions depending on other parties' questions. 16:18    |
| 24 didn't have any other cases prior to this. 16:09           | 24 I'll also reserve the right to ask questions if 16:18     |
| 25 Q. So in this slide, when it says "the 16:09               | 25 there are changes in the errata. But otherwise I 16:18    |
| Page 155                                                      | Page 157                                                     |

|                                                               |                                                              |
|---------------------------------------------------------------|--------------------------------------------------------------|
| 1 think we're -- you're done with me for today. 16:18         | 1 A. I don't -- 16:20                                        |
| 2 THE WITNESS: Okay. Thank you. 16:18                         | 2 Q. Go ahead. 16:20                                         |
| 3 THE VIDEOGRAPHER: Is there anybody else 16:18               | 3 A. I don't remember if it was on this past 16:20           |
| 4 with questions or should I go ahead and close out? 16:18    | 4 year -- it was on this year with Cindy's slide, but 16:20  |
| 5 MR. SCRUGGS: This is Jonathan Scruggs for 16:18             | 5 normally it was on mine. 16:20                             |
| 6 the intervenor. No questions from us. 16:18                 | 6 So I don't -- I would have to go back and 16:20            |
| 7 MS. MORGAN: This is Kelly Morgan. 16:18                     | 7 check all my -- if we record them. And if you 16:20        |
| 8 No questions for the State Board and 16:18                  | 8 didn't go to the meeting, then you were able to 16:20      |
| 9 Superintendent Burch. 16:18                                 | 9 listen to the recording. 16:20                             |
| 10 MR. CROPP: This is Jeffrey Cropp for 16:18                 | 10 Q. Okay. This policy -- excuse me. 16:20                  |
| 11 Harrison County Board of Education and Dora Stutler. 16:18 | 11 The policy was never voted on by the 16:21                |
| 12 16:18                                                      | 12 member schools, the transgender policy? 16:21             |
| 13 EXAMINATION 16:18                                          | 13 A. That's correct. 16:21                                  |
| 14 BY MR. CROPP: 16:18                                        | 14 MR. CROPP: I don't have any further 16:21                 |
| 15 Q. I just have a couple of follow-up 16:18                 | 15 questions. 16:21                                          |
| 16 questions, Mr. Dolan. 16:19                                | 16 Thank you. 16:21                                          |
| 17 A. Okay. 16:19                                             | 17 MR. CAPEHEART: Curtis Capeheart for the 16:21             |
| 18 Q. Regarding Exhibit 6, which is the 16:19                 | 18 State. 16:21                                              |
| 19 transgender policy, was a copy of that policy ever 16:19   | 19 I have no questions. 16:21                                |
| 20 distributed to the member schools? 16:19                   | 20 Thank you, Mr. Dolan. 16:21                               |
| 21 A. I don't believe so. 16:19                               | 21 THE WITNESS: Thank you. 16:21                             |
| 22 Q. Okay. Was a copy of the transgender 16:19               | 22 THE VIDEOGRAPHER: Okay. That looks like 16:21             |
| 23 policy ever given to the principals? 16:19                 | 23 everybody. So I'll go ahead and close out unless 16:21    |
| 24 A. I don't believe so. 16:19                               | 24 there is anything else. 16:21                             |
| 25 Q. Was a copy of that transgender policy ever 16:19        | 25 THE REPORTER: And this is the reporter. 16:21             |
| Page 158                                                      | Page 160                                                     |
| 1 given to the County Boards of Education? 16:19              | 1 I did hear that there will be an errata 16:21              |
| 2 A. I don't believe so. 16:19                                | 2 sheet. So is the witness reviewing? 16:21                  |
| 3 Q. Was a copy of the transgender policy ever 16:19          | 3 MS. GREEN: Yes. We'll read and sign. 16:21                 |
| 4 given to the county superintendents? 16:19                  | 4 And if I could -- 16:21                                    |
| 5 A. I don't believe so. 16:19                                | 5 This is Roberta Green. 16:21                               |
| 6 Q. You mentioned that -- at a regional 16:19                | 6 So if I could please have it sent to me, 16:21             |
| 7 meeting that that policy was reviewed with the 16:19        | 7 and I'll get with Mr. Dolan. 16:21                         |
| 8 principals who attended the -- that meeting. 16:19          | 8 THE REPORTER: Thank you. 16:21                             |
| 9 But my question is, is that -- was that 16:19               | 9 THE VIDEOGRAPHER: Thank you. 16:21                         |
| 10 just at the first meeting where the policy was 16:19       | 10 We are off the record at 4:22 p.m. EST, 16:21             |
| 11 introduced, or did you go over that policy every 16:19     | 11 and this concludes today's testimony given by 16:22       |
| 12 regional meeting after it was introduced? 16:19            | 12 30(b)(6) Witness Bernie Dolan. The total number of 16:22  |
| 13 MS. GREEN: Object to the form. 16:19                       | 13 Media Units used was three. And will be retained by 16:22 |
| 14 THE WITNESS: Normally, we would -- you 16:20               | 14 Veritext Legal Solutions. 16:22                           |
| 15 mean each year? Or do you mean, like, when we do 16:20     | 15 (Whereupon, at 4:22 p.m., the deposition                  |
| 16 ten of them, was it brought up at each ten? 16:20          | 16 of BERNARD DOLAN was adjourned.)                          |
| 17 BY MR. CROPP: 16:20                                        | 17 --- oOo ---                                               |
| 18 Q. Each year. So it was introduced in one 16:20            | 18                                                           |
| 19 year. My question is at the subsequent years -- did 16:20  | 19                                                           |
| 20 you go over that policy during the subsequent years 16:20  | 20                                                           |
| 21 at that -- at all ten regional meetings? 16:20             | 21                                                           |
| 22 A. I would say it was -- I don't know when it 16:20        | 22                                                           |
| 23 came off, but it was on the agenda for a number of 16:20   | 23                                                           |
| 24 years, yes. 16:20                                          | 24                                                           |
| 25 Q. Whether you say -- 16:20                                | 25                                                           |
| Page 159                                                      | Page 161                                                     |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

Federal Rules of Civil Procedure

Rule 30

(e) Review By the Witness; Changes.

(1) Review; Statement of Changes. On request by the deponent or a party before the deposition is completed, the deponent must be allowed 30 days after being notified by the officer that the transcript or recording is available in which:

(A) to review the transcript or recording; and

(B) if there are changes in form or substance, to sign a statement listing the changes and the reasons for making them.

(2) Changes Indicated in the Officer's Certificate. The officer must note in the certificate prescribed by Rule 30(f)(1) whether a review was requested and, if so, must attach any changes the deponent makes during the 30-day period.

DISCLAIMER: THE FOREGOING FEDERAL PROCEDURE RULES ARE PROVIDED FOR INFORMATIONAL PURPOSES ONLY.

THE ABOVE RULES ARE CURRENT AS OF APRIL 1, 2019. PLEASE REFER TO THE APPLICABLE FEDERAL RULES OF CIVIL PROCEDURE FOR UP-TO-DATE INFORMATION.

VERITEXT LEGAL SOLUTIONS  
COMPANY CERTIFICATE AND DISCLOSURE STATEMENT

Veritext Legal Solutions represents that the foregoing transcript is a true, correct and complete transcript of the colloquies, questions and answers as submitted by the court reporter. Veritext Legal Solutions further represents that the attached exhibits, if any, are true, correct and complete documents as submitted by the court reporter and/or attorneys in relation to this deposition and that the documents were processed in accordance with our litigation support and production standards.

Veritext Legal Solutions is committed to maintaining the confidentiality of client and witness information, in accordance with the regulations promulgated under the Health Insurance Portability and Accountability Act (HIPAA), as amended with respect to protected health information and the Gramm-Leach-Bliley Act, as amended, with respect to Personally Identifiable Information (PII). Physical transcripts and exhibits are managed under strict facility and personnel access controls. Electronic files of documents are stored in encrypted form and are transmitted in an encrypted fashion to authenticated parties who are permitted to access the material. Our data is hosted in a Tier 4 SSAE 16 certified facility.

Veritext Legal Solutions complies with all federal and State regulations with respect to the provision of court reporting services, and maintains its neutrality and independence regardless of relationship or the financial outcome of any litigation. Veritext requires adherence to the foregoing professional and ethical standards from all of its subcontractors in their independent contractor agreements.

Inquiries about Veritext Legal Solutions' confidentiality and security policies and practices should be directed to Veritext's Client Services Associates indicated on the cover of this document or at [www.veritext.com](http://www.veritext.com).

10 VIDEOGRAPHER: We are now on the record.  
11 My name is Jacob Stock. I'm a Certified Legal Video  
12 Specialist employed by Sargent's Court Reporting  
13 Services. The date today is February 21st, 2022, and  
14 the current time is 10:16 a.m. Eastern Standard Time.  
15 This deposition is being taken remotely by  
16 videoconferencing. The caption of this case in the  
17 United States District Court for the Southern District  
18 of West Virginia, Charleston Division. BPJ by her next  
19 friend and mother, Heather Jackson v. West Virginia  
20 State Board of Education, et al. Case number  
21 2:21-CV-00316. The name of the witness is Kacie Kidd,  
22 M.D. Will the attorneys present state their names and  
23 the parties they represent?

24 ATTORNEY LINKOUS: This is Tim Linkous on

1     behalf of Kacie Kidd, M.D.

2                     ATTORNEY TRYON:   This is David Tryon on  
3     behalf of the State of West Virginia.

4                     ATTORNEY DENIKER:   This is Susan Deniker  
5     on behalf of Defendants Harrison County Board of  
6     Education and Superintendant Dora Stutler.

7                     ATTORNEY GREEN:   This is Roberta Green on  
8     behalf of West Virginia Secondary School Activities  
9     Commission.

10                    ATTORNEY MORGAN:   This is Kelly Morgan on  
11    behalf of West Virginia Board of Education and  
12    Superintendant Burch.

13                    ATTORNEY HOLCOMB:   This is Christiana  
14    Holcomb on behalf of Intervenor, Lainey Armistead.

15                    ATTORNEY HARTNETT:   And sorry, I think I  
16    was on mute before.   This is Kathleen Hartnett from  
17    Cooley for Plaintiff.   And there are several others on  
18    the line for Plaintiff from Cooley.

19                    ATTORNEY BARR:   Yes.   Good morning.   This  
20    is Andrew Barr from Cooley on behalf of Plaintiff.

21                    ATTORNEY KANG:   Good morning.   This is  
22    Katelyn Kang from Cooley on behalf of the Plaintiff.

23                    ATTORNEY REINHARDT:   Good morning.   This  
24    is Elizabeth Reinhardt on behalf of Plaintiff.

1                    ATTORNEY HELSTROM: Good morning. This  
2 is Zoe Helstrom from Cooley on behalf of Plaintiff.

3                    ATTORNEY SWAMINATHAN: Good morning.  
4 This is Sruti Swaminathan from Lambda Legal on behalf of  
5 Plaintiff.

6                    ATTORNEY BLOCK: Good morning. This is  
7 Josh Block from the ACLU on behalf of Plaintiff.

8                    VIDEOGRAPHER: If that's everybody, the  
9 court reporter can swear in the witness, and we can  
10 begin.

11                   ATTORNEY TRYON: Two things. So first of  
12 all, I went to mention that my colleague, Curtis  
13 Capehart, is on this call. And I wanted to take care of  
14 a housekeeping matter before we get started. I wonder  
15 if we could do that, if we could exclude Dr. Kidd for  
16 just a moment.

17                   VIDEOGRAPHER:

18 Yes, give me one second.

19                   ATTORNEY TRYON:

20 Thank you. So I just wanted to --- we  
21 had previously in other depositions we've talked about  
22 how we're going to handle objections. And Mr. Linkous,  
23 in some other depositions, we've said that we are going  
24 to handle by stating objection for form of the question

1 or directing the witness not to answer for privilege  
2 issues. And Kathleen, are you going to be handling this  
3 deposition?

4 ATTORNEY HARTNETT: Yes, David. And  
5 would you like to discuss this off the record first and  
6 then we can put our agreements on the record?

7 ATTORNEY TRYON: Okay.

8 ATTORNEY HARTNETT: Can we go off the  
9 record?

10 VIDEOGRAPHER: Yes. Going off the  
11 record. The current time is 10:20 a.m.

12 OFF VIDEOTAPE

13 ---

14 (WHEREUPON, AN OFF RECORD DISCUSSION WAS HELD.)

15 ---

16 ON VIDEOTAPE

17 VIDEOGRAPHER: Back on the record. The  
18 current time is 10:24 a.m.

19 ATTORNEY TRYON: Thank you. So while we  
20 were off the record we had a discussion and we've come  
21 to an agreement on how to handle objections, that  
22 primarily we would be handling objections by stating one  
23 of three things, either objection to form, objection as  
24 to technology --- or terminology, excuse me, or

1 objection to any privileges or scope. So I guess that's  
2 four. And Mr. Linkous has said he will strive for that,  
3 but has not specifically addressed --- agreed to that.  
4 And finally, the counsel for Defendants have indicated  
5 that they will --- if there is an objection by counsel  
6 for Dr. Kidd, then they will be included within that  
7 objection. So they don't have to object as well. Is  
8 that a fair summary of our discussion?

9 ATTORNEY HARTNETT: Just on the last  
10 point, it was objections by the witness to Counsel.

11 ATTORNEY TRYON: Thank you for correcting  
12 me.

13 ATTORNEY LINKOUS: Hey, Dave, can I ask a  
14 quick question?

15 ATTORNEY TRYON: Yes.

16 ATTORNEY LINKOUS: Ms. Holcomb, who was  
17 on just a second ago, I heard her say she represents an  
18 intervenor, and I didn't know there was an intervenor,  
19 so who intervened and what's the story there?

20 ATTORNEY TRYON: The intervenor is Lainey  
21 Armistead, I think that's how you say her last name, who  
22 is a colleague student, a female college student who has  
23 intervened.

4 EXAMINATION

5 ---

6 BY ATTORNEY TRYON:

7 Q. Dr. Kidd, my name is David Tryon. I represent  
8 the State of West Virginia. Can you, first of all, tell  
9 me how you would prefer that I address you?

10 A. Hi, I'm Kacie Kidd. I use she/her pronouns.  
11 You're welcome to address me as Kacie or Dr. Kidd.

12 Q. Very good. So Kacie --- well, let me call you  
13 Dr. Kidd. Dr. Kidd, are you represented by counsel  
14 today?

15 A. I am.

16 Q. And who is that?

17 A. Mr. Linkous.

18 Q. And how long has he represented you?

19 A. Well, I can't recall our exact first email  
20 exchange. I think it's been over a month.

21 Q. Okay.

22 Have you ever been deposed before?

23 A. I have not.

24 Q. Have you ever testified at trial before?

1 us, will not be able to detect anything other than your  
2 actual words.

3 Okay?

4 A. Yes.

5 Q. Now, if you don't understand my questions,  
6 please say so, and I will try to reframe them or say it  
7 in a different way.

8 All right?

9 A. Okay.

10 Q. And if you need a break, let us know and we'll  
11 make --- we'll try and accommodate that. The only thing  
12 you can't do is take a break after I've asked a  
13 question. So we need to do it before I ask a question.  
14 And I'll also note that this deposition is being  
15 conducted as upon Cross Examination.

16 Now, are you familiar with the lawsuit that's  
17 involved here?

18 A. I know of the lawsuit loosely. I don't know  
19 significant details.

20 Q. Okay.

21 Just briefly, the Plaintiff in the case is BPJ.  
22 Are you aware of who BPJ is?

23 A. I am.

24 Q. And BPJ is suing various Defendants asserting

1 that a law known as HB-3293 is invalid at least as it  
2 pertains to BPJ. Were you aware of that much?

3 A. Not the numbers and name of that law, but  
4 loosely, yes.

5 Q. Okay.

6 Have you heard of the law, loosely known ---  
7 well, it is known as HB-3293, sometimes called the  
8 Women's Sports --- Save Women's Sports Act, and maybe  
9 there's other names for it, too. Have you heard of the  
10 law?

11 ATTORNEY HARTNETT: Objection to the  
12 form.

13 THE WITNESS: In lay media, yes.

14 BY ATTORNEY TRYON:

15 Q. You haven't actually seen the lawsuit.

16 Is that right?

17 A. That's correct.

18 Q. Have you read that law?

19 A. I can't recall if I read the actual law that  
20 passed.

21 Q. Okay.

22 Have you brought any documents to the  
23 deposition with you today?

24 A. I was told to have the two --- I think they're

1 called exhibits, the WPATH Guidelines and my clinical  
2 record.

3 Q. Okay.

4 And do you have those in hard copy or just  
5 electronically?

6 A. Both.

7 Q. Okay.

8 And have you reviewed any documents in  
9 preparation for this deposition?

10 A. Yes.

11 Q. Which documents are those?

12 A. They were documents provided by my lawyer  
13 telling me about depositions because I add ---.

14 ATTORNEY LINKOUS: Stop right there, Dr.  
15 Kidd. Communications from me to you and the substance  
16 of those communications are privileged. You don't have  
17 to talk about the substance of those.

18 BY ATTORNEY TRYON:

19 Q. Yes. All I need to know and I don't want to  
20 know what you and your lawyer talked about. I just want  
21 to know what documents you've looked at in preparation  
22 for your deposition today.

23 A. Sure. So those documents certainly.

24 Q. Okay.

1           So those are the medical records you mentioned,  
2   as well as the WPATH standards?

3       A.     Yes.

4       Q.     Anything else?

5       A.     I've certainly reviewed the medical literature  
6   in this case but that is an ongoing process that I'm  
7   always engaged in.

8       Q.     Okay.

9           Now, on Saturday we received some additional  
10   documents from your office, which appear to be similar  
11   to what's previously been marked as Exhibit 16. Do you  
12   have those in front of you as well?

13      A.     I'm not familiar with what Exhibit 16 includes.

14           ATTORNEY LINKOUS: Mr. Tryon, I will just  
15   interrupt and say that those records didn't really come  
16   from her office, they came from me. And I sent them to  
17   Plaintiff's Counsel, who then provided them to you.

18           ATTORNEY TRYON: Got it. And do you know  
19   if Dr. Kidd has those in front of her as well?

20           ATTORNEY LINKOUS: She should, yes.

21           ATTORNEY TRYON: Okay.

22   BY ATTORNEY TRYON:

23       Q.     So having gone through those --- excuse me one  
24   moment. So just some quick background. Can you give me

1 your full name and address, please?

2 A. My home address or my work address?

3 Q. Both, please.

4 A. My full name is Kacie Marie Kidd. My work  
5 address is --- depends on if you're looking at my office  
6 or clinical practice, but my office is 1 Medical Center  
7 Drive, Morgantown, West Virginia, 26506, I believe. And  
8 my home address ---.

9 Q. Can you slow down just a little bit, please?

10 A. Sure.

11 Q. Go ahead.

12 A. Do you need me to repeat? My home address is  
13 106 Canyon Ridge Drive, Morgantown, West Virginia,  
14 26508.

15 Q. And can you give me your work phone number,  
16 please?

17 A. I would need to check my business card. Is it  
18 okay if I do that?

19 Q. Yes.

20 A. My work phone (304) 293-6307.

21 Q. And I would also like to ask you for your  
22 personal phone number, which I would use only in the  
23 event that for some reason you were no longer  
24 represented by counsel. Otherwise, I would contact you

1 through counsel.

2 ATTORNEY LINKOUS: I would --- I just  
3 object and instruct her not to answer on that. I will  
4 accept subpoenas and you can contact me through her. I  
5 will continue representing her. And if not, there will  
6 be new counsel assigned and you will be informed of  
7 that.

8 ATTORNEY TRYON: Well, I've never had  
9 anyone instruct a witness not to do that before, but  
10 I'll move on.

11 BY ATTORNEY TRYON:

12 Q. Can you tell me where you went to --- about your  
13 education, your undergraduate education first, please?

14 A. Sure. I received my Bachelor's Degree in  
15 biology and women's studies from West Virginia  
16 University. I then went to medical school at West  
17 Virginia University School of Medicine. After that I  
18 completed a four-year residency in internal medicine and  
19 pediatrics at West Virginia University School of  
20 Medicine. I then completed a three-year fellowship in  
21 adolescent medicine at the University of Pittsburgh.

22 Q. What was your major in your pre-Bachelor's  
23 Degree?

24 A. It was biology and women's studies.

1 Q. And when did you get your Bachelor's Degree?

2 A. I graduated with my Bachelor's in 2010.

3 Q. And medical school, when did you graduate there?

4 A. 2014.

5 Q. Did you have any particular emphasis at the West  
6 Virginia School of Medicine?

7 A. It's not customary for people to have emphasis  
8 in medical school but instead in residency.

9 Q. Okay.

10 And in your residency what was your specialty  
11 or emphasis?

12 A. I did a dual residency in internal medicine and  
13 pediatrics.

14 Q. And when did you get that? When did you  
15 complete your residency?

16 A. In 2018.

17 Q. And then your fellowship, what was that in?

18 A. Adolescent medicine.

19 Q. And when did you complete that?

20 A. In 2021.

21 Q. Any particular reason that you chose adolescent  
22 medicine?

23 A. Supporting adolescents and young adults is my  
24 favorite part of medicine.

1 Q. Have you had any other specialized training  
2 other than what you just discussed?

3 A. Within adolescent medicine there are several  
4 ways to have additional training and I did pursue one of  
5 those ways.

6 Q. And what was that?

7 A. Gender affirming care.

8 Q. And in what way did you pursue that?

9 A. I dedicated much of my clinical training to  
10 learning under experts in this space. I also dedicated  
11 my research training in a similar vein, and I engaged in  
12 organizations and groups and additional educational  
13 opportunities to round out that training.

14 Q. What experts are you referring to?

15 A. Doctor Gerald Montano, Doctor Selma Witchell  
16 among others.

17 Q. I'm sorry. Montano and who is the other one?

18 A. Selma Witchell.

19 Q. Can you spell that, please?

20 A. W-I-T-C-H-E-L-L.

21 Q. And what was the first name?

22 A. Selma, S-E-L-M-A.

23 Q. And where is Selma Witchell?

24 A. The University of Pittsburgh.

1 Q. Do you have a license to practice medicine?

2 A. I do.

3 Q. Where?

4 A. In the State of West Virginia.

5 Q. Any others?

6 A. I previously held a training license in the  
7 State of Pennsylvania when I was a trainee there.

8 Q. But currently you do not?

9 A. I do not.

10 Q. And do you have any --- you may have answered  
11 this, but do you have any specific specialties?

12 A. My specialties are pediatrics, internal  
13 medicine, adolescent medicine and gender affirming care.

14 Q. I was wondering if that was my computer dingling  
15 or someone else's.

16 A. I think it may be mine. Give me a second. I'll  
17 sign out of my email.

18 Q. Okay.

19 A. Okay.

20 Q. Do you have Board Certifications?

21 A. I do.

22 Q. What are those?

23 A. I'm Board Certified in Internal Medicine and  
24 Pediatrics.

1 Q. What was necessary to get Board Certification  
2 for internal medicine?

3 A. I was trained in internal medication and many of  
4 my patients are adults by legal definition.

5 Q. I'm sorry. You broke up. Can you repeat that  
6 please?

7 A. Sure. I was trained in internal medicine and  
8 eligible to sit that Board Examination. Additionally, a  
9 lot of my patients are over the age of 18.

10 Q. So you had to sit for a Board Examination.  
11 Is that right?

12 A. I sat for two Board Examinations in Pediatrics  
13 and Internal Medicine as well as numerous Board  
14 Examinations to be allowed to get to that point.

15 Q. Okay.

16 And you passed those boards?

17 A. I did.

18 Q. Are you a member of any medical societies?

19 A. I am.

20 Q. What are those?

21 A. I am currently a member of the American Academy  
22 of Pediatrics. I'm a member of the Society for  
23 Adolescent Health and Medicine. I am also a member of  
24 the World Professional Association for Transgender

1 Health.

2 Q. Any others?

3 A. Not that I can recall.

4 Q. When you said the Society for Adolescent  
5 Medicine, did I hear that right?

6 A. The Society for Adolescent Health and Medicine,  
7 abbreviated SAHM, S-A-H-M.

8 Q. And what do you need to be a member of that,  
9 what do you need to do?

10 A. Most of these organizations have membership  
11 tiers for a variety of persons and you need to pay a  
12 fee. But for the purpose of my membership, it's as a  
13 physician. And for the American Academy of Pediatrics I  
14 have a special notation in my membership as someone who  
15 has passed the board exam for that field.

16 Q. For WPATH, what do you need to do to be a member  
17 there?

18 A. You need to sign up and pay a fee and check your  
19 membership category. Mine, again, is physician and  
20 although I think I may be still listed as a student  
21 member based on my training time at the University of  
22 Pittsburgh for that membership, but I am also part of  
23 their global education initiative, which is an  
24 additional training on top of being a member.

1 Q. I'm sorry, global what initiative?

2 A. Education initiative.

3 Q. Are you a member of the ---?

4 A. I am not.

5 Q. Are you a member or on the board of any  
6 educational organizations?

7 A. I think it depends on what you mean by  
8 educational organization.

9 Q. Any organizations that try and educate on any  
10 issues?

11 A. Well, broadly, I'm faculty at West Virginia  
12 School of Medicine and I routinely educate a variety of  
13 learners at a variety of levels. I'm also part of  
14 something called the Tri-State Gender Collaborative,  
15 which is a community-based organization that does  
16 provide education.

17 Q. And do you have privileges at any hospitals?

18 A. I do have privileges at Ruby Memorial Hospital  
19 in Morgantown, West Virginia.

20 Q. Any others?

21 A. No.

22 Q. So tell me of your work experience, your  
23 professional work experience.

24 A. Can you restate your question?

1 Q. Yes. So I'm interested to learn your work  
2 experience, where you have worked and what you have done  
3 starting --- I'm not sure exactly --- you've told me  
4 about your internship and then I know that you are doing  
5 some other things. So after your internship, did you  
6 have any professional --- did you start working right  
7 away or did you just do the fellowship or is fellowship  
8 considered work? Help me out, understand your work  
9 history.

10 ATTORNEY HARTNETT: Objection to the  
11 form.

12 THE WITNESS: Medicine training is  
13 complicated, and so the internship is part of residency.  
14 That was part of the four years that I spent in internal  
15 medicine and pediatrics training. During that time I  
16 was working in a variety of settings to obtain training  
17 in both of those fields.

18 After that was completed I was also doing  
19 training at the University of Pittsburgh. One could  
20 consider all of those work. And I was a paid employee  
21 during that time when I was a trainee as well.

22 BY ATTORNEY TRYON:

23 Q. What's the first job in which you were actually  
24 treating patients?

1           A.     I have been treating patients since I was a  
2   medical student.

3 | Q. Okay.

4 And your first paid job where you were treating  
5 patients?

6           A.       That would have been the beginning of my  
7   residency, which is often called an internship in  
8   internal medicine and pediatrics.

9 Q. And then how about your fellowship, were you  
10 treating patients during your fellowship?

|    |         |
|----|---------|
| 11 | A. Yes. |
|----|---------|

12 Q. What is your current --- I don't know what the  
13 right term would be profession --- excuse me, profession  
14 or your work status?

15           A.       I am currently an assistant professor in the  
16   Department of Pediatrics at the WVU School of Medicine.  
17   I am also the Medical Director of the WVU Medicine  
18   Children's Gender and Sexual Development Clinic.

19 Q. And then do you have a separate practice where  
20 you diagnose and treat patients?

21 | A. Under those titles, yes.

|    |    |       |
|----|----|-------|
| 22 | Q. | Okay. |
|----|----|-------|

23 | So it's not separate from those?

24 | A. No.

1 Q. Do you get paid directly by the patients or just  
2 only get paid by the West Virginia University?

3 A. I am dual employed as is the customary practice  
4 for physicians who are working at the WV School of  
5 Medicine, and so my dual employment goes both through  
6 West Virginia University as well as --- I believe it's  
7 called UHA, the University Health Associates, but I may  
8 need to clarify that.

9 Q. Okay.

10 As assistant professor what do you do?

11 A. Assistant professor is my title in my tenure  
12 track of employment, and so it's fairly traditional for  
13 assistant professors to be the entry point of tenure  
14 track position, if that makes sense. And my role in  
15 that is to provide medical care as well as to conduct  
16 research and to provide teaching.

17 Q. So I understood conduct research and also  
18 teaching. What was the first thing you said?

19 A. To provide clinical care.

20 Q. What do you teach?

21 A. I teach a variety of learner types and topics,  
22 but they typically center adolescent medicine and gender  
23 affirming care or both.

24 Q. Are there classes specifically on those topics

1 | or is it part of a more general class?

2           A.       Most often my teaching is as a guest lecturer  
3   for a medical student class or a residency training  
4   program or something called grand rounds, which is a  
5   teaching opportunity for faculty-level positions.

6 | Q. What types of research do you do?

7           A.       I conduct mix methods research, including  
8 qualitative and quantitative analyses, centering gender  
9 adversity in people and their experiences as well as the  
10 experiences of their family.

11 | Q. How many papers have you published?

12           A.       I don't know that I could give you a complete  
13   answer to that question.  I suspect --- I know that it  
14   is more than 12.  I suspect less than 20.  It also  
15   depends on what you mean by paper.

|    |    |       |
|----|----|-------|
| 16 | Q. | Okay. |
|----|----|-------|

17                   When you say provide clinical care --- well,  
18   let me come back to that in a minute.  As Medical  
19   Director of the West Virginia University --- excuse me,  
20   West Virginia University Medicine Children's Gender and  
21   Sexual Development --- do I have that title right?

22 A. Almost. It's the WVU Medicine Children's Gender  
23 and Sexual Development Clinic.

24 | Q. And what is your role? What do you do in that

1 Q. And do you supervise them as they are giving  
2 medical care?

3 A. Yes.

4 Q. Would it be fair to say that you are currently a  
5 treating physician?

6 A. Yes.

7 Q. And just so I have it right rather than me  
8 trying to restate it, in what areas do you treat  
9 patients?

10 A. I provide care for adolescents and young adults.

11 Q. In what areas?

12 A. In adolescent medicine, in gender affirming  
13 care.

14 Q. Do you provide general --- are you a  
15 pediatrician as well?

16 A. It's complicated. Adolescent medicine is a  
17 complicated --- and there are many adolescent  
18 specialists who do provide well child care for young  
19 people. I do that infrequently. And so for example, if  
20 a young person wishes for me to be their primary care  
21 provider, I can do that on a limited basis, but the  
22 majority of my care is subspecialty care and  
23 consultation.

24 Q. When patients need to come to you do they come

1 | to you directly or through the University?

2 | A. Can you restate the question?

3 Q. So it's my understanding that you do treat  
4 patients. And so my question is do they come to you  
5 directly or do they go through the University?

6           A.     I'm not understanding what you mean by coming  
7 through the University.

8 | Q. How do you --- how do patients come to you?

9           A.     They can call our scheduling line that is  
10   available on our website or they can be referred from  
11   another physician or provider.

12 Q. How much of your time is spent with patients  
13 versus your time in doing research and teaching and  
14 other things?

15           A.     I am 20 percent clinical and 80 percent  
16 research.

17 Q. So when a new patient comes in what is the ---  
18 let me back up for a second. Have you been --- one  
19 second. When you have a new patient come in --- I'm  
20 sorry, let me go back to my other question. Have you  
21 been asked to be an expert witness in this case?

22 | A. No.

23 Q. Tell me about the intake process for a new  
24 patient.

1       A.       Well, depending on how a new patient finds us,  
2       either through direct scheduling or referral, once they  
3       have the visit they usually meet with us for a longer  
4       than perhaps expected visit to compare to other  
5       pediatric practices. New patients visit with my team  
6       are usually between two and two and a half hours. An  
7       hour of that is typically spent with me and we have a  
8       fairly long conversation with the young person, with  
9       family members together and separately and then we work  
10      together to help support that young person together.

11      Q.       When you say your team, who is on your team?

12      A.       Our team, from my practice, currently includes  
13      myself, a child and adolescent psychiatrist, whose name  
14      is Dr. Deci, and a clinical therapist, whose name is Ms.  
15      Brianna Hayes.

16      Q.       Doctor Steven --- what is his last name?

17      A.       Deci, D-E-C-I.

18      Q.       And Brianna Hayes, what is ---?

19      A.       H-A-Y-E-S.

20      Q.       What's her practice?

21      A.       She is a clinical therapist.

22      Q.       And Doctor Deci, what's the practice?

23      A.       He is a child and adolescent psychiatrist.

24      Q.       When the patient first is coming in --- let me

1 back up just a little bit for some more nuts and bolts  
2 in my question. Do they first meet with a secretary or  
3 nurse or fill out papers online? How does that process  
4 --- let's start with someone who is just direct  
5 scheduling.

6 A. And so if someone calls our scheduling line,  
7 they are scheduled for a visit. And they would arrive  
8 at their visit time, they would check in. They would  
9 sit in the waiting room. A nurse would call them back,  
10 take their vital signs and they would be put in an exam  
11 room with their family. They arrive with family. And  
12 then our team would see them.

13 Q. As far as the initial record, setting up the  
14 initial record of who this person is and what they're  
15 coming in for, who does that?

16 A. The family when they call when to make a visit  
17 will ask for a gender visit, and that's the only  
18 questioning that happens at that time.

19 Q. And then everything else that is input into the  
20 patient's records would either be from the nurse or from  
21 you or your team?

22 A. For those who are directly scheduling. If  
23 someone has been referred, it may be that they're  
24 referring provider or a scheduler from their referral

1 team put additional documentation in.

2 Q. Is there any --- okay.

3 So when you meet with the patients, is it  
4 initially just you or is it with the entire team first?

5 A. So it depends. We like to do a greeting where  
6 we all pile in these exam rooms and say hello and  
7 introduce ourselves so young people and families know  
8 our names and faces. Sometimes that is not possible for  
9 a variety of reasons. And also sometimes families don't  
10 need all of us and may or may not be interested in  
11 seeing all of us. Sometimes families just want to see  
12 me or sometimes they just want to see the mental health  
13 providers, and we try to accommodate that where we can.

14 Q. Do you gather their past medical history?

15 A. Yes.

16 Q. And is their medical history important?

17 A. I think that every patient's medical history,  
18 medication list, allergies, things like that can be  
19 important to their care.

20 Q. Can you explain to me why? I mean it may seem  
21 obvious to you, but I would like to just understand it.

22 A. Okay.

23 And so, someone's past medical history could  
24 certainly impact their present health, and so part of my

1 routine practice is to ask young people and their  
2 families what kind of diagnoses they have had in the  
3 past, including things like asthma, allergies, if  
4 they've broken their arm before, a whole host of  
5 questions.

6 | Q. Are those things relevant to gender care?

7 | A. They could be.

8 | Q. How would allergies be related to gender care?

9           A.       If you had an allergy to a medication that was  
10   related or the same as a medication that I could  
11   provide, that would be a concern to me.

12 Q. And do you typically take the history just from  
13 the patient or do you reach out to other healthcare  
14 providers?

15           A.       I take my history from the patient and parent or  
16       guardian in front of me, but I also have access to our  
17       electronic health record and I review that as well for  
18       meeting new patients.

19 | Q. Tell me about the electronic health record.

20           A.     Our health system uses an electronic health  
21     record called Epic.

22 | Q. And what is located in the Epic system?

23       A.     A variety of things, including vital signs from  
24     previous visits, notes from prior visits and prior

1 providers, information about the family address and  
2 phone number, should we need to mail anything or call  
3 them, things like that.

4 Q. Does the Epic system --- let me back up. So the  
5 Epic system is a system used by West Virginia  
6 University.

7 Is that right?

8 A. WV Medicine specifically and UHA uses Epic I  
9 believe in most, if not all, of their hospitals. I  
10 think a couple hospitals are going live with Epic soon.  
11 I think it's an incredibly common electronic health  
12 record in this country and others I believe.

13 Q. I've heard of it. I don't know a lot about it.  
14 So tell me, would Epic system that WVU Medicine is  
15 using, does it just have information from within the WVU  
16 Medicine medical system or does it expand out to all  
17 providers in the country, for example?

18 A. It would be wonderful if it did that if an  
19 effective way. There's a bit of capitalism involved  
20 there I suspect, but we do have something called Care  
21 Everywhere, which is a tab that you can select and for  
22 some circumstances it allows you to see notes from other  
23 Epics systems outside of WVU Medicine.

24 Q. So what is the WVU medical system? Where else

1 are they tied into?

2 A. Can you restate your question?

3 Q. First of all, let me make sure I get my  
4 terminology correct. It's WVU Medical?

5 A. WVU Medicine. I think that's the brand name for  
6 the UHA health family of hospitals and clinics and that  
7 sort of thing.

8 Q. So WVU Medicine uses the Epic system and also  
9 you can utilize Care Everywhere. So my question is,  
10 Care Everywhere ties you into what other systems?

11 A. I don't know the comprehensive list. It's kind  
12 of a bit of luck I think sometimes navigating Care  
13 Everywhere. It's a little bit of what I would consider  
14 a clunky system, but Care Everywhere is within Epic. It  
15 is not itself a separate system.

16 Q. Understood. But can you recall any other  
17 organizations that you can access through Care  
18 Everywhere?

19 A. I know that I can access the University of  
20 Pittsburgh in some capacity. I previously worked in  
21 that system, and so I wasn't seeing exactly what it  
22 looked like if I was in their system, but I can't really  
23 speak to other systems that are connected.

24 Q. And if a patient comes in and they've had prior

```
1 | considering.
```

2 Q. Is there something called objective versus  
3 subjective symptoms?

4 | A. Yes.

5 Q. Can you explain what those are and the  
6 difference?

7           A.       Objective tends to refer to things like vital  
8       signs or labs, things that we measure. Subjective tends  
9       to refer to things that patients tell us, like that they  
10      have headaches or the severity of their headaches.

11 | Q. How do you measure subjective symptoms?

12 | A. You talk with your patient.

13 | Q. Anything else?

14 A. That's the primary way to diagnose most things  
15 is to have a conversation with your patient.

16 Q. Is there a --- an objective way to measure the  
17 subjective symptoms?

18           A.       We have a lot of scales for a lot of things. We  
19   have a lot of diagnostic criteria for a lot of things,  
20   but most of medicine would not exist in my opinion if we  
21   didn't talk with our patients.

22 Q. I understand that. So it sounds like there's  
23 not a good way to actually put a measurement on  
24 subjective symptoms.

1 Is that a fair statement?

2 ATTORNEY HARTNETT: Object to form.

3 THE WITNESS: They are by nature  
4 subjective.

5 BY ATTORNEY TRYON:

6 Q. So when someone comes to you for gender  
7 dysphoria issues as opposed to other types of medical  
8 issues --- actually, let me start that all over again.  
9 Do you ever treat patients or diagnose patients for  
10 things other than gender dysphoria issues?

11 A. Yes.

12 Q. What other medical issues do you diagnose or  
13 treat?

14 A. It's a very extensive list.

15 Q. Okay.

16 Then I won't make you go through it, but can  
17 you give me some just general ideas?

18 A. Dysmenorrhea is an incredibly common thing that  
19 I treat and diagnose.

20 Q. Can you repeat that or spell that, please?

21 A. Dysmenorrhea, D-Y-S-M-E-N-O-R-R-H-E-A.  
22 Dysmenorrhea.

23 Q. What is that?

24 A. Dysmenorrhea is difficult periods. It's a whole

1 host of things that lead to heavy bleeding,  
2 uncomfortable bleeding, pain with bleeding, and can  
3 really impact live experience with young people.

4 Q. Okay.

5 Anything else?

6 A. As I said, there are many things that I diagnose  
7 and treat.

8 Q. Give me a few examples just so I sort of  
9 understand your practice.

10 A. Okay.

11 Sexually transmitted infections. I'm an  
12 adolescent medicine doctor, so really anything in the  
13 pubertal period or young period is in my practice. But  
14 I often screen and treat for sexually-transmitted  
15 infections. I also manage contraception. I also talk  
16 about mood, anxiety, depression. Would you like more?

17 Q. I think I'm getting the sense of it. So let me  
18 ask you about gender dysphoria. Can you give me your  
19 definition for what gender dysphoria is?

20 A. My definition is loosely based on the DSM-V,  
21 which has criteria for the diagnosis of gender  
22 dysphoria, but it is stress, significant distress often  
23 associated with the inconference between one's sex  
24 assigned at birth and gender identity lasting longer

1     than six months with accompanying things like seeking to  
2     present one's self gender expression in line with one's  
3     affirmed gender and in opposition to one's sex assigned  
4     at birth as well as some other criteria.

5           Q.     Is the actual intake process that we have  
6     discussed for someone coming to you for gender dysphoria  
7     different than some of these other issues that you've  
8     mentioned to me?

9           A.     Can you restate the question?

10          Q.     Sure.

11                 When someone comes to you, you have given me  
12     sort of the --- explained to me how the intake process  
13     works in general. And my question is, is it any  
14     different in general than with respect to someone coming  
15     to you with gender dysphoria specifically?

16          A.     In some ways. I ask a whole lot more questions  
17     about gender when we are talking about gender dysphoria,  
18     although I ask all of my patients about gender identity.

19          Q.     Why do you ask all of your patients about gender  
20     identity?

21          A.     It's important that I'm respectful of them and  
22     their name and pronouns, and also we know that gender  
23     diverse young people, and by my definition that is  
24     anyone who's sex assigned at birth and gender identity

1 do not fully align, we know that those young people face  
2 health disparities and inequities associated with mental  
3 health, and I want to make sure I can address those if  
4 they are present.

5 ATTORNEY TRYON: Let me just ask the  
6 court reporter if you're able to keep up with this?

7 COURT REPORTER: Attorney Tryon, if the  
8 doctor could speak a little bit slower because I'm ---  
9 yeah, a little bit slower, Doctor, please.

10 THE WITNESS: Absolutely.

11 ATTORNEY HARTNETT: She is doing a great  
12 time on the real time, though, but appreciate the point.

13 BY ATTORNEY TRYON:

14 Q. What is --- what percentage of your practice  
15 involves gender dysphoria or gender identity issues?

16 A. I couldn't give you an exact number, but my  
17 guess would be 80 percent.

18 Q. Now, you mention there's --- this may not be  
19 your word, but there's a process for diagnosing gender  
20 dysphoria.

21 Is that right?

22 A. There are diagnostic criteria, yes.

23 Q. And can you list those for me again? You  
24 started to go through that a little bit, but if you

1 could go through that I would appreciate it.

2 A. These are located in the DSM-V, and I cannot  
3 recite them by memory.

4 Q. Well, as best as you can, can you tell me what  
5 they are?

6 A. Loosely, the definition of gender dysphoria by  
7 my interpretation is that there is distress, often  
8 significant distress, associated with an incongruent  
9 between one's sex assigned at birth and one's gender  
10 identity lasting for at least six months and also  
11 inclusive of some other criteria, which include things  
12 like desiring to align one's gender expression with  
13 one's affirmed gender and in opposition to one's  
14 assigned sex.

15 Q. About how many people have come to you to get an  
16 initial diagnosis of gender dysphoria?

17 A. I want to clarify that most folks, at least a  
18 substantial portion of folks don't come to me asking for  
19 that diagnosis specifically, but more broadly to have  
20 conversations about means of support, although I am able  
21 to provide that diagnosis.

22 Q. Okay.

23 And about how many people have you given that  
24 diagnosis to?

1           A.       I couldn't give you an exact number. I can  
2 approximate and say that I have seen well over a hundred  
3 patients in my clinic.

4           Q.       And in which or for which you've given a  
5 diagnosis or gone through that --- let me start that  
6 over. Of those hundreds, those are the --- those you've  
7 actually gone through the process to make a diagnosis of  
8 gender dysphoria?

9           A.       I've certainly asked all of the relevant  
10 questions. Sometimes young people and their families  
11 don't desire to have that diagnosis listed in their  
12 chart due to fear of discrimination.

13          Q.       But you would say you've given that diagnosis  
14 for over a hundred patients?

15          A.       I've certainly asked the questions associated  
16 with that diagnosis, yes.

17          Q.       Okay.

18                   But I'm asking where you've done the actual  
19 initial diagnose --- given actual diagnosis of that  
20 gender dysphoria, would you say over a hundred or not?

21          A.       It's really hard to say because there is no ---  
22 there is no way that one gives a formal diagnosis kind  
23 of as a here it is. It's more of a you meet these  
24 criteria. Let's explore what that means. Does that

1     feel in line with your life experience. Sometimes I  
2     have to write it in the chart for the purpose of  
3     insurance coverage, for medication for example. But  
4     it's a bit more complicated than just saying you checked  
5     the boxes, here is your diagnosis.

6           Q.     Okay.

7                   Have you ever had a patient that came to you  
8     and you discussed gender dysphoria with that patient and  
9     ultimately you concluded that the patient did not have  
10    gender dysphoria?

11          A.     I have.

12          Q.     Are those patients who initially thought they  
13    had gender dysphoria and you concluded they did not?

14          A.     Not usually, no. Those are more often patients  
15    who are questioning this part of themselves and  
16    exploring their identities as a normal part of  
17    adolescent development.

18          Q.     For any of the patients that have come to you  
19    and said they thought they had gender dysphoria, have  
20    you arrived at a different diagnosis of what was causing  
21    their concerns?

22          A.     I can't recall an occasion like that.

23          Q.     Are you familiar with the concept of watchful  
24    waiting?

1 A. I am.

2 Q. Have you ever recommended that to a patient?

3 A. I have not because it is not recommended by the  
4 American Academy of Pediatrics.

5 Q. Tell me how you are familiar with that.

6 A. I'm familiar with it through the policy  
7 statement on the care of this population of young people  
8 from the American Academy of Pediatrics by Rafferty, et  
9 al., 2018.

10 Q. Have you --- tell me that citation again.

11 A. Sure. Rafferty, et al., 2018, the American  
12 Academy of Pediatrics.

13 ATTORNEY LINKOUS: Mr. Tryon, I know  
14 we've been going about an hour-and-a-half. When you get  
15 to a logical breaking point, I could use three minutes.

16 ATTORNEY TRYON: Okay.

17 Give me just another couple of minutes  
18 and then we will break.

19 BY ATTORNEY TRYON:

20 Q. Have you read any literature other than that  
21 about watchful waiting?

22 A. That is the literature that most specifically  
23 sticks out in my mind. I'm sure I've read countless  
24 articles that discuss this in one form or another.

1 Q. Are you aware that there are other articles that  
2 do recommend watchful waiting?

3 ATTORNEY HARTNETT: Objection to form.

4 THE WITNESS: I am not familiar with  
5 articles like that from highly-respected medical  
6 organizations.

7 BY ATTORNEY TRYON:

8 Q. Are you aware of any, whether or not they are  
9 from highly-respected medical organizations?

10 A. Not off the top of my head, no.

11 Q. Have you read their studies? I mean, this is a  
12 Dutch concept.

13 Right?

14 ATTORNEY HARTNETT: Objection to form.

15 THE WITNESS: I'm not familiar with what  
16 you're talking about.

17 BY ATTORNEY TRYON:

18 Q. It's called the Dutch Approach, and you're not  
19 --- you haven't heard that?

20 ATTORNEY HARTNETT: Objection to form.

21 THE WITNESS: I certainly am familiar  
22 about the Netherlands and the Dutch and the work they've  
23 been doing in this space for more than a decade.

24 BY ATTORNEY TRYON:

1 Q. And over there watchful waiting is considered an  
2 appropriate recommendation.

3 Right?

4 A. I can't speak to that. I know from their  
5 literature they've demonstrated that the approach we  
6 take here in this country when done in their country was  
7 very helpful and reduced mental health concerns in their  
8 young people. I believe that's a DeVry study from more  
9 than ten years ago.

10 Q. What is the difference between gender dysphoria  
11 and gender nonconformity?

12 ATTORNEY TRYON: You know what, I will  
13 withdraw that question. We can take a break right now.  
14 When we come back we can talk about that. Okay?

15 ATTORNEY LINKOUS: We can go off the  
16 record.

17 VIDEOGRAPHER: Going off the record. The  
18 current time reads 11:26 a.m.

19 OFF VIDEOTAPE

20 ---

21 (WHEREUPON, A SHORT BREAK WAS TAKEN.)

22 ---

23 ON VIDEOTAPE

24 VIDEOGRAPHER: We are back on the record.

1 The current time reads 11:37 a.m.

2 BY ATTORNEY TRYON:

3 Q. Dr. Kidd, when we concluded, when we took our  
4 break we were just finishing up talking about watchful  
5 waiting. Let me ask you just one or two more questions  
6 about that. Is watchful waiting something that --- is  
7 the only reason that you don't ever recommend that is  
8 because of the Rafferty study?

9 A. So Rafferty is not a study. It's a policy  
10 statement from the American Academy of Pediatrics that  
11 summarizes best practice guidelines for gender diverse  
12 young people. And so in that it does not recommend  
13 watchful waiting.

14 Additionally, based on my own literature view  
15 conducted over the course of my career thus far I have  
16 never seen medical literature that supports the use of  
17 that practice and is associated with positive mental  
18 health outcomes for youth.

19 Q. Okay.

20 Let me ask you about gender dysphoria versus  
21 gender non-conformity. You're familiar with both those  
22 terms.

23 Right?

24 A. I am.

1 | Q. What's the difference between those two things?

2           A.       Gender conformity is simply someone rejecting  
3       some tenet of what society presumes they should look  
4       like, act like, think like as it pertains to gender.  
5       And so that could be someone who, like myself, was  
6       assigned female but who is very interested in building  
7       and construction, right. Typically, that is considered  
8       a more masculine pursuit. And so that could be gender  
9       non-conformity, and that could extend through my  
10      expression. Perhaps I would want to present myself in a  
11      way that is more masculine or more androgenous. That  
12      would also be reflective of gender nonconformity.

L3                   Where this enters into the territory of gender  
L4 dysphoria is when you have that significant distress  
L5 associated with that encumbrance between my sex  
L6 assignment and my gender identity. That is the  
L7 difference.

18 Q. Could you repeat that last part again?

19 | A. From where?

20                    ATTORNEY TRYON: Can I ask the court  
21 reporter to read back that answer?

22                    COURT REPORTER: It is simply someone  
23    rejecting of what society presumed they should look  
24    like, act like, think like as it pertains to gender.

1 And so that could be someone, who like myself, was  
2 assigned female but who is very interested in building  
3 and construction, right. Typically that is considered a  
4 more masculine pursuit, and so that could be gender  
5 non-conformity and that could express through my  
6 expression perhaps. I would want to perhaps myself in  
7 --- want to present myself in a way that is perhaps more  
8 masculine or androgenous, where this enters into the  
9 area of territory of gender dysphoria where you have  
10 that significant distress encumbrance in between my  
11 gender society. That is the difference. That's the  
12 part I messed up.

13 BY ATTORNEY TRYON:

14 Q. Isn't there always some level of anxiety or  
15 distress when someone has a gender non-conformity?

16 A. No, not always.

17 Q. So then in every event where there is some level  
18 of stress or anxiety does it then turn into gender  
19 dysphoria?

20 A. No. The word that I use is significant or  
21 severe, and I believe that language is also echoed in  
22 diagnostic criteria.

23 Q. So when I use the name BPJ, do you know who that  
24 is?

1 A. I do.

2 Q. Who is that?

3 A. That is B [REDACTED], my patient.

4 Q. Last name J [REDACTED]?

5 A. I believe it's a hyphenated last name,  
6 P [REDACTED] - J [REDACTED], but yes.

7 Q. Very good. Thank you for correcting me on that.  
8 Any --- prior to --- strike that.

9 Do you have any personal relationship with  
10 either BPJ or BPJ's family?

11 A. I am a physician caring for this young person.  
12 That is the extent of my relationship with this family  
13 and this young person.

14 Q. When did you first hear of BPJ, with that ---  
15 those initials or any other name?

16 A. I believe the first time I heard about B [REDACTED] was  
17 when Dr. Someshwar, an adolescent medicine specialist  
18 who i work with, recommended that she see me.

19 Q. Remind me how to spell that doctor's name?

20 A. S-O-M-E-S-C-H-W-A-R (sic), Someshwar.

21 Q. And how did that come about?

22 A. So Dr. Someshwar is the division head of  
23 Division of Adolescent Medicine and WVU Medicine  
24 Children's and my direct supervisor in my current

1 position, but also Dr. Someshwar provides care for  
2 gender diverse people, as I do, but she does not provide  
3 care for those who are interested in or have received  
4 pubertal blockers.

5 Q. Why not?

6 A. That is outside of her scope but well within my  
7 own, and that is why she wished for me to see B[REDACTED].

8 Q. And how did --- and I'm also going to use BPJ  
9 because that's the name on the Complaint, number one,  
10 and number two, since BPJ is a minor, that's my practice  
11 is to refer to people in court proceedings by their  
12 initials, all minors.

13 ATTORNEY HARTNETT: And if I could just  
14 --- for the record, this is Kathleen Hartnett for  
15 Plaintiff. It's acceptable to us for you to refer to  
16 her as B[REDACTED] or BPJ in this deposition. We marked the  
17 Complaint BPJ per rules of Court, and we'll mark the  
18 parts of this deposition about her medical records, if  
19 any, confidential, but Plaintiff has no objection to  
20 referring to her in either way. Thank you.

21 ATTORNEY TRYON: Well, to be clear, I'm  
22 going to continue doing that because if I make the  
23 mistake elsewhere, I can be sanctioned by a court, so  
24 I'm going to stay with that.

1     BY ATTORNEY TRYON:

2           Q.     So how did BPJ come to the attention to Dr.  
3     Someshwar?

4           A.     It is my understanding that Dr. Someshwar had  
5     provided care to B[REDACTED].

6           Q.     Do you know what care?

7           A.     I had seen a note from Dr. Someshwar.

8           Q.     And what did that note say?

9           A.     I can't recall the contents of that note, simply  
10     that I do remember seeing one.

11          Q.     Is that in the records that you mentioned before  
12     or the Epic records?

13          A.     It would be in the Epic record, yes.

14          Q.     Do you remember when you had your first contact  
15     with BPJ and BPJ's family?

16          A.     I know from my records the exact date. But  
17     without I could easily tell you it was in the fall. I  
18     can look at my records to get you the exact date if that  
19     would be helpful.

20          Q.     Before we go there, let me ask you if you have a  
21     specific recollection of meeting with BPJ and Heather  
22     Jackson.

23          A.     I do.

24          Q.     What do you remember right now about that

1 encounter?

2 A. I have a mental picture of where B [REDACTED] and her  
3 mom were sitting in the exam room. That's most of the  
4 extent of what I recall just from my own memory and not  
5 reviewing the note.

6 Q. Do you have a mental memory of the discussions  
7 you had with BPJ and BPJ's mother?

8 A. That would certainly refresh from my review of  
9 my own note but also my practice is to have fairly  
10 similar structured conversations with families, and so I  
11 have a rough template in my brain of what we would have  
12 talked about.

13 Q. Tell me about that template.

14 A. It involves asking lots of questions about young  
15 people, their interests, their journey with gender  
16 identity, their family. Sometimes I ask about pets.  
17 It's a whole host of things to get to know the young  
18 person and their family.

19 Q. What does that term mean journey with gender  
20 identity?

21 A. We are all forever growing and evolving and  
22 changing as humans. It's part of the human experience,  
23 but particularly as it relates to gender for my patients  
24 that's often a bit of a long journey, and so that may be

1 starting from when they are young children. It may be  
2 starting from when they are adolescents. But  
3 regardless, there is always much to talk about with  
4 regard to a young person's experience of their own  
5 gender identity over time.

6 Q. And is that gender identity sometimes fluid?

7 A. It absolutely can be.

8 Q. Somebody may be for one period of time have a  
9 gender identity as one gender and then that can change?

10 A. Yes.

11 ATTORNEY HARTNETT: Object to form.

12 BY ATTORNEY TRYON:

13 Q. How many genders are there?

14 A. There are more genders than we understand, can  
15 conceptualize or can count.

16 Q. So over a hundred?

17 A. Gender is a spectrum. There is no solid number.  
18 It's someone's lived experience. It's much more  
19 complicated than we try to make it by binarizing people.

20 Q. So setting aside binder --- how do you say that,  
21 binderizing?

22 A. Binarizing people. Forcing folks into a binary.

23 Q. I've read some place there's 27 genders. Would  
24 you agree with that or not?

1                   ATTORNEY HARTNETT: Object to the form.

2                   THE WITNESS: I'm certainly not familiar  
3 with that particular study, but I would dispute it as I  
4 could probably list more than 27 myself.

5                   BY ATTORNEY TRYON:

6           Q.       And when someone is gender fluid what does that  
7 mean?

8           A.       It depends on the individual, and so these terms  
9 tend to be applied to folks but what matters to me is  
10 the individual's definition of themselves.

11          Q.       Have you had any --- well, let me move on to  
12 Exhibit 16.

13                   ATTORNEY TRYON: And let me try to bring  
14 this up. This is going to be a first for me on doing  
15 this on the system.

16                   VIDEOGRAPHER: And I'm here if you need  
17 some help or I can pull it up as well.

18                   ATTORNEY TRYON: So Jacob, when I pull up  
19 exhibits file sharing, it wants me to enter a password.

20                   VIDEOGRAPHER: Did you join with a new  
21 link when you rejoined after we got everything fixed?

22                   ATTORNEY TRYON: I attempted to join with  
23 the same link.

24                   VIDEOGRAPHER: I can set that new one or

2                    ATTORNEY TRYON: Let's go off the record  
3 for a second so I can get this straightened out.

4                    VIDEOGRAPHER:    Going off the record.    The  
5    current time reads 11:52.

6 | OFF VIDEOTAPE

7 | - - -

8 (WHEREUPON, A SHORT BREAK WAS TAKEN.)

9 | - - -

10 | ON VIDEOTAPE

11                                VIDEOGRAPHER: We are back on the record.

12    The current time reads 11:59 a.m.

13 | BY ATTORNEY TRYON:

14 Q. Dr. Kidd, this is what we've marked as Exhibit  
15 16. Do you recognize this?

16 | A. I'm not able to read any of it due to size.

17 | Q. Okay.

```
18 | I'm trying to blow it up. Does that help?
```

19           A.       I have not seen it change. I may be able to do  
20     --- I can do it on my end specifically. Let me do that.  
21     I can only see the first page so far, but this does look  
22     familiar, yes.

23 Q. I believe you can click the different pages, 1  
24 through 9.

1 A. I see that now. Yes. This looks like my note.

2 Q. Do you have a hard copy of that in front of you  
3 as well?

4 A. I do.

5 Q. Feel free to use either one, just to go through  
6 this.

7 A. Yes.

8 Q. So my first question is simply what is this  
9 document?

10 A. So certainly there are pages associated with  
11 this packet that I'm not familiar with. I think they  
12 are part from the pull from the health system. But  
13 specifically as it relates to the section that begins  
14 B [REDACTED] is a 11-year-old patient, that is the beginning of  
15 my clinical note from our patient visit.

16 Q. How is the information in here populated into  
17 this document?

18 A. The note itself?

19 Q. Well, everything in here. I'm just trying to  
20 understand how this document is created.

21 A. I can't speak to the ancillary information  
22 outside of my patient note. I can tell you how my note  
23 was created.

24 Q. Well, let's start with that then.

1 A. Okay.

2 I use a note template that has spaces for me to  
3 fill in information, as well as some information that is  
4 already populated that I can adjust accordingly.

5 Q. Is that note template in Epic?

6 A. It is.

7 Q. And then Epic takes that information and would  
8 populate it into a document that looks like what we have  
9 before us?

10 A. Specifically the section that begins B [REDACTED] is an  
11 11-year-old patient, yes.

12 Q. The other information in here, for example, the  
13 visit date, the name, those sorts of things, do you know  
14 how those are populated into this document?

15 A. So let me --- I don't know that you can see  
16 where I am in the document, but this portion here that  
17 has the WVU Medicine Children's logo, I think it copied  
18 poorly. But from this section down, this is my note  
19 template. Above that ---.

20 Q. I cannot see where you're at.

21 ATTORNEY TRYON: Jacob, can you enable  
22 her to show that?

23 ATTORNEY LINKOUS: Jacob, you're on mute.

24 VIDEOGRAPHER: I have you enabled to mark

1 up the document. You should be able to put in  
2 highlights or drag us around. Whatever you do we should  
3 see.

4 THE WITNESS: Okay.

5 VIDEOGRAPHER: If you highlighted that  
6 right there, that's --- I see the highlight. Does  
7 everyone else see that highlight?

8 ATTORNEY TRYON: No, I can't see it.

9 VIDEOGRAPHER: On page three, around the  
10 it looks like the logo.

11 ATTORNEY LINKOUS: I see it.

12 ATTORNEY HARTNETT: This is Kathleen  
13 Hartnett. Just to make sure I'm clear, is the witness  
14 able to move the exhibit in the window but the others  
15 who see it cannot?

16 VIDEOGRAPHER: Right now I have the  
17 witness set to move it. I can give anybody permission  
18 to alter it and move it around and stuff. And it does  
19 that for everybody. So right now I just have the  
20 witness with the permission for that. Does that make  
21 sense?

22 ATTORNEY TYRON: Yes.

23 ATTORNEY HARTNETT: Yes.

24 ATTORNEY TYRON: Yes.

1     BY ATTORNEY TRYON:

2           Q.     Is it highlighted in color?

3           A.     It is yellow.

4                     ATTORNEY LINKOUS: Mr. Tryon, she is also  
5 on BPJ099. I don't know if you're on that same page or  
6 not. I think she moved us down to that page.

7                     VIDEOGRAPHER: Let me try something to  
8 synch it back up for you, Mr. Tryon.

9                     ATTORNEY TRYON: Okay.

10                    VIDEOGRAPHER: Do you see it now?

11                    ATTORNEY TRYON: I see the document. I  
12 don't see any yellow highlighting.

13     BY ATTORNEY TRYON:

14           Q.     Well, go ahead and describe where you're at.

15           A.     Sure. There's a logo on one of these pages that  
16 has some cookie-cutter people holding hands and it says  
17 WV Medicine Children's, although I think the photocopy  
18 did not do that logo any justice. But that is the logo  
19 located on the top of my note. And that logo and  
20 everything beneath it is part of my note template. I am  
21 not familiar with how Epic aggregates the additional  
22 information in this packet.

23           Q.     Okay.

24                    Do you know who enters in the information, for

1 example, the date of birth and the visit date?

2 A. That information is likely entered at the time  
3 of the visit being scheduled, although that is not part  
4 of my role and so I cannot be certain.

5 Q. At the very top of that page, I think it's the  
6 same page, do you see it's got a number --- MRN number.  
7 Is that the patient's number that's assigned?

8 A. I have an E number on my screen that's below the  
9 date of the visit encounter. That is in my note  
10 template. That is the patient's medical record number,  
11 that E number.

12 Q. So I'm seeing MRN: E2003446?

13 A. Yes. And I know that you're having trouble  
14 seeing my highlighting, and I don't know if you can see  
15 that piece. I pulled that number into my notes. I'm  
16 not sure where you're referring to it, but that is the  
17 number.

18 Q. Right at the top, I'm looking at the very top of  
19 this page, page --- it's labeled BPJ099, and it's page  
20 one.

21 A. I can see it here.

22 Q. Yes. Now I see you're highlighting, although  
23 it's not yellow. Okay. So then if you move over to the  
24 right and it says sex M. Does that stand for male?

1 A. It does.

2 Q. And who would input that that BPJ's sex is male?

3 A. I cannot speak with certainty, but my guess  
4 would be the person who collected the insurance  
5 information.

6 Q. And why would --- if BPJ identifies as a female,  
7 as I think you say later on, why would that be put there  
8 as male?

9 A. The sex marker has to line up with the insurance  
10 for the purposes of billing in the medical system.

11 Q. Is that the only reason?

12 A. That's the reason that I'm familiar with.

13 Q. So you did not put that information in there?

14 A. I did not.

15 Q. If you can scroll down where it says desired to  
16 be treated as other gender.

17 A. Sure.

18 Q. It shows the name pronouns of she and her.  
19 Right?

20 A. Yes.

21 Q. And if I scroll down further I look at and I see  
22 under gender dysphoria patient describes this experience  
23 for themselves as --- why do you use a different pronoun  
24 down there?

1           A.       That's part of my standard note template. The  
2 things before the colons in these sections are part of a  
3 note template.

4           Q.       Okay.

5                   Then back up to desire to be rid of secondary  
6 sex characteristics. It says expectations for today's  
7 visit. That's part of the template?

8           A.       It is before the colon.

9           Q.       Right. And so that template is something that's  
10 created by Epic or by someone else?

11          A.       That's a note template that I created within  
12 Epic.

13          Q.       I see. And so it says want to establish care.  
14 That seems obvious to me, but can you explain that?

15          A.       This was my first time seeing B [REDACTED]. And as  
16 part of my first visit with all of my patients I ask,  
17 you know, what are their expectations or goals for  
18 today's visit. And when I asked that question, B [REDACTED]  
19 and her mom responded that they wanted to establish care  
20 today. I'm not sure exactly who said that. I suspect  
21 it was mom.

22          Q.       And next it says has [REDACTED] since  
23 June 2020 placed by Dr. Montano at UPMC. And you put  
24 that in there?

1 A. I did.

2 Q. And how did you know about that [REDACTED]?

3 A. I suspect that mom told me. That information  
4 was provided to me during this visit. But also it was  
5 in the medical record that I would have briefly reviewed  
6 prior to this visit.

7 Q. What medical record is that?

8 A. The notes that are available for me in Epic.

9 Q. So you're telling me that in Epic there would be  
10 some notes that stated that there was an [REDACTED], a  
11 [REDACTED]?

12 A. I believe Dr. Someshwar's note referred to it,  
13 yes.

14 Q. Did you ever ask Dr. Montano if he had placed  
15 that [REDACTED]?

16 A. I don't recall specifically asking Dr. Montano  
17 if he placed the [REDACTED], no.

18 Q. Did you do anything to confirm that the [REDACTED]  
19 was in place?

20 A. I examined B[REDACTED]'s arm. I palpated the [REDACTED].  
21 I noted the small scar at the insertion site. I also  
22 confirmed it based on lab testing.

23 Q. Next, under desire to gain secondary sex  
24 characteristics of other gender, slash --- other gender,

1 | colon, that was part of the form?

2 | A. That was part of my note template, yes.

3 | Q. And you created that?

4           A.     I did. I should note it's based off of a  
5     template from those that taught me.

6 | Q. Which would be whom?

7 | A. Dr. Montano.

8 Q. Under there it has --- under severity, wanting  
9 to be other gender, other gender is based on the  
10 following, hair style and clothing and desire for  
11 hormone therapy, which you created that template.

|    |        |
|----|--------|
| 12 | Right. |
|----|--------|

13 | A. Yes, everything before the colon.

14 Q. And you inputted feminine, feminine in the  
15 future.

16 | Right?

17           A.     I did, based on our conversation during this  
18   visit.

19 Q. Are those the things upon which you made a  
20 determination --- strike that.

21 Did you make a determination that B [REDACTED] was  
22 gender dysphoric?

23           A.     If you review the criteria for diagnosis for  
24 gender dysphoria it's that essentially insistent,

1 persistent, consistent, incongruence associated with  
2 significant distress, as I discussed earlier, plus two  
3 or more of a list of criteria. This note outlines those  
4 criteria. And so based on the responses to questions  
5 that I asked in relation to my documentation here, yes,  
6 B [REDACTED] does meet the diagnostic criteria for gender  
7 dysphoria.

8 Q. Did you actually make a diagnosis?

9 A. B [REDACTED] already had that diagnosis prior to seeing  
10 me.

11 Q. And that was --- who made that diagnosis?

12 A. I suspect the first person was Dr. Montano,  
13 although I don't know that for sure.

14 Q. And who told you that she already --- that BPJ  
15 already had such a diagnosis?

16 A. The medical record.

17 Q. And that medical record which was from Dr.  
18 Someshwar?

19 A. And Doctor Someshwar would have had one of those  
20 notes, yes.

21 Q. Any other notes that would have said that?

22 A. Likely notes from B [REDACTED]'s therapist.

23 Q. And you have access to B [REDACTED]'s therapist's ---  
24 excuse me, BPJ's therapist --- let me start that over.

1 You had information from BPJ's therapist?

2 A. I had documentation.

3 ATTORNEY HARTNETT: Object to form.

4 THE WITNESS: Of her record.

5 BY ATTORNEY TRYON:

6 Q. Is that also on Epic?

7 A. Yes.

8 Q. So I want to go back to this part where it says  
9 desire to gain secondary sex characteristics. So are  
10 hairstyle and clothing the only bases to determine if  
11 someone is gender dysphoric?

12 ATTORNEY HARTNETT: Object to form.

13 THE WITNESS: No.

14 BY ATTORNEY TRYON:

15 Q. What other?

16 A. Potential criteria, potential things that we  
17 look for. There's no one single criterion.

18 Q. But those are the only things that are listed in  
19 this form.

20 Right?

21 ATTORNEY HARTNETT: Object to form.

22 THE WITNESS: In that particular section.

23 BY ATTORNEY TRYON:

24 Q. And desire for hormone therapy in the future.

1 What additional hormone therapy was desired?

2 A. Estrogen.

3 Q. And were you told why?

4 A. I can't recall our exact conversation, but it is  
5 my typical practice to have pretty detailed  
6 conversations about where a young person is in their  
7 chem thought process and understanding of what estrogen  
8 could mean for them.

9 Q. And what could it mean for them?

10 A. It could meaning gaining secondary sex  
11 characteristics of the other gender.

12 Q. Such as?

13 A. Breast growth.

14 Q. Any others?

15 A. Several others.

16 Q. What are those?

17 A. Thinning of hair follicles, softening of skin.  
18 Those are the primary.

19 Q. I'm sorry. What did you say about hair  
20 follicles?

21 A. Thinning, making the hair follicles less  
22 apparent on the body especially.

23 Q. And do you recall discussing those with BPJ and  
24 BPJ's mother?

1           A.     I can't recall the specifics of that encounter,  
2     but is my standard practice to have those discussions.

3           Q.     Up at the top of that page, do you see at the  
4     very top where it says P [REDACTED] - J [REDACTED], comma, and it's  
5     blocked out?

6           A.     Yes.

7           Q.     So --- let me back up. This document was  
8     produced to Plaintiff's Counsel then gave it to us.  
9     Were you involved in that production to Plaintiff's  
10    Counsel?

11          A.     I was not.

12          Q.     Okay.

13                 Let me move on to the next page. And let me  
14    ask you, during this conversation was BPJ joined by  
15    Heather the entire time?

16          A.     It is my standard practice to talk to young  
17    people alone for at least a portion of their visit, and  
18    so I suspect I did that during this visit.

19          Q.     Do you recall during this visit anyone other  
20    than you were involved as far as healthcare providers?

21          A.     It is often that I have trainees with me, most  
22    often in the role of shadows to witness how I talk to  
23    patients, how I gather this information, that sort of  
24    thing, how I provide care. I do not recall having a

1 trainee with me that day, but my memory could be  
2 mistaken there.

3 Q. And in your memory was anyone else from WVU in  
4 that meeting?

5 A. From WV Medicine?

6 Q. Yes.

7 A. I don't think so because I know that the other  
8 members of my multidisciplinary team were not a part of  
9 this conversation as B [REDACTED] was already established with  
10 a mental health therapist.

11 Q. Under past medical history --- and I'm now on  
12 page two of this document, it shows mental health HX.  
13 What is that? What does HX stand for?

14 A. It's a common medical abbreviation for the word  
15 history.

16 Q. In this past medical history that you have put  
17 here, the source is --- what was the source?

18 A. This source was very likely B [REDACTED]'s mother.

19 Q. Under social history do you see that?

20 A. I do.

21 Q. Is there anything in there that affects or would  
22 affect a determination or a diagnosis of BPJ having  
23 gender dysphoria?

24 A. These items in the social history are really

1 about getting to know B [REDACTED] and her family dynamic and  
2 more about her generally. These are not directly  
3 related to her gender identity.

4 Q. And let me just confirm up at the top of the  
5 page it says --- it shows the date being 9/16/2021. Was  
6 that the date of the visit?

7 A. To the best of my recollection, yes.

8 Q. On the next page it shows patient active problem  
9 list. Do you see that?

10 A. I do.

11 Q. And what --- it says WCC well check. Is that  
12 something that you inputted?

13 A. It is not. So this is a problem list that is  
14 maintained in Epic usually by the patient's primary care  
15 provider.

16 Q. Who is this patient's primary care provider?

17 A. I do not recall.

18 Q. Is there anything on this form that would tell  
19 you?

20 A. On this particular form, no, although in the  
21 Epic record that would likely be noted, at least to the  
22 extent of my note. It is not written in my notes. It  
23 may have been in some of these ancillary pages that I'm  
24 not as familiar with.

1 Q. During the visit did you discuss any of these  
2 items under the diagnosis --- well, excuse me, under the  
3 patient active problem list?

4 A. Not to my recollection, no.

5 Q. I'm sorry. Let me finish my question. The six  
6 bullet points that are listed there, you did not input  
7 any of those?

8 A. That is correct.

9 Q. And you didn't discuss any of those with BPJ or  
10 BPJ's mother?

11 A. Not to my recollection, no.

12 Q. Now, the next paragraph of notes, was that  
13 something that you inputted?

14 A. It is.

15 Q. And you ordered labs to confirm that the [REDACTED] was  
16 likely to release medication. Do I understand that  
17 correctly?

18 A. I ordered labs to confirm that the [REDACTED] was  
19 continuing to release the medication, as I suspected it  
20 would be, yes.

21 Q. Why do you do that?

22 A. It's routine and to make sure that the [REDACTED] is  
23 functioning as we expect it to. And for my practice I  
24 usually check those labs every 6 to 12 months.

1 Q. How is the [REDACTED] supposed to function?

2 A. So the [REDACTED] has a medication called [REDACTED].  
3 [REDACTED] is a gonadotropin-releasing hormone agonist,  
4 or abbreviated a GRNHA. A GRNHA works at the level of a  
5 hypervolemic pituitary gonadal axis to suppress that  
6 axis and subsequent release of sex hormones, either  
7 testosterone or estrogen, depending on the sex assigned  
8 at birth.

9 Q. Is it the same medication for both to stop  
10 either testosterone or estrogen or is it different?

11 A. It is the same medication. It works in the same  
12 way.

13 Q. And did you also discuss that a [REDACTED] scan be  
14 done?

15 A. I had a discussion with B [REDACTED] and her mother  
16 about why I thought a [REDACTED] scan could be helpful and  
17 they opted to get one.

18 Q. It says I shared resources with mom to connect  
19 her to local parents support programs. Who were those  
20 resources?

21 A. I am connected to community organizations run by  
22 parents wherein parents can talk with other parents of  
23 gender diverse people. My abbreviation for the program  
24 I referred B [REDACTED]'s mom to is, in fact, next to B [REDACTED]'s

1 mom's email. It's abbreviated POT for the Parent  
2 Outreach Program.

3 Q. At the bottom it says on the day of the  
4 encounter a total of 60 minutes was spent on this  
5 patient encounter, including review of historical  
6 information, examination, documentation of post  
7 activities. And my question is what was the historical  
8 information?

9 A. That would have been the conversation with B [REDACTED]  
10 and her mom talking about the medical history as well as  
11 my pre-review of the chart prior to this visit.

12 Q. And then the examination, what would that  
13 entail?

14 A. For B [REDACTED], to my memory, that included making  
15 sure that B [REDACTED]'s heart and lungs sounded normal and  
16 generally evaluating how she was able to communicate,  
17 how she moved about the room, those sorts of things are  
18 the aspects of my physical exam.

19 Q. And when it refers to documentation, what is  
20 that referring to?

21 A. The actual writing of this note.

22 Q. Anything that is not in this note?

23 A. It would have also involved me ordering the labs  
24 and the [REDACTED] scan, writing why I was ordering the [REDACTED]

1 scan, things of that nature.

2 Q. And what would the post visit activities refer  
3 to?

4 A. That could be things like reviewing the labs if  
5 they came back the same day. This is a billing  
6 statement and only includes the time spent during that  
7 same day.

8 ATTORNEY LINKOUS: I'm sorry. Can you  
9 repeat that?

10 THE WITNESS: It is a billing statement  
11 and so it is referring to activities that were  
12 undertaken on that day.

13 BY ATTORNEY TRYON:

14 Q. In your discussion with BPJ and BPJ's mother was  
15 there any indication that BPJ had ever had any suicidal  
16 ideations, suicide plans, threats or attempts?

17 A. Not to my recollection.

18 Q. Did you ask?

19 A. I likely did. That is part of my standard  
20 practice.

21 Q. Why do you ask that?

22 A. Because gender diverse young people like B [REDACTED]  
23 base health inequities particularly as it relates to  
24 mental health, although that's at population level and

1 does not necessarily apply to B [REDACTED].

2 Q. Why wouldn't it apply to B [REDACTED]?

3 A. That's a population statistic, and so B [REDACTED] is  
4 her own person and may or may not be in line population  
5 statistics more promptly.

6 Q. And now I understand. Do you know if BPJ has  
7 ever been hospitalized for anything?

8 A. I reviewed the chart and don't recall a specific  
9 example of hospitalization. I think there may have been  
10 notes from emergency sorts of visits, but I don't  
11 remember an inpatient hospitalization.

12 Q. Before this visit had BPJ ever been diagnosed  
13 with any mental or emotional illnesses?

14 ATTORNEY HARTNETT: Object to form.

15 THE WITNESS: Mom specifically mentioned  
16 gender dysphoria, which is a diagnosis within the DSM-V,  
17 which is a diagnostic and statistical manual and so I  
18 suppose that could count.

19 BY ATTORNEY TRYON:

20 Q. Well, is that a mental or emotional illness?

21 ATTORNEY HARTNETT: Object to form.

22 THE WITNESS: It depends on your  
23 interpretation. It is a diagnosis in the DSM-V.

24 BY ATTORNEY TRYON:

1 Q. Okay.

2 It is a diagnosis. Is it a diagnosis of mental  
3 illness?

4 ATTORNEY HARTNETT: Objection to form.

5 THE WITNESS: That is a very challenging  
6 question, and so the short answer is gender dysphoria is  
7 significant distress, and it is that distress that can  
8 be considered a mental health concern. Being gender  
9 diverse or transgender is not a pathology.

10 BY ATTORNEY TRYON:

11 Q. Can you define then for our purposes what you  
12 consider --- or based on DSM-V, what is a mental  
13 illness?

14 ATTORNEY HARTNETT: Object to form.

15 THE WITNESS: Can you rephrase the  
16 question?

17 BY ATTORNEY TRYON:

18 Q. Yes. So you referred to the DSM-V.

19 Right?

20 A. I mentioned it, yes.

21 Q. Does that define what a mental illness is?

22 A. The DSM-V is the diagnostic and statistical  
23 manual of essentially all of the things that the  
24 American Psychiatric Association considers in their

1 wheelhouse for diagnoses. And so things like depression  
2 and anxiety are certainly in there but also things like  
3 gender dysphoria.

4 Q. Does it define the term mental illness?

5 A. I can't recall. It's a very broad term.

6 Q. Other than gender dysphoria, were there any  
7 other mental or emotional issues or problems that you  
8 were aware that BPJ had been diagnosed with?

9 A. Not that I can ---.

10 ATTORNEY HARTNETT: Object to the form.

11 ATTORNEY TRYON: Jacob, can you pull up  
12 Exhibit 33, please? Actually, I take that back. Let's  
13 stick with this exhibit a little bit longer.

14 VIDEOGRAPHER: You got it.

15 ATTORNEY TRYON: I apologize for that.

16 BY ATTORNEY TRYON:

17 Q. So turning to page six of this exhibit?

18 A. I'm unable to do that on my end.

19 Q. I can.

20 A. I can now, yeah.

21 Q. Okay.

22 If you can go down to where it shows --- sorry,  
23 it would be on actually page eight, eight of nine, I  
24 believe. And this was part of the testing that you

1 would have requested.

2 Is that right?

3 A. This is one of those forms that Epic has  
4 compiled for you, but it does look like it is of the  
5 labs that I ordered, yes.

6 Q. When this came back did you review it?

7 A. I did.

8 Q. And it shows under components testosterone total  
9 serum. Do you see that?

10 A. Let me highlight and make sure we're looking at  
11 the same thing. Here?

12 Q. Yes.

13 A. Yes.

14 Q. And if you go lower it shows the total serum and  
15 it shows value of less than 7.0.

16 Right?

17 A. Yes.

18 Q. And down below it shows the Tanner reference  
19 stages and for prepubertal, 7-20 for Stage 1.

20 Right?

21 A. I can see that.

22 Q. So does that testosterone level indicate that  
23 BPJ was at Tanner Stage 1?

24 A. No, that is not a correct interpretation.

1 Q. Could you please interpret it for me?

2 A. Sure. So the testosterone level demonstrates  
3 that it is suppressed, actually below a detectable  
4 threshold of 7.0 for the purposes of this lab. It is  
5 important to note that all bodies, unless they are too  
6 young or being blocked, make testosterone and that  
7 includes people who are assigned female. And so I  
8 myself right now very likely, in fact I'm extremely  
9 confident, have a level much higher than seven of  
10 testosterone because that is normal for an adult female.  
11 And so B[REDACTED]'s testosterone based on this level is fully  
12 suppressed. The reason that the Tanner stage reference  
13 guidelines are in this record is that other folks use  
14 this lab to monitor pubertal progression. B[REDACTED] was  
15 Tanner stage prior to the rod and was at Tanner 2 at  
16 that time. And so this table is not relevant to B[REDACTED],  
17 just a refresh in the lab that her testosterone is fully  
18 suppressed.

19 ATTORNEY TRYON: Okay.

20 Now let's turn to Exhibit 33.

21 VIDEOGRAPHER: Before I show it, you said  
22 33.

23 ATTORNEY TRYON: I didn't hear you.

24 VIDEOGRAPHER: Before I show it, you said

1 33.

2 Correct?

3 ATTORNEY TRYON: Right. I sent you two  
4 other forms.

5 VIDEOGRAPHER: I just wanted to make sure  
6 before I showed it.

7 ATTORNEY TRYON: Yes.

8 VIDEOGRAPHER: And does everybody see  
9 that.

10 THE WITNESS: Yes.

11 ATTORNEY TRYON: I do.

12 BY ATTORNEY TRYON:

13 Q. Great. So if we could go forward into page 11.  
14 Sorry, it's going to be page 11 of the document itself,  
15 so it looks like that will be page --- I'm not sure.

16 And Dr. Kidd, if you have the hard copy it might  
17 be easier to read. It depends on which one you want to  
18 look at. So the first two sentences of this read  
19 through --- actually maybe the first three sentences.  
20 Why don't you go ahead and read them to yourself. We  
21 don't need to read them out loud.

22 VIDEOGRAPHER: While she's reading that,  
23 Mr. Tryon, I also gave you permission to mark the  
24 document as well if you need to highlight something or

1 guide the witness.

2 ATTORNEY TRYON: Thank you.

3 VIDEOGRAPHER: You're welcome.

4 BY ATTORNEY TRYON:

5 Q. Have you finished?

6 A. I have.

7 Q. Great. So this indicates that gender dysphoria  
8 during childhood is not evidently continued to childhood  
9 rather than the dysphoria persists and resulted for only  
10 6 to 23 percent of the children.

11 Right?

12 ATTORNEY HARTNETT: Object to form.

13 THE WITNESS: I believe, which are a bit  
14 dated, but yes, that is what it says.

15 BY ATTORNEY TRYON:

16 Q. Do you think that percentage has changed?

17 A. I think our understanding of diagnostic  
18 criteria, for example many of those studies were from  
19 when we used GID, a different diagnostic criteria, that  
20 has evolved additional these guidelines from WV are from  
21 2012, I believe. There is a new version that is set to  
22 come out in the I think late winter of this coming year  
23 that I was involved in giving feedback for.

24 Q. Yes. That version has not yet been accepted or

1 issued, has it?

2 A. Not yet. It's expected like within the winter.

3 Q. Assuming that's accepted, since it's still out  
4 for comment, but assuming it's accepted, how does it  
5 change in the eighth version, how does it change this  
6 language?

7 A. To be clear, it's still not out for comment.  
8 The comment period has ended and it's now back with its  
9 writing committee. But there is more space given, to my  
10 recollection, for exploring those differences by  
11 diagnostic criteria that we did inform this prior  
12 studies. I think it's important, though, to center  
13 B[REDACTED] in this conversation. B[REDACTED] is an adolescent,  
14 meaning that the second paragraph discussing the  
15 likelihood of her gender identity is more relevant.

16 Q. And under these guidelines what is the  
17 percentage of persistence for adolescents?

18 A. I couldn't cite a specific number because again  
19 it's complicated, but it is the majority is my  
20 understanding.

21 Q. So when BPJ originally identified as being a  
22 girl, BPJ was a child.

23 Right?

24 A. I believe social transition was in third grade,

1 so into adolescence but perhaps not quite there yet  
2 depending on your definition of adolescence.

3 Q. How do you define adolescence?

4 A. It depends. The World Health Organization puts  
5 numbers on young people, and so I believe they say age  
6 10 to 19. But that's not necessarily reflective of  
7 pubertal changes, which is how I would define  
8 adolescence. And it's normal for pubertal changes to  
9 begin at age nine.

10 Q. And for --- well, let me just ask you, so since  
11 this is the current and existing guideline and --- or  
12 excuse me, standard of care, which you said you  
13 subscribe to.

14 Right?

15 ATTORNEY HARTNETT: Object to form.

16 THE WITNESS: Well, I think it is  
17 important to note if I may in this document.

18 BY ATTORNEY TRYON:

19 Q. I apologize. I didn't hear that.

20 A. It's possible, I would like to point out on  
21 page two, page number two on that part of it where it  
22 lists the standards of care are flexible clinical  
23 guidelines, that's a critical piece of all of this. And  
24 so they are not a kind of rule book but instead a

1 guideline and there are many circumstances to deviate  
2 based on an individual patient circumstance.

3 Q. So you pick and choose what you agree with?

4 ATTORNEY HARTNETT: Object to form.

5 THE WITNESS: Not at all. I follow  
6 numerous guidelines, including those from the American  
7 Academy of Pediatrics, but I also shape them to fit the  
8 needs of the patient.

9 BY ATTORNEY TRYON:

10 Q. Do you share with BPJ and BPJ's mother the  
11 statistics that 6 to 23 percent of children due to  
12 dysphoria --- excuse me, that the dysphoria persists  
13 into adulthood for only 6 to 23 percent of children?  
14 Did you share that with BPJ or BPJ's mother?

15 ATTORNEY HARTNETT: Object to form.

16 THE WITNESS: I believe the comment was  
17 not relevant to the patient in front of me.

18 BY ATTORNEY TRYON:

19 Q. Did you share with BPJ or BPJ's mother the fact  
20 that not all adolescents persist into adulthood?

21 A. I create space for people to explore their  
22 gender identities. I do not assume that any of us will  
23 wake up tomorrow feeling the way we feel today about our  
24 gender identity.

1 Q. So the answer is no, you did not share that with  
2 them?

3 A. I create space to have that conversation.

4 Q. Did you have a discussion in which you told BPJ  
5 or BPJ's mother that BPJ's gender dysphoria may not  
6 persist into adulthood?

7 A. I specifically in my practice make space to have  
8 conversations about fluidity and gender identity.

9 Q. That doesn't mean anything to me. What do you  
10 mean create space?

11 ATTORNEY HARTNETT: Object to form.

12 THE WITNESS: We have a conversation  
13 where I explain to young people that I don't expect them  
14 to be the same person every day for the rest of their  
15 lives. And if they feel that circumstances have changed  
16 or if their family feels that circumstances have changed  
17 the rod that B [REDACTED] has is fully reversible and it's  
18 always an option to remove that rod if it was in B [REDACTED]'s  
19 best interest, which I did not feel it was at the time  
20 of our encounter.

21 BY ATTORNEY TRYON:

22 Q. Did you tell BPJ or BPJ's mother that gender  
23 dysphoria does not always persist for adolescents into  
24 adulthood?

1 A. I don't think I said that exact thing, no.

2 Q. As I understand it --- well, let me back up.  
3 Did BPJ or BPJ's mother tell you how it came about that  
4 BPJ identified as being a girl instead of a boy?

5 A. I can't remember our exact conversation, but it  
6 is my standard practice to ask questions relative to  
7 that point and so I suspect, yes, we had that  
8 conversation.

9 Q. You don't remember anything about that  
10 conversation relative what I just asked you?

11 A. Not beyond what is documented in my note.

12 Q. In your notes it says that patient has  
13 identified gender diverse since, and then you inserted  
14 around age two. Does that refresh your recollection at  
15 all as far as what happened at around age two?

16 A. I document what is talked about during the  
17 visit, and so yes, that would have been the  
18 conversation.

19 Q. Do you remember anything else about BPJ  
20 identifying as a girl around age two?

21 ATTORNEY HARTNETT: Object to reading  
22 from the document that is not before the witness.

23 ATTORNEY TRYON: She has a hard copy.

24 ATTORNEY HARTNETT: I don't know where

1 you're reading from. Can you tell us where you are  
2 reading from?

3 ATTORNEY TRYON: Sure. It's on page one  
4 of the --- well, it's on page three of the actual  
5 exhibit and page one of Dr. Kidd's office notes.

6 ATTORNEY LINKOUS: It's okay. I think  
7 Dr. Kidd has her office notes in front of her. Go  
8 ahead, Doctor.

9 BY ATTORNEY TRYON:

10 Q. So I'm just asking when it says patient has  
11 identified as gender diverse since and then you inputted  
12 around age two, comma, she said she was a girl around  
13 age three, does that refresh your recollection about  
14 your conversation about how that came about?

15 A. Somewhat, yes.

16 Q. Okay.

17 And what do you remember now?

18 A. Specifically that B [REDACTED] and her mom more likely  
19 in this conversation would have told me that for me to  
20 write it down and so likely B [REDACTED]'s mom said that she  
21 identified as gender diverse in some capacity, be that a  
22 girl or otherwise, but first said she was a girl at age  
23 three. And that's a common differentiation. It's often  
24 children exhibit behaviors and interests that are

1 gendered in a direction parents may not expect. And  
2 that aligns with that question you had earlier about  
3 non-conformity.

4 Q. Do you remember anything else about that  
5 conversation relating to that?

6 A. Well, my next line is that third grade was when  
7 she started to wear girl clothes comfortably. I think I  
8 had a typo there. I meant to write comfortably instead  
9 of comfortable. And that social transition was the  
10 summer before third grade.

11 Q. And you have no other recollection about the  
12 conversation?

13 A. I do not.

14 Q. Very good.

15 ATTORNEY HARTNETT: I object to form on  
16 the last question. Sorry.

17 BY ATTORNEY TRYON:

18 Q. Was the father, Wesley Pepper, in this meeting?

19 A. No. My appointment with B [REDACTED] was with B [REDACTED]  
20 and her mom.

21 Q. Did you ever talk to Wesley Pepper?

22 A. I have not yet, though I expect to in the  
23 future.

24 ATTORNEY TRYON: Let's take a quick ---

1 off the record for just one moment.

2 VIDEOGRAPHER: We are going off the  
3 record. The current time reads 12:48 p.m.

4 OFF VIDEOTAPE

5 - - -

6 (WHEREUPON, A SHORT BREAK WAS TAKEN.)

7 - - -

8 ON VIDEOTAPE

9 VIDEOGRAPHER: We are back on the record.  
10 The current time reads 12:48 p.m.

11 BY ATTORNEY TRYON:

12 Q. So back in Exhibit 33, if we go to what's at the  
13 bottom of the page, page 15 of the document itself. And  
14 I have a question for you on paragraph two. If you can  
15 take some time and review that and then I will ask you a  
16 question.

17 A. Beginning with assessment of gender dysphoria?

18 Q. Correct.

19 A. Okay.

20 Q. Are you ready?

21 A. Yes.

22 Q. Great. So the second sentence says a  
23 psychodiagnostic and psychiatric assessment covering the  
24 areas of emotional functioning, peer and other social

1 relationships and intellectual functioning, slash,  
2 school achievement should be performed.

3 Did I read that correctly?

4 A. I believe so.

5 Q. Do you know if a psychodiagnostic and  
6 psychiatric assessment was performed?

7 A. And so during my visit, portions of that were  
8 absolutely performed. But B [REDACTED] had those kinds of  
9 discussions previously based on my review of the notes  
10 and my experience working with Dr. Montano.

11 Q. So and --- okay.

12 I understand you have had experience with Dr.  
13 Montano, but how do you know that those were performed  
14 for BPJ specifically?

15 A. I know Dr. Montano's routine practice because he  
16 is one of my teachers and I'm very confident in his  
17 skills.

18 Q. I understand that. But for BPJ specifically,  
19 are you aware if it was done?

20 A. Based on my review of the chart, I had every  
21 indication that --- and I want to quote this, a  
22 psychodiagnostic assessment covering areas of emotional  
23 functioning, peer and other social relationships and  
24 intellectual functioning and school achievement was

1 performed.

2 Q. By whom?

3 A. By Dr. Montano.

4 Q. Okay.

5 And there was something in the records that  
6 shows that?

7 A. I was able to see portions of Dr. Montano's  
8 note. It's that Care Everywhere thing we were talking  
9 about before, that they're not complete notes. But  
10 based on my understanding of what I was reading, Dr.  
11 Montano had the same conversation with B [REDACTED] that he had  
12 with all of the patients that I have witnessed him  
13 talking to.

14 Q. What were in his notes that said that since we  
15 don't have those?

16 A. And so I can't recall exactly what was in his  
17 notes, but his notes are templated very similarly to my  
18 notes in that they explore things like mental health  
19 concerns, like school functioning, like peer support and  
20 family support, things of that nature.

21 Q. And what does --- what's his title or his  
22 specialty?

23 A. So Dr. Montano is the Clinical Director of the  
24 Gender and Sexual Development Clinic at the Children's

1 Hospital of Pittsburgh. He is Board Certified in  
2 Pediatrics and he is an expert in pediatric gender  
3 affirming care.

4 Q. Is he a psychologist or a psychiatrist?

5 ATTORNEY HARTNETT: Object to form.

6 THE WITNESS: He is an adolescent  
7 medicine specialist. And adolescent medicine  
8 specialists have extensive training and experience in  
9 mental health support for young people.

10 BY ATTORNEY TRYON:

11 Q. Is that a qualification --- does he have  
12 qualifications that you don't?

13 ATTORNEY HARTNETT: Object to form.

14 THE WITNESS: I am not aware. He may  
15 well. But he certainly had tons of training in the  
16 space as have I.

17 BY ATTORNEY TRYON:

18 Q. Okay.

19 But you are not a psychiatrist or a  
20 psychologist.

21 Right?

22 A. I am neither of those two things. That is  
23 correct.

24 Q. So when it says psychiatric assessments, what

1 qualifications do you believe is necessary to do a  
2 psychiatric assessment?

3 A. Someone who has extensive training and  
4 background in psychiatric diagnoses like anxiety,  
5 depression, and for these purposes gender dysphoria.

6 Q. And you're asserting you have that  
7 qualification?

8 A. I do have that qualification, yes.

9 Q. Now, if we wanted these notes out of Epic that  
10 you referenced, how would we get those?

11 A. I honestly am not sure how that system works or  
12 the process of you getting those notes works.

13 Q. Who has control over those?

14 ATTORNEY HARTNETT: Objection to form.

15 THE WITNESS: I don't know.

16 ATTORNEY LINKOUS: Mr. Tryon, I can be of  
17 benefit if you would like.

18 ATTORNEY TRYON: Sure.

19 ATTORNEY LINKOUS: Health Information  
20 Management at West Virginia University Hospitals, Inc.  
21 is the owner of the Epic medical records. I can also  
22 send you an address for that.

23 ATTORNEY TRYON: That would be wonderful  
24 if you would do that.

1                    ATTORNEY LINKOUS: I would be happy to.

2                    ATTORNEY TRYON: Can you email that to  
3 me?

4                    ATTORNEY LINKOUS: Yes, absolutely.

5                    ATTORNEY TRYON: You have either mine  
6 or ---?

7                    ATTORNEY LINKOUS: Yes.

8                    ATTORNEY TRYON: If not, you have  
9 Curtis'.

10                   Right?

11                   ATTORNEY LINKOUS: I do, yes.

12                   ATTORNEY TRYON: That would be wonderful.  
13 Thanks.

14                   ATTORNEY HARTNETT: This is Kathleen  
15 Hartnett. Are you asking for the full Epic records for  
16 Dr. Kidd or --- I just was unclear of what records  
17 you're asking for.

18                   ATTORNEY TRYON: Well, I'm a little  
19 unclear what exactly there is in Epic, so it's hard for  
20 me to ask. So I guess I would be probably asking for  
21 all of the records in Epic for BPJ.

22                   ATTORNEY HARTNETT: Okay.

23                   Just for the record, as you know, the  
24 Plaintiff has requested BPJ's records from WV Medical,

1 produced what we have and this Saturday --- and maybe  
2 Mr. Linkous can speak to it further, we produced  
3 additional records that were apparently the printout  
4 that Dr. Kidd was able to see, even though that's not  
5 what the records department produced. Just for the  
6 record, we produced all records that we received from  
7 WVU Medical, which was in our requests were all records  
8 that exist.

9 ATTORNEY LINKOUS: Sure. And to expedite  
10 things, I can certainly --- if counsel agree, I can  
11 certainly produce to Kathleen the records I have  
12 obtained from WVU, because I represent WVU, obviously,  
13 and then Kathleen can redact and send them on.

14 ATTORNEY HARTNETT: We have done that.  
15 Is that the records that you sent this weekend.

16 ATTORNEY LINKOUS: That is Dr. Kidd's  
17 office visit. I have access to BPJ's records from the  
18 health system that go beyond Dr. Kidd's visit.

19 ATTORNEY HARTNETT: Okay.

20 I mean, obviously whatever you would like  
21 to do would be helpful, but I guess for the record to be  
22 clear we've asked for and to our knowledge received all  
23 documents related to BPJ's treatment by WVU Medical.  
24 And that's what we produced to the other parties. And

1 then we understood this weekend that you were able to  
2 --- Dr. Kidd is able to see something different in her  
3 interphase, and so --- which appeared to be largely  
4 additional administrative information, and we produced  
5 that document as soon as we received it from you on  
6 Saturday.

7 ATTORNEY LINKOUS: That's correct. I can  
8 do it however you would like.

9 ATTORNEY TRYON: So Mr. Linkous, we would  
10 like to get the rest of the documents that are in the  
11 Epic system that we don't already have. And we will go  
12 over the other documents that I got over the weekend  
13 next. But if there are additional documents in the Epic  
14 system, we'd like to obtain those.

15 ATTORNEY LINKOUS: Okay.

16 ATTORNEY HARTNETT: Just to be clear, are  
17 you asking for the --- sorry, the documents from the  
18 Epic system from WVU Medical?

19 ATTORNEY TRYON: Are you asking me?

20 ATTORNEY HARTNETT: Yes, just because I  
21 think what the witness has stated is that the Epic  
22 system is used by different institutions, and so I think  
23 --- I'm just trying to be clear if you are asking Mr.  
24 Linkous for the documents from WVU Medical's Epic system

1 or you are trying to seek more broadly all of the  
2 documents about BPJ that may be out there in the, you  
3 know, in the Epic systems of other institutions, which  
4 it doesn't sound like he is the person that would be  
5 able to get that for you.

6 ATTORNEY TRYON: Right. That's my  
7 understanding. So whatever Mr. Linkous has access to,  
8 including Epic and the Care System, which is part of  
9 Epic.

10 ATTORNEY LINKOUS: I only have access to  
11 West Virginia University records, and that would include  
12 these --- what was the tab called again, Care Everywhere  
13 tab. And I can certainly produce that. I would prefer  
14 to produce that in a link to Kathleen and then let  
15 Kathleen look at it. It may be duplicative of what she  
16 already has and then she can produce.

17 ATTORNEY TRYON: I will agree to that.

18 ATTORNEY HARTNETT: And I will just make  
19 a representation for the record that we'll produce it  
20 even if it's duplicative just to make clear to the  
21 Defendants that we are producing everything we have.  
22 And I would expect that those --- any records that were  
23 referred to in a different institution have been sought  
24 and received from that institution, such as Dr. Montano.

1                    ATTORNEY LINKOUS: And just, Mr. Tryon, I  
2 want to be completely transparent with you so when you  
3 get the records you can understand any distinction or  
4 differences that might be in them. When I get records  
5 from West Virginia University I have my nursing staff  
6 organize them, Bates stamp them and bookmark them in a  
7 PDF document so they're in a format that I typically use  
8 for case by case by case. So for instance, the exhibit  
9 you are about to use will have my unique Bates stamp  
10 number on it at the bottom center. I can produce them  
11 certainly in that Bates stamped organized, bookmarked  
12 fashion to Kathleen or I can produce the native  
13 documents as they came to me, however you would like.  
14 Does that make sense?

15                    ATTORNEY TRYON: Native, you mean without  
16 the Bates stamp?

17                    ATTORNEY LINKOUS: Yes. So for instance,  
18 West Virginia University may end me --- I'm making it up  
19 --- a thousand pages of medical records for a patient.  
20 I give that to my nursing staff who organizes it by  
21 provider, by date, and they bookmark it so you can go to  
22 this date, this date, this date, this lab result, this  
23 admission, this ER, this pediatrician and you can  
24 navigate the records quickly. So I have my nursing

1 staff do that for me.

2 ATTORNEY TRYON: That's great.

3 ATTORNEY LINKOUS: I can produce that if  
4 you'd like. That way there's a Bates stamp and it shows  
5 you every one through how many ever there are.

6 ATTORNEY TRYON: That's fantastic. I  
7 appreciate it.

8 ATTORNEY LINKOUS: Sure.

9 ATTORNEY TRYON: So I would like to now  
10 turn to Exhibit 35. If you could pull that up, Jacob.

11 VIDEOGRAPHER: Can you see that?

12 ATTORNEY TRYON: Yes.

13 ATTORNEY TYRON: Yes.

14 VIDEOGRAPHER: And again, the witness and  
15 Mr. Tryon, you have permission to move to pages,  
16 highlight that, et cetera.

17 ATTORNEY TRYON: Thank you.

18 BY ATTORNEY TRYON:

19 Q. So Dr. Kidd, my first question simply, do you  
20 recognize this document?

21 A. I recognize that it is a face sheet, and I think  
22 this may have been part of the packet that I was sent.

23 ATTORNEY HARTNETT: Could I ask for the  
24 record what --- we can only see one page at a time and I

1 don't have this exhibit. So I'd be happy to pull the  
2 document that Mr. Linkous gave us and that we produced  
3 to you, but what Bates numbers are on this document?

4 ATTORNEY TRYON: Sure. They got cut off  
5 because the Bates number is so close to the bottom that  
6 when I printed it out ---.

7 VIDEOGRAPHER: And Attorney Hartnett, I  
8 did submit this document, which basically means it is  
9 now shared with everybody. If you go to the top and  
10 click on files, then that --- exhibit file sharing, you  
11 should be able to see it off to the right.

12 ATTORNEY HARTNETT: I do.

13 VIDEOGRAPHER: And you should be able to  
14 download that yourself.

15 ATTORNEY HARTNETT: Appreciate it. Thank  
16 you.

17 VIDEOGRAPHER: You're welcome.

18 ATTORNEY TRYON: And Mr. Linkous' Bates  
19 numbers are 101103 through 101137.

20 ATTORNEY HARTNETT: And these were, just  
21 for the record, the documents that we produced on  
22 Saturday from Mr. Linkous with Bates BPJ 02510 to BPJ  
23 02545.

24 BY ATTORNEY TRYON:

1 Q. Okay.

2 Dr. Kidd, I'm not sure I understood your  
3 answer. What do you understand this document to be?

4 A. I just scrolled through it and it looks like  
5 some supportive documentation around my note.

6 Q. Would there be any information in this document  
7 that's not in Exhibit 16?

8 A. Is Exhibit 16 the document we reviewed  
9 previously.

10 Q. Yes, it is the --- it's your notes and the lab  
11 information.

12 A. I can't speak to the nuance in this ancillary  
13 documentation. I'm sure that there is information on  
14 the face sheet if it was not present in the prior  
15 packet, Exhibit 16, but my notes should be the same in  
16 both packets.

17 Q. Now, there are places where there have been  
18 redactions of names.

19 Do you see that?

20 A. Are you referring to --- let me use my  
21 highlighter again.

22 Q. On the very first page that you look at there  
23 are three places where information is blocked out, which  
24 yeah, you've highlighted it.

1 A. Yes, I can see that.

2 Q. Did you have any involvement in that --- in  
3 blocking that out or redacting it?

4 A. No, no, I did not.

5 ATTORNEY HARTNETT: For the record,  
6 Plaintiff produced these to you with that information  
7 redacted at the request of Mr. Linkous.

8 BY ATTORNEY TRYON:

9 Q. On the second page of this exhibit, if you can  
10 go there, under the organs inventory, none of that is  
11 filled out. Is there a reason for that?

12 A. So this is a form that is optional to complete  
13 in Epic and is not part of my standard practice for  
14 adolescents.

15 Q. So underneath admission diagnosis, slash, and  
16 reasons for visits, do you see that?

17 A. I do not --- oh, down here at the bottom, yes, I  
18 see that now.

19 Q. What is ICD-10-CM?

20 A. That is the system that we use for billing codes  
21 ICD-10 specifically, I'm not sure what the -CM refers  
22 to.

23 Q. And under it, it says long-term, parentheses,  
24 current, closed paren, use of other agents affecting

1 estrogen receptors and estrogen levels. And that's  
2 under the admission diagnosis and reason for visit. So  
3 tell me what that means.

4 A. I have to assume because I myself did not enter  
5 in that code I believe that that is an umbrella code  
6 that the code I actually entered falls under. But  
7 again, I can't be positive about that. The code I would  
8 have ---.

9 Q. Go ahead.

10 A. The code I would have entered was likely  
11 something along the lines of long-term use of a  
12 gonadotropin-releasing hormone agonist or GRNHA.

13 Q. And is that a diagnosis or reason for visit?

14 A. So that is a reason to get the labs and the [REDACTED]  
15 scan that I subsequently ordered. And so when you order  
16 labs or imaging you have to tell insurance why it is  
17 medically relevant. And so that is the purpose of that  
18 code.

19 Q. During your visit with BPJ and BPJ's mother, did  
20 you actually make any diagnoses?

21 ATTORNEY HARTNETT: Objection to form.

22 THE WITNESS: To my recollection, no new  
23 diagnoses that had not already been made.

24 BY ATTORNEY TRYON:

1 Q. On the fourth page, which at the bottom center  
2 is 101 to 106, do you see --- let's see. I'm blowing it  
3 up on my screen. Does it get any larger on yours?

4 A. No, but I have it zoomed in on mine.

5 VIDEOGRAPHER: Mr. Tryon, if you  
6 highlight or write with the pencil tool, that will share  
7 it with everybody. But the zoom feature --- or the  
8 zooming is specific to each person. So each person can  
9 zoom in on the page that whatever their preference is.

10 BY ATTORNEY TRYON:

11 Q. Okay.

12 So I tried to highlight this one part that says  
13 it says gender dysphoria. Did it highlight on your  
14 screen?

15 A. Where patient describes this experience for  
16 themselves as?

17 Q. Yes.

18 A. Yes.

19 Q. So before the colon that's part of the form.  
20 Is that right?

21 A. That's correct.

22 Q. And then the rest of that language you added?

23 A. That language came from B [REDACTED] and I typed it in  
24 to this note.

1 Q. Do you remember any more about the conversation  
2 with BPJ about those words?

3 A. I can't speak more to what other words were  
4 said, but I try to write these as directly as the young  
5 person provides them to me, and I didn't make any  
6 additional notation. I make additional notation if the  
7 young person's experience is unexpected or different  
8 from my experience in working with gender diverse young  
9 people. And so in my practice this would suggest that  
10 this was what B [REDACTED] said and that her experience she  
11 described was very similar to other young people that I  
12 have cared for.

13 Q. What does it mean angel, slash, devil on  
14 shoulder kind of feeling?

15 A. To my recollection, B [REDACTED] kind of described that  
16 what you often see depicted in media, that there were  
17 kind of parts of who she was that were in conflict. And  
18 my interpretation based on my memory was that those  
19 parts of her were her gender identity and what society  
20 kind of expects of her because of her sex assignment.  
21 That's that distress that is associated with the gender  
22 dysphoria diagnostic code.

23 Q. What did society expect from BPJ?

24 A. Typically when babies are assigned male at birth

1 we expect them to identify as boys and eventually men  
2 and to live their lives as such.

3 Q. Do you remember anything specifically about BPJ,  
4 though, about what BPJ thought society expected of BPJ?

5 A. I can't recall specifically if B [REDACTED] spoke to  
6 that.

7 Q. What does society expect of boys and men?

8 ATTORNEY HARTNETT: Object to form.

9 THE WITNESS: Can you restate that  
10 question?

11 BY ATTORNEY TRYON:

12 Q. Well, I'm just going back to what you said, you  
13 said society expects certain things of boys and I think  
14 you used the terminology of those that are assigned male  
15 at birth and they expect certain things of boys and  
16 certain things when they grow up to be men.

17 A. Society.

18 ATTORNEY HARTNETT: Object to form.

19 THE WITNESS: To be very clear on this,  
20 society expects --- in my experience if someone is  
21 assigned male that they identify as male, simply put.

22 BY ATTORNEY TRYON:

23 Q. Okay.

24 Well, what specifically does society expect of

1 men?

2 ATTORNEY HARTNETT: Object to form.

3 THE WITNESS: Can you rephrase that?

4 BY ATTORNEY TRYON:

5 Q. Well, you're telling me that society expects  
6 certain things of boys and men. I want to know what you  
7 are saying that society expects from them.

8 ATTORNEY HARTNETT: Object to form.

9 THE WITNESS: I'm simply stating is that  
10 folks who are assigned male are expected to identify as  
11 male. That is what society expects.

12 BY ATTORNEY TRYON:

13 Q. And what does that mean to identify as male?

14 A. To have one's sense of gender for one's self be  
15 on the masculine spectrum.

16 Q. What's on the masculine spectrum?

17 A. There is a very helpful tool for this that I  
18 often use in talking about gender identity. It's called  
19 the gender unicorn, and it diagrams this out really  
20 nicely. But essentially there are masculine and  
21 feminine and nonbinary and other gender components in  
22 all of us to some varying degree. And when I say  
23 masculine I mean that the masculine component is  
24 dominant.

1 Q. What are masculine components?

2 A. It's a bit of a cultural and time, so temporally  
3 associated sort of thing, and I talk about this with  
4 patients and families, but it's often how we  
5 communicate, how we carry ourselves, what our place and  
6 role in society is, lots of expectations. But when  
7 we're talking about gender identity, it's this inherent  
8 sense of self as it relates to gender.

9 ATTORNEY TRYON: I would ask the court  
10 reporter to read back my question, please.

11 COURT REPORTER: What are the masculine  
12 components?

13 BY ATTORNEY TRYON:

14 Q. Please answer that question.

15 ATTORNEY HARTNETT: Object to form.

16 THE WITNESS: They are not specific  
17 components but instead a sense of self.

18 BY ATTORNEY TRYON:

19 Q. So there are no masculine components?

20 ATTORNEY HARTNETT: Object to form.

21 THE WITNESS: There is not a checkbox for  
22 masculinity, although society does impose ideas on us.

23 BY ATTORNEY TRYON:

24 Q. Well, you used term masculine components. I

1 didn't. What were you referring to?

2 A. Those thoughts that society has about what is  
3 masculine.

4 Q. Which are what?

5 A. I think it depends on the society in question.

6 Q. Okay.

7 Our society here in West Virginia?

8 ATTORNEY HARTNETT: Object to form.

9 THE WITNESS: Here in West Virginia one  
10 may masculine things are --- things like I gave the  
11 example earlier of interest in construction, right, and  
12 what we were discussing earlier, interest in hunting.  
13 While there are many folks who consider those things  
14 feminine as well, they stereotypically masculine in our  
15 society by my interpretation.

16 BY ATTORNEY TRYON:

17 Q. So that would be your stereotype?

18 ATTORNEY HARTNETT: Object to form.

19 THE WITNESS: The stereotype that I  
20 observe in our society as part of my job.

21 BY ATTORNEY TRYON:

22 Q. So how have you reported your observations as to  
23 what constitutes a masculine component?

24 ATTORNEY HARTNETT: Object to form.

1                   ATTORNEY TRYON: Do you have a list?

2                   THE WITNESS: Could you repeat the  
3 question?

4           BY ATTORNEY TRYON:

5           Q. Do you have a list of what you've observed to be  
6 masculine components in our society here in West  
7 Virginia?

8                   ATTORNEY HARTNETT: Object to form.

9                   THE WITNESS: I do not have a list, no.

10          BY ATTORNEY TRYON:

11          Q. So just when you're talking to a young person  
12 how do you know what constitutes a masculine component?

13          A. I think that's irrelevant for the purposes of  
14 discussing someone's gender identity as they see it  
15 themselves and instead more relevant to conversations  
16 about society's expectations of them.

17          Q. You say it's relevant or irrelevant?

18          A. It is relevant in some ways as to how they see  
19 themselves certainly. The primary thing we focus on is  
20 how the young person experiences their gender identity.

21          Q. How did BPJ experience BPJ's identity?

22          A. She identified as a girl.

23          Q. And what does that mean then?

24          A. It means that in her own mind and her own sense

1 of self she is a girl. She sees herself as a girl. Her  
2 relationships with people are based on her own internal  
3 sense of self as a girl.

4 Q. Did BPJ tell her what components constitute  
5 being a girl?

6 ATTORNEY HARTNETT: Object to form.

7 THE WITNESS: Not to my recollection.

8 BY ATTORNEY TRYON:

9 Q. So just the fact that BPJ said I identify as a  
10 girl, that was enough?

11 ATTORNEY HARTNETT: Object to form.

12 THE WITNESS: No one knows their own  
13 lived experience better than the individual themselves.  
14 And so when young people tell me how they identify, I  
15 explore what that mean for them. But B [REDACTED] identifies  
16 as a girl and so she is a girl.

17 BY ATTORNEY TRYON:

18 Q. So you explored that with BPJ. Can you tell me  
19 about that exploration, what it meant for BPJ to be a  
20 girl?

21 A. Only to the extent that I documented it and  
22 based on my standard practice. I don't recall the  
23 specifics of our conversation beyond that.

24 Q. So if someone comes to you and says --- who is a

1 | girl who was, as you say, assigned the sex of female at  
2 | birth, that says I identify as a male, but all outward  
3 | appearances --- let me rephrase that. Let me just start  
4 | over. If a young woman of any age comes to you and says  
5 | I identify as a male, is that in and of itself enough to  
6 | establish gender --- now I'm forgetting the terminology,  
7 | sorry, gender dysphoria?

8 ATTORNEY HARTNETT: Object to form.

9                   THE WITNESS: It is not because, as we  
10 discussed, there are specific diagnostic criteria for  
11 that diagnosis.

12 | BY ATTORNEY TRYON:

13 Q. And that is they have to identify as such for  
14 six months?

15 ATTORNEY HARTNETT: Object to form.

16                   THE WITNESS: I'm happy to review based  
17   on my memory, but I would refer to the DSM-V and that  
18   specific diagnostic criteria.

19 BY ATTORNEY TRYON:

20 Q. What if that persons says I don't care about  
21 DSM-V, you know, I was assigned girl at birth, but I  
22 identify as a girl, that's not good enough?

23 ATTORNEY HARTNETT: Object to form.

24 THE WITNESS: I think you are confusing

1 the difference between gender dysphoria, the diagnosis,  
2 and gender identity, the experience.

3 BY ATTORNEY TRYON:

4 Q. Thank you for clarifying. So for someone to  
5 have a gender identity different than what they are  
6 quote assigned at birth, they just simply need to say  
7 that they have a different gender identity.

8 Is that right?

9 ATTORNEY HARTNETT: Object to form.

10 THE WITNESS: They also don't have to say  
11 it. It's something they know in their own minds for  
12 themselves and for them to share or not.

13 BY ATTORNEY TRYON:

14 Q. But if they share that, is it your view that  
15 that person needs to accept that, that other folks need  
16 to accept that?

17 ATTORNEY HARTNETT: Object to form.

18 THE WITNESS: It's my view that no one  
19 can know inside someone's else's mind better than that  
20 person themselves.

21 BY ATTORNEY TRYON:

22 Q. Do others --- should others be required to  
23 accept that or not?

24 ATTORNEY HARTNETT: Object to form.

1                   THE WITNESS: I can't speak to that more  
2 broadly. All I can talk about is B [REDACTED] and what she  
3 told me.

4                   BY ATTORNEY TRYON:

5           Q.       Okay.

6                   If we could turn now to page --- okay. I'm  
7 looking at what is page 18 of 36. Do you see that?

8           A.       I do.

9           Q.       Okay. So ---.

10                   ATTORNEY HARTNETT: Could I just say for  
11 the record it's the document with the 101120 at the  
12 bottom?

13                   ATTORNEY TRYON: Correct.

14                   ATTORNEY HARTNETT: Thank you.

15                   BY ATTORNEY TRYON:

16           Q.       And it says --- under messages sent it shows  
17 delivery and it shows on 10/25/2021 it looks like a  
18 message was sent to Matthew Bunner. Is that a correct  
19 interpretation of that?

20           A.       That would be my guess, although I'm not  
21 familiar with that exact message nor is this kind of  
22 usually how I see this report. So outside of this  
23 setting, I wouldn't necessarily have access to this  
24 view.

1 Q. Do you remember talking to or sending a message  
2 to Mr. Bunner on 10/25/2021?

3 A. No, I don't have recollection of that and I  
4 suspect it was not me who sent the message.

5 Q. Okay.

6 Then down below further it says call  
7 information and it references Steven Deci and you and  
8 --- that's all. It references a call apparently on  
9 9/16/2021. Do you know what that is about?

10 A. I don't. I don't recall receiving a phone call.  
11 I do know that is the date of the visit and the time of  
12 the visit, and so this may be what it is referring to.

13 Q. Okay.

14 Now, I'm on page 21, which is at the bottom of  
15 the page. The bottom is 101123. And under here it  
16 shows today's visit. There's a box there. Do you see  
17 that?

18 A. I do.

19 Q. And who inputted this information?

20 A. It depends on what information you're referring  
21 to, and I only know partial answers to that question.

22 Q. Okay.

23 The blood pressure?

24 A. It is our standard practice that the nurse takes

1 the blood pressure and then enters it into the chart.

2 Q. The same thing with the BMI and the weight?

3 A. So the nurse would take a weight and measure  
4 height and then the computer would automatically  
5 calculate a BMI.

6 Q. Okay.

7 And the temperature, the nurse does that as  
8 well?

9 A. Yes.

10 Q. And the pulse?

11 A. Yes.

12 Q. And it says under that percentiles calculated  
13 using cc, paren, boys 2, dash, 20 years, closed paren.  
14 Do you see that there?

15 A. I do.

16 Q. And so why is that percentage using the boys  
17 chart as opposed to a girls chart?

18 A. Because in Epic the sex designation carries over  
19 to the gender marker, and so that is what chart is used.

20 Q. Is there a reason to determine percentiles for  
21 the child?

22 A. The BMI percentiles are important for youth as  
23 BMI itself is a poor measure and so BMI percentile is  
24 the standard based on my training that is used.

1 Q. And why is that important?

2 A. It's important to look at growth and development  
3 throughout childhood. Children are not fixed as adults  
4 often are in their height, for example.

5 Q. So if BPJ identifies as a female, why not use  
6 the female chart?

7 ATTORNEY HARTNETT: Object to the form.

8 THE WITNESS: It's a question and it's a  
9 limitation of our health system and our health record.

10 BY ATTORNEY TRYON:

11 Q. So you don't think it matters which chart is  
12 used, whether it's a male or female?

13 ATTORNEY HARTNETT: Object to form.

14 THE WITNESS: I certainly think it  
15 matters.

16 BY ATTORNEY TRYON:

17 Q. And why does it matter?

18 A. It matters because these charts are slightly  
19 different and based on a child's growth trajectory it  
20 may be better to use one chart over the other or even  
21 both to make sure that a child growth trajectory is on  
22 target.

23 Q. Did you prescribe any treatment for BPJ?

24 ATTORNEY HARTNETT: Object to form.

1                   THE WITNESS: No new treatment. I did  
2 continue with [REDACTED]. For example, we did not discontinue  
3 the [REDACTED] during my visit.

4 BY ATTORNEY TRYON:

5           Q.     Is --- let me see if I can pronounce this right.  
6 [REDACTED] hormone, what is that?

7           A.     [REDACTED] hormone or LH is a hormone that is  
8 downregulated by the presence of the [REDACTED]. It is a  
9 hormone that goes on to stimulate a secretion of sex  
10 hormone in the body throughout.

11          Q.     Do you anticipate any of --- prescribing any  
12 further treatment?

13          A.     So I think I have a visit with B [REDACTED] coming up  
14 next month and at that point we will be discussing B [REDACTED]  
15 and her family's goals and discussing options like  
16 [REDACTED]. We began that conversation at our first  
17 visit.

18          Q.     And what about options such as surgery?

19          A.     I'm not a surgeon, and in my experience, B [REDACTED]  
20 is very young to be making kind of long-term plans in  
21 that direction, although if she has questions I will  
22 answer them to the best of my ability.

23          Q.     So if that's something that BPJ wanted, is there  
24 something that you would --- is that something you would

1 refer BPJ to someone else?

2 ATTORNEY HARTNETT: Object to form.

3 THE WITNESS: When appropriate.

4 BY ATTORNEY TRYON:

5 Q. Do you have someone in particular --- well, have  
6 you ever referred anybody to another specialist for  
7 surgery?

8 A. Yes.

9 Q. Who have you referred them to?

10 A. Well, there are usually surgical centers as well  
11 as individual surgeons, but it depends on what the young  
12 person is seeking and what their insurance coverage is,  
13 where their family is located, and a host of other  
14 factors.

15 Q. How many referrals have you made for surgery?

16 ATTORNEY HARTNETT: Object to form,  
17 scope. Go ahead.

18 THE WITNESS: I couldn't speak to that  
19 specifically. I don't know off the top of my head.

20 BY ATTORNEY TRYON:

21 Q. More than one?

22 A. Yes.

23 ATTORNEY HARTNETT: Same objection.

24 BY ATTORNEY TRYON:

1 Q. Can you just give me the names of a couple of  
2 folks who do this type of --- do surgery for gender  
3 transition?

4 ATTORNEY HARTNETT: Objection, form,  
5 scope.

6 THE WITNESS: What type of surgery are we  
7 talking about?

8 BY ATTORNEY TRYON:

9 Q. Sex reassignment surgery.

10 ATTORNEY HARTNETT: Objection. This  
11 deposition concerns the diagnosis and treatment of  
12 Plaintiff, BPJ aka B [REDACTED] P [REDACTED]-J [REDACTED]. I would like  
13 to understand how this line of questioning is at all  
14 relevant to that.

15 ATTORNEY TRYON: To understand the future  
16 of possible treatments.

17 ATTORNEY HARTNETT: She has not testified  
18 to any such future possible treatment with BPJ or --- I  
19 just don't understand why having her list the names of  
20 providers to conduct surgeries has anything at all to do  
21 with BPJ's diagnosis or treatment.

22 BY ATTORNEY TRYON:

23 Q. You can answer the question.

24 A. Can you restate the question?

1 Q. Can you give me a list of providers for a sex  
2 reassignment surgery that you've referred people to?

3 ATTORNEY HARTNETT: Object to the form  
4 and scope.

5 THE WITNESS: Sex reassignment surgery is  
6 very broad, and so I'm not able to give you a specific  
7 list of surgeons without further clarity.

8 BY ATTORNEY TRYON:

9 Q. Then I guess I need to ask you what is included  
10 within sex reassignment surgery.

11 A. It's a rather long list, but none of this  
12 pertains to B [REDACTED] right now and may not in the future.

13 Q. But you have referred folks out for some form of  
14 sex reassignment surgery or not?

15 ATTORNEY HARTNETT: Object to form.

16 THE WITNESS: I have referred patients  
17 for a variety of needs outside of my scope of practice,  
18 yes.

19 BY ATTORNEY TRYON:

20 Q. Can you recall the name of even one of the  
21 surgeons you've referred people to?

22 ATTORNEY HARTNETT: Same objection and  
23 asked and answered.

24 THE WITNESS: John Pang.

1 BY ATTORNEY TRYON:

2 Q. How do you spell the last name?

3 A. P-A-N-G.

4 Q. Give me two more and we will be done.

5 ATTORNEY HARTNETT: Objection to scope  
6 and form and harassing the witness.

7 ATTORNEY LINKOUS: If you can recall, you  
8 can tell him.

9 THE WITNESS: And there are usually teams  
10 and not individual surgeons, but Toby Meltzer is someone  
11 whose name I had mentioned previously. And I'm thinking  
12 of centers, and so there's lots of folks in centers.

13 BY ATTORNEY TRYON:

14 Q. Give me a center name?

15 A. The Hopkins Clinic.

16 Q. Is that in West Virginia?

17 A. It is not. In fact, none of these providers  
18 are.

19 Q. I see. Okay.

20 ATTORNEY TRYON: Let's go off the record.  
21 Let me take just a very short break and see if there are  
22 any other questions that I have.

23 VIDEOGRAPHER: Going off the record. The  
24 current time reads 1:32 p.m.

1 OFF VIDEOTAPE

2 - - -

3 (WHEREUPON, A SHORT BREAK WAS TAKEN.)

4 - - -

5 ON VIDEOTAPE

6 VIDEOGRAPHER: We are back on the record.

7 The current time reads 1:41 p.m.

8 ATTORNEY TRYON: Dr. Kidd, I want to  
9 thank you very much for your time. I have no further  
10 questions for you at this time. In the rare event that,  
11 unlikely I will say, event that the Epic records somehow  
12 show something that we need to reconvene this for, then  
13 I would want to reconvene this. Otherwise, I have no  
14 further questions. And you have the option to --- well,  
15 your counsel will advise you you have the option to read  
16 this or waive reading. So that's all I have. Thanks  
17 again.

18 ATTORNEY HARTNETT: And this is Kathleen  
19 Hartnett for Plaintiff. I just would like to  
20 provisionally mark the transcript as confidential in  
21 light of the discussion of medical records. And we'll  
22 do a more specific designation when we review.

23 And I also just wanted to state from the  
24 Plaintiff's perspective, the deposition is closed

1 because we made the production requested of us, but we  
2 will, as I noted, review with what Mr. Linkous sent and  
3 we will send to Defendants anything responsive to RFP-1  
4 per the way we have responded to date in this  
5 litigation.

6 ATTORNEY LINKOUS: If there are no more  
7 questions, we will read and sign. And you may send her  
8 deposition transcript to me and I will facilitate the  
9 errata process to the doctor.

10 ATTORNEY TRYON: Any other Defendants  
11 have any other questions?

12 ATTORNEY CROPP: This is Jeff Cropp for  
13 Defendant Harrison County Board of Education and Doris  
14 Stutler. I came on for Susan Deniker who had to leave  
15 early. We have no questions today.

16 ATTORNEY GREEN: This is Roberta Green  
17 here on behalf of West Virginia Secondary School  
18 Activities Commission. No questions.

19 ATTORNEY TAYLOR: This is Michael Taylor  
20 on behalf of the West Virginia State Board of Education.  
21 Kelly Morgan had to step off, so I jumped on, and we  
22 have no questions.

23 ATTORNEY TRYON: Mr. Ducar, you are  
24 muted.

1                   ATTORNEY DUCAR: Thank you. Timothy  
2 Ducar on behalf of the Intervenor Lainey Armistead. We  
3 have no questions.

4                   ATTORNEY TRYON: Thank you, everyone.

5                   VIDEOGRAPHER: That concludes this  
6 deposition. The current time reads 1:43 p.m. Thank  
7 you, Counsel.

2 CERTIFICATE

3 I, Nicole Montagano, a Notary Public in  
4 and for the State of West Virginia, do hereby  
5 certify:

6 That the witness whose testimony appears  
7 in the foregoing deposition, was duly sworn by me  
8 on said date, and that the transcribed deposition  
9 of said witness is a true record of the testimony  
10 given by said witness;

11 That the proceeding is herein recorded  
12 fully and accurately;

13 That I am neither attorney nor counsel  
14 for, nor related to any of the parties to the  
15 action in which these depositions were taken, and  
16 further that I am not a relative of any attorney  
17 or counsel employed by the parties hereto, or  
18 financially interested in this action.

19 I certify that the attached transcript  
20 meets the requirements set forth within article  
21 twenty-seven, chapter forty-seven of the West  
22 Virginia.

7 -----

8 VIDEOGRAPHER: We're now on the record.  
9 My name is Jacob Stock. I'm a Certified Legal Video  
10 Specialist employed by Sargent's Court Reporting  
11 Services, which is located at 210 Main Street,  
12 Johnstown, PA 15901. The date today is January 21st,  
13 2022. The current time reads 10:09 a.m., Eastern  
14 Standard Time. This deposition is being taken remotely  
15 by Zoom conference. The caption of the case is in the  
16 United States District Court for the Southern District  
17 of West Virginia, Charleston Division, BPJ, by her Next  
18 Friend and Mother, Heather Jackson versus West Virginia  
19 State Board of Education, et al. Civil Action Number  
20 2:21-CV-00316. The name of the witness is BPJ.

21 Will the attorneys present state their  
22 names and the parties they represent?

23 ATTORNEY CAPEHART: This is Curtis  
24 Capehart for the State of West Virginia. And with me is

1 my colleague, David Tryon.

2 ATTORNEY HARTNETT: Good morning. This  
3 is Kathleen Hartnett from Cooley, LLP, for Plaintiff  
4 BPJ, who is the witness today. And the other  
5 Plaintiff's Counsel could introduce themselves, first  
6 with the others from Cooley and then we could go to  
7 ACLU, ACLU of West Virginia and Lambda.

8 ATTORNEY BARR: Good morning. This is  
9 Andrew Barr from Cooley, LLP, on behalf of the  
10 Plaintiff.

11 ATTORNEY VEROFF: Good morning. This is  
12 Julie Veroff from Cooley, LLP, on behalf of the  
13 Plaintiff.

14 ATTORNEY HELSTROM: Good morning. This  
15 is Zoe Helstrom from Cooley, LLP, on behalf of the  
16 Plaintiff.

17 ATTORNEY BLOCK: Good morning. This is  
18 Josh Block from ACLU on behalf of Plaintiff.

19 ATTORNEY STARK: Good morning. This is  
20 Loree Stark with the ACLU of West Virginia on behalf of  
21 the Plaintiff.

22 ATTORNEY SWAMINATHAN: Good morning.  
23 This is Sruti Swaminathan from Lambda Legal on behalf of  
24 Plaintiff.

1                    ATTORNEY DENIKER: Good morning. I'm  
2 Susan Deniker with Steptoe and Johnson, counsel for  
3 Defendants Harrison County Board of Education and  
4 Harrison County Superintendant Dora Stutler.

5                    ATTORNEY GREEN: Good morning. This is  
6 Roberta Green on behalf of West Virginia Secondary  
7 School Activities Commission, and I will let me  
8 colleagues introduce.

9                    ATTORNEY BANDY: Hello. This is Kimberly  
10 Bandy also on behalf of West Virginia Secondary School  
11 Activities Commission.

12                   ATTORNEY HAMMOND: Good morning. This is  
13 Kristen Hammond. And Kelly Morgan is also on here with  
14 Bailey and Wyant and we represent the West Virginia  
15 State Board of Education and Superintendant Burch.

16                   ATTORNEY DUCAR: Good morning. Timothy  
17 Ducar here on behalf of the Intervenor, Lainey  
18 Armistead.

19                   ATTORNEY HOLCOMB: Good morning.  
20 Christiana Holcomb with Alliance Defending Freedom on  
21 behalf of the Intervenor.

22                   ATTORNEY CSUTOROS: Good morning. This  
23 Rachel Csutoros on behalf of Alliance Defending Freedom  
24 on behalf of the Intervenor.

1 mischaracterization of the evidence. Those same  
2 stipulations would hold today. And so for the record,  
3 the Plaintiff agrees to that. And it would be helpful I  
4 think if the other Defendants could just assent to those  
5 stipulations for today on the record.

6 ATTORNEY DENIKER: This is Susan Deniker.  
7 I stipulate to that.

8 ATTORNEY GREEN: This is Roberta Green on  
9 behalf of WVSSAC. We stipulate to that.

10 ATTORNEY HAMMOND: This is Kristen  
11 Hammond, and we also stipulate to that.

12 ATTORNEY DUCAR: This is Tim Ducar. We  
13 also stipulate to that.

14 ATTORNEY CAPEHART: And the State does as  
15 well.

16 ATTORNEY CAPEHART: Anything else,  
17 Kathleen, or should I go ahead?

18 ATTORNEY HARTNETT: Nothing here.

19 ATTORNEY CAPEHART: All right. Thanks  
20 very much.

21 ---

22 EXAMINATION

23 ---

24 BY ATTORNEY CAPEHART:

1 Q. Well, good morning. Nice to finally get to meet  
2 you. My name is Curtis Capehart, as I said just a  
3 minute ago. I represent the State of West Virginia in  
4 this. Now up to this point we've been referring to you  
5 by the initials as BPJ because that is the way you have  
6 been identified in the Complaint that started this  
7 lawsuit. Now, is that okay or would you prefer that I  
8 call you something else while we're talking here today?  
9 Because initials can be a little awkward. So if you  
10 feel more comfortable with me calling you something  
11 else, that's perfectly fine. You just let me know what  
12 that could be.

13 A. You can call me B [REDACTED]

14 Q. Okay.

15 ATTORNEY HARTNETT: If I could just say  
16 for the record, not to interrupt, that we filed with the  
17 BPJ initials in light of the Rules of Court, but the  
18 Plaintiff Counsel has no objection to you referring to  
19 her as B [REDACTED] in this deposition.

20 ATTORNEY CAPEHART: Okay.

21 BY ATTORNEY CAPEHART:

22 Q. You are represented by counsel here today and is  
23 that Kathleen, Ms. Hartnett, that was speaking just now?

24 A. Yes.

1 Q. Have you ever been involved in a lawsuit before?

2 A. No.

3 Q. So you've probably never been deposed before,  
4 have you?

5 A. Can you repeat the question?

6 Q. Sure. You haven't been deposed before then,  
7 have you?

8 A. No.

9 Q. Okay.

10 Also if there is a time where you have trouble  
11 understanding me or hearing me, just do what you just  
12 did there, let me know and I'll try and speak up a  
13 little bit. We don't have the best microphone  
14 placements in here, so that might be a thing as we go  
15 through today.

16 So as I go through and answer --- I'm sorry, if  
17 I go through and ask you questions today, I just need  
18 you to try to remember to answer verbally, not just nod  
19 your head or shake your head because there is a video,  
20 but we need to have those verbal responses so we can  
21 truly understand what your answer is. And if you do not  
22 understand a question, that's fine. You just need to  
23 say so so that I can try and put together a better  
24 question or try to explain more of what I'm trying to

1 learn. Okay?

2 Now, if you answer one of questions that I ask  
3 you today, we are going to assume that you understand  
4 it. So if there is any kind of confusion, we don't want  
5 to deal with any of that. It's better you just ask me  
6 and I'll try and improve my question for you.

7 Does that all make sense?

8 A. Yes.

9 Q. Okay.

10 Also, I want to kind of touch on a couple of  
11 other things here before I get started with some  
12 questioning. Just understand that we are not here to  
13 judge you. We're just trying to learn some of the facts  
14 here, things we don't know. This lawsuit was filed  
15 trying to have a West Virginia State Law declared  
16 invalid under the U.S. Constitution and another Federal  
17 Law referred to as Title 9. And that's --- that's  
18 pretty serious. So we, as the lawyers for the State,  
19 have an obligation to defend that law. That means I  
20 have to ask you some questions that might make all of us  
21 uncomfortable a little bit, but I have an obligation to  
22 try and get through these. That's not my goal. I'm  
23 just trying to find out information. Okay?

24 Now, also if I ask you a question that makes

1 you very uncomfortable, tell me, and I can try, if I  
2 can, to rephrase it in a way to make you not  
3 uncomfortable. I can't say that I won't ask those kinds  
4 of questions because there's some things that we have to  
5 ask questions about, some things that we need to get  
6 your testimony on, but I'm not trying to make you feel  
7 bad or upset you in any way.

8 Okay?

9 A. Okay.

10 ATTORNEY HARTNETT: I would just object  
11 to the extent you're seeking the witness to agree with  
12 your description of your role. But on the other hand, I  
13 appreciate you letting her know that she can let you  
14 know if she has an upsetting question.

15 BY ATTORNEY CAPEHART:

16 Q. Also, I'm just going to --- a word about  
17 objections. Sometimes when we go through these, your  
18 lawyer might make an objection. I may ask a question,  
19 Kathleen may same objection, something else. Now, if  
20 that happens, the lawyers may have to have a  
21 conversation. It's unlikely, but the lawyers may have  
22 to talk about something, at which point you wouldn't be  
23 able to hear us or see us. We don't think that's going  
24 to happen, but we at least want to let you know.

1           Also, generally, if your lawyer says objection,  
2           you can go ahead and answer the question unless your  
3           lawyer directs you not to.

4           A.     Okay.

5           Q.     Oh, and one last thing. If you need to take a  
6           break for any reason, go to the bathroom, get more  
7           water, something of that nature, just let me know and we  
8           will take a break as soon as we can. We just can't take  
9           a break if I've asked a question and we are waiting for  
10          you to finish your answer.

11          Does that make sense?

12          A.     Yes.

13          Q.     Okay. Great.

14          We will try and get through this as quickly as  
15          we can. I'm sure you have a lot of other things that  
16          you would rather do on a Friday. So with that, let me  
17          ask you, if you can, to please state your name for the  
18          record.

19          A.     First and last?

20          Q.     Yes, please.

21          A.     B [REDACTED] P [REDACTED] J [REDACTED].

22          Q.     Great. What is your address?

23          A.     Could you repeat the question?

24          Q.     Sure. What is your home address?

1 A. I'm not sure.

2 Q. Okay.

3 And where do you go to school?

4 A. Bridgeport Middle School.

5 Q. Do you remember signing a document called a  
6 Declaration back when this lawsuit was first getting  
7 started?

8 A. I can't remember.

9 Q. Okay.  
10 If you could look at --- it's marked Exhibit  
11 31.

12 ATTORNEY CAPEHART: Court Reporter, if  
13 you could pull up that exhibit also.

14 BY ATTORNEY CAPEHART:

15 Q. So do you have Exhibit 31 in front of you?

16 A. Yes.

17 Q. It's also up on the screen, just to make sure  
18 that we're all looking at this document here?

19 MS. JACKSON: This is this.

20 BY ATTORNEY CAPEHART:

21 Q. There's on the screen electronic version of it,  
22 too.

23 ATTORNEY HARTNETT: For the record, we  
24 have copies of the exhibits face down in the room with

1 the witness, and the witness may feel free to pick up  
2 the exhibit once it's referred to by the questioning  
3 counsel and look at the hard copy.

4 BY ATTORNEY CAPEHART:

5 Q. Okay.

6 Looking at this, now if you look at the last  
7 page, I believe it is number page four, it has the  
8 initials BPJ there and then some handwritten  
9 signature-like initials of BPJ. Looking at those, do  
10 you recognize those?

11 A. Yes.

12 Q. And that's your handwriting, I guess?

13 A. Yes.

14 Q. Okay. Thanks very much.

15 Looking at this, does it jog your memory a  
16 little bit that this is something you had to deal with  
17 back when the lawsuit was started?

18 A. Not really.

19 Q. Okay.

20 And do you remember signing it?

21 A. A little bit.

22 Q. I know it's been a while, so I thought you might  
23 want to go and look at a couple of these things to  
24 remember what was in here.

1                   MS. JACKSON:   Do you want to read through  
2   it?

3                   THE WITNESS:   No.

4   BY ATTORNEY CAPEHART:

5       Q.       If you want to take a minute, you can kind of  
6   read all through it. You just go ahead and let us know  
7   when you've had a chance to do that.

8                   MS. JACKSON:   You need to tell them when  
9   you're done.

10                  THE WITNESS:   Oh, I'm done.

11   BY ATTORNEY CAPEHART:

12       Q.       Thank you.

13                Now, since you signed this back in May of last  
14   year, obviously it's been quite a while since May. And  
15   is anything --- well, let me rephrase. Back at that  
16   time, if you look on page two, this was --- in  
17   paragraph 11 you were talking about trying out for  
18   cross-country and track. And obviously, with the  
19   passage of time, you tried out for the track team,  
20   right, cross-country track team.

21                  ATTORNEY HARTNETT:   Objection, form.

22                  THE WITNESS:   I tried out cross-country.  
23   Track is not a sport that was available at that time.

24   BY ATTORNEY CAPEHART:

1 Q. Is track a spring sport?

2 A. Yes.

3 Q. Okay.

4 So you tried out for cross-country. Did you  
5 make the cross-country team?

6 A. Yes.

7 Q. Back on the bottom of the first page, under the  
8 paragraph number four, it describes that you when you  
9 were younger would play with your mom's clothes, liked  
10 paint and girly items. Whenever you said girly items  
11 there with the quotations around it, what kind of items  
12 are those?

13 A. Items that had maybe unicorns on it, sparkles,  
14 anything that would stick out in general that was maybe  
15 a mystical creature that was like a unicorn maybe. I  
16 had some stuff that was pandas because I really like  
17 pandas, and they were always multi-colored. And that's  
18 about it.

19 Q. Okay.

20 I'm going to set that off to the side for a  
21 minute and just ask you a few other questions. Your  
22 mother told us that you are comfortable explaining your  
23 gender identity. Are you?

24 ATTORNEY HARTNETT: Objection to form.

1                   THE WITNESS:   Yes.

2           BY ATTORNEY CAPEHART:

3           Q.       Can you explain to me what is your gender  
4           identity?

5           A.       I am female and I go by the pronoun she or her.

6           Q.       Do you also refer to yourself as a transgender  
7           girl?

8           A.       No. I refer myself as a girl because I am a  
9           girl, and that's it.

10          Q.       Okay.

11                   Does it bother you if someone does refer to you  
12           as a transgender girl?

13          A.       No, because that's still calling me a girl, but  
14           I prefer to be called as just a girl.

15          Q.       Okay.

16                   Did you have a problem with --- looking back at  
17           your Declaration, at Exhibit 31, in paragraph 12 it  
18           says, the second line, I am a transgender girl. Is that  
19           okay with you that that's written that way?

20          A.       Yes, that is fine because that is --- that's  
21           still showing that I am a girl and that is on a ---  
22           that's on my Declaration.

23          Q.       And transgender female or transgender girl, are  
24           both of those terms accurate?

1                    ATTORNEY HARTNETT:    Objection to form.

2                    THE WITNESS:    Yes, because I am a  
3 transgender female and a transgender girl.

4                    BY ATTORNEY CAPEHART:

5                    Q.            Okay.

6                    I just want to make sure I got the terminology  
7 down.    Do you remember the first time you heard the term  
8 transgender?

9                    A.            I can't remember.

10                  Q.            Okay.

11                  As long as you remember, you just --- have you  
12 always had an understanding of what transgender means?

13                  A.            I don't know, I don't think so.

14                  Q.            So --- and I'm not trying to put words in your  
15 mouth.    I'm just trying to understand.    So do you think  
16 there was a time that you didn't, but at some point you  
17 learned it, you just don't remember when that was?

18                  A.            Yes.

19                  Q.            All right.

20                  Do you have any recollection of a time when you  
21 were not a transgender girl?

22                    ATTORNEY HARTNETT:    Objection to form.

23                    THE WITNESS:    A little bit of a memory,  
24 but not much.

1     BY ATTORNEY CAPEHART:

2           Q.     What kind of a memory do you have --- let me  
3 back up. How old is that memory?

4           A.     Four or five years.

5           Q.     Okay.

6                   Was that memory --- what were you doing that  
7 you can remember, I guess, maybe not being a transgender  
8 girl at that time?

9                   ATTORNEY HARTNETT: Objection to form.

10                  THE WITNESS: I think I was learning  
11 something in school and I found it really interesting.

12     BY ATTORNEY CAPEHART:

13           Q.     Okay.

14                   You don't remember what that was that you were  
15 learning, do you?

16           A.     No.

17           Q.     Your mother also told us that at some point when  
18 you were younger you told her that you were a girl. Do  
19 you remember the first time you told your mother that?

20           A.     I can't remember.

21           Q.     Okay.

22                   Do you remember the first time you told someone  
23 other than your mother that you were a transgender girl?

24                   ATTORNEY HARTNETT: Objection to form.

1                   THE WITNESS:   I --- can you say it again?

2   BY ATTORNEY CAPEHART:

3           Q.       Sure.   I will try to make it a little bit  
4   better, too.   Do you remember the time that you first  
5   told someone other than your mother that you were a  
6   girl?

7           A.       Yes.

8           Q.       Okay.

9                   Can you tell me about that?

10          A.       It was in school.   It was new, whenever I just  
11   came out, and it was the year of 4th grade.

12          Q.       Okay.

13                   Do you remember who you were talking to?

14          A.       I don't remember.

15          Q.       Now, you said that was 4th grade, that that was  
16   the year that you came out.   Do you use terminology like  
17   socially transition when you talk about that time?

18          A.       Could you repeat the question?

19          Q.       Sure.   Let me ask a different one.   Are you  
20   familiar with the term social transition or to socially  
21   transition?

22          A.       No.

23          Q.       Okay.

24                   When you --- and I'm going to use your term,

1     okay. When you said you came out in 4th grade and that  
2     was the time when you maybe started talking to other  
3     people about being a girl, you don't really remember who  
4     that was, but generally how was that time for you?

5                     ATTORNEY HARTNETT: Objection to form.

6                     THE WITNESS: It was good because I made  
7     a lot of new friends. A lot of people were really nice  
8     to me.

9     BY ATTORNEY CAPEHART:

10        Q.     Were your old friends nice to you, too?

11        A.     Yes.

12        Q.     How was everybody at your school, teachers and  
13     other folks that worked there?

14                     ATTORNEY HARTNETT: Objection to form.

15                     THE WITNESS: They were very good about  
16     it.

17     BY ATTORNEY CAPEHART:

18        Q.     Did you have any bad experiences that year?

19        A.     No.

20        Q.     Okay.

21                     B [REDACTED], for you what does it mean to be female  
22     or to be a girl?

23        A.     Could you repeat the question?

24        Q.     Sure. I'm trying to understand your perspective

1 on things, and so that's why I'm just asking, to you,  
2 what does it mean to be a girl or to be female?

3 ATTORNEY HARTNETT: Objection to form.

4 THE WITNESS: It means --- it means  
5 everything. I've always wanted to be a girl.

6 BY ATTORNEY CAPEHART:

7 Q. Okay.

8 And what is it about a girl or female that  
9 makes them different from boys or males?

10 ATTORNEY HARTNETT: Objection to form.

11 THE WITNESS: How they act and how they  
12 dress their selves.

13 BY ATTORNEY CAPEHART:

14 Q. Okay.

15 Anything else other than how they act or how  
16 they dress?

17 A. Not that I can think of right now.

18 Q. Okay.

19 How do girls or females dress differently than  
20 boys or males?

21 ATTORNEY HARTNETT: Objection to form.

22 THE WITNESS: Females would wear ---  
23 normally wear dresses and males would normally wear  
24 tuxedos and suits. And their casual clothes are most of

1 the time different but sometimes can be the same.

2 BY ATTORNEY CAPEHART:

3 Q. Okay.

4 So do I look like I'm dressed like a male  
5 because I'm wearing a suit jacket and tie?

6 ATTORNEY HARTNETT: Objection to form.

7 THE WITNESS: Yes.

8 BY ATTORNEY CAPEHART:

9 Q. Okay.

10 A. Because that is also how you present yourself.

11 Q. Okay.

12 Is presenting one's self, when you say that, is  
13 that different than how one dresses and how one acts or  
14 is it both of those together?

15 ATTORNEY HARTNETT: Objection to form.

16 Sorry.

17 THE WITNESS: It's kind of a mix of all  
18 of it.

19 BY ATTORNEY CAPEHART:

20 Q. Now, when you say that how someone acts is  
21 different regarding girls to boys, what do you mean by  
22 that?

23 A. Normally ---.

24 ATTORNEY HARTNETT: Objection to form.

1 all the time.

2 BY ATTORNEY CAPEHART:

3 Q. Okay.

4 Are there actions or things that people do that  
5 make you think this person is acting more like a male or  
6 someone is acting more like a female?

7 ATTORNEY HARTNETT: Objection to form.

8 THE WITNESS: Sometimes.

9 BY ATTORNEY CAPEHART:

10 Q. Okay.

11 When you say sometimes what are you thinking  
12 about?

13 A. Maybe people are walking around because  
14 sometimes it's how they walk that you can tell and their  
15 hair sometimes.

16 Q. What kind of hair is more male as compared with  
17 hair that is more female to you?

18 ATTORNEY HARTNETT: Objection to form.

19 THE WITNESS: I think longer hair is more  
20 ladylike and short hair is more manly, but sometimes  
21 people do like an option of that where people --- where  
22 guys will like long hair and girls will like short hair.

23 BY ATTORNEY CAPEHART:

24 Q. I think my father would agree with you on what

1 you said there. Are there other kind of behaviors that  
2 people exhibit that are more male or more female besides  
3 walking and maybe kind of their physical posture?

4 ATTORNEY HARTNETT: Objection to form.

5 THE WITNESS: Not really, no.

6 BY ATTORNEY CAPEHART:

7 Q. Okay.

8 Besides, as you said, males would be more big  
9 and buff and females not really liking that look as  
10 much, although some of them do, are there other physical  
11 attributes that makes you think someone is more male or  
12 more female?

13 ATTORNEY HARTNETT: Objection to form.

14 THE WITNESS: Not really.

15 BY ATTORNEY CAPEHART:

16 Q. Does height have anything to do with it?

17 ATTORNEY HARTNETT: Objection to form.

18 THE WITNESS: No, because that can go  
19 either way. That's genetics if you're tall or not.

20 BY ATTORNEY CAPEHART:

21 Q. As you have been growing up, from what I  
22 understand, you talk with your mom a lot.

23 Right?

24 A. Yes.

1 Q. Have you ever talked with your mother about what  
2 it means to be female?

3 A. Yes.

4 Q. Okay.

5 What did your mother --- strike that.

6 Did your mother try to help you as you were  
7 going through this process to kind of understand this a  
8 little bit more what is male and female?

9 ATTORNEY HARTNETT: Objection to form.

10 THE WITNESS: Could you repeat the  
11 question?

12 BY ATTORNEY CAPEHART:

13 Q. Sure. As you've been growing up and as you've  
14 been talking with your mother over the years as you  
15 realized, as you said, you're a girl and as we were just  
16 talking about, that there are certain things in your  
17 mind that go more with being female rather than being  
18 male, did you and your mom have conversations about that  
19 same kind of thing we were just discussing?

20 ATTORNEY HARTNETT: Objection to form.

21 THE WITNESS: Yes.

22 BY ATTORNEY CAPEHART:

23 Q. Okay.

24 What did you all talk about?

1           A.     We talked about looks and --- mainly looks and  
2     that was about it.

3           Q.     Okay.

4                     Did you talk about makeup?

5           A.     Yes.

6           Q.     Okay.

7                     Is that something to you that is more female or  
8     more male?

9           A.     More female, but some males do wear them ---  
10    wear it.

11          Q.     Did you and your mom talk about jewelry?

12          A.     Ish, not really because jewelry can be worn by  
13    males and females.

14          Q.     That's fair. I'm wearing some myself right now.  
15    Did you all talk about anything else other than those  
16    few things that you just provided to me and also the  
17    makeup?

18                     ATTORNEY HARTNETT: Objection to form.

19                     THE WITNESS: Not really.

20    BY ATTORNEY CAPEHART:

21          Q.     Okay.

22                     Have you ever had any of those kinds of  
23    conversations with your father?

24                     ATTORNEY HARTNETT: Objection to form.

1                   THE WITNESS: Not really because I don't  
2 think he would understand it because he is a guy that is  
3 --- he really --- he likes doing manly stuff and I don't  
4 think he'd understand makeup.

5           BY ATTORNEY CAPEHART:

6           Q. So with all that in mind, I'm just trying to  
7 understand how you think about some of these things.  
8 How do you define girls and boys?

9                   ATTORNEY HARTNETT: Objection to form.

10                   THE WITNESS: Males try to look muscular  
11 and they do --- they lift weights and have short hair,  
12 but girls can also do that, but it's most commonly found  
13 with guys. With girls, they usually have long hair, but  
14 guys can have that, too. They wear makeup and have  
15 different clothing than males.

16           BY ATTORNEY CAPEHART:

17           Q. Okay.

18                   Are there activities that girls or females like  
19 to do that men don't like to do or that males don't like  
20 to do?

21                   ATTORNEY HARTNETT: Objection to form.

22                   THE WITNESS: Not really because sports  
23 are for everyone and they should --- and every --- and  
24 any person should be able to play.

1 BY ATTORNEY CAPEHART:

2 Q. I thank you for that. I was making it a little  
3 bit more broad than that even though. Are there other  
4 things outside of sports that may be girls and females  
5 like to do that typically, from your experience, boys  
6 and males don't like to do?

7 ATTORNEY HARTNETT: Objection to form.

8 THE WITNESS: Not really because anything  
9 that a female could do a male could do, and anything a  
10 male could do a female could do.

11 BY ATTORNEY CAPEHART:

12 Q. And among all of your friends, are they mostly  
13 girls, mostly boys or all across both boys and girls?

14 A. They are mostly girls, but I do have some guy  
15 friends.

16 Q. What do you like to do with your friends that  
17 are girls?

18 A. We hang out, sometimes we play video games.

19 Q. Do you go --- do you like going to the mall or  
20 shopping? I know that has been harder recently since  
21 COVID?

22 ATTORNEY HARTNETT: Objection to form.

23 THE WITNESS: Sometimes, but not really  
24 because of COVID.

1     BY ATTORNEY CAPEHART:

2           Q.     Do you do the same kind of things with your  
3 friends that are boys?

4           A.     We also hang out. We talk about video games, we  
5 play video games, so, yes, about the same.

6           Q.     Okay.

7                   At some point you decided to change your name.  
8 Do you remember when you decided to do that?

9           A.     When I came out.

10          Q.     So in 4th grade, as you mentioned earlier?

11          A.     I came out in the third --- the summer of third  
12 grade. But when I was like actually talking to people  
13 and stuff about it, it was 4th grade. So yes, when I  
14 came out.

15          Q.     Okay.

16                   And so when did you start going by B [REDACTED]?

17          A.     The summer of third grade.

18          Q.     Did you go by B [REDACTED] at school at that time, too,  
19 or did you wait until fourth grade for that?

20                   ATTORNEY HARTNETT: Objection to form.

21                   THE WITNESS: It was the summer of third  
22 grade and I was kind of presenting through third grade,  
23 but I didn't go by B [REDACTED], just --- at that point I  
24 waited until fourth grade.

1     BY ATTORNEY CAPEHART:

2           Q.     Okay.

3                   How did you select your new name?

4           A.     I've always liked the name, so that's what I  
5     liked.

6           Q.     Okay.

7                   And why did you decide at that time that you  
8     needed a new name?

9           A.     Because I didn't think my name fit for me.

10          Q.     Okay.

11                   And you're familiar with the term dead name.  
12                   Right?

13          A.     Yes.

14          Q.     Okay.

15                   Do you remember the first time that you  
16     encountered that word --- or I'm sorry, that term?

17          A.     That term? When I came out, I was told that I  
18     could be dead named and they told me what that was. And  
19     then later I looked it up and figured out what it was  
20     more in depth.

21          Q.     Okay.

22                   Do you remember who it was that had told you  
23     that you could be dead named?

24          A.     I can't remember.

1 Q. Was it your mom?

2 A. It may have been, but I can't remember.

3 Q. From what your mother and your father told us,  
4 it sounds like your mother has been the parent that has  
5 taken you to all but maybe one of your appointments to  
6 talk to people about being a transgender girl. Is that  
7 about right from your recollection?

8 ATTORNEY HARTNETT: Objection to form.

9 THE WITNESS: Yes, that is about right.

10 BY ATTORNEY CAPEHART:

11 Q. Have you had a lot of appointments to talk with  
12 doctors or other healthcare providers about being a  
13 transgender girl?

14 ATTORNEY HARTNETT: Objection to form.

15 THE WITNESS: I wouldn't say it was a  
16 lot, but I also wouldn't say it was like a little. It  
17 was a good amount of appointments.

18 BY ATTORNEY CAPEHART:

19 Q. Okay.

20 After one of those appointments you received a  
21 diagnosis of gender dysphoria. Have you been told that  
22 before?

23 A. Yes.

24 Q. Okay.

1           When was the first time you remember  
2   encountering that term gender dysphoria?

3           A.     I don't know the date, but I think my mom told  
4   me that I had it.

5           Q.     Okay.

6           Do you remember generally when that was?

7           A.     I can't remember. It may have been 2021 or  
8   2022.

9           Q.     Also, when you're remembering something, if you  
10   remember it by year, I know that is how I remember a lot  
11   of things growing up, if something happened at a  
12   particular year of school rather than a calendar year.  
13   You know, if that's a frame of remembering for you, too,  
14   that is fine also. Calendar years aren't as important.

15           Do you know what gender dysphoria is?

16           A.     A little bit about it, but I don't know the  
17   actual definition.

18           Q.     Okay.

19           Did you look it up and research it like you did  
20   dead name after you heard it?

21                    ATTORNEY HARTNETT: Objection to form.

22                    THE WITNESS: I don't think so because if  
23   I did I'd probably know more about it.

24           BY ATTORNEY CAPEHART:

1 Q. And you said --- do you remember the doctor  
2 visit where you first heard one of your doctors use that  
3 term?

4 A. I can't remember.

5 Q. Do you remember an appointment with Dr. Montano?

6 A. Yes, I remember some of the appointments with  
7 him.

8 Q. Okay.

9 There is some medical records that show that  
10 you had an appointment with Dr. Montano where he did a  
11 full assessment of you in the summer of 2019. Do you  
12 remember that by any chance?

13 ATTORNEY HARTNETT: Objection to form.

14 THE WITNESS: Not really because that was  
15 a long time ago.

16 BY ATTORNEY CAPEHART:

17 Q. Do you remember any appointment with Dr. Montano  
18 that was a longer appointment where you talked about a  
19 lot of things?

20 ATTORNEY HARTNETT: Objection to form.

21 THE WITNESS: Not really because they all  
22 felt like they went by so fast because during the things  
23 I usually had to miss a day of school, and I was always  
24 thinking about what I missed.

1     BY ATTORNEY CAPEHART:

2           Q.     I did the same thing at your age.

3                   Whenever you had those appointments with Dr.  
4     Montano or at Dr. Montano's office, I know oftentimes at  
5     those appointments it's not just the doctor, that there  
6     are sometimes other people that work there that will  
7     come in and see a patient during the appointment time.  
8     What do you recall about those appointments and who you  
9     met with?

10                   ATTORNEY HARTNETT:   Objection to form.

11                   THE WITNESS:   I can't remember, but I ---  
12     I don't remember their name, but I remember a time where  
13     someone else went in there.

14     BY ATTORNEY CAPEHART:

15           Q.     Do you remember the kinds of things that you  
16     would talk about with Dr. Montano or any of the other  
17     people at those appointments?

18           A.     Maybe --- I don't know.   I can't remember.

19           Q.     When you were at appointments at Dr. Montano's  
20     office, do you recall him or any of his staff running  
21     tests on you?

22                   ATTORNEY HARTNETT:   Objection to form.

23                   THE WITNESS:   I can't recall.

24     BY ATTORNEY CAPEHART:

1 Q. Okay.

2 At those appointments do you remember hearing  
3 people talking about how to treat gender dysphoria?

4 A. I can't remember.

5 Q. Has your mother discussed with you how your  
6 gender dysphoria is being treated now?

7 A. Maybe back whenever I --- whenever I was  
8 diagnosed with it, but I can't remember.

9 Q. Whenever there's any decisions that have to get  
10 made about your treatment for your gender dysphoria,  
11 does your mother talk with you about that and explain  
12 everything that's happening?

13 A. Yes.

14 Q. Okay.

15 When you all are having those conversations and  
16 a decision has to be made, does your mother let you make  
17 those decisions?

18 ATTORNEY HARTNETT: Objection to form.

19 THE WITNESS: Yes, I am part of the  
20 making of the decisions what happens to me.

21 BY ATTORNEY CAPEHART:

22 Q. Okay.

23 Do you and your mother ever disagree about what  
24 should be done?

2                   THE WITNESS:   Not --- not --- I don't  
3   think we have, but there is a possibility that could  
4   happen or could have happened and I don't recall.

6 | Q. Okay.

8                    ATTORNEY HARTNETT: Also, I think it  
9 might be a good time to take a quick break just given  
10 the youth and amount of water consumption. So maybe we  
11 can take a five to ten-minute bathroom break when it's  
12 good for you, Curtis.

15                                ATTORNEY HARTNETT: Can we take a  
16 ten-minute break? Yeah, let's just take a ten-minute  
17 break so we're are not all back too early.

19                    VIDEOGRAPHER:    Going off the record.    The  
20    current time reads 11:01 a.m.

22 | ---

24 | ---

1 | ON VIDEOTAPE

2                    VIDEOGRAPHER: We are back on the record.

3    The current time reads 11:13 a.m.

4 | BY ATTORNEY CAPEHART:

5 | Q. Okay.

6 Well, during the break I was going back over  
7 some notes and just have a couple of questions that kind  
8 of relate to some things we already talked about and  
9 then I'm going to move on.

|    |       |
|----|-------|
| 10 | Okay? |
|----|-------|

11 A. That Declaration that we had looked at earlier,  
12 I recall that you had mentioned when you first looked at  
13 it you didn't recall seeing it, you didn't recall  
14 signing it, you then looked at your initial signatures  
15 and then you had read the rest of the document. After  
16 we went through all of that, did that jog your memory  
17 any. Do you remember signing it?

18           A.     I do remember signing it, but I kind of have a  
19     little bit of memory seeing it, but I do have a memory  
20     signing it.

|    |    |       |
|----|----|-------|
| 21 | Q. | Okay. |
|----|----|-------|

22 Also, when you recalled learning and hearing  
23 the term about dead name and that someone might do that  
24 to you at school, did anyone actually do that to you at

1 school?

2 A. Not that I can remember.

3 Q. Okay.

4 I think you had also said you kind of did some  
5 research. What kind of research did you do looking into  
6 that term?

7 A. Just looking what it meant, looking up what it  
8 meant.

9 Q. Did you look it up in a book or on the internet?

10 A. The internet.

11 Q. Okay.

12 Do you recall where on the internet you found  
13 it?

14 A. I think I looked it up on Google and I did  
15 another one, but I can't remember what it was. It was  
16 one of the unpopular ones.

17 Q. Okay.

18 Also, when you were --- or when we were talking  
19 about the characteristics or things that make a person  
20 more female or more male you had said that height really  
21 didn't make a difference, that that was really more  
22 genetic. Do genetics have something more to do with  
23 being a girl or a boy?

24 ATTORNEY HARTNETT: Objection to form.

1                   THE WITNESS:   I wouldn't know.

2           BY ATTORNEY CAPEHART:

3           Q.       Also, is there anything that definitively makes  
4           a person a girl or a female versus a boy or a male?

5                   ATTORNEY HARTNETT:   Objection to form.

6                   THE WITNESS:   Could you repeat the  
7           question?

8           BY ATTORNEY CAPEHART:

9           Q.       Sure.   And I will preface it with kind of what  
10          we were kind of talking about before.   You were  
11          describing how there were a lot of things that are  
12          typically --- and I don't think you used that word but  
13          I'm going to use it, more typically associated with  
14          males like tuxedos or suits, short hair, being buff,  
15          working out, that sort of thing, and other things that  
16          were more typically associated with being female,  
17          wearing dresses, longer hair, not preferring to have  
18          that maybe over muscled physique, wearing makeup, that  
19          sort of thing, and that there were even some other  
20          things you said are maybe more associated with males,  
21          but that doesn't mean that females don't do it or vice  
22          versa.   I think that's what you said.

23                   So I'm wondering is there anything in your mind  
24          that if you see a person doing that or wearing that or

1 whatever that thing might be, is there something that  
2 you, if you see it associated with a person, you think  
3 only boys do that or only girls do that?

4 ATTORNEY HARTNETT: Objection to form.

5 THE WITNESS: No, because if I see  
6 someone like that and I don't --- I don't immediately  
7 go, oh, that's a guy, oh, that's a girl. I ask them,  
8 oh, what are your pronouns, what is your gender  
9 identity. And that's --- that's the better way to  
10 figure out what they --- what they are and if they're  
11 male or female or what --- if they're nonbinary or  
12 whatever they are.

13 BY ATTORNEY CAPEHART:

14 Q. You mentioned a term nonbinary. Can you explain  
15 what nonbinary means?

16 A. It is a person that doesn't identify as a male  
17 or female and they go by they/them pronouns.

18 Q. Do you know anyone that is nonbinary?

19 A. One of my lawyers is.

20 Q. Do you know anybody at your school or your  
21 hometown that is nonbinary?

22 A. I don't think so.

23 Q. Okay.

24 ATTORNEY HARTNETT: Heather, do you want

1 a minute for a break?

2 MS. JACKSON: Just to get a sip of water.

3 ATTORNEY HARTNETT: Can you give her a  
4 mute to, the court reporter, just to let her work  
5 through that? It's happened to all of us. No worries.

6 MS. JACKSON: It went down the wrong  
7 pipe.

8 ATTORNEY CAPEHART: And again, if you  
9 need to take another break, that's fine, too. All okay  
10 on your end?

11 MS. JACKSON: We're good.

12 ATTORNEY CAPEHART: Okay.

13 BY ATTORNEY CAPEHART:

14 Q. I don't want to upset you, but I need to ask a  
15 couple of questions about some comments that, according  
16 to what we learned, your father had made in the past.

17 ATTORNEY HARTNETT: Objection to form.

18 ATTORNEY CAPEHART: That wasn't a  
19 question, but okay.

20 BY ATTORNEY CAPEHART:

21 Q. We understand that ---.

22 ATTORNEY HARTNETT: Sorry. Just to make  
23 clear my objection was that you were stating that  
24 certain statements had been made, and I'm objecting to

1 the foundation.

2 ATTORNEY CAPEHART: Okay.

3 ATTORNEY HARTNETT: Go ahead.

4 BY ATTORNEY CAPEHART:

5 Q. I've looked at some records and there are some  
6 notations and [REDACTED]

7 [REDACTED] When we were talking with  
8 your mother she had said she did not know what had  
9 happened there. Can you tell me what had happened when  
10 that occurred?

11 ATTORNEY HARTNETT: Objection to form.

12 THE WITNESS: Could you repeat the  
13 question?

14 BY ATTORNEY CAPEHART:

15 Q. Sure. We've seen in some records a notation

16 [REDACTED]

17 [REDACTED] Your mother did not  
18 know what had happened on that occasion. She recalled  
19 that when this happened, but she didn't know what had  
20 actually occurred [REDACTED]

21 Do you remember that?

22 ATTORNEY HARTNETT: Objection to form.

23 Go ahead.

24 THE WITNESS: I can't remember, but I'm

1 pretty sure it was --- I was scared of something that  
2 was --- honestly I shouldn't have been scared of. It  
3 was nowhere near me. It was probably a spider or  
4 something. But just the phrase [REDACTED]  
5 [REDACTED] it is like don't be  
6 scared of that, there's no reason to. It's just another  
7 use of don't be scared of that.

8 BY ATTORNEY CAPEHART:

9 Q. Okay.

10 We were --- we were just wondering what had  
11 happened there because, as I recall, when this was being  
12 discussed yesterday, that your mother indicated you were  
13 very upset when you had [REDACTED]

14 [REDACTED]

15 [REDACTED] Does that help you  
16 remember anything more?

17 ATTORNEY HARTNETT: Objection, form.

18 THE WITNESS: Not really.

19 BY ATTORNEY CAPEHART:

20 Q. Also, we seen a note in one of the medical  
21 records that was, again, discussed yesterday and your  
22 mother said we would need to ask you about it. [REDACTED]

[REDACTED]

ATTORNEY HARTNETT: Objection to form.

THE WITNESS: Could you restate the question?

BY ATTORNEY CAPEHART:

Q. Sure. We were looking at some records and there was some notation [REDACTED]

[REDACTED] Your mother wasn't familiar with that and said we should ask you about it. So I'm asking you if you recall ever discussing that with one of your treaters?

ATTORNEY HARTNETT: Objection to form.

THE WITNESS: I don't remember discussing that with anyone besides my mom really. But it was a long time ago, so I --- I can't remember if I did or not.

BY ATTORNEY CAPEHART:

Q. Okay.  
Do you know what that would relate to, that reference [REDACTED]

A. He probably got mad at me, like really mad in the situation, and he was probably threatening [REDACTED]

[REDACTED]

Q. Has that happened sometimes?

1 A. A long time ago. It doesn't happen anymore now.

2 Q. Did it happen on multiple occasions or just  
3 once?

4 A. It was --- well, it was a couple of times maybe  
5 in like the same three days or something like that, but  
6 after those three days it stopped.

7 Q. Did you talk with your mom about it when that  
8 happened?

9 A. Yes.

10 Q. Okay.

11 Did she tell you that she was going to talk to  
12 your father for you?

13 ATTORNEY HARTNETT: Objection. Go ahead.

14 THE WITNESS: She --- I think she did.  
15 She talked to him, and that's why he stopped doing it.

16 BY ATTORNEY CAPEHART:

17 Q. [REDACTED] ?

18 A. Could you restate it?

19 Q. Sure. Do you have appointments from time to  
20 time to [REDACTED]

21 [REDACTED] ?

22 [REDACTED] [REDACTED]

23 [REDACTED] [REDACTED]

1 Thanks.

2 ATTORNEY CAPEHART: Okay.

3 Now that we are through our building  
4 emergency, if I could ask the court reporter to go back  
5 to the last line of actual testimony. I don't recall  
6 what point during that event we broke off the record,  
7 but if you could go back and tell us where we were  
8 whenever loud noises started happening.

9 COURT REPORTER: The question, sure. Do  
10 you have any appointments from time to [REDACTED]

11 [REDACTED]  
12 [REDACTED] Answer, yes. Question, okay. Who do  
13 you meet with? And then that's when the fire drill  
14 happened.

15 ATTORNEY CAPEHART: Thank you.

16 BY ATTORNEY CAPEHART:

17 Q. B [REDACTED], let's just pick up there. Who do you  
18 meet with?

19 A. I meet with [REDACTED] His name is [REDACTED]

20 Q. Okay.

21 Do you know what office or group [REDACTED] is  
22 with?

23 ATTORNEY HARTNETT: Objection to form.

24 THE WITNESS: Could you repeat the

1 question?

2 BY ATTORNEY CAPEHART:

3 Q. Sure. Is [REDACTED] or is  
4 [REDACTED] part of a [REDACTED]?

5 A. I don't know.

6 Q. Do you know the name --- I'm sorry. I cut you  
7 off. Go ahead.

8 A. I just go to him for [REDACTED]. That's ---.

9 Q. Okay.

10 How often do you meet with [REDACTED]?

11 A. It just depends because sometimes maybe it's  
12 once a month, but it can be anytime. If we call him and  
13 we need to go, he usually has a spot open.

14 Q. Okay.

15 And just generally speaking, what kind of  
16 things do you discuss with [REDACTED]?

17 A. [REDACTED]

18 [REDACTED]

19 Q. Okay.

20 Whenever you meet with [REDACTED], do you go in  
21 alone or does your mother go in with you?

22 A. It depends. It usually starts with me and my  
23 mom in there, then she waits out in the lobby and we  
24 talk. And sometimes I go out and my mother talks to him

1 and then we get back --- we both go in the room at the  
2 end and then we say bye and then we leave.

3 Q. Okay.

4 And how do you like that process, going to talk  
5 to [REDACTED]?

6 A. I love it because I can talk about [REDACTED]

7 [REDACTED].

8 Q. Does that help you to feel better?

9 A. Uh-huh (yes).

10 Q. Do you know --- excuse me, do you know whether  
11 you have had any [REDACTED]?

12 ATTORNEY HARTNETT: Objection to form.

13 THE WITNESS: Could you rephrase that?

14 BY ATTORNEY CAPEHART:

15 Q. Yes. And let me back up and ask another  
16 question I had forgotten to ask earlier. Do you know  
17 what [REDACTED] profession is?

18 A. I don't know.

19 Q. Okay.

20 A. All I know is that he is a [REDACTED]. That's  
21 what I know.

22 Q. Okay.

23 And do you know whether [REDACTED] is a [REDACTED] of  
24 some sort or just a [REDACTED]

1                    ATTORNEY HARTNETT:    Objection to form.

2                    THE WITNESS:    I do not know.

3    BY ATTORNEY CAPEHART:

4            Q.        Okay.    Okay.

5                    Now, if you could look at Exhibit 34.    Do you  
6    have the document marked as Exhibit 34 in front of you?  
7    It says West Virginia Legislature at the top and then in  
8    the middle of the page there's a line that says House  
9    Bill 3293.

10          A.        Yes, we have that.

11          Q.        Okay.    Great.

12                    Have you ever seen this before?

13          A.        I don't think so.

14          Q.        Okay.

15                    So if you --- this is just of kind of a cover  
16    page for what was House Bill 3293 that passed the  
17    legislature and was signed the Governor last year.    This  
18    is the --- this is the bill, the law that your lawsuit  
19    is challenging.

20                    Now, if you look --- start looking at page two  
21    you'll see there is a lot of text here.    Have you seen  
22    any of this before?    You don't have to read it all, just  
23    kind of glance over it.    And if you think you may have  
24    seen parts before, you can say so, but ---.

1 A. I don't think I've seen this before.

2 Q. Okay. Okay. All right.

3 Well, I'm not going to ask you to read the  
4 whole thing right now. I'm just going to ask you about  
5 a couple of parts of it.

6 Okay?

7 A. Uh-huh (yes).

8 Q. Because there's a lot to read here.

9 ATTORNEY HARTNETT: I'll just refer to  
10 our standing objection. Thank you.

11 ATTORNEY CAPEHART: Sure. Sure.

12 BY ATTORNEY CAPEHART:

13 Q. On what's marked at the bottom of the page as  
14 page two you'll see that there are kind of a column of  
15 numbers that run down the left-hand side of the page  
16 there. The top number on page two should be a ten?

17 A. Uh-huh (yes).

18 Q. Okay.

19 And I'll just refer to those lines to direct  
20 you to a couple of spots. Okay. And just so you know,  
21 that's a standard part of what a bill looks like so that  
22 whenever they're looking at legislation people can refer  
23 to a procedure or line. That way they can follow it  
24 more easy.

1           So the lines I'm going to direct you to are 25  
2           and 26. This is a definition that is set forth in this  
3           bill and it is down in West Virginia Code. So just read  
4           that and let me know when you've read that definition in  
5           this bill.

6           A.     I've read it.

7           Q.     Okay.

8           Do you think that's a proper definition of  
9           biological sex?

10                    ATTORNEY HARTNETT: Objection to  
11           terminology. Make that a standing objection.

12                    THE WITNESS: I would not know that if I  
13           --- if that would be ---.

14           BY ATTORNEY CAPEHART:

15           Q.     Okay.

16           Have you ever heard people use language like  
17           biological sex or biological female?

18                    ATTORNEY HARTNETT: Objection to form.

19                    THE WITNESS: Yes, I've heard people use  
20           that.

21           BY ATTORNEY CAPEHART:

22           Q.     Okay.

23           Has anyone ever explained what they mean when  
24           they have used that terminology around you?

1           A.       I don't think so or I just can't remember.

2           Q.       Okay.

3                   This definition, at lines 25 and 26, does this,  
4   based on the way that you have heard people use the term  
5   in the past, is this about what you think they meant?

6                   ATTORNEY HARTNETT:   Objection to form.

7                   THE WITNESS:   Yes.

8   BY ATTORNEY CAPEHART:

9           Q.       Okay.

10                   So now that you've read that in this bill  
11   that's what that term means, look up at lines 21 and 22  
12   and let me know when you've read those two lines.

13           A.       Okay.

14           Q.       Do you agree with that statement at lines 21 and  
15   22?

16                   ATTORNEY HARTNETT:   Objection to form.

17                   THE WITNESS:   I don't because I think if  
18   someone wants to play on the girls team, like me, they  
19   should be able to even though they are --- they're not  
20   following that requirement.

21   BY ATTORNEY CAPEHART:

22           Q.       Okay.

23                   Before I move on to ask some questions about  
24   cheerleading and track, I just want to talk about a

1 couple of other words that we were just touching on.  
2 But I just want to make sure that we understand each  
3 other or at least you understand me. You have heard  
4 people use the term biological female or the term  
5 biological male before.

6 Is that correct?

7 A. Yes.

8 Q. Okay.

9 And just so we're clear, if I use the term  
10 biological female or biological girl, I'm describing  
11 people who were determined to be female at the time of  
12 birth. Okay? I'm not looking at the statute. I'm just  
13 saying like if I use that term, that's what I'm talking  
14 about. Just so that if I use a word and you're not sure  
15 what I mean, I'm trying to explain in advance so there's  
16 no confusion. Does that make sense?

17 A. Yes.

18 Q. Okay.

19 And also, if I say biological male or  
20 biological boy I mean someone who was determined to be  
21 male at the time of birth.

22 A. Yes.

23 Q. So if I use that --- if I use that kind of  
24 terminology that is what I'm talking about, people who

1 were determined to be that at the time of birth. Okay?

2 When did you first get interested in sports?

3 A. I've always liked running. And I think  
4 running's a sport, so since I could walk and run.

5 Q. What kind of sports, in addition to running,  
6 have you been interested in?

7 A. Cheering was one. I was a little bit interested  
8 in volleyball, but not anymore.

9 Q. Why not?

10 A. I just never --- I just didn't --- I just lost  
11 liking of it.

12 Q. Whenever I say interested in --- let me  
13 rephrase. Whenever you say that you are interested in  
14 running, you were interested in cheer and been part of a  
15 team and for a short time you are interested in  
16 volleyball but aren't really interested anymore, do you  
17 mean interested in participating and playing those  
18 sports?

19 A. Yes.

20 Q. Okay.

21 Are there other sports that you have been  
22 interested in from the perspective of being a viewer but  
23 maybe not a participant?

24 A. Could you repeat the question?

1 Q. Sure. Besides the three that you just talked  
2 about, running, cheer, volleyball, are there other  
3 sports that you have an interest in as a viewer, as a  
4 person that's in the stand watching it, or watching it  
5 on television, but you don't have an interest in playing  
6 or taking part?

7 A. I like watching football.

8 Q. Okay.

9 Anything else?

10 A. That's about it.

11 Q. Does your mom watch football?

12 A. Yeah. We like the same team.

13 Q. What team?

14 A. The Cleveland Browns.

15 Q. Do you like any other football teams?

16 A. Not really, no.

17 Q. Do you just watch professional football or do  
18 you watch college, too?

19 A. Just professional.

20 Q. Now, have your parents encouraged you to be  
21 involved in sports?

22 ATTORNEY HARTNETT: Objection to form.

23 THE WITNESS: I'd say so that they

24 encouraged me.

1     BY ATTORNEY CAPEHART:

2           Q.     Okay.

3                   Now that you've been on a couple of different  
4     kind of teams, girls cross-country and also cheer when  
5     you were younger, do you enjoy getting to compete as  
6     part of a team?

7           A.     Yes, I do.

8           Q.     If you were in a sport where you weren't on a  
9     team, that you were just an individual on a team, would  
10    you enjoy that also?

11          A.     No, because that's not --- that's not on ---  
12    you're not on a team, you're not doing teamwork, that's  
13    just by yourself.

14          Q.     So is the bigger appeal to you in sports being  
15    part of a team, being part of a group, working towards a  
16    common goal?

17                   ATTORNEY HARTNETT:   Objection to form.

18                   THE WITNESS:    Could you repeat the  
19    question?

20     BY ATTORNEY CAPEHART:

21           Q.     Sure. You said you wouldn't really like being  
22    in an individual sport, maybe something like, I don't  
23    know, figure skating maybe, because you wouldn't be part  
24    of a team, you would be --- that you like being part of

1 a team?

2 A. Yes.

3 Q. So is that what draws you to some of the sports  
4 that you are interested in, the team aspect?

5 A. Yeah, the team aspect and I can make new  
6 friends.

7 Q. Do you consider yourself competitive whenever  
8 you're playing sports or when you're playing games with  
9 your friends?

10 ATTORNEY HARTNETT: Objection to form.

11 THE WITNESS: I want to call myself  
12 competitive. I'm just a person that likes playing  
13 games. I'm not like, oh, I got to win. I just like  
14 playing them, doing sports.

15 BY ATTORNEY CAPEHART:

16 Q. Okay.

17 Do you have some friends that are like that?

18 A. Yeah, I have a couple of friends.

19 Q. I think we all have a couple of friends that are  
20 like that.

21 So in those sports that you're interested in,  
22 including football, do you think rules are really  
23 important in sports?

24 ATTORNEY HARTNETT: Objection to form.

1                   THE WITNESS: Yes, I think rules are  
2 important because you wouldn't want someone having an  
3 unfair advantage, like cheating.

4           BY ATTORNEY CAPEHART:

5           Q.       Right.

6           A.       And like ---.

7           Q.       Sorry. Go ahead.

8           A.       Like in baseball, I don't know what it's called,  
9 but getting a better grip on the ball, that's cheating.  
10 That's not fair.

11          Q.       So do you think rules are a big part of or an  
12 important part of making sure that sports are fair?

13          A.       Yes.

14                   ATTORNEY HARTNETT: Objection to form.  
15 Sorry, B[REDACTED]. Just make sure you give me a chance to  
16 object, but you should then give your answer. So let's  
17 try that one again.

18                   ATTORNEY CAPEHART: Court Reporter, can  
19 you repeat the last question?

20                   THE WITNESS: Could you repeat the last  
21 question?

22                   COURT REPORTER: Question, so do you  
23 think rules are a big part of or an important part of  
24 making sure that sports are fair?

1                   ATTORNEY HARTNETT:   Objection to form.

2                   THE WITNESS:   I think they are a big part  
3 of making sports fair.

4   BY ATTORNEY CAPEHART:

5       Q.       What does it mean for sports, for competition to  
6 be fair?

7                   ATTORNEY HARTNETT:   Objection to form.

8                   THE WITNESS:   Well, sometimes it can mean  
9 losing --- maybe winning unfair and winning things  
10 because if people are cheating then they could get --- I  
11 don't know if there's a cash prize.   So if they cheat,  
12 they're going to get that.   That's not fair because they  
13 get something out of cheating.

14   BY ATTORNEY CAPEHART:

15       Q.       So it sounds like that you're saying that if  
16 somebody breaks a rule like the one that you were  
17 talking about in baseball, and by breaking that rule  
18 that helps them to win or beat someone else, that that  
19 wouldn't be fair.   Is that what you're ---?

20                   ATTORNEY HARTNETT:   Objection.

21                   THE WITNESS:   Yes.

22   BY ATTORNEY CAPEHART:

23       Q.       I'm sorry.   I think I lost part of your answer  
24 there.

1 A. Yes, that's what I'm saying.

2 Q. Who do you think should make up the rules for  
3 sports?

4 ATTORNEY HARTNETT: Objection to form.

5 THE WITNESS: I don't know.

6 BY ATTORNEY CAPEHART:

7 Q. I'm going to ask you a couple of questions about  
8 your time on cheerleading. How many years were you on  
9 the cheer team?

10 A. I was on the cheer team for two years.

11 Q. Okay.

12 And if I recall from what your mother had told  
13 us, it was part of the Bridgeport Youth --- is it  
14 Bridgeport Youth Football League? Is that what it was?

15 MS. JACKSON: Yes.

16 COURT REPORTER: I'm sorry. Ms. Jackson,  
17 did you say yes or was it the witness. I'm sorry.

18 MS. JACKSON: I said yes.

19 BY ATTORNEY CAPEHART:

20 Q. My understanding is that that's not affiliated  
21 with the schools in any way, that's an independent, what  
22 a lot of people would maybe call midget football league  
23 and that that league has cheerleading teams also.

24 Is that right?

1                    ATTORNEY HARTNETT:    Objection to form.

2                    THE WITNESS:    Yes.    Sorry.

3    BY ATTORNEY CAPEHART:

4            Q.        Okay.

5                    I just want to make sure I understood that.  
6    That's how things were when my daughter did midget cheer  
7    --- midget league cheer, also.

8                    What team were you on like B, C D?    Do you  
9    recall?

10                   ATTORNEY HARTNETT:    Objection to form.

11                   THE WITNESS:    I was on Bridgeport Pee Wee  
12    Red.

13    BY ATTORNEY CAPEHART:

14            Q.        Okay.

15                    And were the members of that team all within  
16    --- all the same age or within a year of each other?

17            A.        They were within a year of each other.

18            Q.        So was that third and fourth or fourth and  
19    fifth?

20            A.        I think it was fourth and fifth.

21            Q.        Did you enjoy being on the cheerleading team?

22            A.        Yeah, it was really fun.

23            Q.        Did you like cheering at sidelines at games more  
24    than competition cheer?

1                    ATTORNEY HARTNETT:    Objection to form.

2                    THE WITNESS:    I did like cheering on  
3    sidelines better because I had stage fright and I feel  
4    whenever I was cheering on the sidelines most of the  
5    people were paying attention to the game, so I didn't  
6    have as much stage fright.    But at competition, that was  
7    the main thing that everyone was focusing on.

8    BY ATTORNEY CAPEHART:

9            Q.        When you would be part of the team and working  
10    on your competition cheer, you all did stunts.

11                    Is that correct?

12            A.        Yes, that is correct.

13            Q.        Did you get to be a flyer or were you a base?

14            A.        I was a base.

15            Q.        Did you enjoy that more than going up in the  
16    air?

17            A.        Definitely, because I have a fear of heights.

18            Q.        Understandable.    So now that you're in Middle  
19    School you were on the cross-country track team this  
20    fall and you're also interested in running track.

21                    Is that correct?

22            A.        Yes.

23            Q.        Okay.

24                    I know I've seen in some reports and maybe in

1 your Declaration, too, you mentioned that there were  
2 other people in your family that had run. Is that the  
3 basis for your interest in being on cross-country and  
4 also doing track this spring?

5 A. Yes.

6 Q. Bridgeport Middle doesn't have coed teams, does  
7 it?

8 ATTORNEY HARTNETT: Objection to form.

9 THE WITNESS: Could you repeat the  
10 question?

11 BY ATTORNEY CAPEHART:

12 Q. Sure. Do you know what a coed team is? Have  
13 you heard that term before?

14 A. No.

15 Q. Okay.

16 I realize I'm probably dating myself a little  
17 bit there. That term is not really used all that  
18 frequently maybe nowadays, but that just essentially  
19 means that coed would be, you know, boys and girls all  
20 on the same team together. And I guess you don't. You  
21 just have a boys team and a girl teams.

22 Right?

23 A. Yes.

24 ATTORNEY HARTNETT: Objection to form.

1                   THE WITNESS:   Sorry.

2   BY ATTORNEY CAPEHART:

3           Q.       Now, in this --- for spring track you're going  
4   to try out for the girls team.

5                   Correct?

6           A.       Yes.

7           Q.       Now, that tryout and also the one for  
8   cross-country track, are those competitive tryouts where  
9   everybody has to run and be timed?

10                   ATTORNEY HARTNETT:   Objection to form.

11                   THE WITNESS:   Kind of because when we did  
12   cross-country, all of us made it.   But I was told that  
13   the year before, when I was in 5th grade, that they had  
14   to cut people because there was too many.   So I think  
15   that they only cut people if there's not --- if there is  
16   too many.

17   BY ATTORNEY CAPEHART:

18           Q.       Do you know how many there were on cross-country  
19   this fall?

20           A.       I don't know.

21           Q.       Okay.

22                   If there is some upper limit, though, your team  
23   didn't reach that limit in terms of participants?

24           A.       I think it may have been exactly the limit or

1 less, but I don't know.

2 Q. You don't remember anyone that tried out not  
3 making the team, though?

4 A. Nope. Everyone made it if they didn't quit.

5 Q. Okay.

6 Do you remember how many meets or events you  
7 went to this past fall?

8 A. I don't know for a fact, but it was around seven  
9 to eight.

10 Q. And were all of those competitive team events  
11 where they were tracking everyone's times with a team  
12 placing at the end?

13 ATTORNEY HARTNETT: Objection to form.

14 THE WITNESS: Yes, there was.

15 BY ATTORNEY CAPEHART:

16 Q. Okay.

17 How did you all do this fall?

18 A. We did very good.

19 Q. Great. Did you place at most of the events that  
20 the team went to?

21 ATTORNEY HARTNETT: Objection to form.

22 BY ATTORNEY CAPEHART:

23 Q. And by team I mean did the team place at the  
24 event that your team participated in?

1           A.       Most of the time, yes. Some of them weren't,  
2 but we always got close.

3           Q.       Did your team get first place at any of the  
4 events?

5           A.       Yes.

6           Q.       How did that feel to be part of a team that got  
7 first place at one of these events?

8           A.       It felt awesome. It felt great.

9           Q.       Okay.

10                   So just because I don't know a tremendous  
11 amount about cross-country or track and field, for  
12 cross-country do you understand how the scoring works or  
13 how the timing ends up with a team being first place or  
14 second place or last place?

15           A.       I do not know.

16           Q.       But you would like to win, right? You would  
17 like your team to win.

18                   Right?

19           A.       Yes.

20           Q.       What track sports do you want to run in this  
21 spring, track events I should say?

22           A.       I'm thinking about doing long distance.

23           Q.       And by long distance what does that mean in  
24 terms of the actual distance?

1           A.       There is a mile, two miles, and I think there  
2       may be a three-mile one.

3           Q.       So are you training to build up your stamina to  
4       those right now?

5           A.       Not currently just because it is really cold  
6       out.

7           Q.       That's fair. Just like I was asking you to help  
8       me understand a little bit about how cross-country does  
9       its scoring and placing, I think I know a little bit  
10      more about track and field. In events like the distance  
11      runs, the one, two or even --- one mile, two mile or  
12      even longer distances, there are individual places in  
13      each of those events.

14                   Correct?

15           A.       Uh-huh (yes).

16           Q.       So do the first, second, third place finishers  
17      get metals in those?

18                   ATTORNEY HARTNETT: Objection to form.

19                   THE WITNESS: I'm not sure because this  
20      would be my first year doing track.

21           BY ATTORNEY CAPEHART:

22           Q.       And do you know whether the outcome of those  
23      individual races are then factored into some overall  
24      team standing?

1           A.       I do not know.

2           Q.       Okay.

3                   Now, at all of these events that you have  
4 participated in this past fall with the girls track team  
5 and then the ones that you would like to be part of this  
6 spring for track and field, those are just girls teams  
7 against girls teams.

8                   Is that correct?

9                   ATTORNEY HARTNETT:   Objection to form.

10                  THE WITNESS:   I do not know because,  
11 again, this is my first year.

12           BY ATTORNEY CAPEHART:

13           Q.       Okay.

14                   Now, at the cross-country events you went to  
15 this past fall, when your team got first place, that was  
16 just competing against a girls team.

17                   Correct?

18           A.       Yes.

19           Q.       Okay.

20                   At those same events or meets are there also  
21 boys teams present?

22           A.       Yes.

23           Q.       Okay.

24                   But your team only competed against the girls

1 teams.

2 Correct?

3 A. Yes.

4 Q. Would you have liked for your teams to have  
5 competed against boys teams and girls teams?

6 A. At a couple of meets they did. But when they  
7 do, they only tallied the girls points and the guys  
8 teams differently and then they did the teams' totals.

9 Q. Okay.

10 Did anyone explain to you why they did that  
11 that way?

12 A. I don't know.

13 Q. Okay.

14 Do you think that they may have done those  
15 tallies differently because someone thought that boys  
16 could run faster than girls?

17 ATTORNEY HARTNETT: Objection to form.

18 THE WITNESS: I don't know. I don't know  
19 that.

20 BY ATTORNEY CAPEHART:

21 Q. Okay.

22 A. But whenever we started the --- a different ---  
23 like the guys would go five minutes before and then five  
24 minutes later the girls would go, so it was easier to

1 tally up all the points.

2 Q. Okay.

3 Do you think that the boys can run faster than  
4 the girls?

5 ATTORNEY HARTNETT: Objection to form.

6 THE WITNESS: I do not believe so because  
7 I also think that is a genetic thing, if you are fast or  
8 not.

9 BY ATTORNEY CAPEHART:

10 Q. Okay.

11 From what I remember reading somewhere you're  
12 pretty good with math.

13 Is that fair to say?

14 A. Yes.

15 ATTORNEY HARTNETT: Objection to form.

16 THE WITNESS: Sorry.

17 ATTORNEY HARTNETT: That is okay.

18 BY ATTORNEY CAPEHART:

19 Q. Do you know what statistics are?

20 A. I am familiar with the word, but I don't know  
21 what it means.

22 Q. Okay.

23 Would you and your teammates sometimes compare  
24 times after meets?

1 A. Sometimes.

2 Q. Okay.

3 And at the cross-country events, was the course  
4 that you would run a different length every time?

5 A. It was always around 2 miles to 2.3, so --- so  
6 not really.

7 Q. Okay.

8 I was just curious because I have a number of  
9 friends that are athletes and they really seem to enjoy  
10 talking about statistics, you know, how fast they run or  
11 in baseball a batting average or in football a  
12 quarterback's completion percentage or something, that  
13 those are, it seems for folks in and around sports, ways  
14 that you can try to evaluate or to get a sense of  
15 something about a person or group of people. Have you  
16 heard and seen statistics talked about when you watch  
17 those football broadcasts with your mom?

18 ATTORNEY HARTNETT: Objection to the  
19 narrative and to the question form.

20 THE WITNESS: Could you repeat the  
21 question?

22 ATTORNEY CAPEHART: Sure.

23 BY ATTORNEY CAPEHART:

24 Q. Have you seen or heard statistics talked about

1 on those football broadcasts that you watch with your  
2 mom?

3 A. Sometimes, but I don't really pay attention to  
4 those because I mainly like watching the game.

5 Q. That's fair.

6 MS. JACKSON: Excuse me. She needs to  
7 use the restroom.

8 ATTORNEY CAPEHART: Absolutely. Take a  
9 break.

10 MS. JACKSON: Can you get through?

11 VIDEOGRAPHER: Going off the record.

12 The current time reads 12:18 p.m.

13 OFF VIDEOTAPE

14 ---

15 (WHEREUPON, A SHORT BREAK WAS TAKEN.)

16 ---

17 ON VIDEOTAPE

18 VIDEOGRAPHER: We are back on the record.

19 The current time reads 12:25 p.m.

20 BY ATTORNEY CAPEHART:

21 Q. All right.

22 Well, let's see. When we left off I was just  
23 asking you about things about statistics. Have you ever  
24 looked up any statistical data about cross-country for

1 people your age?

2 A. No, I have not looked up the statistics for  
3 people my age.

4 Q. And I think I framed that question as for  
5 cross-country. Have you ever done that with track and  
6 field, for example, the one mile or the two mile?

7 A. No, I have not.

8 Q. If you were to see statistics that show that, on  
9 average, 11-year-old biological boys were 20 percent  
10 faster than 11-year-old biological females in the mile  
11 run, would that surprise you?

12 ATTORNEY HARTNETT: Objection to form.

13 THE WITNESS: Yes, because I think  
14 biological --- it's all about genetics, if you're fast  
15 or not.

16 BY ATTORNEY CAPEHART:

17 Q. So if you're fast or not is about genetics?

18 A. I think it is, but it could be not.

19 Q. Okay.

20 If that were true, that there is a statistic  
21 somewhere that shows that 11-year-old biological boys  
22 are 20 percent faster than biological girls of the same  
23 age, would it be fair to have the biological boys  
24 running in the mile race with biological girls?

1                   ATTORNEY HARTNETT: Objection to form.

2                   THE WITNESS: Can you say the question  
3 again?

4           BY ATTORNEY CAPEHART:

5           Q.       Sure. If there were statistics that did show  
6 that difference of 20 percent between biological boys at  
7 a certain age and biological girls at that same age,  
8 would it be fair to allow biological boys to run that  
9 same race as the biological girls?

10                  ATTORNEY HARTNETT: Objection to form.

11                  THE WITNESS: If they identify as a  
12 female, then I think, yes. But if not, then I don't  
13 think that it should.

14           BY ATTORNEY CAPEHART:

15           Q.       Okay.

16                   So you said if they identify as a female, then  
17 they should be able to run with the biological girls?

18           A.       Yes.

19           Q.       Did I hear you right?

20           A.       Yes.

21           Q.       Okay.

22                   So then could any biological boy be on the  
23 girls team so long as they identify as female?

24                  ATTORNEY HARTNETT: Objection to form.

1                   THE WITNESS: I think so. Sorry.

2                   ATTORNEY HARTNETT: Sorry.

3                   BY ATTORNEY CAPEHART:

4           Q.       And when you say they identify as female, just  
5 explain that to me so I make sure I understand it.

6           A.       When people are transgender from male to female,  
7 like me, that's what I think is identifying as a female.

8           Q.       Okay.

9                   Is it enough for someone in your mind to  
10 identify as female for them to just say that they  
11 believe they're female or do they need to do something  
12 more than that?

13                   ATTORNEY HARTNETT: Objection to form.

14                   THE WITNESS: I think they need to have  
15 an appearance and there has to be a reason. Like ---  
16 well, not a reason, but they have to --- they have to  
17 not just say, oh, I identify as female, I should run.  
18 They should have already been transitioned. It can't  
19 just be out of nowhere. Like, oh, all of the sudden,  
20 now that I started, I just realize that I can do this,  
21 oh, I'm transgender. That's --- I don't think that ---  
22 I think maybe --- I don't know, a year into the  
23 transition that you should be able to.

24                   BY ATTORNEY CAPEHART:

1 Q. Okay.

2 So when you say a year into their transition  
3 do, you mean like just their social transition, the way  
4 they are presenting themselves?

5 A. Yes.

6 Q. Okay.

7 For that kind of hypothetical person that you  
8 were describing there, if they had gone a year into  
9 their transition, as I think you've described it, then  
10 in your mind that's what they need to do so that they  
11 could be on the girls team?

12 ATTORNEY HARTNETT: Objection to form.

13 THE WITNESS: Yes.

14 BY ATTORNEY CAPEHART:

15 Q. Okay.

16 Do they --- do they need to be doing something  
17 else like taking puberty blockers or something of that  
18 nature?

19 ATTORNEY HARTNETT: Objection to form.

20 THE WITNESS: I think they should be on  
21 puberty blockers to do it because if they have hit  
22 puberty, then that's a different story because they hit  
23 puberty and that's not changeable.

24 BY ATTORNEY CAPEHART:

1 Q. Okay.

2 When they hit puberty and that's not  
3 changeable, explain that to me a little if you can.

4 ATTORNEY HARTNETT: Objection to form.  
5 Go ahead.

6 THE WITNESS: If they've hit puberty,  
7 then they are maturing and they are going to get a  
8 deeper voice. A girl would get a bigger Adam's apple  
9 and then that's really it. And I think that gives them  
10 more of an unfair advantage. I could be wrong, but I  
11 think after they hit puberty, I don't know, I think  
12 something happens, but I'm not sure.

13 BY ATTORNEY CAPEHART:

14 Q. Do you think there is something else that  
15 happens besides the depth of voice and the Adam's apple?

16 A. I think they may get faster because their  
17 testosterone levels will rise.

18 Q. Okay.

19 And do you think that's not an issue for  
20 someone that hasn't gone through puberty yet?

21 ATTORNEY HARTNETT: Objection to form.

22 THE WITNESS: Sorry. Yes, because their  
23 testosterone levels, if they are on puberty blockers,  
24 won't be as high and they won't be --- it won't be high

1 and it won't give them any advantage.

2 BY ATTORNEY CAPEHART:

3 Q. If there was someone in that situation that  
4 wasn't on puberty blockers, do you think that would be  
5 unfair for that person to be on a girls team?

6 ATTORNEY HARTNETT: Objection to form.

7 THE WITNESS: As long as they haven't hit  
8 puberty, then I think it's fine. But if they have hit  
9 puberty, then I think they should maybe go on hormone  
10 blockers and then maybe then, because I --- I could be  
11 wrong, but I think their testosterone levels will drop  
12 if they go on hormone blockers after puberty.

13 BY ATTORNEY CAPEHART:

14 Q. Okay.

15 Do you think that they also need to be getting  
16 treated for gender dysphoria?

17 ATTORNEY HARTNETT: Objection to form.

18 THE WITNESS: I don't think that matters  
19 because if they don't have gender dysphoria, why should  
20 they be getting treated for it.

21 BY ATTORNEY CAPEHART:

22 Q. So if there was a person that went through that,  
23 a biological boy who had done all the things that you  
24 say needed to be done and they could be on the girls

1 team, but at some point in the future that person  
2 decided they wanted to, I don't know, revert back to  
3 being on the boys team for sports, should that be  
4 allowed?

5 ATTORNEY HARTNETT: Objection to form.

6 THE WITNESS: If they want to, then yes,  
7 go ahead, because they will --- if they are --- if they  
8 still have the requirements to be on the girls team,  
9 then they will be on puberty blockers and then the  
10 testosterone levels will still be low. So --- but if  
11 they get off, then they'll just raise back, and they  
12 could still run on the boys team, but they can't run on  
13 the girls.

14 BY ATTORNEY CAPEHART:

15 Q. Okay.

16 You've been talking about puberty blockers like  
17 a person that knows about them, which I think you do.  
18 What do you know about puberty blockers?

19 ATTORNEY HARTNETT: Objection to the  
20 preamble and to the form.

21 THE WITNESS: Okay.

22 Could you repeat the question?

23 BY ATTORNEY CAPEHART:

24 Q. Sure. What do you know about puberty blockers?

1           A.       They stop hormone levels from rising and they  
2     have --- they have a chance for --- they have side  
3     effects, but if you are transgender they can help ---  
4     they can help with the process of a transition because  
5     it will stop you from hitting puberty and you won't grow  
6     an Adam's apple, you won't grow facial hair and your  
7     voice won't get deeper.

8           Q.       Okay.

9                    You're receiving puberty blocking medications  
10    now.

11                   Is that correct?

12          A.       Yes, that's correct.

13          Q.       Okay.

14                   Did you want to start that medication to delay  
15    or prevent puberty?

16          A.       Yes, that is correct.

17          Q.       Okay.

18                   We had talked some about your doctors'  
19    appointments before. You had some appointments before  
20    receiving the puberty blockers.

21                   Correct?

22          A.       Yes, that is correct.

23          Q.       Okay.

24                   Do you remember an appointment where you talked

1 with a doctor about getting puberty blocking meds?

2 A. Yes.

16 [REDACTED] [REDACTED]

17 [REDACTED] [REDACTED]

18 ATTORNEY CAPEHART: I think this is a

19 good spot to take a break. The next part that I'm going

20 to get into I think is going to take a little more time

21 than we have. I see it's 12:41, so if it's all right

22 with everyone, I suggest we go off the record and talk

23 about when we come back.

24 ATTORNEY HARTNETT: That's fine with us.

1                    VIDEOGRAPHER:    Going off the record.    The  
2    current time reads 12:41 p.m.

3    OFF VIDEOTAPE

4                    - - -

5    (WHEREUPON, A SHORT BREAK WAS TAKEN.)

6                    - - -

7    ON VIDEOTAPE

8                    VIDEOGRAPHER:    We are back on the record.

9    The current time reads 1:19 p.m.

10   BY ATTORNEY CAPEHART:

11        Q.        Okay.

12                Well, before I move onto something else, I just  
13    wanted to follow up on something that you had mentioned  
14    before the break, B[REDACTED].    And I hope you had a good  
15    break.    You had mentioned testosterone before.    Where  
16    had you learned about what testosterone is?

17        A.        The doctors.

18        Q.        Okay.

19                Like Dr. Montano, those people?

20        A.        Yes.

21        [REDACTED]

22        [REDACTED]

23                [REDACTED]                [REDACTED]

24                [REDACTED].                [REDACTED]

| Age Group | Number of People Vaccinated |
|-----------|-----------------------------|
| 1         | 20                          |
| 2         | 45                          |
| 3         | 10, 15, 85                  |
| 4         | 95                          |
| 5         | 85, 10                      |
| 6         | 65                          |
| 7         | 10, 50                      |
| 8         | 40, 55                      |
| 9         | 15                          |

BY ATTORNEY CAPEHART:

Q. Okay.

You had mentioned before in relation to a biological boy running on a girls team and that they would need to, I think you had said --- I'm not trying to put words in your mouth, but I think you had said something along the lines that they would need to be taking some kind of medication relative to the testosterone if they were either going through puberty or had gone through puberty.

ATTORNEY HARTNETT: Objection to form.

BY ATTORNEY CAPEHART:

Q. Do you remember that when we were talking earlier?

A. Yes.

1 Q. Okay.

2 Why did you mention testosterone relative to  
3 how a biological boy might be performing in running?

4 A. Because I think that --- that after --- whenever  
5 you half an increase of testosterone, that --- I think  
6 that increases your athletic ability, but I could be  
7 wrong there.

8 Q. Okay. Fair enough.

9 Do you know that because of what the doctors  
10 had talked to you about?

11 ATTORNEY HARTNETT: Objection to form.

12 THE WITNESS: I am pretty sure, yeah.

13 BY ATTORNEY CAPEHART:

14 Q. Okay.

15 Have you had done any independent research  
16 yourself to learn more about testosterone?

17 A. I don't recall. I may have, but I don't  
18 remember.

19 Q. Okay.

20 Do you recall reading the Complaint in this  
21 lawsuit?

22 A. I do not.

23 Q. Okay.

24 If you could look at Exhibit 32 for just a

1 minute. Okay. It says Exhibit WV-32 at the bottom  
2 right corner and has a lot of other words, but in  
3 boldface in the upper right center are the words First  
4 Amended Complaint. Okay. This is as it says is the  
5 First Amended Complaint, means there was an original  
6 Complaint that had been amended once in its first  
7 Amended Complaint. Do you recall ever having seen this  
8 before now that you are getting a chance to look at it?

9 A. Yes, I think so.

10 Q. Okay.

11 Do you remember reading over it yourself?

12 A. I don't think so.

13 Q. Okay.

14 Do you remember anyone discussing with you what  
15 was in the Complaint?

16 A. I think I discussed it with my mom.

17 Q. But you don't know everything that's in here  
18 because you haven't read it yourself.

19 Is that correct?

20 A. I don't.

21 ATTORNEY HARTNETT: Objection.

22 THE WITNESS: I don't remember if I have  
23 or haven't.

24 BY ATTORNEY CAPEHART:

1 Q. Okay.

2 You don't remember if you have or have not.

3 Okay.

4 Now, I think we had talked before about the  
5 fact that your lawsuit is challenging the HB 3293. You  
6 may have remembered we had looked at that very briefly  
7 and I had directed you to a couple of parts of it and  
8 you had said you hadn't read the whole thing. And I  
9 will also represent to you that it also had some other  
10 definitions in there for biological male and female. Do  
11 you believe there is a difference between biological  
12 males and biological females?

13 ATTORNEY HARTNETT: Objection to form and  
14 the preamble.

15 THE WITNESS: I don't know.

16 BY ATTORNEY CAPEHART:

17 Q. Okay.

18 You don't know if there is any difference  
19 between a biological boy and a biological girl?

20 ATTORNEY HARTNETT: Objection to form.

21 THE WITNESS: I don't know. I don't know  
22 if there is a difference.

23 BY ATTORNEY CAPEHART:

24 Q. Okay.

1 Do you think there are physical differences  
2 between a biological boy and a biological girl?

3 ATTORNEY HARTNETT: Objection.

4 THE WITNESS: Could you repeat the  
5 question?

6 BY ATTORNEY CAPEHART:

7 Q. Sure. Do you think there are physical  
8 differences between a biological boy and a biological  
9 girl?

10 A. Yes.

11 Q. Okay.

12 ATTORNEY HARTNETT: And I just have a  
13 standing objection in terminology, but I will not  
14 continue to make that objection.

15 ATTORNEY CAPEHART: Noted. Thank you.

16 BY ATTORNEY CAPEHART:

17 Q. What do you understand the physical differences  
18 are between a biological boy and a biological girl?

19 A. A biological boy has a penis and a biological  
20 girl has a vagina.

21 Q. Okay.

22 Do you believe there are any other physical  
23 differences between a biological boy and a biological  
24 girl?

1           A.       There --- yes, but that part could be with  
2 either one, because long hair could also be with a guy  
3 or like that's --- like if a girl, a biological girl,  
4 would probably have long hair, but a guy could also have  
5 long hair. And then a guy could have --- a guy could  
6 have short hair and a girl could also have that. And a  
7 biological guy would probably want to look muscular, but  
8 a biological girl would probably --- could probably want  
9 to look like that.

10 Q. So apart from a superficial difference like hair  
11 length or how much someone works out and also the  
12 difference in genitalia, are you aware of any other  
13 differences?

14 ATTORNEY HARTNETT: Objection to form.

15                                   THE WITNESS: Not that I can think of  
16 right now.

17 | BY ATTORNEY CAPEHART:

|    |    |       |       |
|----|----|-------|-------|
| 18 | Q. | Okay. | Okay. |
|----|----|-------|-------|

19 Can you all look at Exhibit 26? Do you have  
20 Exhibit 26?

|    |         |
|----|---------|
| 21 | A. Yes. |
|----|---------|

22 Q. This looks like it is an article from the  
23 Gazette Mail. If you flip to the second page of the  
24 exhibit, the fourth block of text up from the bottom it

1 BY ATTORNEY CAPEHART:

2 Q. Sure. In the quote it says trans kids deserve  
3 better. I'm just curious, is trans kids a normal term  
4 that is used and is acceptable to use?

5 ATTORNEY HARTNETT: Objection, form.

6 THE WITNESS: Could you repeat the  
7 question one more time?

8 BY ATTORNEY CAPEHART:

9 Q. Sure. And I'm not trying to trick you. I'm  
10 just trying to understand because you used the term  
11 trans kids, and I think I've seen it in maybe another  
12 article, too, and I just thought I encountered it  
13 another experience. So I'm asking the question is that  
14 an acceptable term to use to refer to transgender boys  
15 or transgender girls?

16 ATTORNEY HARTNETT: Same objection.

17 THE WITNESS: Yes.

18 BY ATTORNEY CAPEHART:

19 Q. Is it okay to call you a trans kid?

20 A. If you don't know that I don't know my name and  
21 you know I'm trans, then yes, that's acceptable. But if  
22 you know my name and you're purposely calling me that,  
23 then not really, but it's still fine.

24 Q. Yeah. And I don't intend to. I was just

1 curious ---

2 A. Yes.

3 Q. --- from the nuances and the acceptable use of  
4 the term. So thank you. Excuse me. If you can look  
5 at Exhibit 27.

6 ATTORNEY HARTNETT: And just for the  
7 record and the witness's knowledge, B [REDACTED], you should  
8 feel free to review the full exhibit before you answer  
9 questions if you want to.

10 THE WITNESS: Okay.

11 MS. JACKSON: So that's the first page.

12 ATTORNEY CAPEHART: You all just let me  
13 know whenever you're ready to proceed.

14 Okay?

15 ATTORNEY HARTNETT: I'm sorry. I think  
16 B [REDACTED] is ready.

17 THE WITNESS: Yeah.

18 ATTORNEY CAPEHART: Okay. Thank you.

19 BY ATTORNEY CAPEHART:

20 Q. I'm going to try to make sure I direct you to  
21 the proper page. It looks like it's the last page of  
22 the text, which looks like it's about the fourth to the  
23 last page of the exhibit. At the top of the page the  
24 test begins with the word when Justice. Right there.

1 Have you all found that on your hard copy?

2 A. Yes.

3 Q. Okay. All right.

4 So let's see, this first block here that reads  
5 when Justice signed the Bill banning transgender girls  
6 from sports teams, B [REDACTED] was devastated she said. Then  
7 another quote, I felt horrible because I knew then I  
8 couldn't run with the other girls. Do you remember  
9 talking to the author of this piece before it came out?

10 A. Yes.

11 Q. Okay.

12 And does that quote seem right? Do you  
13 remember saying that?

14 A. Yes.

15 Q. Okay.

16 Now, I recall earlier you mentioned that you  
17 hadn't read the bill, the new law yourself, but here you  
18 said you couldn't run with the other girls after the  
19 Governor signed it. How did you know that since you  
20 hadn't read through the bill?

21 A. I was told by my mom.

22 Q. Okay.

23 Do you remember when you and your mother had  
24 that discussion?

1 A. I don't remember.

2 Q. All right.

3 Were you aware of this bill before your mom  
4 told you that it was now a law?

5 A. I was aware of it, but I didn't know that it was  
6 going to get signed.

7 Q. Okay.

8 What did you know about it before your mom told  
9 you it was signed and was now a law?

10 A. That I wouldn't be able to run with the girls  
11 once it got signed.

12 Q. Okay. All right.

13 If you move down to and look at the fourth  
14 block of text there on the page it says as hard as it is  
15 to be a trans kid and a mother of a trans kid, suddenly  
16 thrust into the public eye in a conservative state,  
17 B [REDACTED] and Jackson agree that the potential payoff makes  
18 it all worth it. You don't have a problem with the  
19 author using trans kid there, do you?

20 A. No.

21 Q. Okay.

22 How hard has it been in Bridgeport and Lost  
23 Creek to be a trans kid, as the author says?

24 ATTORNEY HARTNETT: Objection to form.

1                   THE WITNESS:   Could you --- could you  
2   repeat the question?

3 | BY ATTORNEY CAPEHART:

4 Q. Sure. This little bit of language here is  
5 talking about it being hard to be a trans kid and the  
6 mother of a trans kid, so my question is how hard has  
7 that been on you in Bridgeport and Lost Creek?

8 ATTORNEY HARTNETT: Objection to form.

9                   THE WITNESS: Well, a lot of the people  
10 don't support it and don't agree with it, so that's what  
11 makes it hard.

12 | BY ATTORNEY CAPEHART:

|    |    |       |
|----|----|-------|
| 13 | 0. | Okay. |
|----|----|-------|

14           You had said that school had gone really well  
15 with your transition.

|    |          |
|----|----------|
| 16 | Correct? |
|----|----------|

17 | A. Uh-huh (yes).

|    |    |       |
|----|----|-------|
| 18 | Q. | Okay. |
|----|----|-------|

19           So are these people you're describing now, are  
20 these all people outside of school?

21 ATTORNEY HARTNETT: Objection to form.

22 THE WITNESS: Yes.

23 | BY ATTORNEY CAPEHART:

|    |    |       |
|----|----|-------|
| 24 | 0. | Okay. |
|----|----|-------|

1 BY ATTORNEY CAPEHART:

2 Q. Okay.

3 Would people be mean to you when your parents  
4 were around?

5 A. They wouldn't do it like directly to my face  
6 usually. They would say it to my mom or my dad and then  
7 my parents would tell me. So it wasn't usually directly  
8 to me.

9 Q. So when they would say these things, you weren't  
10 in the presence of these people when they were saying  
11 them?

12 A. Most of the time, yes.

13 Q. Oh, okay.

14 But then your mom and your dad would have  
15 people say things to them and then your mom and dad  
16 would tell you about what other people had said?

17 ATTORNEY HARTNETT: Objection to form.

18 BY ATTORNEY CAPEHART:

19 Q. Is that correct?

20 A. Yes, but sometimes they wouldn't tell me just  
21 I'm assuming to try not to make me sad.

22 Q. Have any other kids ever said the kind of things  
23 to you that your parents said adults had told them?

24 ATTORNEY HARTNETT: Objection to form.

1                   THE WITNESS:   No.

2   BY ATTORNEY CAPEHART:

3       Q.     No?  Do you and your family attend a church?

4       A.     Not anymore.

5       Q.     Okay.

6             Did you before?

7       A.     For a short period of time, yes.

8       Q.     Okay.

9             Did you ever have any issues or problems there?

10      A.     No.

11      Q.     So there weren't any adults at that church that  
12 were mean to you or that said mean things to your  
13 parents that you know of?

14      A.     At that time I was not transitioned yet, so  
15 there was no comments like that.

16      Q.     Okay.

17             Do you remember when you had said your mom had  
18 explained to you because the bill was now signed you  
19 wouldn't be able to run, did she explain what part of  
20 the new law would stop you from running?

21                   ATTORNEY HARTNETT:  Objection to form.

22                   THE WITNESS:  No, she just told me that  
23 because of this I couldn't run.

24   BY ATTORNEY CAPEHART:

1 off with a quote there and it says, quote, I just want  
2 to run and the State wants to stop me from running as  
3 part of a team at my school, end quote, said B [REDACTED], an  
4 11-year-old Middle School student. Quote, I love  
5 running and being part of the team and the State of West  
6 Virginia should explain in court why they won't let me,  
7 end quote. Do you remember saying or writing that?

8 A. I remember saying that.

9 Q. Okay.

10 Who did you say that to?

11 A. I can't remember.

12 Q. Okay.

13 But those are all your words.

14 Correct?

15 A. Uh-huh (yes).

16 Q. Okay.

17 A. Yes.

18 Q. In what ways --- strike that.

19 When you say that the State of West Virginia  
20 should explain in court why they won't let you be part  
21 of the team, are you referring to HB-3293?

22 A. Yes.

23 Q. But as you said earlier, you're not sure what  
24 part of that prevents you from running, you just know

1                   THE WITNESS:   Because I don't think there  
2   is a good enough reason for me to not be able to run.

3   BY ATTORNEY CAPEHART:

4         Q.       Okay.

5                 When you say there's not a good enough reason,  
6   has someone spoken to you or explained some reason why  
7   they think that the State wouldn't let you run?

8                   ATTORNEY HARTNETT:   Objection to form.

9                   THE WITNESS:   Could you repeat the  
10   question?

11                  ATTORNEY CAPEHART:   Court Reporter, can  
12   read that question back for us?

13                  COURT REPORTER:   When you say there is  
14   not a good enough reason, has someone --- has someone  
15   --- I'm sorry.   When you say there's not a good enough  
16   reason, has someone spoken to you or explained some  
17   reason why they think that the State wouldn't let you  
18   run?

19                  ATTORNEY HARTNETT:   Objection.

20                  THE WITNESS:   No one has explained the  
21   reason, but that's why I think there's not a good enough  
22   reason for me to not run.

23   BY ATTORNEY CAPEHART:

24         Q.       So you have not had any conversations with

1 anyone who could explain what reasons the State may have  
2 presented as to why they passed this bill?

3 ATTORNEY HARTNETT: I would just object  
4 to the extent this would entail any conversations with  
5 your lawyers, B[REDACTED], and you should not testify about  
6 those conversations. If there are conversations other  
7 than ones with your lawyer, you can testify about that.

8 THE WITNESS: What was --- can you repeat  
9 the question?

10 BY ATTORNEY CAPEHART:

11 Q. Sure. And to pick up on Kathleen's comment, I'm  
12 not trying to get you to divulge any confidential  
13 communications that you had with your lawyers, but I'm  
14 just trying to understand your comment where you said  
15 that there is not a good enough reason and that no one  
16 has explained a reason why the State passed this bill.  
17 So I'm asking you what kind of conversations have you  
18 had, if any, with anyone other than your lawyers about  
19 the reason why this bill may have been passed?

20 A. I haven't had any conversations with any of my  
21 lawyers.

22 Q. Okay.

23 Have you talked with your mom about why this  
24 law may have been passed?

1 A. I don't think I have, no.

2 Q. And you already said you have not looked at any  
3 of the State's filings or documents that it has put in  
4 before the Court in this case?

5 ATTORNEY HARTNETT: Objection, MT.

6 THE WITNESS: I don't think so.

7 BY ATTORNEY CAPEHART:

8 Q. Okay.

9 You don't recall whether you have seen those,  
10 but you don't believe so, is that what you said  
11 previously?

12 ATTORNEY HARTNETT: Objection, MT.

13 THE WITNESS: Yes.

14 BY ATTORNEY CAPEHART:

15 Q. Okay.

16 Real briefly, look back at Exhibit 31, which is  
17 the Declaration that you looked at when we started.  
18 Just let me know when you have it.

19 A. We have the Declaration.

20 Q. Okay.

21 Look at page three, if you would. Got it?

22 A. Uh-huh (yes), yes.

23 Q. Okay.

24 There at paragraph number 13 it says, I do not

1 want to run with the boys and I should not have to run  
2 with the boys. What's wrong with running with the boys?

3 A. I'm not a boy. I'm a girl. I should be able to  
4 run with the girls.

5 Q. Okay.

6 Are there any competitive concerns if you did  
7 run with the boys?

8 ATTORNEY HARTNETT: Objection. Form.

9 THE WITNESS: No. I just think I'm a  
10 girl and I shouldn't have to run with the boys. I  
11 should be able to run with the girls because I am a  
12 girl.

13 BY ATTORNEY CAPEHART:

14 Q. Okay.

15 One other --- one other quick question for you.  
16 Do you know that under the law you could run with the  
17 boys if you wanted to.

18 Right?

19 ATTORNEY HARTNETT: Objection to form.

20 THE WITNESS: That I could if I wanted  
21 to, but that's not --- I'm not running with the boys  
22 because I am a girl.

23 BY ATTORNEY CAPEHART:

24 Q. Okay.

1 I just wanted to make sure that someone had  
2 apprised you that the law does not prevent that, that  
3 new law. Fair enough. And I believe that's everything  
4 I have for you right now. Thank you very much for your  
5 patience.

6 ATTORNEY CAPEHART: And whoever the next  
7 person in line wants to take over the questioning, go  
8 right ahead.

9 ATTORNEY HARNETT: And I know we haven't  
10 gone for an hour yet, but I just wanted to check to see,  
11 B [REDACTED], do you need a bathroom break before we do more  
12 questions?

13 THE WITNESS: I'm good.

14 ATTORNEY ROGERS: I think I'm next if I'm  
15 understanding the order that was established earlier  
16 this week.

17 Is that right?

18 ATTORNEY HARTNETT: I believe Roberta  
19 went next.

20 ATTORNEY ROGERS: All right.

21 ---

22 EXAMINATION

23 ---

24 BY ATTORNEY ROGERS:

1 Q. Hi, B[REDACTED]. My name is Shannon Rogers. I am one  
2 of the attorneys that represents the West Virginia  
3 Secondary School Activities Commission, which is  
4 sometimes referred to as the WVSSAC. And so when I'm  
5 saying WVSSAC that's what I'm referring to.

6 Does that make sense?

7 A. Yes.

8 Q. Okay.

9 Had you ever had heard of the WVSSAC before?

10 A. I don't think so.

11 Q. Okay.

12 Do you know if you have ever spoken to anybody  
13 who is with the WVSSAC?

14 A. I don't know.

15 Q. You don't know? Okay.

16 Do you know if anybody --- well, strike that.

17 So you don't think you've ever communicated or  
18 you just don't remember?

19 A. I don't think I've ever communicated.

20 ATTORNEY ROGERS: Okay.

21 I don't have any other questions. Thank  
22 you, B[REDACTED].

23 ---

24 EXAMINATION

1 Q. Who was the principal after Mrs. Stutler?

2 A. Mrs. Shields.

3 Q. And did you like Mrs. Shields?

4 A. Yeah.

5 Q. Was she nice to you when you were at school?

6 A. Yes.

7 Q. Now, I know you said earlier that you came out  
8 in the fourth grade.

9 Is that right?

10 A. I came out in the summer of third grade, but in  
11 school it was in the fourth grade.

12 Q. Okay.

13 And something else I should have said to you at  
14 the beginning is that I want to use terms that you're  
15 comfortable with. And so if I don't use the right  
16 terms, you correct me.

17 Okay?

18 A. Okay.

19 Q. So when you started school in the fourth grade  
20 it is my understanding then you came to school  
21 presenting as a girl, as a female.

22 Is that correct?

23 A. Yes.

24 Q. And did you have any discussions with your

1 teachers or the principal or anyone else at Norwood  
2 about making that change?

3 A. Yes.

4 Q. Tell me about those communications that you  
5 would have had.

6 A. I think it was the day before school started we  
7 went to the school to establish where --- everything  
8 about what the teacher should be calling me, where my  
9 bathroom would be and everything like that.

10 Q. Were you part of that meeting, B [REDACTED]?

11 A. Yes.

12 Q. Do you recall who else was in that meeting?

13 A. There was Mrs. Louder, it was the principal. I  
14 don't know if it at the time it was Mrs. Stutler or Mrs.  
15 Shields and someone else. I can't remember their name.

16 Q. Was the school counselor maybe part of that  
17 meeting?

18 A. I think so.

19 Q. Was Mrs. Louder your teacher that year?

20 A. Yes.

21 Q. And was your mom also in that meeting?

22 A. Yes.

23 Q. Anyone else that you remember?

24 A. Not really, no.

1 Q. Were you happy with what came out of that  
2 meeting?

3 A. Yes.

4 Q. You were comfortable with the agreements that  
5 was reached with regard to the name that would be used  
6 and the bathroom facilities and any other accommodations  
7 that would be made for you?

8 ATTORNEY HARTNETT: Objection.

9 THE WITNESS: Yes.

10 BY ATTORNEY DENIKER:

11 Q. And then how did fourth grade go? Was it a good  
12 --- was it a good year for you?

13 A. Yeah.

14 Q. Did you feel that the teachers and the principal  
15 and the other employees of the school were supportive of  
16 you?

17 A. Yes, very.

18 Q. Good. And did you feel that they treated you  
19 kindly and fairly?

20 A. Yes.

21 Q. And it sounds like from your earlier testimony  
22 that you also had a good experience with the students in  
23 the school.

24 Is that correct?

1 A. Yes.

2 Q. Tell me about your fifth grade year at Norwood  
3 Elementary School. Did you have a good experience that  
4 year?

5 A. Yes. There was brand new teachers and my  
6 teacher was Ms. Watson. She was a very nice teacher.

7 Q. And do you feel that everyone at the school was  
8 supportive of you?

9 A. Yes.

10 Q. Did you feel that everybody treated you in a  
11 fair and kind manner?

12 A. Yes.

13 Q. And so you had a good school year in fifth grade  
14 as well?

15 A. Yes.

16 Q. Do you recall having any other meetings in  
17 fourth or fifth grade to discuss your transitioning to  
18 being --- to presenting as a girl at school?

19 A. Not that I can remember. Beginning of fourth  
20 grade was the only one I think.

21 Q. And then it's my understanding that this year  
22 you started at Bridgeport Middle School.

23 Is that right?

24 A. Yes.

1 Q. And are you in the sixth grade this year, B [REDACTED]?

2 A. Yes.

3 Q. Do you remember when you were in Norwood  
4 Elementary School having a meeting and filling out a  
5 document that was called a Gender Support Plan?

6 A. Yes, I remember that.

7 Q. And did you participate in the meeting where  
8 that plan was discussed?

9 A. Yes.

10 Q. And did you think that that was a good meeting?

11 A. Yes.

12 Q. Were you happy with the outcome of what was  
13 agreed upon at that meeting?

14 A. Yes.

15 Q. And then you had another one of those meetings  
16 with school officials before you started at the Middle  
17 School.

18 Is that right?

19 A. Yes.

20 Q. And I think that that meeting happened in May of  
21 2021, which would have been the end of your fifth grade  
22 year.

23 Is that --- does that sound right?

24 A. Yes.

1 Q. And were you a part of that meeting?

2 A. Yes.

3 Q. Do you remember who else was a part of that  
4 meeting?

5 A. We had my new principal, Mr. Mazza, the  
6 counselor there, Mrs. Shields and my mom.

7 Q. And were you comfortable with what was discussed  
8 and agreed upon at that meeting?

9 A. Yes.

10 Q. And how has sixth grade been so far?

11 A. It's been good.

12 Q. Do you like Mr. Mazza?

13 A. Yes.

14 Q. He is your principal this year.  
15 Is that right?

16 A. Yes.

17 Q. Do you feel like Mr. Mazza is supportive of you?

18 A. Yes, very.

19 Q. Good. And do you think that he treats you in a  
20 kind and fair manner?

21 A. Yes.

22 Q. How are your classes this year? Do you like  
23 them?

24 A. Yeah, I like my classes. I have really nice

1 teachers.

2 Q. I think I saw that you are a straight A student.  
3 Maybe I saw that in something that your mom wrote.

4 Is that right?

5 A. Yes.

6 Q. Congratulations. Good for you. Do you feel  
7 that your teachers are fair and supportive of you?

8 A. Yes.

9 Q. And are you comfortable with the arrangements  
10 that the school has made for you this year in terms of  
11 addressing how you want to present at school as being a  
12 girl?

13 A. Yes.

14 Q. I know that we have discussed today sports and  
15 your participation in sports, and I heard you say that  
16 you love running.

17 Is that right?

18 A. Yes.

19 Q. And I understand that you tried out for the  
20 girls cross-country team.

21 Is that correct?

22 A. Yes.

23 Q. So I want to talk to you a little bit about that  
24 process. The cross-country team, did they do some

1 training and conditioning over the summer before the  
2 year started?

3 A. Yes. There was a week of conditioning before  
4 the season started.

5 Q. And did that happen over the summer?

6 A. Yes.

7 Q. Did you participate in that conditioning?

8 A. Yes.

9 Q. And how was that experience? Was that a  
10 positive experience for you?

11 A. Yes.

12 Q. And then tryouts I think were in August for  
13 cross-country.

14 Is that right?

15 A. Yes.

16 Q. And were you permitted to try out for the girls  
17 cross-country team?

18 A. Could you ---?

19 Q. Let me rephrase that. Were you allowed to try  
20 out for the girls cross-country team?

21 ATTORNEY HARTNETT: Objection to form.

22 THE WITNESS: Yes.

23 BY ATTORNEY DENIKER:

24 Q. And was that the team you wanted to try out for?

1 A. Yes.

2 Q. And did you make the team?

3 A. Yes.

4 Q. And I think you said this year they didn't have  
5 any cuts.

6 Is that right?

7 A. Yes.

8 Q. Who were your coaches for cross-country this  
9 year?

10 A. I had Ms. Schoonmaker, Ms. --- Coach Flesher and  
11 Coach McBrayer.

12 Q. And did they coach both the girls and the boys  
13 cross-country teams?

14 A. Yes.

15 Q. How was your season?

16 A. It was good.

17 Q. Did you like cross-country?

18 A. Yes.

19 Q. Did you believe that your coaches treated your  
20 fairly and kindly this season?

21 A. Yes.

22 Q. Did you feel that they were supportive of you?

23 A. Yes.

24 Q. So you think it's fun to run up hills and

1 through water and mud, B [REDACTED]?

2 A. Yes.

3 Q. Because that's what cross-country is about,  
4 isn't it?

5 A. Yes.

6 Q. It's a hard sport I think. Do you think it's  
7 hard?

8 A. It depends if you've done it before and how much  
9 you run normally.

10 Q. Do you think you would like to do it again?

11 A. Yes.

12 Q. And I heard you talk a little bit about track.  
13 Are there other --- is track something that you're  
14 interested in doing?

15 A. Yes.

16 Q. And I heard you said you might want to be --- do  
17 the distance running in track.

18 Is that right?

19 A. Yes.

20 Q. You're a tough girl. Cross-country and distance  
21 running and track, those are the hard once, aren't they?

22 ATTORNEY HARTNETT: Objection to form.

23 THE WITNESS: It just depends if you've  
24 ran before or whatever you've done.

1 BY ATTORNEY DENIKER:

2 Q. I think that you're right. I think it depends  
3 how good of shape you're in. Are you planning to  
4 condition in the off season?

5 A. If it's not freezing, then yes.

6 Q. I understand. We were talking about what a cold  
7 day it is here in West Virginia, isn't it?

8 A. Yes.

9 Q. B[REDACTED], has anybody in the school system ever  
10 told you that Harrison County Schools wouldn't let you  
11 participate on a girls sports team for any reason?

12 ATTORNEY HARTNETT: Objection to form.

13 THE WITNESS: After a bill was passed,  
14 not --- I don't think there was because when the bill  
15 was passed, I already went trying out and then we ---  
16 then the whatever it was called where I could do ---  
17 where I could play in the sports team from the Judge  
18 came out.

19 BY ATTORNEY DENIKER:

20 Q. And I just want to make clear, did any of your  
21 coaches ever tell you that you couldn't run on the girls  
22 team?

23 A. No.

24 Q. Did Mr. Mazza ever tell you that you couldn't

1 run on the girls team?

2 A. No.

3 Q. Did any of your teachers tell you that you  
4 couldn't run on the girls team?

5 A. No.

6 Q. And did Mrs. Stutler ever tell you that you  
7 couldn't run on the girls team?

8 A. There was not a cross-country back then, so I  
9 couldn't run whenever she was my principal, so ---.

10 Q. And that was when you were in elementary school.  
11 Is that right?

12 A. Yes.

13 Q. And that's a good point that you brought up,  
14 B[REDACTED]. There aren't any school sports in elementary  
15 school in Harrison County, are there?

16 ATTORNEY HARTNETT: Objection to form.

17 THE WITNESS: No, you're very limited to  
18 them and most of them aren't even in the school. You  
19 have to do them outside of school.

20 BY ATTORNEY DENIKER:

21 Q. Did you have any school-sponsored sports at  
22 Norwood Elementary School?

23 A. I don't know. I don't --- yeah, I don't know.

24 Q. Okay.

1 Did you try out or participate in any sports  
2 that were run by the school while you were at Norwood?

3 A. I --- no.

4 Q. And so let me go back and ask you about Mrs.  
5 Stutler. So it's kind of funny. You had Mrs. Stutler  
6 as your principal at Norwood for a little bit.

7 Is that right?

8 A. Yes.

9 Q. And do you know where she went after she left  
10 Norwood?

11 A. The Board of Education.

12 Q. She did. She went to the Central Board Office.  
13 And did you know that she's now the Superintendant of  
14 Schools?

15 A. I did not know that. I just knew she went to  
16 the Board of Education.

17 Q. Well, she's actually your school superintendant  
18 now. And have you had any communications with her since  
19 she became superintendant?

20 A. No.

21 Q. Well, now you know who your superintendant is.  
22 So if you see her at school you can call her  
23 Superintendant Stutler now.

24 B [REDACTED], let me check my notes and see if I have

1 any other questions. I think I'm just about done.

2 B [REDACTED], did you have any conversations with  
3 anybody that works for the Harrison County Board of  
4 Education, teachers, principals, anybody like that,  
5 coaches, regarding this House Bill 3293?

6 ATTORNEY HARTNETT: Objection to form.

7 THE WITNESS: Could you repeat the  
8 question?

9 BY ATTORNEY DENIKER:

10 Q. Sure. Did you talk with anybody who works for  
11 the Harrison County Board of Education or is somehow  
12 connected with the Board of Education about House Bill  
13 3293?

14 A. I think I did. I think I may have. I'm not  
15 sure. I can't remember her name. It started with an S,  
16 I know that.

17 Q. Do you know what that --- what the woman you're  
18 referring to, do you know what her job was?

19 A. I do not know.

20 Q. Was it a teacher or a principal?

21 A. I don't know that. I just --- she was at one of  
22 our meetings, and I think we may have talked a little  
23 bit about that.

24 Q. And was that one of your Gender Support Plan

1 meetings?

2 A. Yes.

3 Q. Okay.

4 And was that the one before you were going into  
5 Middle School?

6 A. I think. I can't remember. I just --- I can't  
7 remember, but I think she either talked about that or  
8 the Gender Support Plan.

9 Q. Okay.

10 Do you remember what she said about House Bill  
11 3293?

12 A. I do not. Because she may have not talked about  
13 it. She --- because she was there at one of our  
14 meetings, so she could have not, but I think she did.

15 Q. But you don't remember what was said?

16 A. I don't.

17 Q. Okay.

18 Do you remember any conversations with anybody  
19 at school or anybody affiliated with the school about  
20 House Bill 3293?

21 ATTORNEY HARTNETT: Objection, form.

22 THE WITNESS: Not that I can think of off  
23 the top of my head.

24 BY ATTORNEY DENIKER:

1 Q. And B [REDACTED], I should have clarified. Do you know  
2 what I'm talking about when I say House Bill 3293?

3 A. Yeah, HB-3293. Yes.

4 Q. Okay.

5 I just wanted to make sure that you knew what I  
6 was talking about. I thought that you did.

7 B [REDACTED], if you had any concerns about how you  
8 were being treated at school, would you feel comfortable  
9 going to talk to Mr. Mazza about that?

10 A. Yes. If I was being treated bad, then I would  
11 talk to Mr. Mazza.

12 Q. Would you also feel comfortable going to some of  
13 your teachers about that?

14 A. Yes.

15 Q. But do you feel that overall all of the teachers  
16 and administrators, including your principals at  
17 Bridgeport Middle School, have been supportive of your  
18 status as a transgender student?

19 A. Could you repeat the question?

20 Q. Sure. And I apologize, it was a long one. Do  
21 you believe that the teachers and administrators, and  
22 that would include the principals and the other  
23 employees at Bridgeport Middle School, have been  
24 supportive of your transgender status?

1 A. Yes, I think they have been supportive.

2 Q. When you were on the cross-country team did you  
3 believe your teammates were supportive of you?

4 A. Yes.

5 Q. And how about in school, have you had any issues  
6 with other students or problems with students related to  
7 your transgender status?

8 ATTORNEY HARTNETT: Objection to form.

9 THE WITNESS: No. No.

10 ATTORNEY DENIKER: B [REDACTED], those are all  
11 the questions I have for you now. Thanks so much for  
12 your time today.

13 ATTORNEY HARTNETT: We can take a break.  
14 I think this might be a good time to take a break and  
15 then we can come back for questions.

16 VIDEOGRAPHER: Okay. Going off the  
17 record. The current time reads 2:28 p.m.

18 OFF VIDEOTAPE

19 ---

20 (WHEREUPON, A SHORT BREAK WAS TAKEN.)

21 ---

22 ON VIDEOTAPE

23 VIDEOGRAPHER: We are back on the record.

24 The current time reads 2:42 p.m.

--

EXAMINATION

---

BY ATTORNEY HAMMOND:

Q. Hi, B[REDACTED]. My name is Kristen Hammond. And I'm an attorney with the law firm of Bailey and Wyant. And I represent the West Virginia State Board of Education and the State Superintendant Clayton Burch. And I just have I think a few questions for you today. Do you know what the State Board of Education is?

A. I don't know.

Q. Okay.

And do you know or have you ever heard of the West Virginia State Superintendant Clayton Burch?

A. No.

Q. Okay.

So I guess since you do not know them, do you have any memory or any recall of maybe talking to anybody at the State level or at the Board of Education level regarding this lawsuit or regarding the House Bill or your sports? How about we limit it to that?

A. I don't remember if I have or not.

Q. Okay.

So you just don't recall. Could you possibly

1 have talked to somebody?

2 ATTORNEY HARTNETT: Objection to form.

3 THE WITNESS: Could you repeat the  
4 question?

5 BY ATTORNEY HAMMOND:

6 Q. Yes. I just want to see --- you say you don't  
7 recall talking to anybody. Do you think that it's a  
8 possibility that you did talk to somebody or you don't  
9 believe that you've talked to anybody?

10 A. I don't believe I've talked to anybody.

11 ATTORNEY HAMMOND: Okay. Thank you for  
12 your time. I just had a couple of questions, and that's  
13 all I have for you today. Thank you.

14 ---

15 EXAMINATION

16 ---

17 BY ATTORNEY DUCAR:

18 Q. Good afternoon, B[REDACTED]. I'm Timothy Ducar. I  
19 represent the Intervenor in this case. I wanted to ask  
20 you a question about Exhibit 29. Do you have that  
21 available?

22 MS. JACKSON: Give me a second to find  
23 it.

24 ATTORNEY DUCAR: Yes, that's it. Can you

1 scroll down just four paragraphs? Thank you.

2 BY ATTORNEY DUCAR:

3 Q. B [REDACTED], you had testified earlier that paragraph  
4 that starts with I just want to run, that you had ---  
5 that's a quote from you.

6 Correct?

7 A. Yes.

8 Q. I just wanted to know, is that a quote that you  
9 wrote on paper and provided to somebody or wrote on a  
10 computer and provided to somebody or did you actually  
11 say that with your --- verbally?

12 A. I said that.

13 Q. Verbally?

14 A. Yeah, I said that verbally.

15 Q. Thank you. When did you decide you liked  
16 running?

17 A. I've always liked running. It's from when I  
18 could walk, I liked running.

19 ATTORNEY DUCAR: We're done with this  
20 exhibit, Mr. Court Reporter. Thank you.

21 BY ATTORNEY DUCAR:

22 Q. When did you decide you wanted to try out for  
23 the girls cross-country team?

24 A. I've always wanted to do cross-country, so when

1 I had the chance I decided I wanted to.

2 Q. And did you know about it because your brothers  
3 ran?

4 A. Yes.

5 Q. Did your mom encourage you to try out for the  
6 girls team?

7 ATTORNEY HARTNETT: Objection to form.

8 THE WITNESS: Yes. Yes, she encouraged  
9 me.

10 BY ATTORNEY DUCAR:

11 Q. And these try-outs were last summer.

12 Correct?

13 A. Yes.

14 Q. Going into sixth grade?

15 A. Yes.

16 Q. Did your dad encourage you to try out for the  
17 girls team?

18 A. Yes.

19 Q. Earlier you testified that you did well in  
20 cross-country. Did you have any rankings?

21 ATTORNEY HARTNETT: Object to the form.

22 THE WITNESS: I --- could you rephrase  
23 the question?

24 BY ATTORNEY DUCAR:

1 Q. Do you have any idea how well you did on your  
2 team as an individual?

3 A. I don't know.

4 Q. Do they keep track of individual times and ---?

5 A. I think they put it on a website.

6 Q. Is that something you have ever seen?

7 A. My mom looks at it, but I don't.

8 Q. Do you have any indication whether or not you  
9 were one of the better runners or not one of the better  
10 runners on the team?

11 ATTORNEY HARTNETT: Objection to form.

12 THE WITNESS: I don't know. I think I  
13 was good.

14 BY ATTORNEY DUCAR:

15 Q. Do you want to run cross-country again next  
16 year?

17 A. Yes.

18 Q. Track tryouts are coming up in the spring.  
19 Correct?

20 A. Yes.

21 Q. And you intend to try out for track?

22 A. Yes.

23 Q. Do you want to compete in any other sports  
24 besides track and cross-country?

|   |                |
|---|----------------|
| 1 | A. Not really. |
|---|----------------|

2 | Q. Why not?

3       A.     I don't find any other sport really interesting  
4 besides running.

5 | Q. You said trusting?

6 | A. Interesting.

7 | Q. What does that mean?

8 | A. What is interesting?

9 Q. Oh, interesting. I misheard you. Thank you.  
10 And I think I misheard you on something else, so I'm  
11 going to re-ask the question. Do you like to compete?

12 ATTORNEY HARTNETT: Objection to the  
13 form.

14                               THE WITNESS:   I'm not a really  
15 competitive person.  I just play a sport because I think  
16 it's fun.

17 | BY ATTORNEY DUCAR:

18 | Q. Do you consider yourself a good athlete?

|    |         |
|----|---------|
| 19 | A. Yes. |
|----|---------|

20 | Q. What makes you a good athlete?

21 A. I'm good at running, good at the sports I do.

22 | Q. Do you try hard to win?

23 | A. Yes. Well --- yes.

24 | Q. Have you talked to anybody else about playing

1 other sports other than cross-country and track?

2 A. I've talked to my mom about playing other  
3 sports.

4 Q. What sports have you talked to her about?

5 A. Volleyball and maybe basketball.

6 Q. And describe for me what you guys talked about  
7 as far as volleyball and basketball?

8 A. We talked about trying new sports.

9 Q. When did you two talk about those subjects?

10 A. I can't remember.

11 Q. Was it in the last six months or ---?

12 A. I don't --- I can't remember.

13 Q. Did you bring up the idea of playing volleyball  
14 to her?

15 A. Yes.

16 Q. And what did she say?

17 A. That's a good idea.

18 Q. Did she say that about basketball as well?

19 A. I think she may have brought up basketball, but  
20 I can't remember. It may have been me or her.

21 Q. Did you feel like she was encouraging you to  
22 play volleyball?

23 A. She liked the idea. So I wouldn't say  
24 encouraged, but she thought it was a good idea.

1 Q. Did she think playing basketball was a good  
2 idea?

3 ATTORNEY HARTNETT: Objection to form.

4 THE WITNESS: I think so, yes.

5 BY ATTORNEY DUCAR:

6 Q. And as you sit here right now, you don't have  
7 any plans to go out for a volleyball or a basketball  
8 team.

9 Correct?

10 A. No, not right now. No.

11 Q. Do you foresee yourself running on the  
12 cross-country team or on the track team later in high  
13 school?

14 ATTORNEY HARTNETT: Objection to form.

15 THE WITNESS: Yes, yes.

16 BY ATTORNEY DUCAR:

17 Q. Do you see yourself running on the cross-country  
18 team or track team if you ever go to college on a  
19 college team?

20 ATTORNEY HARTNETT: Same objection.

21 Objection to form.

22 THE WITNESS: Maybe, but I haven't  
23 thought that far ahead.

24 BY ATTORNEY DUCAR:

1 Q. Sure. When was the first time you remember  
2 thinking that you wanted to be a girl?

3 ATTORNEY HARTNETT: Objection to form.

4 THE WITNESS: I can't remember.

5 BY ATTORNEY DUCAR:

6 Q. Do you remember the first time you talked to  
7 somebody about the fact that you wanted to become a  
8 girl?

9 ATTORNEY HARTNETT: Objection.

10 THE WITNESS: I also can't --- I don't  
11 remember.

12 BY ATTORNEY DUCAR:

13 Q. There's a statement in the record that indicates  
14 you feel like a girl. What does feeling like a girl  
15 mean?

16 ATTORNEY HARTNETT: Objection to form.

17 THE WITNESS: I just know that I want to  
18 be a girl and I feel like a girl inside.

19 BY ATTORNEY DUCAR:

20 Q. You picked out the name B [REDACTED] for yourself.  
21 Correct?

22 A. Yes.

23 Q. When did you do that?

24 A. Whenever I transitioned.

1     besides clothing.

2                     ATTORNEY HARTNETT:   Objection to form.

3                     THE WITNESS:    Could you restate the  
4     question, please?

5     BY ATTORNEY DUCAR:

6         Q.        Yeah.   I'll withdraw that question.

7                     When did you start presenting as a girl at  
8     home?

9         A.        It started when I was really young.

10                    ATTORNEY HARTNETT:   Objection.

11                    THE WITNESS:    But I fully started wearing  
12     clothes on my own, not wearing my mother's, around the  
13     third-grade year.

14     BY ATTORNEY DUCAR:

15         Q.        Do you wear jewelry?

16         A.        Not a lot.   I used to wear earrings but not  
17     anymore.

18         Q.        Do you wear makeup?

19         A.        No.

20         Q.        Are there other ways you presented at home as a  
21     girl besides dressing as a girl?

22         A.        Well, I always wanted girly --- a girly room and  
23     girly items.

24         Q.        And you started wearing girls clothing in fourth

1 grade.

2 Correct?

3 A. Yes.

4 Q. Do you recall the first time you saw a doctor or  
5 a therapist about your desire to be a girl?

6 A. I can't remember.

7 Q. How did you first learn about puberty blocking  
8 treatment?

9 A. Could you repeat the question, please?

10 Q. How did you first learn about puberty blocking  
11 treatment?

12 A. My mom. My mom told me about it whenever I  
13 transitioned.

14 Q. And is that something that you wanted to do?

15 A. Yes.

16 Q. At some point you wanted to start hormone  
17 therapy?

18 A. Yes.

19 Q. Do you know what that means?

20 A. Getting female hormones.

21 Q. B[REDACTED], do you ever feel anxious?

22 ATTORNEY HARTNETT: Objection to form.

23 ATTORNEY DUCAR: Let me restate that.

24 That's fair.

1 BY ATTORNEY DUCAR:

2 Q. Does the fact that you are transitioning make  
3 you feel anxious?

4 A. No.

5 Q. Does the fact that you're part of this lawsuit  
6 make you feel anxious?

7 ATTORNEY HARTNETT: Objection to form.

8 THE WITNESS: No.

9 BY ATTORNEY DUCAR:

10 Q. Do you know what the word anxious means?

11 A. Nervous.

12 Q. Do you know what gender dysphoria is?

13 A. Yes.

14 [REDACTED]

15 [REDACTED]

16 [REDACTED] [REDACTED]

17 [REDACTED] [REDACTED]

18 [REDACTED]

19 ATTORNEY DUCAR: Thank you, B [REDACTED]. I  
20 have no further questions for you today.

21 ATTORNEY CAPEHART: We have no further  
22 questions at this time. We're just going to note as we  
23 have in the last two depositions the possibility of  
24 having to revisit something. If for some reason some

1 medical records would could to light, although I  
2 understand that's unlikely, we're still noting that, but  
3 you would object to that?

4 ATTORNEY HARTNETT: Yes, we object, but  
5 we appreciate you making the record you want to make.

6 ATTORNEY CAPEHART: Thank you.

7 ATTORNEY HARTNETT: I'm sorry. Just on  
8 that point, though, I mean, is there any specific item  
9 that you lack today that you need to make a record?

10 ATTORNEY CAPEHART: I think our concern  
11 has been the possibility of new records that might be  
12 produced following the depositions.

13 ATTORNEY HARTNETT: Okay. Thank you.

14 ATTORNEY CAPEHART: Thank you.

15 ATTORNEY HARTNETT: I mean, is anyone  
16 else going to have any further questioning? Sorry.  
17 Just for the witness's awareness, we're confirming  
18 whether or not there will be additional questioning from  
19 any Defendant.

20 ATTORNEY ROGERS: I don't have any  
21 further questions.

22 ATTORNEY DENIKER: I have no further  
23 questions. Thank you again for your time today, B [REDACTED].

24 ATTORNEY HAMMOND: I have no further

1 questions. Thank you.

2 ATTORNEY DUCAR: I have nothing further.

3 Thank you.

4 ATTORNEY HARTNETT: And we also have no  
5 questions for the witness today.

6 VIDEOGRAPHER: Okay. If there are no  
7 further questions, that concludes today's deposition.  
8 And the current time reads 3:01 p.m.

9 COURT REPORTER: Is it reading and  
10 signing for your client?

11 ATTORNEY HARTNETT: Yes. I'm sorry. I  
12 meant to say that on the record.

1 STATE OF WEST VIRGINIA )

2 CERTIFICATE

3 I, Nicole Montagano, a Notary Public in  
4 and for the State of West Virginia, do hereby  
5 certify:

6 That the witness whose testimony appears  
7 in the foregoing deposition, was duly sworn by me  
8 on said date, and that the transcribed deposition  
9 of said witness is a true record of the testimony  
10 given by said witness;

11 That the proceeding is herein recorded  
12 fully and accurately;

13 That I am neither attorney nor counsel  
14 for, nor related to any of the parties to the  
15 action in which these depositions were taken, and  
16 further that I am not a relative of any attorney  
17 or counsel employed by the parties hereto, or  
18 financially interested in this action.

19 I certify that the attached transcript  
20 meets the requirements set forth within article  
21 twenty-seven, chapter forty-seven of the West  
22 Virginia.

Nicole Montagano,  
Court Reporter

**CONFIDENTIAL**

IN THE UNITED STATES DISTRICT COURT  
FOR THE SOUTHERN DISTRICT OF WEST VIRGINIA  
CHARLESTON DIVISION

B.P.J. by her next friend and mother, HEATHER JACKSON,

*Plaintiff,*

v.

WEST VIRGINIA STATE BOARD OF EDUCATION, HARRISON COUNTY BOARD OF EDUCATION, WEST VIRGINIA SECONDARY SCHOOL ACTIVITIES COMMISSION, W. CLAYTON BURCH in his official capacity as State Superintendent, DORA STUTLER in her official capacity as Harrison County Superintendent, and THE STATE OF WEST VIRGINIA,

*Defendants,*

and

LAINY ARMISTEAD,

*Defendant-Intervenor.*

Civil Action No. 2:21-cv-00316

Hon. Joseph R. Goodwin

**PLAINTIFF'S RESPONSES AND  
OBJECTIONS TO DEFENDANT-  
INTERVENOR LAINY  
ARMISTEAD'S FIRST SET OF  
REQUESTS FOR ADMISSION**

Pursuant to Federal Rules of Civil Procedure 33 and 36 and the applicable Local Rules of the Southern District of West Virginia and this Court, Plaintiff B.P.J. by her next friend and mother, Heather Jackson, responds as follows to Defendant-Intervenor Lainy Armistead's ("Defendant-Intervenor") First Set of Requests for Admission ("Requests"):

**GENERAL RESPONSES**

1. B.P.J.'s response to the Requests is made to the best of B.P.J.'s present knowledge, information, and belief. This response is at all times subject to such additional or different information that discovery or further investigation may disclose and, while based on the present state of B.P.J.'s recollection, is subject to such refreshing of recollection, and such

**CONFIDENTIAL**

additional knowledge of facts, as may result from B.P.J.'s further discovery or investigation.

2. B.P.J. reserves the right to make any use of, or to introduce at any hearing and at trial, information and/or documents responsive to the Requests but discovered subsequent to the date of this response, including, but not limited to, any information or documents obtained in discovery herein.
3. B.P.J. reserves all objections or other questions as to the competency, relevance, materiality, privilege, or admissibility as evidence in any subsequent proceeding in or trial of this or any other action for any purpose whatsoever of this response and any document or thing identified or provided in response to the Requests.
4. B.P.J. reserves the right to object on any ground at any time to such other or supplemental Requests as Defendant-Intervenor may at any time propound involving or relating to the subject matter of these Requests.
5. B.P.J. is willing to meet and confer with Defendant-Intervenor regarding any response or objection to the Requests.

**GENERAL OBJECTIONS**

B.P.J. makes the following general objections, whether or not separately set forth in response to each Request, to each and every Definition, Instruction, and Request made in Defendant-Intervenor's First Set of Requests for Admission:

1. B.P.J. objects generally to all Definitions, Instructions, and Requests inclusive, insofar as each such Request seeks information protected by the attorney-client privilege, the work product doctrine, or any other applicable privilege. Such information shall not be produced in response to the Requests, and any inadvertent production thereof shall not be deemed a

**CONFIDENTIAL**

waiver of any privilege or right with respect to such information or of any work product doctrine that may attach thereto.

2. B.P.J. objects to all Definitions, Instructions, and Requests inclusive, to the extent they purport to enlarge, expand, or alter in any way the plain meaning and scope of any specific request on the ground that such enlargement, expansion, or alteration renders said Request vague, ambiguous, unintelligible, unduly broad, and uncertain.
3. B.P.J. objects to all Definitions, Instructions, and Requests inclusive, to the extent they seek information or materials not currently in B.P.J.'s possession, custody, or control, or refer to persons, entities, or events not known to B.P.J., on the grounds that such Instructions, Definitions, or Requests seek to require more of B.P.J. than any obligation imposed by law, would subject B.P.J. to unreasonable and undue burden and expense, and would seek to impose upon B.P.J. an obligation to investigate or discover information or materials from third parties or services who are equally accessible to Defendant-Intervenor.
4. B.P.J.'s failure to object to the Requests on a particular ground shall not be construed as a waiver of her right to object on that ground or any additional ground at any time.
5. B.P.J. objects to the number of Requests as burdensome, cumulative, and not proportional to the needs of the case.
6. B.P.J. objects to Requests Nos. 13 through 61 because they do not seek "admissions for the record of facts already known," *Wigler v. Elec. Data Sys. Corp.*, 108 F.R.D. 204, 206 (D. Md. 1985), but instead seek admissions to hypothetical questions regarding the treatment of various endocrine conditions not at issue in this case and/or that have not yet been the subject of expert testimony. B.P.J. has attempted to respond to the Requests to

**CONFIDENTIAL**

the best of her ability, but reserves the right to supplement, amend, or withdraw responses in light of additional facts learned during expert discovery.

**SPECIFIC OBJECTIONS AND RESPONSES TO DOCUMENT REQUESTS**

Without waiving or limiting in any manner any of the foregoing General Objections, but rather incorporating them into each of the following responses to the extent applicable, B.P.J. responds to the specific requests of Defendant-Intervenor's First Set of Requests for Admission as follows:

**Request for Admission No. 1:**

1. Admit that B.P.J. has chromosomes characteristic of the male sex (i.e. XY chromosomes).

**B.P.J.'s Response to Request for Admission No. 1:**

B.P.J. objects to the phrase "chromosomes characteristic of the male sex" as vague, and interprets the phrase to mean "has XY chromosomes."

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that B.P.J. has XY chromosomes.

**Request for Admission No. 2:**

2. Admit that, but for the [REDACTED]-pharmaceutical intervention B.P.J. has received, B.P.J. would have hormones—including testosterone levels—characteristic of the male sex.

**B.P.J.'s Response to Request for Admission No. 2:**

B.P.J. objects to the phrase "characteristic of" as vague and construes the phrase to mean "typical of."

Subject to these general and specific objections, and without waiver thereof, B.P.J. cannot admit or deny this request for admission because B.P.J. has not gone through puberty and cannot

**CONFIDENTIAL**

determine what her hormones level would have been if she had not received puberty blocking medication.

**Request for Admission No. 3:**

3. Admit that B.P.J.’s internal and external reproductive organs are characteristic of the male sex.

**B.P.J.’s Response to Request for Admission No. 3:**

B.P.J. objects to the phrase “characteristic of” as vague and construes the phrase to mean “typical of.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that B.P.J.’s internal and external reproductive organs are typical of the male sex.

**Request for Admission No. 4:**

4. Admit that B.P.J. is a biological male.

**B.P.J.’s Response to Request for Admission No. 4:**

B.P.J. objects to the phrase “is a biological male” as vague and scientifically inaccurate, and construes the phrase to mean “had a male sex assigned at birth.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that B.P.J. had a male sex assigned at birth.

**Request for Admission No. 5:**

5. Admit there are “benefits associated with sex-separated school athletics.” (First Am. Compl. ¶ 39).

**B.P.J.’s Response to Request for Admission No. 5:**

B.P.J. admits there are benefits associated with school athletics, including when such athletics are provided in a sex-separated manner.

CONFIDENTIAL

**Request for Admission No. 6:**

6. Admit that one of the “benefits associated with sex-separated school athletics” (First Am. Compl. ¶ 39) is separation based on sex-related “physiological characteristics associated with athletic performance” (*Id.* ¶ 40).

**B.P.J.’s Response to Request for Admission No. 6:**

Deny.

**Request for Admission No. 7:**

7. Admit there are post-pubescent, high-school-aged male-identifying biological males who cannot run a 5,000 meter track race as quickly as some post-pubescent, high-school aged female-identifying biological females.

**B.P.J.’s Response to Request for Admission No. 7:**

B.P.J. objects to the phrase “male-identifying biological males” as vague and scientifically inaccurate and interprets the phrase to mean “cisgender boys.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate and interprets the phrase to mean “cisgender girls.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that there are post-pubescent, high-school-aged cisgender boys who cannot run a 5,000 meter track race as quickly as some post-pubescent, high-school aged cisgender girls.

**Request for Admission No. 8:**

8. You have alleged that “[g]irls who are transgender and who *do* go through some or all of their endogenous puberty can receive gender-affirming hormone therapy that reduces their circulating testosterone levels and mitigates and often eliminates any athletic benefit from having gone through endogenous puberty.” First Am. Compl. ¶ 42. Admit that such

CONFIDENTIAL

“gender affirming hormone therapy that reduces circulating testosterone levels” to the levels typical of cisgender females does not necessarily completely “eliminate[] any athletic benefit from having gone through endogenous [male] puberty.”

**B.P.J.’s Response to Request for Admission No. 8:**

Deny.

**Request for Admission No. 9:**

9. You have alleged that “[g]irls who are transgender and who *do* go through some or all of their endogenous puberty can receive gender-affirming hormone therapy that reduces their circulating testosterone levels and mitigates and often eliminates any athletic benefit from having gone through endogenous puberty.” First Am. Compl. ¶ 42. Admit that female identifying biological males who go through endogenous puberty and do not receive pharmaceutical or surgical intervention have, at the “population level” (as this term is used in First Am. Compl. ¶ 40), athletic performance advantages over female-identifying biological females of the same age who have received no pharmaceutical or surgical intervention.

**B.P.J.’s Response to Request for Admission No. 9:**

B.P.J. objects to the phrase “female-identifying biological males” as vague and scientifically inaccurate and interprets the phrase to mean “girls who are transgender.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate and interprets the phrase to mean “cisgender girls.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. cannot admit or deny this request for admission because there have not been sufficient studies to determine whether there are average differences in performance between girls who are transgender and have

CONFIDENTIAL

gone through endogenous puberty and not received pharmaceutical or surgical intervention as a group compared to cisgender girls as a group including in light of other possible factors.

**Request for Admission No. 10:**

10. You have alleged that “[g]irls who are transgender and who *do* go through some or all of their endogenous puberty can receive gender-affirming hormone therapy that reduces their circulating testosterone levels and mitigates and often eliminates any athletic benefit from having gone through endogenous puberty.” First Am. Compl. ¶ 42. Admit that female identifying biological males who go through endogenous puberty and do not receive pharmaceutical or surgical intervention have, at the “population level” (as this term is used in First Am. Compl. ¶ 40), athletic advantages relevant to performance in track and cross-country events over female-identifying biological females of the same age who have received no pharmaceutical or surgical intervention.

**B.P.J.’s Response to Request for Admission No. 10:**

B.P.J. objects to the phrase “female-identifying biological males” as vague and scientifically inaccurate and interprets the phrase to mean “girls who are transgender.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate and interprets the phrase to mean “cisgender girls.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. cannot admit or deny this request for admission because there have not been sufficient studies to determine whether there are average differences in performance between girls who are transgender and have gone through endogenous puberty and not received pharmaceutical or surgical intervention as a group compared to cisgender girls as a group including in light of other possible factors.

**Request for Admission No. 11:**

CONFIDENTIAL

11. You have alleged that “[g]irls who are transgender and who *do* go through some or all of their endogenous puberty can receive gender-affirming hormone therapy that reduces their circulating testosterone levels and mitigates and often eliminates any athletic benefit from having gone through endogenous puberty.” First Am. Compl. ¶ 42. Admit that female identifying biological males who go through endogenous puberty and do not receive pharmaceutical or surgical intervention more often than not have athletic performance advantages over female-identifying biological females of the same age who have received no pharmaceutical or surgical intervention.

**B.P.J.’s Response to Request for Admission No. 11:**

B.P.J. objects to the phrase “female-identifying biological males” as vague and scientifically inaccurate and interprets the phrase to mean “girls who are transgender.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate and interprets the phrase to mean “cisgender girls.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. cannot admit or deny this request for admission because there have not been sufficient studies to determine whether there are average differences in performance between girls who are transgender and have gone through endogenous puberty and not received pharmaceutical or surgical intervention as a group compared to cisgender girls as a group including in light of other possible factors.

**Request for Admission No. 12:**

12. You have alleged that “[g]irls who are transgender and who *do* go through some or all of their endogenous puberty can receive gender-affirming hormone therapy that reduces their circulating testosterone levels and mitigates and often eliminates any athletic benefit from having gone through endogenous puberty.” First Am. Compl. ¶ 42. Admit that female

CONFIDENTIAL

identifying biological males who go through endogenous puberty and do not receive pharmaceutical or surgical intervention more often than not have athletic advantages relevant to performance in track and cross-country events over female-identifying biological females of the same age who have received no pharmaceutical or surgical intervention.

**B.P.J.'s Response to Request for Admission No. 12:**

B.P.J. objects to the phrase “female-identifying biological males” as vague and scientifically inaccurate and interprets the phrase to mean “girls who are transgender.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate and interprets the phrase to mean “cisgender girls.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. cannot admit or deny this request for admission because there have not been sufficient studies to determine whether there are average differences in performance between girls who are transgender and have gone through endogenous puberty and not received pharmaceutical or surgical intervention as a group compared to cisgender girls as a group including in light of other possible factors.

**Request for Admission No. 13:**

13. Admit there are biological males who experience central precocious puberty.

**B.P.J.'s Response to Request for Admission No. 13:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits there are people with a male sex assigned at birth who experience central precocious puberty.

**Request for Admission No. 14:**

**CONFIDENTIAL**

14. Admit that Histrelin is a medically accepted treatment for central precocious puberty.

**B.P.J.'s Response to Request for Admission No. 14:**

Admit.

**Request for Admission No. 15:**

15. Admit that Histrelin is used to treat biological males with idiopathic short stature.

**B.P.J.'s Response to Request for Admission No. 15:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.” B.P.J. objects to the phrase “is used to treat” and interprets the phrase to mean “is a medically accepted treatment for.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies that Histrelin is a medically accepted treatment for people with a male sex assigned at birth with idiopathic short stature.

**Request for Admission No. 16:**

16. Admit that Histrelin is used to treat biological males with growth hormone deficiency.

**B.P.J.'s Response to Request for Admission No. 16:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.” B.P.J. objects to the phrase “is used to treat” and interprets the phrase to mean “is a medically accepted treatment for.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies that Histrelin is a medically accepted treatment for people with a male sex assigned at birth with growth hormone deficiency.

**Request for Admission No. 17:**

17. Admit there are biological males who experience delayed puberty.

**CONFIDENTIAL**

**B.P.J.'s Response to Request for Admission No. 17:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits there are people with a male sex assigned at birth who experience delayed puberty.

**Request for Admission No. 18:**

18. Admit there are biological males who experience hypogonadism.

**B.P.J.'s Response to Request for Admission No. 18:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits there are people with a male sex assigned at birth who experience hypogonadism.

**Request for Admission No. 19:**

19. Admit there are biological males with medical conditions that inhibit testosterone production.

**B.P.J.'s Response to Request for Admission No. 19:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.”

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits there are people with a male sex assigned at birth with medical conditions that inhibit testosterone production.

**Request for Admission No. 20:**

CONFIDENTIAL

20. Admit there are middle-school-aged biological males who, because of delayed puberty, have circulating testosterone comparable to that of biological females of their same age.

**B.P.J.'s Response to Request for Admission No. 20:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a female sex assigned at birth.” B.P.J. objects to the term “comparable” as vague. B.P.J. objects to this request as vague with respect to whether the phrase “comparable to that of biological females of their same age” refers to typical circulating testosterone levels for people who had a female sex assigned at birth as a group or to the circulating testosterone levels of at least one person with a female sex assigned at birth. B.P.J. also objects to this request as vague because it does not specify whether the people with a female sex assigned at birth at issue have gone through puberty even though cisgender girls on average typically begin puberty at a younger age than cisgender boys on average.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that it is possible at least one middle-school-aged person who was assigned a male sex at birth and who had delayed puberty likely has the same levels of circulating testosterone as at least one person of the same age who was assigned a female sex at birth.

**Request for Admission No. 21:**

21. Admit there are high-school-aged biological males who, because of delayed puberty, have circulating testosterone comparable to that of biological females of their same age.

**B.P.J.'s Response to Request for Admission No. 21:**

CONFIDENTIAL

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a female sex assigned at birth.” B.P.J. objects to the term “comparable” as vague. B.P.J. also objects to this request as vague with respect to whether the phrase “comparable to that of biological females of their same age” refers to typical circulating testosterone levels for people with a female sex assigned at birth as a group or to the circulating testosterone levels of at least one person who was assigned a female sex at birth.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that it is possible at least one high-school-aged person who was assigned a male sex at birth and who had delayed puberty likely has the same levels of circulating testosterone as at least one person of the same age who was assigned a female sex at birth.

**Request for Admission No. 22:**

22. Admit there are middle-school-aged biological males who, because of hypogonadism, have circulating testosterone comparable to that of biological females of their same age.

**B.P.J.’s Response to Request for Admission No. 22:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a female sex assigned at birth.” B.P.J. objects to the term “comparable” as vague. B.P.J. also objects to this request as vague with respect to whether the phrase “comparable to that of biological females of their same age” refers to typical circulating testosterone levels for people who are assigned a female sex at birth as a group or to the circulating testosterone levels of

CONFIDENTIAL

at least one person who was assigned a female sex at birth. B.P.J. also objects to this request as vague because it does not specify whether the people assigned a female sex at birth have gone through puberty even though girls on average typically begin puberty at a younger age than boys on average.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that it is possible at least one middle-school-aged person who was assigned a male sex at birth and who has hypogonadism likely has the same levels of circulating testosterone as at least one person of the same age who was assigned a female sex at birth.

**Request for Admission No. 23:**

23. Admit there are high-school-aged biological males who, because of hypogonadism, have circulating testosterone comparable to that of biological females of their same age.

**B.P.J.'s Response to Request for Admission No. 23:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a male sex assigned at birth.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people with a female sex assigned at birth.” B.P.J. objects to the term “comparable” as vague. B.P.J. also objects to this request as vague with respect to whether the phrase “comparable to that of biological females of their same age” refers to typical circulating testosterone levels for cisgender girls as a group or to the circulating testosterone levels of at least one person with a female sex assigned at birth.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that it is possible at least one high-school-aged person who was assigned a male sex at birth and

CONFIDENTIAL

who had delayed puberty likely has the same levels of circulating testosterone as at least one person of the same age who was assigned a female sex at birth.

**Request for Admission No. 24:**

24. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex separated school athletic teams, B.P.J. is similarly situated to male-identifying biological males of the same age who have received the same puberty blocking treatment as B.P.J

**B.P.J.’s Response to Request for Admission No. 24:**

B.P.J. objects to the phrase “male-identifying biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender boys.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are cisgender boys of the same age as B.P.J. who have received the same puberty blocking treatment as B.P.J.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 25:**

25. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is similarly situated to male-identifying biological males of the same age who have received the same puberty blocking treatment as B.P.J.

CONFIDENTIAL

**B.P.J.'s Response to Request for Admission No. 25:**

B.P.J. objects to the phrase “male-identifying biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender boys.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are cisgender boys of the same age as B.P.J. who have received the same puberty blocking treatment as B.P.J.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that B.P.J. likely has the same level of circulating testosterone as cisgender boys who have not yet begun puberty but denies that they are similarly situated for purposes of Title IX or the Equal Protection Clause.

**Request for Admission No. 26:**

26. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex separated school athletic teams, B.P.J. is similarly situated to biological male students of the same age who have received the same puberty blocking treatment as B.P.J., regardless of the students’ gender identity.

**B.P.J.'s Response to Request for Admission No. 26:**

B.P.J. objects to the phrase “biological male students” as vague and scientifically inaccurate, and interprets the phrase to mean “students with a male sex assigned at birth.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are cisgender boys of the same age as B.P.J. who have received the same puberty blocking treatment as B.P.J.

CONFIDENTIAL

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 27:**

27. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is similarly situated to biological male students of the same age who have received the same puberty blocking treatment as B.P.J., regardless of the students’ gender identity.

**B.P.J.’s Response to Request for Admission No. 27:**

B.P.J. objects to the phrase “biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “people who were assigned a male sex at birth.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are cisgender boys of the same age as B.P.J. who have received the same puberty blocking treatment as B.P.J.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that B.P.J. likely has the same level of circulating testosterone as other people who were assigned a male sex at birth who have not begun puberty but denies that they are similarly situated regardless of gender identity for purposes of Title IX or the Equal Protection Clause.

**Request for Admission No. 28:**

28. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school

CONFIDENTIAL

athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex separated school athletic teams, middle school male-identifying biological male students who received puberty blocking treatment that effectively delayed male puberty are similarly situated to middle school female-identifying biological females of the same age who received no puberty blocking treatment.

**B.P.J.’s Response to Request for Admission No. 28:**

B.P.J. objects to the phrase “male-identifying biological male students” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender boys.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. also objects to this request as vague because it does not specify whether the cisgender girls at issue have gone through puberty even though girls on average typically begin puberty at a younger age than boys on average.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 29:**

29. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, middle school male-identifying male students who received puberty blocking treatment that effectively delayed male puberty are similarly situated to middle

CONFIDENTIAL

school female-identifying females of the same age who received no puberty blocking treatment.

**B.P.J.'s Response to Request for Admission No. 29:**

B.P.J. objects to the phrase “male-identifying biological male students” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender boys.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. also objects to this request as vague because it does not specify whether the cisgender girls at issue have gone through puberty even though girls on average typically begin puberty at a younger age than boys on average.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

B.P.J. objects to the phrase “biological male students” as vague and scientifically inaccurate, and interprets the phrase to mean “students who were assigned a male sex at birth.” B.P.J. objects to the phrase “similarly situated” as vague.

CONFIDENTIAL

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies the request for admission.

**Request for Admission No. 39:**

39. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is not similarly situated to biological male students of the same age who have not received any form of puberty blocking or other hormone therapy, regardless of the students’ gender identity.

**B.P.J.’s Response to Request for Admission No. 39:**

B.P.J. objects to the phrase “biological male students” as vague and scientifically inaccurate, and interprets the phrase to mean “students who were assigned a male sex at birth.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. also objects to this request as vague because it does not specify whether the hypothetical 11-year-olds with a male sex assigned at birth have begun endogenous puberty.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 40:**

40. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex separated school athletic teams, high school male-identifying biological males who

CONFIDENTIAL

experienced endogenous male puberty but have since received hormone therapy sufficient to bring their circulating testosterone down into the range typical for biological females of their same age are similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.'s Response to Request for Admission No. 40:**

B.P.J. objects to the phrase “male-identifying biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender boys.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people who had a female sex assigned at birth.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are cisgender boys in high school who receive hormone therapy sufficient to bring their circulating testosterone down into the range typical for cisgender girls of the same age.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 41:**

41. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, high school male-identifying biological males who experienced endogenous male puberty but have since received hormone therapy sufficient to bring their circulating testosterone down into the range typical for biological females of their same age are

CONFIDENTIAL

similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.’s Response to Request for Admission No. 41:**

B.P.J. objects to the phrase “male-identifying biological males” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender boys.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people who had a female sex assigned at birth.” B.P.J. objects to the phrase “female identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are cisgender boys in high school who receive hormone therapy sufficient to bring their circulating testosterone down into the range typical for cisgender girls of the same age.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that cisgender high school boys who lower their levels of circulating testosterone to the same levels that are typical for cisgender girls of the same age would, on average, have the same levels of circulating testosterone as cisgender girls, on average, but denies that the two groups are similarly situated for purposes of Title IX or the Equal Protection Clause.

**Request for Admission No. 42:**

42. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex-separated school athletic teams, biological male middle school students, regardless of gender identity, who experienced endogenous male puberty but have since received

CONFIDENTIAL

hormone therapy sufficient to bring their circulating testosterone down into the range typical for biological females of their age are similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.’s Response to Request for Admission No. 42:**

B.P.J. objects to the phrase “biological male middle school students” as vague and scientifically inaccurate, and interprets the phrase to mean “middle school students who were assigned a male sex at birth.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people who had a female sex assigned at birth.” B.P.J. objects to the phrase “female identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are cisgender boys in middle school who receive hormone therapy sufficient to bring their circulating testosterone down into the range typical for cisgender girls of the same age.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 43:**

43. Admit that with respect to sex-related “physiological characteristics associated with athletic performance” relevant to running track and cross-country, biological male middle school students, regardless of gender identity, who

CONFIDENTIAL

experienced endogenous male puberty but have since received hormone therapy sufficient to bring their circulating testosterone down into the range typical for biological females of their same age are similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.'s Response to Request for Admission No. 43:**

B.P.J. objects to the phrase “biological male middle school students” as vague and scientifically inaccurate, and interprets the phrase to mean “middle school students who were assigned a male sex at birth.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people who had a female sex assigned at birth.” B.P.J. objects to the phrase “female identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are cisgender boys in middle school who receive hormone therapy sufficient to bring their circulating testosterone down into the range typical for cisgender girls of the same age.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that the two hypothetical groups of people would have on average the same levels of circulating testosterone but denies that they would be similarly situated for purposes of Title IX and the Equal Protection Clause.

**Request for Admission No. 44:**

44. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex

CONFIDENTIAL

separated school athletic teams, biological male high school students, regardless of gender identity, who experienced endogenous male puberty but have since received hormone therapy sufficient to bring their circulating testosterone down into the range typical for biological females of their same age, are similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.’s Response to Request for Admission No. 44:**

B.P.J. objects to the phrase “biological male high school students” as vague and scientifically inaccurate, and interprets the phrase to mean “high school students who were assigned a male sex at birth.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people who had a female sex assigned at birth.” B.P.J. objects to the phrase “female identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are high school cisgender boys who experienced endogenous male puberty but have since received hormone therapy sufficient to bring their circulating testosterone down into the range typical for people who had a female sex assigned at birth of their age.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 45:**

45. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to sex-related “physiological

CONFIDENTIAL

characteristics associated with athletic performance” relevant to running track and cross-country, biological male high school students, regardless of gender identity, who experienced endogenous male puberty but have since received hormone therapy sufficient to bring their circulating testosterone down into the range typical for biological females of their same age are similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.’s Response to Request for Admission No. 45:**

B.P.J. objects to the phrase “biological male high school students” as vague and scientifically inaccurate, and interprets the phrase to mean “high school students who were assigned a male sex at birth.” B.P.J. objects to the phrase “biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “people who had a female sex assigned at birth.” B.P.J. objects to the phrase “female identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are high school cisgender boys who experienced endogenous male puberty but have since received hormone therapy sufficient to bring their circulating testosterone down into the range typical for people who had a female sex assigned at birth of their age.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that the two hypothetical groups of people would have on average the same levels of circulating testosterone but denies that they would be similarly situated for purposes of Title IX and the Equal Protection Clause.

**Request for Admission No. 46:**

CONFIDENTIAL

46. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex separated school athletic teams, B.P.J. is not similarly situated to female-identifying biological females of the same age who have received hormone therapy to delay female puberty or produce masculinizing effects.

**B.P.J.’s Response to Request for Admission No. 46:**

B.P.J. objects to the phrase “female identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to the request to the extent that it requires B.P.J. to make the counterfactual assumption that “puberty blocking treatment” can “produce masculinizing effects.” B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are 11-year-old cisgender girls who receive hormone therapy to delay female puberty or produce masculinizing effects.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 47:**

47. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is not similarly situated to female-identifying biological females of the same

CONFIDENTIAL

age who have received puberty blocking treatment to delay female puberty or produce masculinizing effects.

**B.P.J.'s Response to Request for Admission No. 47:**

B.P.J. objects to the phrase “female identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague and requires B.P.J. to make the counterfactual assumption that “puberty blocking treatment” can “produce masculinizing effects.” B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are 11-year-old cisgender girls who receive hormone therapy to delay female puberty or produce masculinizing effects.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 48:**

48. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex-separated school athletic teams, B.P.J. is not similarly situated to biological female students of the same age who have received puberty blocking treatment to delay female puberty or produce masculinizing effects, regardless of the students’ gender identity.

**B.P.J.'s Response to Request for Admission No. 48:**

B.P.J. objects to the phrase “biological female students” as vague and scientifically inaccurate, and interprets the phrase to mean “students who were assigned a female sex at birth.”

CONFIDENTIAL

B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to the request to the extent that it requires B.P.J. to make the counterfactual assumption that “puberty blocking treatment” can “produce masculinizing effects.” B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are 11-year-old cisgender girls who receive hormone therapy to delay female puberty or produce masculinizing effects.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 49:**

49. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is not similarly situated to biological female students of the same age who have received puberty blocking treatment to delay female puberty or produce masculinizing effects, regardless of the students’ gender identity.

**B.P.J.’s Response to Request for Admission No. 49:**

B.P.J. objects to the phrase “female identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to the request to the extent that it requires B.P.J. to make the counterfactual assumption that “puberty blocking treatment” can “produce masculinizing effects.” B.P.J. objects to this request to the extent it requires B.P.J. to make the counterfactual assumption that there are 11-year-old cisgender girls who receive puberty blocking treatment.

CONFIDENTIAL

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits B.P.J. likely has the same circulating levels of testosterone as people of the same age who have a female sex assigned at birth and who receive puberty blocking treatment but denies that B.P.J. is similarly situated to those individuals regardless of the students' gender identity for purposes of Title IX and the Equal Protection Clause.

**Request for Admission No. 50:**

50. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex-separated school athletic teams, B.P.J. is similarly situated to male-identifying biological females of the same age who have not received any form of puberty blocking or other hormone therapy.

**B.P.J.’s Response to Request for Admission No. 50:**

B.P.J. objects to the phrase “male identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “boys who are transgender.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 51:**

51. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running

CONFIDENTIAL

track or cross country, B.P.J. is similarly situated to male-identifying biological females of the same age who have not received any form of puberty blocking or other hormone therapy.

**B.P.J.'s Response to Request for Admission No. 51:**

B.P.J. objects to the phrase “male identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “boys who are transgender.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. also objects to the request as vague because it does not specify whether the 11-year-old people who were assigned a female sex at birth at issue have gone through puberty even though girls on average typically begin puberty at a younger age than boys on average.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 52:**

52. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” Am. Compl. ¶ 39. Admit that for purposes of participating on sex-separated school athletic teams, B.P.J. is similarly situated to biological female students of the same age who have not received any form of puberty blocking or other hormone therapy, regardless of the students’ gender identity.

**B.P.J.'s Response to Request for Admission No. 52:**

B.P.J. objects to the phrase “biological female students” as vague and scientifically inaccurate, and interprets the phrase to mean “students who had a female-sex assigned at birth.” B.P.J. objects to the phrase “similarly situated” as vague.

CONFIDENTIAL

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 53:**

53. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is similarly situated to biological female students of the same age who have not received any form of puberty blocking or other hormone therapy, regardless of the students’ gender identity.

**B.P.J.’s Response to Request for Admission No. 53:**

B.P.J. objects to the phrase “biological female students” as vague and scientifically inaccurate, and interprets the phrase to mean “people who were assigned a female sex at birth.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. also objects to the request as vague because it does not specify whether the 11-year-old people who were assigned a female sex at birth at issue have gone through puberty even though girls on average typically begin puberty at a younger age than boys on average.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 54:**

54. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex-

**CONFIDENTIAL**

separated school athletic teams, female-identifying biological male middle school students who have not received any form of puberty blocking or other hormone therapy are not similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.'s Response to Request for Admission No. 54:**

B.P.J. objects to the phrase “female-identifying biological male” as vague and scientifically inaccurate, and interprets the phrase to mean “girls who are transgender.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 55:**

55. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, female-identifying biological male middle school students who have not received any form of puberty blocking or other hormone therapy are not similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.'s Response to Request for Admission No. 55:**

B.P.J. objects to the phrase “female-identifying biological male” as vague and scientifically inaccurate, and interprets the phrase to mean “girls who are transgender.” B.P.J. objects to the phrase “female-identifying biological female” as vague and scientifically inaccurate, and interprets

CONFIDENTIAL

the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to the request as vague because it does not specify whether the cisgender girls at issue have gone through puberty even though girls on average typically begin puberty at a younger age than boys on average.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 56:**

56. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex-separated school athletic teams, female-identifying biological male high school students who have not received any form of puberty blocking or other hormone therapy are not similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.’s Response to Request for Admission No. 56:**

B.P.J. objects to the phrase “female-identifying biological male high school students” as vague and scientifically inaccurate, and interprets the phrase to mean “girls who are transgender who are high school students.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 57:**

CONFIDENTIAL

57. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, female-identifying biological male high school students who have not received any form of puberty blocking or other hormone therapy are not similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.’s Response to Request for Admission No. 57:**

B.P.J. objects to the phrase “female-identifying biological male high school students” as vague and scientifically inaccurate, and interprets the phrase to mean “girls who are transgender who are high school students.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that girls who are transgender who are high school students and who have not received any form of puberty blocking or other hormone therapy will, on average, have higher levels of circulating testosterone than cisgender girls who have received no puberty blocking or other hormone therapy, on average, but deny that the two groups are not similarly situated for purposes of Title IX and the Equal Protection Clause.

**Request for Admission No. 58:**

58. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school

CONFIDENTIAL

athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex separated school athletic teams, biological male middle school students, regardless of gender identity, who have not received any form of puberty blocking or other hormone therapy are not similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.’s Response to Request for Admission No. 58:**

B.P.J. objects to the phrase “biological male middle school students” as vague and scientifically inaccurate, and interprets the phrase to mean “middle school students who had a male sex assigned at birth.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 59:**

59. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, biological male middle school students, regardless of gender identity, who have not received any form of puberty blocking or other hormone therapy are not similarly situated to female identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

B.P.J. objects to the phrase “biological male middle school students” as vague and scientifically inaccurate, and interprets the phrase to mean “middle school students who had a male sex assigned at birth.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. also objects to this request as vague because it does not specify whether the cisgender girls at issue have gone through puberty even though girls on average typically begin puberty at a younger age than boys on average.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

60. You have alleged that “[g]irls who are transgender are similarly situated to cisgender girls (as opposed to cisgender boys) for purposes of participating on sex-separated school athletic teams.” First Am. Compl. ¶ 39. Admit that for purposes of participating on sex separated school athletic teams, biological male high school students, regardless of gender identity, who have not received any form of puberty blocking or other hormone therapy are not similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

B.P.J. objects to the phrase “biological male high school students” as vague and scientifically inaccurate, and interprets the phrase to mean “high school students who had a male sex assigned at birth.” B.P.J. objects to the phrase “female-identifying biological females” as

CONFIDENTIAL

vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 61:**

61. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance,” Am. Compl. ¶ 40, relevant to running track or cross-country, biological male high school students, regardless of gender identity, who have not received any form of puberty blocking or other hormone therapy are not similarly situated to female-identifying biological females of the same age who have received no puberty blocking or other hormone therapy.

**B.P.J.’s Response to Request for Admission No. 61:**

B.P.J. objects to the phrase “biological male high school students” as vague and scientifically inaccurate, and interprets the phrase to mean “high school students who had a male sex assigned at birth.” B.P.J. objects to the phrase “female-identifying biological females” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that high school students who had a male sex assigned at birth who have not received any form of puberty blocking or other hormone therapy will, on average, have higher levels of circulating testosterone than cisgender girls of the same age who have received no puberty blocking or other

**CONFIDENTIAL**

hormone therapy, on average, but denies that they are not similarly situated regardless of gender identity for purposes of Title IX and the Equal Protection Clause.

**Request for Admission No. 62:**

62. Admit that a person's gender identity may be neither male nor female.

**B.P.J.'s Response to Request for Admission No. 62:**

Admit.

**Request for Admission No. 63:**

63. Admit that a person's gender identity may change over time.

**B.P.J.'s Response to Request for Admission No. 63:**

Deny.

**Request for Admission No. 64:**

64. Admit that under H.B. 3293, a male-identifying biological male athlete is precluded from participating on sex-separated female sports teams regardless of the quantity of circulating testosterone in this individual's body.

**B.P.J.'s Response to Request for Admission No. 64:**

B.P.J. objects to the phrase "male-identifying biological male" as vague and scientifically inaccurate, and interprets the phrase to mean "cisgender boy." B.P.J. further objects to the phrase "under H.B. 3293" as vague and interprets the phrase to mean the period of time after H.B. 3293 was enacted.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission because cisgender boys were already precluded from participating on sex-separated female sports before H.B. 3293 was enacted, but admits that H.B. 3293 continues this existing policy.

CONFIDENTIAL

**Request for Admission No. 65:**

65. Admit that under H.B. 3293, a male-identifying biological male athlete is precluded from participating on sex-separated female sports teams regardless of the extent to which he has (or has not) experienced endogenous male puberty.

**B.P.J.'s Response to Request for Admission No. 65:**

B.P.J. objects to the phrase “male-identifying biological male” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender boy.” B.P.J. further objects to the phrase “under H.B. 3293” as vague and interprets the phrase to mean the period of time after H.B. 3293 was enacted.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission because cisgender boys were already precluded from participating on sex-separated female sports before H.B. 3293 was enacted, but admits that H.B. 3293 continues this existing policy.

**Request for Admission No. 66:**

66. Admit that under H.B. 3293, a male-identifying biological male athlete is precluded from participating on sex-separated female sports teams regardless of athletic ability.

**B.P.J.'s Response to Request for Admission No. 66:**

B.P.J. objects to the phrase “male-identifying biological male” as vague and scientifically inaccurate, and interprets the phrase to mean “cisgender boy.” B.P.J. further objects to the phrase “under H.B. 3293” as vague and interprets the phrase to mean the period of time after H.B. 3293 was enacted.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission because cisgender boys were already precluded from participating on

CONFIDENTIAL

sex-separated female sports before H.B. 3293 was enacted, but admits that H.B. 3293 continues this existing policy.

**Request for Admission No. 67:**

67. Admit that in the absence of medical intervention, endogenous male puberty provides, at the “population level” (as this term is used in First Am. Compl. ¶ 40), benefits in athletic performance not obtained by people who do not experience male puberty.

**B.P.J.’s Response to Request for Admission No. 67:**

B.P.J. objects to the phrase “benefits in athletic performance” as vague because it does not specify the stage of puberty or the athletic competition at issue. B.P.J. also objects to the phrase “medical intervention” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. cannot admit or deny this request for admission because there have not been sufficient studies across all athletes of all ages in all sports at all levels to determine whether there are average differences in performance between individuals who have gone through endogenous male puberty and not received medical intervention compared to people who have not experienced male puberty including in light of other possible factors.

**Request for Admission No. 68:**

68. Admit that the State of West Virginia has a significant governmental interest in promoting equal athletic opportunities for people born with the physiological characteristics associated with the female sex.

**B.P.J.’s Response to Request for Admission No. 68:**

B.P.J. objects to the phrase “significant governmental interest” as vague. B.P.J. objects to the phrase “promoting equal athletic opportunities for people born with the physiological

**CONFIDENTIAL**

characteristics associated with the female sex” as vague because it does not specify the comparator group.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

**Request for Admission No. 69:**

69. Admit that gender identity, divorced from all forms of hormone therapy or other pharmacological treatment, has no independent effect on athletic ability.

**B.P.J.’s Response to Request for Admission No. 69:**

B.P.J. objects to the phrases “independent effect” and “athletic ability” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this request for admission.

recollection, and such additional knowledge of facts, as may result from B.P.J.'s further discovery or investigation.

2. To the extent B.P.J. agrees to produce documents or information in response to any particular Interrogatory or Request, B.P.J. will produce only non-privileged, responsive documents in her possession, custody, or control, and in accordance with Exhibit A of the parties' Rule 26(f) report filed on September 7, 2021 (ECF No. 92-1) in this action.
3. B.P.J. has no duty to, and will not, produce or identify documents or information that are not in her possession, custody, or control. By stating in these responses that B.P.J. will search for or produce documents or information, B.P.J. does not represent that any such documents or information actually exist. Rather, B.P.J. represents that she will undertake a good-faith search and reasonable inquiry to ascertain whether the documents or information described in any such response do, in fact, exist, and, if so, will produce responsive, non-privileged documents or information within B.P.J.'s possession, custody, or control in accordance with Exhibit A of the parties' Rule 26(f) report filed on September 7, 2021 (ECF No. 92-1) in this action.
4. B.P.J. reserves the right to make any use of, or to introduce at any hearing and at trial, documents responsive to the Interrogatories or Requests but discovered subsequent to the date of B.P.J.'s initial production, including, but not limited to, any documents obtained in discovery herein.
5. B.P.J. reserves all objections or other questions as to the competency, relevance, materiality, privilege, or admissibility as evidence in any subsequent proceeding in or trial

of this or any other action for any purpose whatsoever of this response and any document or thing produced in response to the Interrogatories or Requests.

6. B.P.J. reserves the right to object on any ground at any time to such other or supplemental requests for production as Intervenor may at any time propound involving or relating to the subject matter of these Interrogatories or Requests.
7. B.P.J. is willing to meet and confer with Intervenor regarding any response or objection to the Interrogatories or Requests.

### **GENERAL OBJECTIONS**

B.P.J. makes the following general objections, whether or not separately set forth in response to each Interrogatory or Request, to each and every Definition, Interrogatory, and Request made in Intervenor's Third Set of Interrogatories and Second and Third Sets of Requests for Admission:

1. B.P.J. objects generally to all Definitions, Interrogatories, and Requests inclusive, insofar as each such request seeks production of documents or information protected by the attorney-client privilege, the work product doctrine, or any other applicable privilege. Such documents or information shall not be produced in response to the Interrogatories or Requests, and any inadvertent production thereof shall not be deemed a waiver of any privilege or right with respect to such documents or information or of any work product doctrine that may attach thereto.
2. B.P.J. objects to all Definitions, Interrogatories, and Requests inclusive, to the extent they purport to enlarge, expand, or alter in any way the plain meaning and scope of any specific Request on the ground that such enlargement, expansion, or alteration renders said Request vague, ambiguous, unintelligible, unduly broad, and uncertain.

3. B.P.J. objects to all Definitions, Interrogatories, and Requests inclusive, to the extent they seek documents not currently in B.P.J.'s possession, custody, or control, or refer to persons, entities, or events not known to B.P.J., on the grounds that such Definitions, Interrogatories, or Requests seek to require more of B.P.J. than any obligation imposed by law, would subject B.P.J. to unreasonable and undue burden and expense, and would seek to impose upon B.P.J. an obligation to investigate or discover information or materials from third parties or services who are equally accessible to Intervenor.
4. B.P.J.'s failure to object to the Interrogatories or Requests on a particular ground shall not be construed as a waiver of her right to object on that ground or any additional ground at any time.

#### **SPECIFIC OBJECTIONS AND RESPONSES TO INTERROGATORIES**

Without waiving or limiting in any manner any of the foregoing General Objections, but rather incorporating them into each of the following responses to the extent applicable, B.P.J. responds to the specific Requests of Intervenor's Third Set of Interrogatories as follows:

#### **Interrogatory No. 13:**

13. Whether you admit or deny Intervenor's Requests for Admission No. 4, please explain the reasons supporting your contention, including all material facts supporting them.

#### **B.P.J.'s Response To Interrogatory No. 13:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 4. B.P.J. further objects to Interrogatory 13 because it asks B.P.J. to provide "reasons" and "all material facts supporting" an opposing party's contention that B.P.J. has already admitted.

**Interrogatory No. 14:**

14. Whether you admit or deny Intervenor's Requests for Admission No. 25, please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 14:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 25. B.P.J. object to Intervenor's Interrogatory No. 14 to the extent it requires B.P.J to provide "reasons" and "all material facts supporting" a contention that B.P.J. has already admitted.

Subject to and without waiving these general and specific objections, B.P.J. states that she is not similarly situated to a hypothetical cisgender boy who has not yet begun puberty for purposes of Title IX or the Equal Protection Clause because B.P.J. is a girl.

**Interrogatory No. 15:**

15. Whether you admit or deny Intervenor's Requests for Admission No. 26, please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 15:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 26.

Subject to and without waiving these general and specific objections, B.P.J. states that she denies Request for Admission No. 26 because B.P.J. is a girl.

**Interrogatory No. 16:**

16. Whether you admit or deny Intervenor's Requests for Admission No. 34, please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 16:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 34.

Subject to and without waiving these general and specific objections, B.P.J. states that she denies Request for Admission No. 34 because, for purposes of participating on sex-separated school athletic teams, cisgender girls are similarly situated to girls who are transgender and not similarly situated to cisgender boys.

**Interrogatory No. 17:**

17. Whether you admit or deny Intervenor's Requests for Admission No. 36, please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 17:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 36.

Subject to and without waiving these general and specific objections, B.P.J. states that she denies Request for Admission No. 36 because, for purposes of participating on sex-separated school athletic teams, girls who are transgender are similarly situated to cisgender girls.

**Interrogatory No. 18:**

18. Whether you admit or deny Intervenor's Requests for Admission No. 46, please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 18:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 46.

Subject to and without waiving these general and specific objections, B.P.J. states that she denies Request for Admission No. 46 because B.P.J. and the hypothetical cisgender girl in the Request are both girls.

**Interrogatory No. 19:**

19. Whether you admit or deny Intervenor's Requests for Admission No. 62, please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 19:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 62.

Subject to and without waiving these general and specific objections, B.P.J. further objects to Interrogatory No. 19 because it asks B.P.J. to provide "reasons" and "all material facts supporting" an opposing party's contention that B.P.J. has already admitted.

**Interrogatory No. 20:**

20. Whether you admit or deny Intervenor's Requests for Admission No. 63, please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 20:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 63.

Subject to and without waiving these general and specific objections, B.P.J. states that she denies Request for Admission No. 63 because gender identity is distinct from gender expression.

**Interrogatory No. 21:**

21. Whether you admit or deny Intervenor's Requests for Admission No. 67, please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 21:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 63.

As stated in B.P.J.'s response, B.P.J. cannot admit or deny this Request because there have not been sufficient studies across all athletes of all ages in all sports at all levels to determine whether there are average differences in performance between individuals who have gone through endogenous male puberty and not received medical intervention as compared to people who have not experienced male puberty including in light of other possible factors.

**Interrogatory No. 22:**

22. Whether you admit or deny Intervenor's Requests for Admission No. 68, please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 22:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 68.

Subject to and without waiving these general and specific objections, B.P.J. states that she denies Request for Admission No. 68 because the State of West Virginia's significant governmental interest is in promoting equal athletic opportunities for all persons without discrimination on the basis of sex.

**Interrogatory No. 23:**

23. Whether you admit or deny Intervenor's Requests for Admission No. 70 please explain the reasons supporting your contention, including all material facts supporting them.

**B.P.J.'s Response To Interrogatory No. 23:**

B.P.J. incorporates the general and specific objections contained in B.P.J.'s response to Intervenor's Request for Admission No. 70.

Subject to and without waiving these general and specific objections, B.P.J. states that she denies Request for Admission No. 70 because cisgender boys and men were already prohibited from participating in sports designated for women or girls before H.B. 3293 was enacted.

**Interrogatory No. 24:**

24. You contend in response to Intervenor's Interrogatory #10 that "H.B. 3293 does not affect the ability of cisgender boys and men to play on sports teams designated for females, women, or girls because cisgender boys and men were already prohibited from doing so before H.B. 3293 was enacted." Identify all material West Virginia laws or policies in effect before H.B. 3293 was enacted that you contend prohibited cisgender boys and men from competing on sports teams designated for females, women, or girls.

**B.P.J.'s Response To Interrogatory No. 24:**

B.P.J. refers Intervenor to W. Va. Code R. § 127-2-3.8. B.P.J. also refers Intervenor to the 30(b)(6) deposition of the West Virginia Secondary School Activities Commission and the testimony given therein. B.P.J. also refers Intervenor to Section 18.2 of the National Collegiate Athletic Association Handbooks for Divisions I through III.

**Interrogatory No. 25:**

25. Identify all government interests that you contend advance H.B. 3293 when applied to exclude a biological male who identifies as a male from West Virginia sports teams designated for women or girls.

**B.P.J.’s Response To Interrogatory No. 25:**

B.P.J. objects to the phrase “a biological male who identifies as male” as vague and scientifically inaccurate and interprets the phrase to mean “a cisgender boy and man.” B.P.J. objects to the phrase “government interests that you contend advance H.B. 3293” and interprets the phrase to mean “government interests that you contend are advanced by H.B. 3293.”

Subject to and without waiving these general and specific objections, B.P.J. states that H.B. 3293 does not advance any government interests when applied to exclude a cisgender boy or man from sports teams designated for women or girls because cisgender boys and men were already prohibited from participating in sports designated for women or girls before H.B. 3293 was enacted.

**SPECIFIC OBJECTIONS AND RESPONSES TO REQUESTS FOR ADMISSION**

Without waiving or limiting in any manner any of the foregoing General Objections, but rather incorporating them into each of the following responses to the extent applicable, B.P.J. responds to the specific Requests of Intervenor’s Second and Third Sets of Requests for Admission as follows:

**Request for Admission No. 70:**

70. Admit that H.B. 3293 furthers an important government interest by excluding males who identify as male from West Virginia sports designated for women or girls.

**B.P.J.’s Response To Request for Admission No. 70:**

B.P.J. objects to the phrase “males who identify as male” as vague and scientifically inaccurate and interprets the phrase to mean “cisgender boys.” B.P.J. objects to the phrase “important governmental interest” as vague. Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this Request.

**Request for Admission No. 71:**

71. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is not similarly situated to female-identifying biological males of the same age who have not received any form of puberty blocking or other hormone therapy and have not begun endogenous male puberty.

**B.P.J.’s Response To Request for Admission No. 71:**

B.P.J. objects to the phrase “female-identifying biological male students” as vague and scientifically inaccurate and interprets the phrase to mean “students who are transgender girls.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this Request.

**Request for Admission No. 72:**

72. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is not similarly situated to female-identifying biological males of the same age who have not received any form of puberty blocking or other hormone therapy and have begun endogenous male puberty.

**B.P.J.'s Response To Request for Admission No. 72:**

B.P.J. objects to the phrase “female-identifying biological male students” as vague and scientifically inaccurate and interprets the phrase to mean “students who are transgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this Request to the extent it requires B.P.J. to make assumptions about the sex-related physiological characteristics associated with athletic performance of a hypothetical girl who is transgender.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that girls who are transgender of the same age who have not received any form of puberty blocking or other hormone therapy and have begun endogenous male puberty may not have the same sex-related physiological characteristics associated with athletic performance relevant to running track or cross-country as B.P.J. B.P.J. denies that the two groups are not similarly situated for purposes of Title IX or the Equal Protection Clause.

**Request for Admission No. 73:**

73. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, middle school male-identifying male students who received puberty blocking treatment that effectively delayed male puberty are similarly situated to middle school female-identifying females of the same age who have received no puberty blocking treatment and have not begun endogenous female puberty.

**B.P.J.'s Response To Request for Admission No. 73:**

B.P.J. objects to the phrase “male-identifying male students” as vague and scientifically inaccurate and interprets the phrase to mean “students who are cisgender boys.” B.P.J. objects to the phrase “female-identifying female students” as vague and scientifically inaccurate and interprets the phrase to mean “students who are cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this Request to the extent that it requires B.P.J. to make the counterfactual assumption that there are cisgender boys in middle school who receive puberty blocking treatment that effectively delay male puberty.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that cisgender boys who have not yet begun puberty would, on average, have similar levels of circulating testosterone as cisgender girls of the same age who have not begun puberty but denies that the two groups are similarly situated for purposes of Title IX or the Equal Protection Clause.

**Request for Admission No. 74:**

74. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, middle school male-identifying male students who received puberty blocking treatment that effectively delayed male puberty are similarly situated to middle school female-identifying females of the same age who have received no puberty blocking treatment and have begun endogenous female puberty.

**B.P.J.'s Response To Request for Admission No. 74:**

B.P.J. objects to the phrase “male-identifying male students” as vague and scientifically inaccurate and interprets the phrase to mean “students who are cisgender boys.” B.P.J. objects to the phrase “female-identifying female students” as vague and scientifically inaccurate and interprets the phrase to mean “students who are cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this Request to the extent that it requires B.P.J. to make the counterfactual assumption that there are cisgender boys in middle school who receive puberty blocking treatment that effectively delay male puberty.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this Request.

**Request for Admission No. 75:**

75. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, biological male middle school students, regardless of gender identity, who received puberty blocking treatment that effectively delayed male puberty are similarly situated to female-identifying females of the same age who received no puberty blocking treatment and have not begun endogenous female puberty.

**B.P.J.'s Response To Request for Admission No. 75:**

B.P.J. objects to the phrase “biological male middle school students” as vague and scientifically inaccurate and interprets the phrase to mean “middle school students with a male sex

assigned at birth.” B.P.J. objects to the phrase “female-identifying female” as vague and scientifically inaccurate and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this Request to the extent that it requires B.P.J. to make the counterfactual assumption that there are cisgender boys in middle school who receive puberty blocking treatment that effectively delay male puberty.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that middle school students with a male sex assigned at birth who have not yet begun puberty would, on average, have similar levels of circulating testosterone as cisgender girls of the same age who have not begun puberty but denies that the two groups are similarly situated for purposes of Title IX or the Equal Protection Clause regardless of gender identity.

**Request for Admission No. 76:**

76. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, biological male middle school students, regardless of gender identity, who received puberty blocking treatment that effectively delayed male puberty are similarly situated to female-identifying females of the same age who received no puberty blocking treatment and have begun endogenous female puberty.

**B.P.J.’s Response To Request for Admission No. 76:**

B.P.J. objects to the phrase “biological male middle school students” as vague and scientifically inaccurate and interprets the phrase to mean “middle school students with a male sex assigned at birth.” B.P.J. objects to the phrase “female-identifying female” as vague and

scientifically inaccurate and interprets the phrase to mean “cisgender girls.” B.P.J. objects to the phrase “similarly situated” as vague. B.P.J. objects to this Request to the extent that it requires B.P.J. to make the counterfactual assumption that there are cisgender boys in middle school who receive puberty blocking treatment that effectively delay male puberty.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this Request.

**Request for Admission No. 77:**

77. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is not similarly situated to biological male students of the same age who have not received any form of puberty blocking or other hormone therapy, regardless of the students’ gender identity, and have not begun endogenous male puberty.

**B.P.J.’s Response To Request for Admission No. 77:**

B.P.J. objects to the phrase “biological male students” as vague and scientifically inaccurate and interprets the phrase to mean “students with a male sex assigned at birth.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this Request.

**Request for Admission No. 78:**

78. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic

performance.” First Am. Compl. ¶ 40. Admit that with respect to any “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is not similarly situated to biological male students of the same age who have not received any form of puberty blocking or other hormone therapy, regardless of the students’ gender identity, and have begun endogenous male puberty.

**B.P.J.’s Response To Request for Admission No. 78:**

B.P.J. objects to the phrase “biological male students” as vague and scientifically inaccurate and interprets the phrase to mean “students with a male sex assigned at birth.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that students with a male sex assigned at birth who have begun endogenous male puberty would, on average, have high levels of circulating testosterone than B.P.J., but denies that the two groups are similarly situated for purposes of Title IX or the Equal Protection Clause regardless of gender identity.

**Request for Admission No. 79:**

79. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross country, B.P.J. is similarly situated to male-identifying biological females of the same age who have not received any form of puberty blocking or other hormone therapy and have not begun endogenous female puberty.

**B.P.J.'s Response To Request for Admission No. 79:**

B.P.J. objects to the phrase “male-identifying biological females” as vague and scientifically inaccurate and interprets the phrase to mean “students who are transgender boys.”

B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that students who are transgender boys and have not begun endogenous female puberty would, on average, have similar levels of circulating testosterone as B.P.J. but denies that the two groups are similarly situated for purposes of Title IX or the Equal Protection Clause.

**Request for Admission No. 80:**

80. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross country, B.P.J. is similarly situated to male-identifying biological females of the same age who have not received any form of puberty blocking or other hormone therapy and have begun endogenous female puberty.

**B.P.J.'s Response To Request for Admission No. 80:**

B.P.J. objects to the phrase “male-identifying biological females” as vague and scientifically inaccurate and interprets the phrase to mean “students who are transgender boys.”

B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this Request.

**Request for Admission No. 81:**

81. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running track or cross-country, B.P.J. is similarly situated to biological female students of the same age who have not received any form of puberty blocking or other hormone therapy, regardless of the students’ gender identity, and have not begun endogenous female puberty.

**B.P.J.’s Response To Request for Admission No. 81:**

B.P.J. objects to the phrase “male-identifying biological females” as vague and scientifically inaccurate and interprets the phrase to mean “students who are transgender boys.” B.P.J. objects to the phrase “similarly situated” as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. admits that students who are transgender boys and have not begun endogenous female puberty would, on average, have similar levels of circulating testosterone as B.P.J. but denies that the two groups are similarly situated for purposes of Title IX or the Equal Protection Clause regardless of gender identity.

**Request for Admission No. 82:**

82. You have alleged that “[g]irls who are transgender are . . . not similarly situated to cisgender boys with respect to physiological characteristics associated with athletic performance.” First Am. Compl. ¶ 40. Admit that with respect to any sex-related “physiological characteristics associated with athletic performance” relevant to running

track or cross-country, B.P.J. is similarly situated to biological female students of the same age who have not received any form of puberty blocking or other hormone therapy, regardless of the students' gender identity, and have not begun endogenous female puberty.

**B.P.J.'s Response To Request for Admission No. 82:**

B.P.J. objects to the phrase "male-identifying biological females" as vague and scientifically inaccurate and interprets the phrase to mean "students who are transgender boys." B.P.J. objects to the phrase "similarly situated" as vague.

Subject to these general and specific objections, and without waiver thereof, B.P.J. denies this Request.

**DEFENDANT HARRISON COUNTY BOARD OF EDUCATION’S RESPONSES AND  
OBJECTIONS TO PLAINTIFF’S SECOND SET OF REQUESTS FOR ADMISSION**

Pursuant to Rule 36 of the Federal Rules of Civil Procedure, Defendant Harrison County Board of Education (“County Board”) hereby responds and objects to “Plaintiff’s Second Set of Requests for Admission to Defendant Harrison County Board of Education” as follows:

**GENERAL OBJECTION:** The County Board objects to the definitions of “County Board” and “County Superintendent” as set forth in Plaintiff’s requests for admission. Those definitions are overly broad and outside the permissible scope of discovery under the

Federal Rules of Civil Procedure as the definitions improperly broaden the identity of parties in this case. For instance, the definitions of the “County Board” and the “County Superintendent” also include their “officers, directors, employees, partners, corporate parent, subsidiaries, affiliates, attorneys, accountants, consultants, representatives and agents.” The County Board objects to providing responses pursuant to the broadened definitions of “County Board” and “County Superintendent.” The County Board further objects to the Definitions and Instructions set forth in Plaintiff’s requests to the extent they are inconsistent with the Federal Rules of Civil Procedure or applicable law.

**REQUEST NO. 5:** Admit that Plaintiff B.P.J. has been diagnosed with gender dysphoria.

**RESPONSE:** The County Board admits that medical records produced in this case state that Plaintiff B.P.J. has been diagnosed with gender dysphoria.

**REQUEST NO. 6:** Admit that in 2021 Plaintiff B.P.J. was a member of Bridgeport Middle School’s girls’ cross-country team.

**RESPONSE:** Admitted.

**REQUEST NO. 7:** Admit that Plaintiff B.P.J. placed 51 out of 66 competitors in the girls’ middle school cross country Mountain Hollar MS Invitational meet in 2021.

**RESPONSE:** Upon information and belief, and based on information provided on RunWV.com regarding the results of the race, the County Board admits this request.

**REQUEST NO. 8:** Admit that Plaintiff B.P.J. placed 123 out of 150 competitors in the girls' middle school cross country Doddridge Invitational meet in 2021.

**RESPONSE:** Upon information and belief, and based on information provided on RunWV.com regarding the results of the race, the County Board admits this request.

**REQUEST NO. 9:** Admit that you have not received any complaints associated with Plaintiff B.P.J.'s membership on Bridgeport Middle School's girls' cross country team.

**RESPONSE:** Admitted.

**REQUEST NO. 10:** Admit that no middle school girl was harmed as a result of B.P.J.'s participation on Bridgeport Middle School's girls' cross country team in 2021.

**RESPONSE:** **OBJECTION.** The County Board objects to this request because it is vague. The County Board does not know what Plaintiff means by the term "harmed." Subject to and without waiving the objection, the County Board admits that no student was cut from the Bridgeport Middle School's girls' cross country team in 2021. The County Board otherwise denies this request because it is unclear what Plaintiff is asking.

**REQUEST NO. 11:** Admit that no middle school girl was injured as a result of Plaintiff B.P.J.'s participation on Bridgeport Middle School's girls' cross country team in 2021.

**RESPONSE:** **OBJECTION.** The County Board objects to this request because it is vague. The County Board does not know what Plaintiff means by the term "injured." Subject to and without waiving the objection, the County Board admits that no student was cut from the Bridgeport Middle School's girls' cross country team in 2021. The County Board otherwise denies this request because it is unclear what Plaintiff is asking.

**REQUEST NO. 12:** Admit that no Bridgeport Middle School girl student was prohibited from joining Bridgeport Middle School's girls' cross-country team in 2021.

**RESPONSE:** Admitted.

**REQUEST NO. 13:** Admit that Bridgeport Middle School's girls' cross-country team did not turn anyone away from participating due to lack of space on the roster in 2021.

**RESPONSE:** Admitted.

**REQUEST NO. 14:** Admit that Plaintiff B.P.J. does not have an unfair athletic advantage over other girls participating on the Bridgeport Middle School girls' cross-country team.

**RESPONSE:** Even with a reasonable inquiry, the County Board cannot admit or deny this request because the information it knows or can readily obtain is insufficient to enable the County Board to admit or deny the request.

**REQUEST NO. 15:** Admit that Plaintiff B.P.J. does not have an unfair athletic advantage over girls competing against the Bridgeport Middle School girls' cross-country team.

**RESPONSE:** Even with a reasonable inquiry, the County Board cannot admit or deny this request because the information it knows or can readily obtain is insufficient to enable the County Board to admit or deny the request.

**REQUEST NO. 16:** Admit that cross country is a sport that requires "competitive skill" as that phrase is used in H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(2)).

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board cannot admit or deny this request because "competitive skill" is not defined in H.B. 3293.

**REQUEST NO. 17:** Admit that cross country is a sport that requires “competitive skill” as that phrase is used in 34 C.F.R.§106.41(b).

**RESPONSE:**            **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board cannot admit or deny this request because “competitive skill” is not defined in 34 C.F.R.§106.41(b).

**REQUEST NO. 18:** Admit that cross country is not a “contact sport” as that phrase is used in H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(2)).

**RESPONSE:**            **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board cannot admit or deny this request because “contact sport” is not defined in H.B. 3293.

**REQUEST NO. 19:** Admit that cross country is not a “contact sport” as that phrase is used in 34 C.F.R.§106.41(b).

**RESPONSE:**            **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board admits that “cross country” is not specifically identified as a “contact sport” in 34 C.F.R.§106.41(b).

**REQUEST NO. 20:** Admit that, but for the injunction issued in this case (Dkt. 67), Plaintiff B.P.J. would not have been permitted to be a member of Bridgeport Middle

School's girls' cross-country team in 2021 because of H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(2)).

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because, as it is currently drafted, H.B. Bill 3293 (codified at West Virginia Code § 18- 2-25d) applies to public secondary schools and states that “[a]thletic teams or sports designated for females, women, or girls shall not be open to students of the male sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport[,]” because of the definitions set forth in H.B. 3293, and absent the injunction issues in this case, the County Board admits this request.

**REQUEST NO. 21:** Admit that, but for the injunction issued in this case (Dkt. 67), Plaintiff B.P.J. would not be permitted to be a member of any girls' athletic team offered at Bridgeport Middle School because of H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(2)).

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because, as it is currently drafted, H.B. Bill 3293 (codified at West Virginia Code § 18- 2-25d) applies to public secondary schools and states that “[a]thletic teams or sports designated for females, women, or girls shall not be open to students of the male sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport[,]” because of the definitions set forth in H.B. 3293, and absent the injunction issued in this case, the County Board admits this request.

**REQUEST NO. 22:** Admit that H.B. 3293 prohibits Plaintiff B.P.J. from participating on girls' athletic teams at all public secondary schools located in West Virginia.

**RESPONSE:**           **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because, as it is currently drafted, H.B. Bill 3293 (codified at West Virginia Code § 18- 2-25d) applies to public secondary schools and states that “[a]thletic teams or sports designated for females, women, or girls shall not be open to students of the male sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport[,]” because of the definitions set forth in H.B. 3293, and absent the injunction issued in this case, the County Board admits this request.

**REQUEST NO. 23:** Admit that the State Board of Education and the State Superintendent must comply with H.B. 3293 unless enjoined from doing so by a court.

**RESPONSE:**           **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board is not in a position to admit or deny this request because it concerns the State Board of Education and State Superintendent's obligations under H.B. 3293.

**REQUEST NO. 24:** Admit that H.B. 3293 prohibits the State Board of Education and the State Superintendent from adopting or enforcing a policy that would allow B.P.J. to participate on girls' athletic teams at Bridgeport Middle School.

**RESPONSE:**           **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board is not in a position to admit or deny this request because it concerns the State Board of Education and State Superintendent's obligations under H.B. 3293.

**REQUEST NO. 25:** Admit that the Harrison County Board of Education and the Harrison County School Superintendent must comply with H.B. 3293 unless enjoined from doing so by a court.

**RESPONSE:**           **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because H.B. 3293 is a West Virginia State law that applies to County Boards of Education, including the County Board and its County Superintendent, because H.B. 3293 provides for private causes of action, and thus imposes liability against County Boards of Education, like the County Board, and while the County Board and its County Superintendent did not devise and have not adopted H.B. Bill 3293 as their own policy, the County Board admits this request because, absent an injunction by a court, the County Board would be compelled and required to enforce H.B. Bill 3293 because it is a mandatory State law that affords the County Board no discretion.

**REQUEST NO. 26:** Admit that H.B. 3293 prohibits the Harrison County Board of Education and the Harrison County Superintendent from adopting or enforcing a policy that would allow B.P.J. to participate on girls' athletic teams at Bridgeport Middle School.

**RESPONSE:**           **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because H.B. 3293 is a West Virginia State law that applies to County Boards of Education, including the County Board and its County Superintendent, because H.B. 3293 provides for private causes of action, and thus imposes liability against County Boards of Education, like the County Board, and while the County Board and its County Superintendent did not devise and have not adopted H.B. Bill 3293 as their own policy, the County Board admits this

request because, absent an injunction by a court, the County Board would be compelled and required to enforce H.B. Bill 3293 because it is a mandatory State law that affords the County Board no discretion.

**REQUEST NO. 27:** Admit that the West Virginia Secondary School Athletic Commission must comply with H.B. 3293 unless enjoined from doing so by a court.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board is not in a position to admit or deny this request because it concerns the West Virginia Secondary School Athletic Commission’s obligations under H.B. 3293.

**REQUEST NO. 28:** Admit that H.B. 3293 prohibits the West Virginia Secondary School Athletic Commission from adopting or enforcing a policy that would allow B.P.J. to participate on girls’ athletic teams at Bridgeport Middle School

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board is not in a position to admit or deny this request because it concerns the West Virginia Secondary School Athletic Commission’s obligations under H.B. 3293.

**REQUEST NO. 29:** Admit that there are no athletic teams designated as “coed or mixed,” as that phrase is used in H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(1)(C)), offered at Bridgeport Middle School.

**RESPONSE:** Denied.

**REQUEST NO. 30:** Admit that there are no athletic teams designated as “coed or mixed,” as that phrase is used in H.B. 3293 (codified at Code of West Virginia §18-2-

25d(c)(1)(C)), that compete interscholastically offered at any public secondary school located in West Virginia.

**RESPONSE:** Denied.

**REQUEST NO. 31:** Admit that there are no cross-country teams designated as “coed or mixed,” as that phrase is used in H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(1)(C)), that compete interscholastically offered by any member school of the West Virginia Secondary School Activities Commission.

**RESPONSE:** **OBJECTION.** The County Board objects to the scope of this request. Subject to and without waiving the objection, the County Board can only answer on behalf of schools in Harrison County, and admits that there are no “co-ed or mixed” cross country teams in Harrison County.

**REQUEST NO. 32:** Admit that there are no athletic leagues designated as “coed or mixed,” as that phrase is used in H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(1)(C)), that comprise teams from more than one school supervised by the West Virginia Secondary School Activities Commission.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, and even with a reasonable inquiry, the County Board cannot admit or deny this request because the information it knows or can readily obtain is insufficient to enable the County Board to admit or deny the request.

**REQUEST NO. 33:** Admit that there are no athletic teams designated as “coed or mixed,” as that phrase is used in H.B. 3293 (codified at Code of West Virginia §18-2-

25d(c)(1)(C)),” that compete interscholastically offered by any public secondary school under the supervision of the West Virginia State Board of Education.

**RESPONSE:**            **OBJECTION.** The County Board objects to this request because it is vague. Subject to and without waiving the objection, the County Board denies the request because there are “co-ed” teams in Harrison County, but the County Board cannot admit or deny the rest of the request based on how it is phrased.

**REQUEST NO. 34:** Admit that H.B. 3293 does not prohibit a cisgender girl student at Bridgeport Middle School from joining a girls’ athletic team offered at Bridgeport Middle School.

**RESPONSE:**            **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, and based on the language used in H.B. 3293, the County Board admits this request.

**REQUEST NO. 35:** Admit that H.B. 3293 does not prohibit a cisgender girl student at any public secondary school in West Virginia from joining a girls’ athletic team offered by her public secondary school.

**RESPONSE:**            **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, and based on the language used in H.B. 3293, the County Board admits this request.

**REQUEST NO. 36:** Admit that H.B. 3293 prohibits a Bridgeport Middle School transgender girl student from joining a girls’ athletic team offered at Bridgeport Middle School.

**RESPONSE:**            **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County

Board states as follows: Because, as it is currently drafted, H.B. Bill 3293 (codified at West Virginia Code § 18- 2-25d) applies to public secondary schools and states that “[a]thletic teams or sports designated for females, women, or girls shall not be open to students of the male sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport[,]” because of the definitions set forth in H.B. 3293, and absent the injunction issued in this case, the County Board admits this request.

**REQUEST NO. 37:** Admit that H.B. 3293 prohibits any transgender girl secondary school student located in West Virginia from joining a girls’ athletic team offered by her public secondary school.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because, as it is currently drafted, H.B. Bill 3293 (codified at West Virginia Code § 18- 2-25d) applies to public secondary schools and states that “[a]thletic teams or sports designated for females, women, or girls shall not be open to students of the male sex where selection for such teams is based upon competitive skill or the activity involved is a contact sport[,]” because of the definitions set forth in H.B. 3293, and absent the injunction issued in this case, the County Board admits this request.

**REQUEST NO. 38:** Admit that prior to the enactment of H.B. 3293, cisgender boy students at Bridgeport Middle School were prohibited from joining girls’ athletic teams offered at Bridgeport Middle School.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County

Board admits that there is a West Virginia Secondary School Activities Commission rule that may apply to this situation.

**REQUEST NO. 39:** Admit that prior to the enactment of H.B. 3293, a cisgender boy student at any public secondary school in West Virginia was prohibited from joining girls' athletic teams offered at his public secondary school.

**RESPONSE:**           **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board admits that there is a West Virginia Secondary School Activities Commission rule that may apply to this situation.

**REQUEST NO. 40:** Admit that prior to the enactment of H.B. 3293, you are not aware of any transgender student athlete participating on an athletic team offered by Bridgeport Middle School.

**RESPONSE:**           Admitted.

**REQUEST NO. 41:** Admit that prior to the enactment of H.B. 3293, you are not aware of any transgender student athlete participating on an athletic team offered by a public secondary school in West Virginia.

**RESPONSE:**           Admitted.

**REQUEST NO. 42:** Admit that other than Plaintiff B.P.J., you are not aware of a transgender student athlete participating on an athletic team offered by Bridgeport Middle School.

**RESPONSE:**           Admitted.

**REQUEST NO. 43:** Admit that other than Plaintiff B.P.J., you are not aware of a transgender student athlete participating on an athletic team offered by a public secondary school in West Virginia.

**RESPONSE:** Admitted.

**REQUEST NO. 44:** Admit that students derive social benefits from participation on athletic teams offered by public secondary schools in West Virginia.

**RESPONSE:** Admitted.

**REQUEST NO. 45:** Admit that students derive psychological benefits from participation on athletic teams offered by public secondary schools in West Virginia.

**RESPONSE:** Admitted.

**REQUEST NO. 46:** Admit that interscholastic athletic competition benefits middle school students.

**RESPONSE:** Admitted.

**REQUEST NO. 47:** Admit that middle school students who participate in interscholastic athletics receive benefits regardless whether they win or lose.

**RESPONSE:** Admitted.

**REQUEST NO. 48:** Admit that but for the injunction issued in this case, the Harrison County School Board and schools within the Harrison County School District would comply with H.B. 3293.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County

Board states as follows: Because H.B. 3293 is a West Virginia State law that applies to County Boards of Education, including the County Board and its County Superintendent, because H.B. 3293 provides for private causes of action, and thus imposes liability against County Boards of Education, like the County Board, and while the County Board and its County Superintendent did not devise and have not adopted H.B. Bill 3293 as their own policy, the County Board admits this request because, absent an injunction by a court, the County Board would be compelled and required to enforce H.B. Bill 3293 because it is a mandatory State law that affords the County Board no discretion.

**REQUEST NO. 49:** Admit that but for the injunction in this case (Dkt. 67) the Harrison County School Board and schools within the Harrison County School District would not take any actions that violated H.B. 3293.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because H.B. 3293 is a West Virginia State law that applies to County Boards of Education, including the County Board and its County Superintendent, because H.B. 3293 provides for private causes of action, and thus imposes liability against County Boards of Education, like the County Board, and while the County Board and its County Superintendent did not devise and have not adopted H.B. Bill 3293 as their own policy, the County Board admits this request because, absent an injunction by a court, the County Board would be compelled and required to enforce H.B. Bill 3293 because it is a mandatory State law that affords the County Board no discretion.

**REQUEST NO. 50:** Admit that, but for the injunction in this case (Dkt. 67), the Harrison County School Board and Bridgeport Middle School would not have permitted Plaintiff

B.P.J. to try out for the Bridgeport Middle School's girls' cross-country team in 2021 because of H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(2)).

**RESPONSE:**      **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because H.B. 3293 is a West Virginia State law that applies to County Boards of Education, including the County Board and its County Superintendent, because H.B. 3293 provides for private causes of action, and thus imposes liability against County Boards of Education, like the County Board, and while the County Board and its County Superintendent did not devise and have not adopted H.B. Bill 3293 as their own policy, the County Board admits this request because, absent an injunction by a court, the County Board would be compelled and required to enforce H.B. Bill 3293 because it is a mandatory State law that affords the County Board no discretion.

**REQUEST NO. 51:** Admit that, but for the injunction in this case (Dkt. 67), the Harrison County School Board and Bridgeport Middle School would not have allowed Plaintiff B.P.J. to participate on the Bridgeport Middle School's girls' cross-country team in 2021 because of H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(2)).

**RESPONSE:**      **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because H.B. 3293 is a West Virginia State law that applies to County Boards of Education, including the County Board and its County Superintendent, because H.B. 3293 provides for private causes of action, and thus imposes liability against County Boards of Education, like the County Board, and while the County Board and its County Superintendent did not devise and have not adopted H.B. Bill 3293 as their own policy, the County Board admits this

request because, absent an injunction by a court, the County Board would be compelled and required to enforce H.B. Bill 3293 because it is a mandatory State law that affords the County Board no discretion.

**REQUEST NO. 52:** Admit that, but for the injunction in this case (Dkt. 67), the Harrison County School Board and Bridgeport Middle School would not permit Plaintiff B.P.J. to try out for any girls' athletic team offered at Bridgeport Middle School because of H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(2)).

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board states as follows: Because H.B. 3293 is a West Virginia State law that applies to County Boards of Education, including the County Board and its County Superintendent, because H.B. 3293 provides for private causes of action, and thus imposes liability against County Boards of Education, like the County Board, and while the County Board and its County Superintendent did not devise and have not adopted H.B. Bill 3293 as their own policy, the County Board admits this request because, absent an injunction by a court, the County Board would be compelled and required to enforce H.B. Bill 3293 because it is a mandatory State law that affords the County Board no discretion.

**REQUEST NO. 53:** Admit that, but for the injunction issued in this case (Dkt. 67), the Harrison County School Board and Bridgeport Middle School would not permit Plaintiff B.P.J. to be a member of any girls' athletic team offered at Bridgeport Middle School because of H.B. 3293 (codified at Code of West Virginia §18-2-25d(c)(2)).

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County

Board states as follows: Because H.B. 3293 is a West Virginia State law that applies to County Boards of Education, including the County Board and its County Superintendent, because H.B. 3293 provides for private causes of action, and thus imposes liability against County Boards of Education, like the County Board, and while the County Board and its County Superintendent did not devise and have not adopted H.B. Bill 3293 as their own policy, the County Board admits this request because, absent an injunction by a court, the County Board would be compelled and required to enforce H.B. Bill 3293 because it is a mandatory State law that affords the County Board no discretion.

**REQUEST NO. 54:** Admit that Plaintiff B.P.J.’s gender is identified as “male” in the West Virginia Education Information System (“WVEIS”).

**RESPONSE:** Admitted.

**REQUEST NO. 55:** Admit that you have the ability to change Plaintiff B.P.J.’s gender in WVEIS to “female.”

**RESPONSE:** **OBJECTION.** The County Board objects to the request because it seeks information that is not relevant to any party’s claim or defense and is not proportional to the needs of the case. Subject to and without waiving the objection, the County Board admits that it has the ability to change data in WVEIS.

**REQUEST NO. 56:** Admit that H.B. 3293 allows a student to bring an action against you for alleged violations of H.B. 3293.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board admits this request.

**REQUEST NO. 57:** Admit that you are required to regulate athletic activities offered by public secondary schools in Harrison County. See Code of West Virginia §18-2-25.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board admits that the provisions of West Virginia Code §18-2-25 require it to regulate athletic activities of public secondary schools in Harrison County.

**REQUEST NO. 58:** Admit that you are required to control interscholastic athletic events in which Bridgeport Middle School participates. See Code of West Virginia §18-2-25.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board admits that the provisions of West Virginia Code §18-2-25 require it to control athletic activities of public secondary schools in Harrison County.

**REQUEST NO. 59:** Admit that you are required supervise interscholastic athletic events in which Bridgeport Middle School participates. See Code of West Virginia §18-2-25.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board admits that the provisions of West Virginia Code §18-2-25 require it to supervise athletic activities of public secondary schools in Harrison County.

**REQUEST NO. 60:** Admit that you are required regulate interscholastic athletic events in which Bridgeport Middle School participates. See Code of West Virginia §18-2-25.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County

Board admits that the provisions of West Virginia Code §18-2-25 require it to regulate athletic events in which Bridgeport Middle School participates.

**REQUEST NO. 61:** Admit that Bridgeport Middle School is a member school of the West Virginia Secondary School Activities Commission.

**RESPONSE:** Admitted.

**REQUEST NO. 62:** Admit that you have delegated control over interscholastic athletic events in Harrison County to the West Virginia Secondary School Activities Commission.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board admits that it has delegated some, but not all, control over interscholastic athletic events in Harrison County to the West Virginia Secondary School Activities Commission.

**REQUEST NO. 63:** Admit that you have delegated supervision over interscholastic athletic events to the West Virginia Secondary School Activities Commission.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board admits that it has delegated some, but not all, supervision over interscholastic athletic events to the West Virginia Secondary School Activities Commission.

**REQUEST NO. 64:** Admit that you have delegated regulation of interscholastic athletic events to the West Virginia Secondary School Activities Commission.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County

Board admits that it has delegated some, but not all, regulation of interscholastic athletic events to the West Virginia Secondary School Activities Commission.

**REQUEST NO. 65:** Admit that the State Board of Education controls you. See Code of West Virginia §18-2-5.

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board denies this request because West Virginia Code §18-2-5 states that “the State Board of Education shall exercise general supervision of the public schools of the state, and shall promulgate rules[.]”

**REQUEST NO. 66:** Admit that you receive federal financial assistance.

**RESPONSE:** Admitted.

**REQUEST NO. 67:** Admit that you must comply with Title IX of the Education Amendments of 1972, 20 U.S.C. §1681 *et seq.*

**RESPONSE:** **OBJECTION.** The County Board objects to the extent this request is seeking a legal conclusion. Subject to and without waiving the objection, the County Board admits this request.

Dated this the 10<sup>th</sup> day of March, 2022.

Sorry I didn't do this last night. I have been super tired lately. By the time we finished dinner and got everyone in bed, I was passing out.

I am working on something for next week. :-D I will try to work on sending you a couple weekend homework assignments too.

██████ is going to be one of the fastest boys that Bridgeport has ever seen. He is the fastest middle school boy I have seen so far and he is just a joy!

Also, I want to partner some of these kids up. ██████ and ██████ need to train together.

[EXTERNAL SENDER]: Do not click links, open attachments or reply to this email unless you recognize the sender and know the content is safe.

I attached the Varsity sheet and also a sheet based on finish order.

The race results are searchable and they also have finish line photos that are free to download here: [APTtiming](#)
